prepare song

Bow and Pledge #3 and 4

opening prayer of gratitude
Most Honorable Beloved Heavenly Parent

Beloved True Parents of HEH

TY for permitting this precious time of Cheon Shim Won, here where Father Works for members to love each other and become one are being fulfilled. Heavenly Parent Who is more pitiful than the most pitiful person in the world, Who possesses unspeakable twists and turns and deep sorrow, Heavenly Parent Who possesses the wounds of Heart torn into shreds, Heavenly Parent Who cannot call Your s and d, Your s and d, even though they are Yours. Heavenly Parent Who Embraces the children of sin while calling them, 'My children.'

Heavenly Parent Who after knowing such miserable Heart, never letting go of the rudder of Providence for even a single moment crossed over and over boundaries punctuated with Tears and Blood. True Mother Who even at this moment swallows painful Tears alone, while embracing lacking children for the sake of Heavenly Parent. We must no longer allow Mother to remain as the most pitiful Mother in the world. We all must mobilize AGS world to liberate Mother as soon as possible.

Heavenly Parent Who governs the entire cosmos. You said that, if we resonate with True Parents's Heart and pray with tears, SW will be fully mobilized. At this time, if we resonate with True Father's Heart and pray with tears for the sake of Mother, we believe our F's powerful Work will arise at this very time. We will pray for True Mother here at Cheon Shim Won with a life or death determination.

So, please open the door of truth before the world, so that True Parents's amazing value and Holy Works are revealed to the entire world. Please work so that courageous, righteous people who testify to True Parents rise up like a swarm of bees from all walks of life, please work to establish the condition of devotion where Heavenly Parent directly intervenes.

Please make this time a time of cheonshim resonance when we shed tears with You, where even satanic spirits would be moved and inspired. We earnestly hope and desire that today's devotion is profoundly offered for the safety and health and rapid release of HMM, True Mother

CHANYANG

Testimony

Yeongseong Workshop trainee

Shintari Mori

in Japanese

Although I am lacking, I am sincerely grateful that I might return the grace given to me.

The eldest son, 40 million couples, previously married couples.

Until coming here I was ministering in the Japanese Church but dissolution made my dismissal, with many difficulties following, and I had conflict whether to continue public office... Seeking counsel, I was advised to attend this Workshop and I had conflict with that at first, but the Bible verse, 'Seek ye first the (Heaven realm) and its righteousness' touched my heart.

The thought came that now, when words regarding the future were great, it is precisely the time I must first establish my right relationship with Heavenly Parent. In that way I decided to participate.

To tell the truth, inside me there was my faith and conviction with True Parents conflicting with the reality I faced in the field, more difficulty every day, with an affinity to theology and the Christian faith for going a path of that ministry. However, there was my Blessing partner who held onto me with her firm faith and I saw how she entered the Cheon Shim Won devotion so earnestly, and I could not betray that and entered into it together with her.

The spirituality Workshop gave me two experiences, one was the relationship with my Blessing partner and the coordinator said Heavenly Parent and spirituality resided inside the couple, so for the remaining

period, please attend your couple partner even more.

I thought in the beginning that I should serve a more vertical faith, but by attending my partner, my own immaturity was revealed, while trying to love her, I was confronted with that kind of myself, but we were able to share the substantial creation and for going the tribal messiah course.

Second, I came to find conviction regarding True Parents again with a great change in my heart with the lecture, 'Why True Parents are the Messiah' and because one must not believe in True Parents's victory, but you must gain to know what True Parents's gained victory over. This touched my chest.

Looking back, I thought I knew about True Parents because I studied Principle and Restoration history, but I did not know what True Parents had gained victory over and for... It was precisely the Blessing of our marriage (engraftment).

Humanity's most fundamental problem is the problem of love. True Parents's save humanity from the fall and sex with showing an ideal Couple and with the Blessing foundation.

Looking at my partner always by my side, I realized I am already living inside the grace of True Parents's Victory, not only feeling the Value with my head, and the path to testify to this victory is precisely for our family to show the example of attending Heavenly Parent.

