Beloved True Parents of HEH

TYSM TYSM This 1,580th Cheon Shim Won we thank You for opening the Gates wide and Personally governing this Cheon Shim Won. Please let us become one with our Heavenly Parent and True Parents and at this time resemble Your Divine Character and Heart. You have suffered to lead us for our break through and You awaken us with Love.

We who are hard of hearing and dim of sight, not knowing how to listen to Your Words and how to look upon Your Appearance properly and go forward with Spirit and Truth, just like Your Words of Cheon Shim Won devotion, we will lower and deepen our roots of faith even deeper through Cheon Shim Won devotion.

So, please work so that the eternal and absolute Value You Established can be realized upon this earth. We, who were Called before anyone else and came to know this Providence of today, we will offer utmost devotion that moves Heaven and practices directly through actions, so that we can complete the historical responsibility and mission to be accomplished while attending True Parents as the central axis of the Providence, so please work through us.

VIDEO True Mother's Words

Marshal arts dance

Watching your devotion-filled passionate performance today, I came to think about the 1960s. At that time My age was 17, younger than you, yes? However, because I knew that Heaven had placed a great Dream upon Me, I lived for 57 years with an unchanging Heart vowing that I would by all means in My Lifetime become the OBD True Parents Who fulfilled Heavenly Parent's Dream, the True Parents that humanity had been waiting for. That's how I lived my 57 years.

huge applause of the pure waters

As the OBD, walking out on this path as True Parents with a single-Minded Devotion, I would fulfilled Heavenly Parent and humanity's Desire as True Parents. I am Living as such today.

Now, you are 1,200 people, but I walked on this path alone, yet all of you together, if you become one with Me can manifest explosive and powerful results. By all means, national restoration and world restoration will be done by your hands. huge applause

I will remember each and every one of you in My Heart, and on the day that I go to the SW, I Wish to go with the joy that I was together with you...

Rather than speaking many Words, while I am on the earth I Wish to take all of you inside My Memory as I go.

Pastor of Hyo Jeong Church

Welcoming Address

(She of ACLC)

Before I start to speak, first I pray for Dr. Hak Ja Han Moon's swift health. While watching the video, I was greatly touched. Truly DHJH's Heart that tries to fill Heavenly Parent's Heart, truly this is the Heart of a Mother DHJH that is with you. I saw that Heart and I think I was able to understand a little what kind of Heart that is.

Today, through the experiences at

meetings and prayers I had, I would like to share about the grace Heavenly Parent or God has shown me. I went to Hyojiwon Church, a very beautiful church with a triangular roof, and many greeted me and there were so many children. I thought, 'Ah, how happy would God be with all these kids at Sunday school.

And seeing the passion of the minister and his wife, I was deeply touched. And in their appearance, it reminded me of my young years, when I would just look upon Heaven and run forward.

That passion, that burning passion to offer sacrifice and service for God, I think that is something that doesn't change as time passes. The church leader and his wife had a very clear vision towards the nation of God. Although there are times of difficulties and loneliness, the members are truly encouraged, and I can see in their eyes that they had devotion for the mission upon them. And I could see that God is looking to the next generation, and is looking for such people who can take on responsibility for the future.

I pray for these two individuals, the church leader and his wife. God, please give them even greater strength and courage, and allow them to endure this mission and fulfill this mission until the end. Please use them.

And we all, I felt that we all have to pray and encourage such ministers and pastors. God is working, even at this time. God is still advancing at this time, Amen? big applause

Last month we had a special SS where N American, S America, Europe, religious leaders from many nations came and although languages were different, many things were different, but we all conducted the service, all clergy with one heart for Dr. HJH's health and swift return. We offered desperate prayer.

And our KCLC clergy also offered a heated prayer with one heart. And it made me think again, how God could achieve so much through a single Person. And all clergy who attended, through them, I came to be excited and waiting for what these God-prepared people would do.

And I heard a lecture about the Great Epic of the Chosen Han People of Korea, and truly everyone showed intense interest, and with realizations, they would start to talk to each other.

And we visited ChongPa Dong, the Old HQ, and we also visited Cheonwon Gung. We were able to see the history and vision of the FF, and it was truly a time full of the Holy Spirit. Truly I could feel that God bestows Vision and a Wish through every single person.

