Most Honorable Heavenly Parent

Beloved True Parents of HEH

This month of June, those who sacrificed their lives for this nation, today we gather our hearts, this nation, we will remember them not to be in vein, we will become spiritual seekers and realize that nation of peace and unity that Heavenly Parent and

True Parents desire so much. And tonight the 260th day since True Mother walking difficulty, Her Tears and Footprints on this path to embrace all humankind, how could we understand such Love beyond fathomability.

Please allow us to be sons and daughter who can lessen the weight on True Mother's Shoulders. Let the SW and PW be on and the strong winds of SW blow and open the Gates of N and S Korea, not through human power or politics or reason but through the spiritual power of Cheon Shim Won, a new morning and sunrise upon H Korea, the children who left the embrace of Heavenly Parent, let them feel the spiritual fire and heart of Cheon Shim Won and return.

May these 160 days of True Mother's Love and Tears become something that awakens the sleeping children. And my this night's vigil start a grand, new Movement. For Mother's longevity, while Heavenly Parent and True Father look upon True Mother with blazing Eyes and for the victorious path of flowers.

Jun Yu San

Japanese Workshop trainee

Testimony

gratitude

Minori Nimi

I am the 2nd daughter of two children and for devotion for my family, I entered the Blessed wives Workshop about the value of the Blessing. When I was young, there was no end to the fighting between my father and mother. I tried covering my ears and enduring it in places where I couldn't be seen. After entering Sun/Moon University and living with my parents, the relation with my family gradually improved, but after so much history of them fighting, I naturally came to harbor negative thoughts about the Blessing, and lost confidence in myself. Even so, because of my mother's showing how she did not give up and tried to help me understand my father's background difficulties.

I couldn't understand so well, but I did not want my mother's suffering to go to waste, and later they came to offer devotion with me. For someone like me, Heaven prepared a husband who was always overflowing with confidence and who understands and encourages me better than anyone in the world. He took a week off from his job and came to this Workshop together with me.

There were many lectures about the Blessing, and while living together in the Workshop Center, I had a little bit of an anxious heart if I would be able to learn the content necessary for the two of us. But through the Principle of Creation at the early part of the Workshop, I was able to learn the most important part as a Blessed family, to fulfill the dream of Heavenly Parent.

I thought that Heavenly Parent would be joyful if the two of us would be happy, but it was more about Heavenly Parent living in us and spreading the fortune to our children, and fulfilling H's Dream as a family was a precious time for moving forward. I realized that I am receiving love from my family and my husband, and it was a happy time, feeling Heavenly Parent is there guiding me.

However, lack of confidence was still there and times when I could not concentrate on prayer and feel deep emotion, so conflicts still remained inside me.

A major turning point was the 3-day resonance prayer Workshop. During the testimony of Rev. Yokoi, I came to know for Heavenly Parent the concept of forgiveness doesn't actually exist as we think, but Heavenly Parent is always only thinking of the return of children, and I felt loved. Despite being born as a

2nd gen, I was so lacking for not realizing the value of being born 2nd gen. without ability to be confident for that.

When I realized how Heavenly Parent was loving me, some emotions became deeper and stronger. But I found myself fighting over trivial things with my husband, and my mother said to try telling True Father about my heart and I created a time to pray, asking, 'Please tell me why this state has come to me and please teach me what I should do.'