Along with this, I felt I could understand a little how True Mother looks at the 2nd gen with hope, convinced of the future, precisely because the victory is our Blessed couples.

True Parents's Victory is not a simple theory or ideology but a substantial reality of Blessed family and children, True Mother looking at hope for the future through us.

I came to be convinced that True Parents's save humanity through the Blessing and it becomes my standard that will not shake moving forward and that True Parents are my Messiah.

Now, living a life of True Parents's Victory, I want to testify to the world of it through my Blessed family and that this is precisely the reason Heavenly Parent called me to this Place.

Now nearing completion, I have been praying regarding my future path with the resolution to continue to be a public official for a church Mother could visit any time and establish my mission of Spirit and Truth and nurture the next generation.

Lastly, sincere gratitude to my pastor and the women's department director and members and staff in the Workshop period and to Heavenly Parent and True Parents of HEH Who called me to this and were together with me until the very end. I love you!

My home town where someone waits for me with longing

Whether it snows or rains, there's a place that always comes to mind

I was afraid to go back, and I tried to pretend that I didn't hear it calling me... I gather my courage to face it...

Testimony

Sukita Fukimari

gratitude

youngest son of 3 sons and 1 daughter and the husband of my wife

Living in Korea with my two children...

Dream of becoming a public official, both of us graduated UPA and presently candidate of Top Gun Missionaries talent group and receiving an association appointment and our 2nd child was born, but there was not sound of crying and the nurse said the baby had to go immediately to the incubator and was transferred in a large ambulance and released but hospitalized again with the breathing problem... Tests showed nothing abnormal but through a genetic test there was a rare disease called red syndrome that affects only one in ten thousand girls and with a boy it was more rare... usually caught through miscarriage, and it was the same as being born miraculously.

My wife collapsed thinking there would be no way to save the child, asking Heaven why such a thing came to our family. But Cheon Shim Won devotion was the hope that came to me...

Because the function of the automatic nervous system does not work well, the baby had to wear an apparatus and a hole made and he suffered as if falling into water... but at the time I didn't think of going to Workshop but that the solution was in living a public life... My wife, watching the baby from the closest distance, not sleeping and enduring the pain of the child and no choice but to halt her public life. I experienced helplessness of not being able to do anything.

It was the pain of both our families who lived a life of faith and raised us up, but I came to enter the Workshop under Heaven's guidance and my wife entered the Magnolia 40-day Workshop.

I heard the voice of Heaven, 'I am sorry, but I had no choice but to do this.' I thought of Heavenly Parent having to send True Mother for the sake of an offering for the greater will. Even True Mother is walking the DC Course, I repented for my past when I could not properly offer devotion at Cheon Shim Won, but my wife and I resolved to receive direct direction from True Father and be completely reborn, entering a position that surpasses boundaries and devotion conditions on that standard.

A 3-day fast and 1,000 bows and calling out prayer for 7 days and determined prayer for more than 1 hour prayer... Sever muscle pain came and my entire body lacked strength from fasting, and I thought I could not but I heard, 'As you bow, thinking it is restoring one child' and with that mind, I could do the 1,000 bows.

In the beginning I was offering for my own child, but Heaven always guided me to offer for the sake of the greater Will. And we received advice and support and all trainees shouted out his name 1,000 times until they were hoarse and then there were multiple testimonies of healing and spiritual experiences, with Heaven saying, 'You coming here is for the sake of a greater Will, so leave the child over to Heaven and pray for Mother's Will.

Regarding what kind of purpose I should offer, 'Offer for the overall victory of the Cheon Shim Won Workshop and for future generation to become one with True Mother's Will and for the sake of the overall victory and I began to offer calling out for each trainee one by one, and I came to realize that True Mother is walking such a Course to find and establish the 2nd and 3rd generation.

True Mother facing the reality where we could not fully offer and they drifted away, and I came to offer prayers really with tears (and he turns away with tears) out a deeply apologetic heart and day by day with my wife, embracing other future generation children as well, and we were able to become more one. In that way the last of the Workshop days, our baby lacked strength but became crying just like a newborn baby naturally and he began to use a pacifier.