And at this time, I felt, especially through KCLC leader Kim Gi Hoon, who was with us, with his great experience and devotion and sacrifice. Him being there was truly a warm and grateful presence, leader Kim Gi Hoon and Prophet Radebe and Minister Rosalio, and having many clergies together, we all came for that 66th Holy Wedding Anniversary and First Anniversary of Cheonwon Gung Opening Ceremony.

So, this Pilgrimage where we look upon the Footsteps of God, truly through all of this, I was able to see that what you are doing is not just a life, or not just Words but is a Mission that we all have to fulfill. big applause

Especially, Prophet Radebe, what he shared was very profound. And, until then, I only caught sight of him in certain ceremonies and events, but through this Pilgrimage Event I was able to stay with him throughout the entire program and event, and I was able to have a lot of conversations. We truly shared our experiences and visions, and Prophet Radebe, on how we can collaborate with KCLC, we talked about this.

And Prophet Radebe wants to establish a deeper relationship with the KCLC, a deeper connection. big applause. And I felt that perhaps there is a new mission that God wants from us. Maybe it's North America, South Africa. Wherever it is, if God Calls us, shouldn't we go? big applause Shouldn't we pray (Ye!!!) If God Calls you, you must go. (Ye!!!)

We all said 'Aju and Amen'. Truly, those two words have the meaning that I agree with what you're saying. So, I believe we can have spiritual experiences here, to hear those voices of God. And recently, our schedule of KCLC and religious association, we had some Service Work at the National Cemetery. And we, the religious association of KCLC, being able to help in a small way were truly grateful to be able to offer service with the KCLC, remembering the sacrifice of those who offered sacrifice for this country, we sincerely offered prayer and gratitude.

These things of one's pain and sacrifice are not to be taken for granted. And looking upon the pain of the Korean Peninsula, and looking upon the spirituality of it, we offered a prayer for peace and unity.

Ladies and gentlemen, truly, through all these meetings and all these prayers, I'm reminded of the important realization that Heavenly Parent is still Working through people. Heavenly Parent was able to show us how Heavenly Parent is working through a young minister couple, and able to show us a wide vision through all these religious leaders, and through prayer that Heavenly Parent is still Working, and what is more important is that you are here right now, you are here right now.

What are you here for? We are here to pray to God and here to pray for Dr. Hak Ja Han Moon, and pray for the FF and pray for the peace of the world. Isn't that why you are here. (big Aju!!) big applause

Ladies and gentlemen, truly we are one person and one person individuals, but how great a reality each person is. God had made and raised each and every one of you as God's children, and through prayer, as long as we know that God works through prayer, we must realize again what the value of dedication and sacrifice has. Even now God is protecting and preparing the next generations of the future. What we have to do, God will show us, and we have to have obedience, with faithful hearts.

Now, and from now on as well, fulfilling God's Mission until the very end, continuing to pray and

expanding this kind of people, I wish. (We here join) big, big applause (So, grateful for this minister)

TYVM I wish and Bless you in the name of the Lord... for this...

HJ Report

Director Sah Seong Jong

World Mission HQ

He bows

Beloved and respected leaders

Today, the touching protagonist of today's story is a missionary from Hiroshima. And he is currently Yuki eh, and his name is Kono Nobukuni, who started activities long before You Tube became active. From the FF of Japan, he was an individual who fiercely raised his voice at the very frontline of social media, especially uploading videos during the incident involving PM Abe

Afterward, he set foot in Brazil for the first time on Feb 2, 2025. After the Jardim Leaders' Workshop, he was dispatched to the Bolivia, Kota bamba Church as a missionary and introduced the vivid field reports (of Missionary Kono), who achieved miraculous results in witnessing, with Cheon Shim Won devotion and a heart of filial piety, even amidst language barriers and Providential trials (Cochabamba Church)

Beloved and respected members, this missionary

His testimony:

From 2nd Class of the UPA Top Gun Academy, I wish to report to True Mother my witnessing life last

summer in H South America, Bolivia, a nation with such hot passion of the church that goes out for witnessing every week, as soon as the worship service ends.