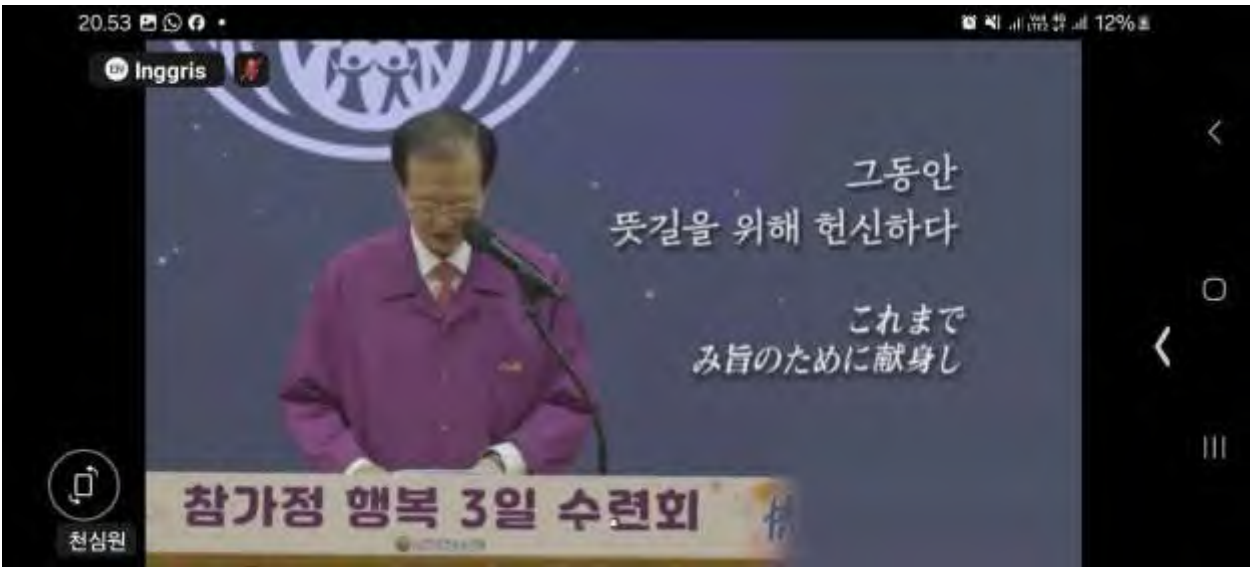

The answer returned immediately through the resonance HD time. 'The object of true love is more precious than God. Living for the sake of others is true love.'

When I read those Words aloud with the heart of earnestness, I felt that satanic forces had been aiming for our family.

Because there is nothing more precious than a family centering on true love, I realized I had become a target of most satanic desire to destroy without me even knowing it. I realized that the angry heart toward my husband was not really me, not my sincere heart, and while feeling the fearfulness of the fallen nature, I was able to renew my heart in how I treat my husband.

I must not lose to the satanic thoughts. The Blessing is precious and beautiful, and I found the heart of gratitude and love toward my husband rising up strongly.

At the Tree of Blessing which I climbed after the 3-day spirituality Workshop, I was able to pray emotionally to the extent that I had not experienced before. And inside Heavenly Parent's Heart, I felt True Parents's hardships and the Heart of Loving all children, including me, so tears flowed down, and for the first time feeling that True Parents are truly my Parents, and a prayer centering on my heart turned into a prayer shedding tears while thinking of True Parents's Heart. No matter what, from now on I want to live with a heart cherishing my husband with Heavenly Parent's Heart.

It is not as if there were only happy contents during the Workshop period, but I thought every contents there was necessary for me. I am simply grateful for the fact that there is a Heavenly Parent Who always loves me, even though I'm lacking. Individual and family assignments still remain, but until the day I can become one with my family and husband and face them without giving up until the end, I will strive to

become a Blessed family that can testify to the values of the Blessing, so to, in substance, fulfill Heavenly Parent's Dream.

Testimony

Yu In San

gratitude (bows)

Eldest son of 2 sons

Before coming here, I was very busy with a constant impatient heart and anxieties about the future, preparing for employment, and I didn't think I had the luxury for spending time like this. Coming here and the the trainees seemed unrealistic to me, but that was me. They had hardships more than mine. It wasn't just me for whom reality felt heavy. Also, I had worries regarding the Blessing. I couldn't understand why one must have the Blessing within the same faith.

I even thought I would absolutely not receive the Blessing and I participated in the Workshop with wanting to know why I should receive the Blessing, but with the devotions every morning and evening, it allowed me to pause and not just run worrying to go faster. I did not even know how to pray but then offered prayer properly for the first time through the resonance prayer time.

I then offered my prayer of sincerity true to my heart. Heavenly Parent, True Parents of HEH, I am very exhausted. I tried to handle everything myself and do well, but I'm not sure I'm doing well, and I confessed everything then with tears flowing. I was someone who thought it was shameful to show tears to anyone, so I was surprised at myself.