The most amazing was his sleep apnea was supposed to be for the rest of his life on a ventilator apparatus, but he was able to remove it... Heaven definitely works when we go beyond our own circumstances to think of Heaven.

I was guided to the way of becoming one with True Mother's Heart, never giving up, and all of this realization and grace exists in the Cheon Shim Won Devotion, in a new era of directly attending Heavenly Parent and True Parents and I am convinced the entire key is within the Cheon Shim Won, and True Mother moves forward from the most difficult position to find Her children.

If we always think of the Course True Mother has Walked with practice of sincerity moving Heaven, we will find a path for both our children and public office. I will become a Blessed family that can connect even one more child and offer victory.

Gratitude sincerely to Heavenly Parent and True Parents and all staff and trainees for their devotion and who sent me to the Workshop despite their busy schedules and our loving families to the very end.

(cannot read the screen well)

HJ Report

True Parents's Word

It was said that the life of the high noon settlement does not cast shadows... If all of us become luminous from giving life, there is no room for a shadow to occur. The one who receives is the one who incurs a debt. May all of you move forward to be the luminous body that gives true love, wiping away the tears of the pitiful and poor, and repay that Light now.

As human beings who put on the substantial reality of Heavenly Parent and True Parents, you must move forward before Them when you come to be reborn, knowing the Existence of Heavenly Parent and Heavenly Parent's Dream, believing in, attending and following, so that decision is the true children recognized before God.

In going to Heaven, one gathers the entirety of love, centering on Heavenly Parent and the life of the family giving life to the world, one must become one centering on Heavenly Parent, that manner

revolving around Heavenly Parent as a priority, following the path of a filial child, a loyal subject, a saint and passing through the path of sons and daughters, going to the position of Heavenly Parent's Love and settling down.

This is the greatest path of completion of human being and everything entirely vigilant, right there.

This report on the 9 churches I toured recently.

Tego CheonBo District churches

Most churches were preparing for the event with devotion conditions... but some not able to... but overall it was great... and at the holy ground events, where Father came and was going down from North to South... The minister said it would be good to go there to offer prayer... such a time of Father's difficulty.

The wife... testimony 'I can never forget in my lifetime. I had the dream before the Workshop, a voice, 'The tour is coming, right? Know that I am going together with them. (And Father swept through my organs and as if they were thrown down outside and put back inside me, and there was so much pain, but after a while all the pain that had been there before vanished.' To look at this you don't know if it was reality or real, but it was so realistically painful to her. The moment I met her, she gave me this message, this reflection... True Father removed all of her organs and cleansed them and put them back into them. And I think our Saomo nim will live for over a hundred years.

The Pastor's reflection: About 20 years ago my father's friend passed away, and my father was hit by dark spirits and my father shed blood and could not eat for days, and my mother spent a large amount of money for a Shaman, and I thought that if the Unification Church minister could not make the situation resolved, I would have to fall my ministry. I inquired at Chung Pyung and offered earnest devotion and the problem was solved in just 4 days and is still healthy as 84... Because Cheon Shim Won is joined by so many AGSs, I was able to have this experience and testimony for our church.

All members did a 40-day devotion to understand Providence and make our hearts new. Many difficult times were in this 40-day period, but one day before there was sounds in my dream of babies and my body and spirit bright and bright spirit of the church, and gratitude for all the grace in the revival meeting.

This pastor is the spiritual son of Pres. Lee Gi-seong and he was so proud of that fact, and he also offered some dried leave of persimmon to PL. I was jealous of his being PL's spiritual son, and reminded of the importance of witnessing.

Cheon Shim Won was a special gift and I received that this meeting is not to be taken for granted how we are living in the bosom of Heavenly Parent. My husband who used to be negative tells me to go and do devotion.

Currently last week this Seongsong Church the Pastor made relations with many in the local community, so also it has a lot of history. In 1956 there was the Holiness Church receiving the revelation and that pastor participated in the 40-day Workshop and afterward they got rid of the Holiness Banner and made it 'Unification Church' and just like the other church it was such profound and first self-generated church. There was no support but the first self-sustaining church. the First Unification Church in CheonBok, half are from Yeongnam and half of those from Sunseong... and they passed as top graduates... Park Jun Hee was born at that time that came from Sunseong and I came to know the history.