The witnessing method is inviting people to the center, showing them Divine Principle lecture videos and introducing True Parents and a instruction for a life of faith in accordance with the stage of the contact person.

Where the enthusiasm is hot like this, I started a witnessing life from August 1st to November 2025. But my Spanish was clumsy so communication did not flow and even when contact was generated, they did not return to the center. So, my mind was incredibly suffocated. I pondered a lot how to do witnessing well.

However, the more I struggled, the more difficulties came. At that time, it seemed that my prayers at Cheon Shim Won only meant requests to Heavenly Parent to let witnessing go well. Then I heard that True Mother had been detained. My mind went blank, unable to believe it, and while praying, 'Did this kind of thing happen because I failed to fulfill my responsibility?'

I began to blame myself and had confusion in even what purpose I had in doing witnessing for. I even began to hate going out witnessing, and my mind was full only of the thought, 'I hope this 1200-day witnessing course can be over soon.' I wanted to give up everything, but I accidentally came to see a praise video of the Inheritors from the Cheon Shim Won vigil.

'Although True Mother is physically distant and we may feel powerless, and we would wonder what we can do for True Mother, but True Mother has told us:

'Do not worry. Heaven knows your devotion.' That is what She said. True Mother knows our devotion. That is why, even at this very moment, we with one heart, this very praise and devotion that we offer to True Mother, Heaven knows this devotion and even True Mother know it. That is why, truly with one heart for True Mother, at this hour, let us all offer devotion with one heart and one Will. Truly, our beloved True Mother, for Her, let us all shout out. Let us all praise.'

I kept listening to that praise multiple times, and tears flowed without me knowing. Seeing the appearance of the Inheritors, who were the same age as me, and surely experiencing difficulties themselves during

this time of hardship, and earnestly saying praise for the sake of the members, I received a great shock of grace.

From then, the single phrase, 'Rise again.' kept revolving in my head. I went the Cheon Shim Won and prayed, 'Who is the Person experiencing the most difficulty and the most heartache right now. It is precisely True Mother. Nevertheless, True Mother said not to pray for Her sake. She said She wished for us to pray and offer devotion so that Heavenly Parent's Will can be accomplished.

Yet, what am I doing right now?... losing the power for witnessing and for going out. I became incredibly angry at myself. What I must do right now is to make Heavenly Parent and True Parents joyful even just a little bit. And I poignantly realized once again the fact that, for me, that is precisely witnessing.

From then on my conditions and earnestness for witnessing changed completely. Before starting witnessing, I offered an 8-day fast. And during a 120-day witnessing period, I continued with a 3-day fast four times and a one-day fast one time. I clung to Heaven for completing 400 bows and name calling prayers 10,000 times every day for the witnessing people.

Especially during the Cheon Shim Won prayer, I asked myself, 'Did I do witnessing today, risking my life? and thoroughly repented my day. With the single thought of offering the victory solely to True Mother, I thoroughly discarded myself and prayed earnestly so that the SW could move.

When praying for a contact person, I prayed to the extent that sweat poured off me in order to save a single life.

Even when communication did not flow after going out for witnessing, I pulled my mind together by myself, and witnessed diligently so as not to make Heavenly Parent Who looked upon me sorrowful.

As I started the name-calling prayers investing my entire strength with earnestness, amazingly a miracle happened in just 3 days. The three contact people whose communication had been completely cut off, contacted me first and gave me a firm answer, saying that they would come to church again. applause

That was not all, a certain contact person invited a friend, and that friend invited another friend the next day, and a miracle event happened, whereby all three of them wrote church membership applications, and at the same time received Divine Principle education diligently.

applause

As a result of the 120-day witnessing period that started anew with such determination, I received the miraculous fruit of 13 spiritual people. One person whose name was Israel, I felt Heaven telling me, 'You did not give up and attained victory'

That night, my past self, who just prayed at Cheon Shim Won without thinking of my further responsibility, because I prayed at Cheon Shim Won with the heart saying, 'I will earnestly gain victory for the sake of True Mother, and offer devotion and invest myself entirely,' I deeply felt that the SW moved for us.