I realized faith does not come from logic. Just like logic is like knocking on the door from the outside, and the door must open from the inside with faith. I truly tried to go forward with Spirit and Truth, and what I could not understand with logic, like shedding tears. Faith surpassed logic, and I felt Heavenly Parent through Shimjeong and faith through Spirit. big applause

From the moment the doors of my heart opened through faith, I began to change little by little. I took the role of leader, and I learned through the heart of dedication and actions of volunteer activities... not just listening but practicing with one's own body. In particular, when cleaning up the trash along the river, a thought occurred to me,

'Just as a river becomes ruined and polluted if no one pays attention to it, a person's heart also partly collapses and becomes polluted if it is not approached with Cheonshim. I realized that witnessing is an act of reaching out one's hand first for someone else and purifying that heart together.

Also, while singing in the choir, it touched my heart deeply that I was not singing for myself but singing praise to be a source of strength for Heavenly Parent, True Parents and the members.

There was worry because the days of the exam I was preparing for were drawing near. But the weight that would have been difficult alone, became more light when together. I realized that faith is not just going forward and realizing by myself but walking together, and Heavenly Parent did not give up on me until the end.

I who had been running while losing direction by chasing only results, was led back to the correct direction. That was the true Chimjeong of a Parent that I felt. As I came to know that love reaches out entirely for the child's sake, not for one's own sake, a heart arose in me to reach out for someone first by resembling that love. And I, who intended to participate only 14 days, extended to 40 days wanting to change and deepen my heart more. Applause

Also, my thoughts regarding the Blessing began to change, realizing it was a process of changing one's love through faith, responsibility and family. I came to know that my parents were 1st gen family, and have built the true family and true love that should not end with me alone but be passed on to the next generation through my own family.

As I came to know and take on seriously that responsibility that I as a 2nd gen. needed to know and inherit that love forward, the perspective with which I had viewed the Blessing only on my own standards, also changed, and I also registered my Blessing profile this time.

I have been able to look back on the direction of my life not shameful before Heavenly Parent and True Parents, only about my own success. The direction and Heart of Heavenly Parent is more important than speed, and that great change always begins with small devotion.

I will continue to carry the heart and realizations of this 40-day Workshop to my future life, and continue volunteer activities with the church. I thank the pastor and his wife of my church who always prayed for me and led me to this Place, and my parents who always offered, and I will not forget the love I received.

Although still very lacking, I will grow while practicing small devotions and responsibilities as 2nd gen family... big applause

HJ Report

Kim Guy Yon

Korean Workshop Office

2nd 3-day Happiness Workshop that True Father educates directly

True Father's Message:

First is that BF's must be happy upon the foundation of attending Heavenly Parent and True Parents. Although a short Workshop of 3 days, it is a time to realize a family of the original family of Creation, The Heaven realm on earth.

Beloved BF members, within the family, are you feeling true happiness? Many of our lecturers on the Korean Team ask ourselves this question, and repent with tears... couples not becoming one, and children not becoming one, on this foundation we repent and make new resolutions.

Worthy of the title Unification Family Federation, we will go back to the Essence and at Cheon Shim Won devotion, we will resonate with Cheonshim and establish happy families, and I believe that is the greatest hyojeong we can offer that we believe now is in reach.

So, through the 3-day Happiness Workshop, which has 3 stages:

1. purification
  2. forgiving, loving, thanking
- (which is the deepening)

### 3. sanctification

And there's physical, psychological, spiritual and modeling. It has these 4 aspects to it. And we want to solve many problems in all directions.

Of 54 participants, about 70% were there with family, as family members, others there were couples and parent/child. Seeing these families hugging and forgiving and expressing to each other, I thought that this was Heaven on earth that Heavenly Parent had awaited.

Participants who came alone had a time of grace for standards of devotion to be CFs to bring happiness within the family...

video

PL giving True Father's Message to 2nd gen.

'Heavenly Parent has been waiting for this Workshop, for our members exhausted on the path of the Will, Heavenly Parent, please feel HPs Presence and attend Heavenly Parent's Presence and live on.

(True Father giving Mother a daffodil)

Ura Rco, she received True Father's Message and came with an extra chair next to her.