In 1956 the senior minister and his mother received a revelation and went to the first Workshop of the FF and after returning from the Principle lectures, they became comfortable with the Unification Church, and gathering the opinion of the members they changed the sign, but it was a problem for the Holinees HQ and the minister received a reprimand.

The youth became the leader 17-years old later was Blessed and his child also was pastor, and there are a lot of our elders who came from here and one of them is the mother of Pastor Ogano from this church. From the early days, we grew together because of this kind of spiritual phenomena.

reflection: The itinerant gave ansu to me and my sick son and it was so warm as if True Parents were Personally giving it. When I had the consultation about my son, he said he listens to other people, but then realized my son really understand well when I talk to him, whether it is spiritual, but from the time of the ansu on, I'm so grateful to realize this...

This sister has a son 38 years old with intellect of a 2-year old, but I was surprised to see her face very bright, after having this child and raising him, I could feel that she is the one who volunteers a lot in the church and is an active missionary who does farming.

another missionary: This is a time I could welcome, and the entire missionaries offered the name calling and we would never give up until restoration happened. In the field there were a lot of distant and dormant members... and we saw the desperate heart of prayers for them with hope and faith of their return

I dreamt the my father and mother who ascended earlier said for me to where a clothing adorned with several treasures and wearing it was a joy difficult to express in words, and I could know that the CheonBo clothing that we have is precious and with a grateful heart feeling the great Love of Heavenly Parent and True Parents.

Whenever wearing this garment, it is considered the highest and we should really take care of it. And offering the 3-day resonance Workshop and wearing this garment, we can have this kind of experience of the high garment and realm of experience of wearing it.

The Lord come to find the Bride, not of the fallen world but consisting of pure lineage. Of what foundation would that Bride be Born? It is of an Abel foundation of the fallen world. We must understand the Essence and Value of True Mother connected to our Roots, so we should know the Essence and Value of True Mother connected to True Parents's Value and Heavenly Parent's Value. We must stay aware of this Value.

Throughout 6,000 years of Christian history, there was the Providence of Salvation and now is announced after declaration of the Cheon Il Guk Era, so if we do not meet True Parents's how to be revived and reborn. The reason we can go together with True Parents's is for our rebirth revival in the Era After the Coming of Heaven according to the ten victories and #13 Heaven and earth become one and God's Throne the Center of Heaven and Earth' True Love, True Life and True Lineage where we welcome the Era that has great victory, where we proclaim the unified era of love and proclaim that Home Land by True Parents proclaiming the Era of Heaven.

From Her Birth until the Holy Wedding, True Parents established the Son and Daughter in the Position of the Axis of the Completion of Providence, protecting the OBD's Growth Period until True Mother met the 2nd Coming Messiah, True Father and made the determination by Herself to hold the Holy Wedding.

Therefore, we could see the Mission of True Parents unfold after that. Previously we understood God's

Providence only by the 2nd Son Jesus and the 2nd Coming Messiah. We didn't really understand the Essence and the Value of True Mother, but when we see True Mother's Value from Heavenly Parent's Point of View, we come to know definitely the fact that the Central Axis of the Completion of the Providence is the First-Coming OBD.

She is the highest Wisdom of Living the Cheon Il Guk Era, so that every one of us must understand the Words and the Providence from the Perspective that the OBD, True Mother is the Central Axis of the Completion of the Providence.

This why True Mother Spoke of the 53 years of time from the Holy Wedding in 1960 to Foundation Day of Cheon Il Guk proclaimed in 2013, as the wilderness course era, and the era after that is the Era of Cheon Il Guk, and the Completion of the Providence of True Mother, Who creates a new era, a new Providence and a new culture.

While the OBD, True Mother puts on a Physical Body and is on this earth, is the only era in which Heavenly Parent can Directly Work upon the earth. Therefore, this is the Golden Age we are already living in. This is the Era of the Settlement of Cheon Il Guk, centered on True Mother.