Currently, my first spiritual child is receiving one year of faith training in Brazil (not Bolivia). He is also continuing 40-day witnessing activities centering on FR. Although his age of faith is still young, he is saying, 'I want to witness to/for many people like you.' And now he is making resolve to receive the Blessing next year.

big applause

I also received the Blessing together with my fellow UPA missionary in this year 2026. applause

If I get to go to Korea again next year, I want to proudly report a result of witnessing to True Mother. Although, I am still lacking, and there are times when my mind becomes weak, during my remaining missionary time, I want to become a filial son who makes True Mother joyful by finding and establishing even just one more spiritual child.

Together with my fellow H Top Gun missionaries who are currently exerting total strength for mission in various places across the world, we will definitely gain victory.

True Mother, I truly love You. TY.

(TY for that precious testimony)

Dear members, this awakens a special truth for us. Even amidst self blame during this course of True Mother's suffering, the key that can move the SW and achieve miracles was precisely Cheon Shim Won devotion and a heart of filial piety toward True Mother. Because there was devotion built up by thoroughly emptying oneself and risking one's life, the firmly shut gate of the SW opens, and we witness people overcoming themselves was possible.

With solemn Inheritors solemn praise songs, we like Missionary Kono, will inherit to become members who are shedding tears and offering devotion across the entire world of Heaven, deliver news of hope to the members and let the entire world resurrect and march forward into the realm of heart.

Wishing that the grand H fortune of Heavenly Parent and True Parents always stays together with the missionaries and members across the world, I conclude.

21st Spiritual Workshop Testimony

via video

Fukunari Sugata

husband of my wife 2017, and living in Korea with my 2 children.

I experienced the grace in my body, during my public mission, both of us of our couple entered UPA and I am in charge of educating candidates and at the talents Bureau and my wife worked at S/M UPA discipline master and we continue together. And our 2nd son was born but there was no crying and he went to the incubator. But the situation continued worsening, him entering intensive care, with tests finding a rare brain development disease affecting only 1 in 10,000 girls, and he caught it as a boy, which was even more rare.

Usually this would result in miscarriage or death right after birth. My wife completely collapsed and asking Heaven. 'Why'... But my father emphasized Cheon Shim Won devotion to me and we offered devotion every day.

We did not know when it would get worse and the baby's oxygen drops when sleeping and saliva had to be regulated and with other apparatus and surgery to make a hole in the stomach and he suffered as if falling into water. Our couple was continually offering devotion, but I didn't think of going to a Workshop, thinking the solution was public mission. But looking at my wife 24 hours watching him from the closest distance always in a state of tension with such pain.

At the same time having to halt her public mission, and experiencing selflessness and wondering why this was coming to us, and also the suffering of both of our own parents, but they held a standard and held us up, and for practicing this standard I enter the Workshop and my wife entered Magnolia Hospital with the baby.

I heard the voice of Heaven, 'I'm sorry, I had no choice but to do this.' And then realizing what Heavenly Parent had to have happen with True Mother for Her greatest pain, even now walking the Course of suffering, and repenting for the times when I could not earnestly attend Cheon Shim Won, I shed tears.

And during this time we must receive education from True Father and be new passing through the Womb of Mother. And only when I let go of myself until now and with 3-day fast and name-calling and a definitive determination prayer for more than 1 hour and then with the 1,000 bows, severe muscle pain during the bows, and weakness after fasting. I received, 'Offer each bow with the thought of lessening True Mother's pain..' and then I could finish... He always guided me to offer devotion for the sake of a greater Will, and we also received internal and external support in more than one way...

Mysteriously through the 1,000 name-calling prayers the testimonies emerged, and I felt Heaven saying to us about our coming here for the sake of the greater will, and leave the child solely to Heaven and offer prayer for the greater Will and True Mother by offering for the over-all victory. And I came to feel that this was the highest devotion as a public official, for the future gen to become one with True Mother's Will and I began to offer 1,000 bows every day for a week, with a heart for the victory of each member one by one, and more deeply could feel how True Mother is offering devotion at the risk of Her Life.

With the reality that we could not fully offer devotion for the future gen so that they drifted away into the

world (tears and he turns away) applause... I am deeply apologetic as a public official, and with my wife together let us become parents who can connect them with Heavenly Parent and True Parents's Will, and in that process my wife and I could be more one.