'We attended the first Workshop with our son. A few days ago True Father appeared and said we should come and bring your youngest. We have other children and I asked if I could participate with all my family and True Father said, 'No, only your youngest.' and True Father showed his hand to the youngest and said, 'You should go.' '

So, I came and we did the Cheon Shim Won prayer all together and there God said, 'Since your husband passed away, you are receiving this Workshop.' So, I asked one of the coordinators to have a chair here for my husband.'

So, her daughter is 23, whose father ascended 27 years ago, and she was full of sadness that she could not

shed a tear at the funeral, and not deep relations with others, but in the Workshop she shed tears and did liberation, seeing where the spirits were, and then she shouted so loudly, and before she was shy but now she volunteers right away to speak before people. And True Father knew everything.

So, happiness is when you are truly together with your family as with the seat there of happiness for the father. So, through the subjective SW and the objective PW and True Father Who prepared this amazing Workshop, applause

And True Father educated us directly through messages, 'Satan knows that the home is the place where Heavenly Parent wants to dwell first, first the husband/wife relation so that the entire family collapse. But even if the children carry massive problems, the family of united husband/wife with always have Heavenly Parent with them.' Now the time has come to face our negative thoughts and emotions honestly and deal with them for that purification we have 4 types of programs:

- 1. 'Hearturing' to reflect on ourselves and our families and be reborn through True Parents's Word.

- 2. Breaking the cycle and restoration led by lecturer Chun Yu Sang, and a time to check, 'When do I feel such emotions, feeling ignored or excluded in the family?' for example. Or, when I think of family, I think of distance and I can't trust.

And based on the emotions we feel, we write down the central spirits we should liberate. We had an ancestor liberation ceremony, and the fee is included in the fee for the Workshop. And for all of the prayers to be fulfilled in this Workshop, many of the staff gave support.

We saw the family-heart-experience drama... to release in depth suppressions, emotions, swap family roles, to understand by experiencing the heart of the counterpart to find solutions.

So, our protagonist here is Kawado Akemi. And she thinks their family problem is that they are financially difficult and communication problems with the husband, so much loneliness. So, we mapped out the locations of each one in the family, and sister Akemi chose members to play as her family members. And she put them in places that she thought they were and we conducted the program with resonating heart. And Akemi said that she was lonely, but also the husband must have been feeling very lonely and isolated.

video of solution they came up with:

Because of debts, difficult to communicate with my husband. The appearance of family drawn by Akemi was very about money, but can't we just live happily without a lot of money? (husband/children said)  
Husband: Day after day, you're all sleeping, even thought I didn't return.' (What's really within the husband's heart?)

Akemi thinks for the husband what he might be thinking, 'I want to do my best, but I don't have the competence. I don't have the ability. So, I wanted to hear your side of the story. I truly didn't know how difficult your position was.'

How was your heart after this drama, Akemi? 'I couldn't draw out the future, what would happen. But through this drama, I could draw out what was in my heart, so I could see a way forward and could feel grateful.' Our family that we could try again. And the husband is talking to the son, 'So, you do the dishes now. The man has to do the dishes.' 'And because your mom is from Japan, your mom probably wants to go to her homeland. So, next month, how about we go to Japan for a family trip. (And especially the wife is clapping)

How is it? (Yes, that's what I wanted to hear. Let's be happy together.)

Let's give our Ademi family a great round of applause of encouragement...

The wife playing the role of the husband, she could feel her self esteem drop and could feel the heart of the husband, and she could feel that what the husband needed was encouragement and comfort and compliments. We often judge by the outside, but to truly enter the role of the other person, then you could from the Position of Heavenly Parent, put down our judgmental hearts.

We want to live by our original hearts, and we have the heart of wanting to do better, and we should not forget. And sister Akemi said she wanted to have conversations with her husband, and we provided that environment for her. And then she said, 'I don't know what to say.' Although she had to establish a true family but didn't know how and through this drama was able to realize that.

So, through Cheon Shim Won and resonance of family, we could know what to do. So, the Korean barbeque place, the father said, 'Oh, let's all go to Japan. Is that what you wanted to hear?' and she said yes, and we gave her a gift for being a protagonist and a fee stay at (?) and when she received these gifts, she said let's be happy together, and she was full of hope for change...