Ultimately, True Mother covered the status of True Mother and came to establish God as Heavenly Parent and showed us and revealed everything to us. The True Love of True Mother is continuously leading the Providence to realize the Ideal of One Family under Heavenly Parent. She has continued until now, and She will continue in the future.

So, Holy Mother Han is a Manifestation of True Mother (Heavenly Parent Mother), the Substantial Heavenly Mother, Manifested Substantially through HMM. The OBD became the Substantial H Mother, that is HMM applause of gratitude (and awe)

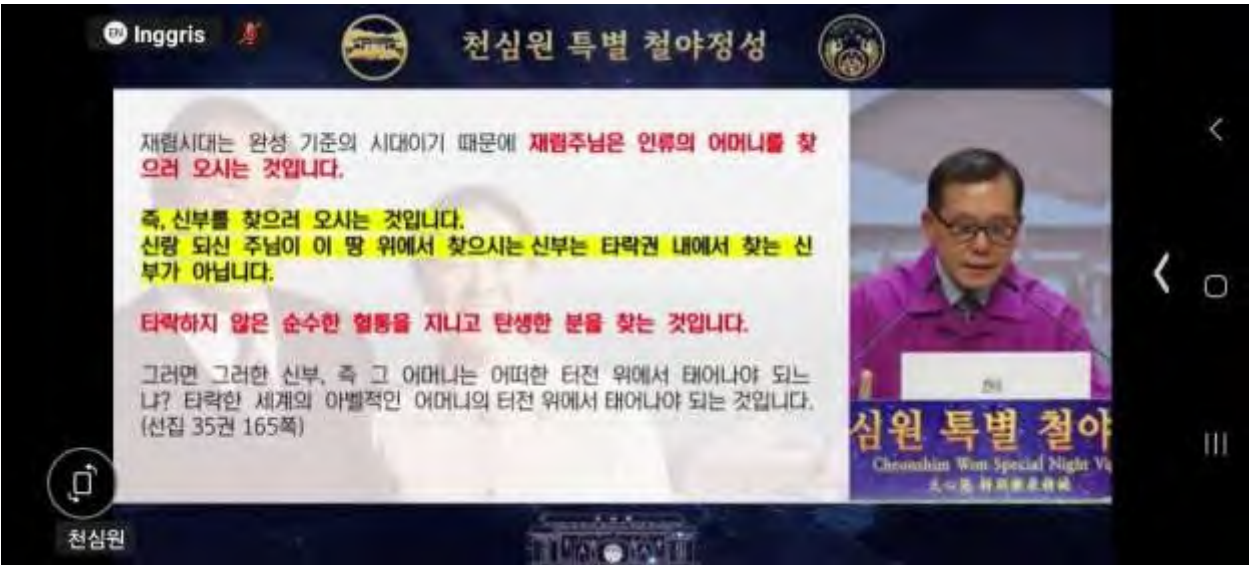

So, we know that the Entrance Ceremony is the cosmic history event that completes Heaven's Providence, and humanity's history's love, and using this as a starting point, where we live the beginning point of Heavenly life, substantially attending Heavenly Parent.

The 3 Great Blessing were bestowed on the human ancestors Adam and Eve. By them not living true life, true love and true lineage after the fall, Heavenly Parent came to the Position where Heavenly Parent lost

everything. Therefore, there was the long years of the Providence of Restoration through Indemnity, a Providential history which is God's Providence of Salvation.

So, the final moment of victory is when Heavenly Parent completely puts on the Human Frame, through HMM True Mother and governs everything and Rules, and was welcomed into the Cheonwon Gung Cheonil Sanctum. This is the Final Victory and Completion regarding the long history.

Because the human history began with false parents, it has no relation whatsoever with Heavenly Parent's Heart. It means that all relation of Heavenly Parent with children and siblings were cut off. However, as True Parents were as the First Ancestors of Humanity's Birth amidst this earth, a time where we can live attending Heavenly Parent as the eternal Heavenly Parent and True Parents, and eternally came to stand together as said at the Entrance Ceremony. It was precisely the Completion of Human History covering Heavenly Parent's Original Value and Status that has been hidden for 6,000 years.