Also, our son started to show changes, crying like a new-born and his problem to swallow became able to suck on a pacifier, and the apparatus to prevent apnea was not needed. This shows that if we regard Heavenly Parent and True Parents's circumstances beyond my own, H will work.

I could also become one with True Mother's Heart. Just as we can never give up on our child 'Jsu', and Heavenly Parent and True Parents never give up on us, and now we live where children can realize on their own and I am convinced that the entire key lies within the Cheon Shim Won.

True Mother is moving forward alone even now from the most difficult position to find Her children, and if we always think of Her Heart, we will move forward knowing there is definitely a path forward for our own children and for mission.

I will become a public official who can move even one more member, and report victory. Gratitude to all who guided me up to this point and for the ones who sent me to the Workshop despite their busy schedules and my unchanging wife offering devotion with me until the very end.

Japanese Cheon Shim Won President I Bon Sok

Although H Japan has lost all facilities, they are turning into a Blessing in disguise, together with President Hori who urges them to become a H Japan that attends and spreads with devotion and activities.

Testimony Hitari Leader and lecturer... He raised his hands before the True Parents's Photo where thousands of spirit were drawn to Hitami lecturer like thousands of clouds on the eve of a typhoon, and afterward the lecture room had a warm air of love and organization of SW by virtue of True Parents's Love. How great the Substance of True Love is established by True Parents of HEH, Who move even True Parents's to tears.

Together as a married couple, we held the staff and received the lecture and heard, 'Next is your turn. Go forward as a CheonBo family.' Our couple possesses the title of a CheonBo family and the contents stuck for us from now to invest our entire strength to gain victory for the substantial 43 families.

Moreover, after returning home, I came to realize that I could smoothly climb the stairs without any pain as before.

Next, a white member of the H Japan church, a large form on the neck of my mother, she went to the hospital and with tests, she received a cancerous diagnosis, and radiation and anti-cancer drugs, but her of advanced age, we decided to just watch and wait. I applied the DVHS as if rubbing it in the area, and after the Spring GWs, I made a devotion registration and asked all the good ancestors to cooperate. The neck lump disappeared gradually and the doctor was so surprised.

I am convinced this is a miracle of the DVHS and HJ Papers' grace.

A member of the Biasaki Church said because I heard this 3-days is condensed from 40 days, I resolved to fully engage in the entire time, absolutely not lying down until collapsing... Watching the lecturer speaking, 'If only I had become one with True Mother, would there ever have been an incident where True Mother is in a court room and detention?' I spread out my hands, 'Please eliminate the factors that prevent me from becoming one with True Mother, and I cried out DMN! DMN! and a power came through my hands and a fire so hot like something being held within me for a long time. I prayed for the cleansing to be from the roots, and in order to be a shield that protects Mother, I must build that shield in myself and become the one who protects Mother...

Through the 3-day Workshop, the members of H Japan are resonating with Cheonshim and will welcome its term along with 3-day Workshop starting from June 30th, and pile up a power of devotion so that many will participate in the Main HQ...

Although so lacking, I'm so happy to give you news of joy...

Ki Sang Kim of an 81 year body, looking at True Mother's Appearance, she built a life time of faith and it was passed down with 3 generations, bearing the most beautiful fruit of the Providence, mother of 7 siblings that has become 36.

I attended Christianity for about 2 years at the age of 16, but then Jesus appeared to me saying,

'I died wrongly.'

As the Holy Spirit Manifested hotly to my body, wailing broke out, without even listening properly to the lectures until the end, because that position was too heated, I could by no means just sit there. So, I came outside when it was raining.

Then, seeing me alone out there, they gave me a lecture, and watching that rain, Jesus spoke to me again,

'This rain is My Tears, and that Sorrow cannot be expressed in Words.'

And right inside that rain, I said to Jesus, 'I too will live a lifetime just like Jesus, just like You. I say that even while holding onto rocks, holding onto trees, and walking the path alone. It is a path I started because even that heart had failed to cool down up until now, and I'm truly grateful.

Making the Pusan ground my own home, I visited it every single day. After receiving a 1-week Workshop, I went to the 40 days of witnessing. Between Jolado and Kyongsangdo, this valley of division is deeper than the division of North and South.

(her daughter) Upholding the tradition of loving ChoLa-do, I have lived my 60(16?) years of life until now. Recalling my grandmother, I saw her doing absolute, unchanging faith until now, and therefore, when I was young, I couldn't understand why she went through such an extent, but thinking about it now, she laid all down, solely for the sake of True Parents.

Through that devotion, my mom was born, and I was sent on this earth in this manner. When I was very young, I had to wake at 4:30am and offer bows (high school time) and waking all 7 siblings, and she told us to wear the hanbok dress.

In 1964, I met Mother for the first time in Taegu. At first, because only F and another came, I could not meet Her. Mother at the Holy Ground at dawn, was about 8 months pregnant at that time. Even Mother followed Father to climb up swiftly like a flying bird, following Father... My spirit seeing Mother like that, in a heavy time, my heavy body would be overcome. At that Holy Ground Mother bestowed grace.

I offered 40-day devotion after my daughter's leg surgery and I came along with her and I fasted for 3 days and made a determination and the grace multiplied, receiving today's 47th term of the 40-day, through the Workshop inside this life, when the AGS ancestors is necessary, the Workshop allows us to live openly that way... 3,300 spirit, although it is spoken of, it doesn't register how liberation needs to be received, and they conveyed that to me sincerely.

At Cheon Shim Won because True Parents Portrait is in the front, I must do witnessing, but if You are happy for me being here, I will be happy too, but Mother gave me the Words, 'You must be a model'. And receiving strength again, I am receiving the Workshop in this manner. With liberation of our ancestors, how wonderful if we can be joyful inside that Dream.

Even more than 1st gen, the 3rd gen received such revelation. They say they will do all the liberations that their ancestors did not do.

I blurted a prayer that was not mine, with the SW inside me saying, 'I want to go out more.' 'I want to go out too.'

Intending for the spirits to receive the Blessing, I realized that the ancestors have cooperated in this manner, and I felt confident.

Our 2nd daughter came to receive the 40 days and I naturally came along (this is another sibling speaking now) My daughter told me during the Cheon Shim Won devotion that she wanted to go to the Cheon Shim Won Training, and I just followed her.

When my grandchildren came and told me their own desire to go to the Workshop, even my grandson taking 1 year off from university, I saw how the ancestors were cooperating.

Mother appeared in a dream wearing white clothes and standing by the ocean like the Red Sea and the water split open with a perfect-sized path. Therefore, although Mother is now walking the highest, most difficult path that no one else can walk, She is walking a path that no one has ever been able to walk before or since, so when I offer 2,100 bows of devotion every day saying, 'Mother's Health and Longevity. " every single day, even now the N and S reunification and the life Mother must give.

When she said the OBD, I felt a rejection and when She was detained we went to offer a flower basket and offer a time of prayer. When we sing, 'I love You True Parents' I could not sing it because of my arrogance, realizing the thought I had possessed with my fallen nature, and how precious that Heavenly Parent never doubts and trusts us, but I truly repent that the child fails to trust the Parents. I will not abandon True Mother but will truly offer my life and devotion.

such grace and realization, I too must fulfill the Words and Desires Mother speaks of. I used to say my mother's name as My mommy, but no 'Holy Mother Kim' and all of us must become holy mothers who

resemble Holy Mother. And I make resolution and I'm so grateful that my mother followed so early the Will with absolute devotion and heart. Because I was her child, I could understand

For that 1,095 days, she is continuing to offer for inheritance of Mother's 3-years of devotion.

Having received a dire diagnosis, we often shake only looking at what is in front of our eyes

tears right away... My story begins from the time my child was born, in 2022 I was Blessed and then the following year, my child that could not walk and her skull closed early and brain development problems and wondering how our child will live moving forward and my mind collapsed easily... with words like, 'The baby's head is truly small' I resented Heaven, 'Why us?' 'I am not strong enough to handle this kind of trial' even thought I was a bright and confident person all before then...

I returned home every day and collapsed and became fearful to go out with my child.

I was so envious of others who had normal children.