We are living in such time of Cheon Il Guk when attending Heavenly Parent. So, the Providence of Heavenly Parent is the Birth of the OBD, True Mother, and it is said that the Beginning and End is and must be the same.

The Settlement of the Heavenly Parent's Status was the Cheonil Settlement, an important Ceremony that recovers Heavenly Parent's Original Status that had been hidden for 6,000 years, and completed Heaven's Mind on earth.

So, at the end times of the Providence, it is said that the Final Completion of the Providence is accomplished by HMM, True Mother. Therefore, how important that we all live fully attending the HMM, in this Golden Age when we move forward (together and united when) attending HMM (centrally the) True Parents (Trinity) Will. Heavenly Parent's Will cannot be accomplished on this earth (without that absolute Center of our first, conscious honoring attendance) applause of gratitude (and awe of) True Mother

Ultimately, (making zero for rebirth changes in oneself) by becoming completely one with Heavenly Parent (through True Mother/True Parents) and True Parents became Absolutely One, and we can declare as one with Them the Completion, Conclusion and Finalization and the Final Victory of All Providence.

'It is All Accomplished.' 'It is All Accomplished!' was Proclaimed. So, let us all offer applause of gratitude. to Heavenly Parent and True Parents...

In the Substantial Cheon Il Guk Era, Heavenly Parent is Working through the Cheon Shim Won. It is the make the Cheon Shim Won a Place that can resonate with Heavenly Heart, Cheonshim, so that the Absolute, Unique, Unchanging and Eternal Heavenly Parent can eternally rule the earthly world.

Cheon Shim Won is the spring of heart where True Father and True Mother become one centering on Heavenly Parent and True Parents, completing the Heart of Heavenly Parent called the Cheonshim.

True Parents's Words:

Inside Cheon Shim Won, you must move the SW, and as a result resolve problems on earth 365 days a year. One must be able to go to Cheon Shim Won and see True Father. One must be able to converse with the 4PF Cheon Shim Won, where humanity can always have the experience of attending True Parents while earnestly praying, offering devotion at the Cheon Shim Won, it will be fulfilled, where we have True Father, HyoJN, HeungJN, Daemonim, all members must love and become one, making it a way of life.

The Cheon Shim Won is a Home Town Spring of Heart where we become one centering on Heavenly Parent. Therefore, the completing heart... so we should be able to offer devotions of 40,000... 60,000 people as one, and then there is nothing we cannot fulfill.

This Cheon Shim Won really is the Office of True Father and the Womb of True Mother, and there are such profound miracles happening through this Cheon Shim Won. When the powerful fire of the Holy Spirit comes, Rebirth and Resurrection cannot help but occur. True Parents have solidified our Root of Faith that does not shake because one experiences inside the body, the Completed Heart of Heavenly Parent.

Therefore, let us march forward with this kind of faith.

Break

Busking

Hoon Dok Hae

Think of the three-year devotion at the Grave Site and offer Cheon Shim Won devotion. You will see the Completion of the Providence. You must run without resting toward the Day when we attend worldwide, the Heavenly Parent and True Parents of Cheon Il Guk.

The world we live in today is a battlefield to retrieve the planet earth, which originally Heavenly Parent (and First Ancestors True Parents) should possess. For you to make Heavenly Parent's Holy Community known, at least 1/3 must come to know Heavenly Parent. It cannot be done without what you are currently doing. From June 1, for seven months, you must show it.

In human history, it cannot be seen that Jewish central figures gained the victory. Everyone left indemnity to their descendants. As True Parents took responsibility, through the 6,000 years of indemnity, we must also make a path where there's no future indemnity. That is the mission of the OBD, True Mother, which I intend to do.

You must offer more devotion for the sake of True Father. Your devotion must reach Heaven so that Father cannot help but be moved. You must think of the 3 years of devotion at the grave site. There is a blessing after the portion of responsibility that each person has. Children who fail to do so cannot come close.