The meaning of the words, forgive, love and unite

I am an only child, and also an offering child. My mother in Japan is the spiritual grandmother of my biological mother, and she offered me back, them wanting to have another baby. Both as a mixed child and Unificationist, I underwent difficult hardship, difficult to live as a mix in Japan, no friends, problem with older members, I was with a buzz hair cut and mixed race, and my face was difficult. That became the big trauma to go back home, about 5 or 6 senior members were waiting for me, to gang up on me and I had no way to win against them. That happened several times, going against the oppressor, using some kind of position to oppress people, and when I see that, a lot of the fighting spirit comes out, and my parents had to come to the school and apologize for the incidents.

I understood that they loved me but also difficult to accept. My mother went to mission, my father took me to someone else's house and then came to pick me up later, my parents away from home so much, and that prevented me to accept their love, but even I appreciate that shaped my life, and now I am here appreciating Heavenly Parent for all of my life.

Around graduation from high school, I started to struggle about Mother, not having Mother's Autobiography and didn't know Who Mother was, and should I just continue in the Movement or leave it. Attending a Workshop, on the last day, we could go up to the Cheonsung Gung and see Mother, I immediately felt, 'She is my Mother and couldn't stop the tears'...

So, when I was attending the 15th HMH Workshop, every morning we would go up to the Cheonseong Gung, all the police vehicles came, and I heard some irritation and angry heart as well, but we learn from True Parents and Jesus, how to forgive, embrace and love, but it didn't really solve, why don't you love, instead of embracing and forgiving first.

I experienced that True Mother's Love goes beyond everywhere, those who betrayed, Heavenly Parent and True Parents just kept loving, embracing and forgiving each brother and sister, but how am I. I used to be a more judgmental person but now, even it is still difficult, but more often I can repent myself and be humble and how can I embrace, forgive and love those difficult to love and forgive?

Mother's last Words before going to DC were love your family, love your nation, do mission responsibility.

Then going back to Japan, even I struggled, I will Wang Omma, no matter where we are, in whatever state of condition, in the good place, in the bad place, You have been keeping trusting and embracing and forgiving and loving us, and because of that, we could start... but understanding Your Heart, Love, Shimjeong, inherit and become the Person like You, all the first and second and third generation, those who have pain, I know You want to embrace and love all of them, You are still the Light, Hope.

Now Mother is in the DC, but She is alive and She has been showing even in that place of Cross, so let us stand up, rise up.

Mother is the Daughter of HPs. I want to hear words like, 'You did well. I'm proud of you from my mom.' But the answer I always heard was, 'You're still lacking' but even though she was clumsy in her relation with me, she showed me faith. I asked, 'Why don't you think of me well?' But after feeling the immense love of True Parents, I somehow wanted to be able to see my mom not as my mom but as a daughter of Heavenly Parent, a daughter whom True Mother and Jesus loves.

Just as Heavenly Parent and True Mother loves my mom, I want to love her too. I caused her much trouble, left America and did not return for 7 years, barely even calling her, and did things that upset her. but coming before True Mother, this resentment is being resolved little by little and through Heavenly Parent's Love, I'm becoming able to love my mom. I probably never said in my life until now, actually I believe it is good to face her and say it, for the first time, 'Mom, I love you.'

That single word 'I love you' resolving the resentment of his entire life. I believe these Words Mother showed us through Her Entire Body can be the miracle for us to gain victory through devotion

To be with those people who sacrificed for this nation, it is something to be grateful for. Because of them this nation could develop, and we hope the Epic Will is fulfilled.

Today our KCLC are here giving us much strength and the 257th day of our Mother's detention...

Even though it's quite chilly, they offer devotion

And gathered around the world there are 63,000 approximately

We are not bringing explosive results because we have not become completely one with True Mother's Words/Direction and with True Mother's Heart... for Heavenly Parent's Liberation, Heavenly Parent's Dream at the price of our life...

Kim Jong Hyun from KCLC gave precious words truly, hope and vision for the future, reminding us of the works of Heaven in the history and emphasizing to move forward with belief and faith, and it would be nice if we can invite here to give sermons.

Hwa Song Jong, Deputy Director gave the report of Missionary Kono... He heard the news that True Mother was detained and he blamed himself and was very down, 'It's okay. I'm fine. Don't pray for Me. Pray for your families. Pray for the Will of Heavenly Parent to be fulfilled...