The single drop forms the river and goes on to the ocean. You must go on that destination. On the battlefield resolutely, while resolute. Life comes and goes. I want to treat you all well. However, I cannot just ignore it. There is a responsibility with each person. Making you do your responsibility is love.

Inside the Cheon Shim Won, you must command and move the SW. As a result, it must be united on earth. The Creation of H and E cannot be done by Father alone. If Mother is not here, the Life cannot be

Created.

Although Heavenly Parent is recorded in the Original Text of the Divine Principle, it was lacking in teaching and practicing the responsibility and Dream of Heavenly Parent and True Parents on earth. Living together while attending Them (Direct Image), one goes to the Heaven Realm of earth and Heaven. 365 days a year, one must be able to go to Cheon Shim Won and see Father, one must be able to converse with the 4-PF. As a Place where to be with Heavenly Parent and True Parents, and can always have the experience of Living and Attending True Parents and communing with the SW, you must pray and speak your wishes at the Cheon Shim Won, to know so that the entire humanity can come to know.

Pres. Lee Gi-seong was instructed to pray at the Cheon Shim Won and let the earth create the environment, Cheon Shim Won the Place where we attend True Father and are together 365 days. To offer prayer and devotion, it will be fulfilled. The Place where True Father, HyoJN, HeungJN and Daemonim are and we must come to absolute love Them and Love Living with the Cheon Shim Won in real life.

The Autobiography gives grace. You will have to understand it. Then the Blessing will not be broken and there will be no divorce. I am the Living Mountain History of Living Faith. Aju

Cheonshim Choir

'Mother's Request'

The Yeongseong and Attendance Workshop will do their closing ceremony tomorrow, a time when they became filial sons and daughters and through their testimonies, I truly hope you received such grace-filled time.

over 40,000 are connected

It's 6am in LV and they offer devotion in the morning for 3 hours... In Camaroon 56 people are participated while watching this vigil and it is a profound victory that they are able to do the 40-day Workshop...

Each church needs to have a prayer theme and offering devotion at risk of you life as if in a battle, you can receive grace. Devotion is not just piling up numbers but having the ultimate result in mind. That is the assignment given from True Mother.

Today in front of the DC. Pastor Song In Un (?)

Message: For the protection of this Father Land, this Korean Pensinsula, the chosen people... remember those who fought for it and they are recognized as the descendants of Heaven. Heaven recognized True Parents and the fallen humanity has waited for so long to meet the True Parents, and the True Mother, it was the history to meet Her. And at the 1,577th Cheon Shim Won devotion, let us pray to protect our True Mother in longing for Her we are like in a battle...

applause

in the testimony: He read the Bible verse, I believe he didn't have strong faith in True Parents, but could realize through his Blessing.

The Victory of True Parents was an Internal Event and Externally the Blessing that expands Family children of the cosmos expansion. Overcoming race and religion and every wall, and transcending all race, politics and nations, and when we are able to have that standard, we will see works, so please do not waver and continue the works of public office.

He said he would not be able to cultivate the future generation and make this church like the Mother's Bosom.

If you were not able to inherit the shimjeong, then in a public role, you may hinder the members... He was in a position without absolute faith of Heavenly Parent and True Parents, and if he continued that way,

how could H work. He was so fortunate to come to this Workshop. Understanding the Value and Essence of True Parents is essential, otherwise it is worth getting fired...

Testimony

He was in a mission to cultivate members for mission life... but first time hearing about red syndrome and he was in a position of resenting Heavenly Parent and True Parents... The baby could not even swallow. They were not thinking about 40-day, but the solution through their public work, but they had the Heaven's move on them to go to 40-day and bring the wife and baby to the hospital here...

To be in position to resent Heaven, he was listening to that voice. We need to fulfill our responsibility and set up 1st, 2nd and 3rd devotion conditions and be leaders able to set up these condition. First, 3-day fasting, 3,000 bowing, and 4,000 calling out prayer... For seven days he did resolution prayers... The ansu team was giving ansu to the baby, which was possible because they were in the Magnolia Hospital...