Although the protagonist was only one family, it was a drama story about all of us. And because this is led by the SW, I could feel the healing too.

We fought a lot because of the feeling of men and women. I thought of my mother and gained realizations in various ways. By my self-centered thinking, 'Isn't it natural for my husband to do this much.' But trying to approach the others' heart and listening is what we must strive or.

Hearing the reflections, I thought, 'Ah, the husband said that 'I have to stop drinking, and make such resolution. And I was really encouraged here...'

This husband looks cold and emotionless, but actually he is bright and jokes a lot.

After the 3-day, we received this message: 'I was able to realize the protagonist couple's problem as my own problem, and let's practice true family together and she gave about \$150 donation.

So, truly, we could feel that we are one. And at that Place, True Father gave the Message:

'For a couple to become one, the effort to try to approach the others' heart even a little is important. The name of husband and wife is truly a noble name. The person I must live for more than anyone else and respect more than anyone else is precisely my wife, my husband.'

So, to put that effort toward our spouse, we prepared the deepening programs, conversing through the body and love letters and music therapy programs, and the 21 questions for falling in love, and the monarch butterfly will therapy and true family practice prayer prepared by our Korean lecturers.

So, conversing through the body, if one is the subject, then the other has to show absolute obedience even going through the bottomless puts of hell. So, not easy. Without even knowing, you're anxious and start to pull back. But then to experience that in the body, one can realize, 'Ah, I was quite stubborn.' And then

without a single word, we had a time of embracing and shedding tears. And the music and love letter therapy is truly a time of moving the heart through the warmth of music.

We had team leader singers, and our family members prepared surprise video messages to sincerely convey the truth of what they were not able to confess before.

So, the 21 questions for falling in love. We may think we know our family, but in what way does the other want to and is able to feel love, so the question:

When do you feel love or how do you want to be able to feel love? When you are exhausted or down, what is the way to comfort you?

Truly centering on the other person, a time of understanding.

Monarch Butterfly understanding. If I were to die right now, what would you write to your loved ones?

our Yokoi Toshiyaki who has been married for 30 years, one of our model families... And through true-family-practice prayer, what must we do to achieve happy families.

And we also made prayers of resolution to HPs. And to see these pictures, is this not Heaven on earth... Aju? We felt we didn't want to leave this place.

And among these people, one caught our eyes with the socks that are magnet socks, and if you approach people then they grab hands, hold hands. And I thought perhaps this is too childish for our men to agree to wear, but the husbands were smiling.

One husband says what heart he went to the Workshop with: 'So, thinking for the peace of the family, so how do I love you? so hold the hand, I held the hand, go to 3-day Workshop, I go to the 3-day Workshop... so not easy, but I will let more down.

And through this Workshop, the team leader realized to let go of her thoughts that some husbands are cold and emotionless in Unification Church family, none of them are. They are all so warm and friendly.

husband's testimony: Although he is now in the SW, I have not been able to shake off the bitter feelings I had to my physical father. By understanding myself who could not understand him when I was young, I was able to be liberated at heart. I felt the warm Love of Heavenly Parent and True Father and H Mother Who directly taught me how to achieve a true family, saying I wanted to do this Workshop. I continued to serve my wife even better than before, thanks to True Mother Who led me to this Place.

So, reading this, I could see that our Korean husbands aren't able to express what's in their hearts, and they endure what is in their hearts, and our Korean wives try to match their husbands, and for that effort, let us applause to encourage all of the Korean husbands of our Unification Church family...

When I say who is the most important person to me, I say it is my wife. And she when asked says it is her husband. And us living oblivious to that truly look upon each other with (doubts)... But this is a Workshop where we could make a new start... (And he so enthusiastically hugs his wife, so wanting to show that love and importance and trust to her having mutual feelings)

And when the husband is reading the love letter to her, covers her face with such tears of emotion. And he says gratitude about her raising 4 children and allowing him to be able to stand proudly before True Parents, truly thank you. You've done so much. Now that happiness, I will give that happiness to you who are victorious. I offer my true, deepest gratitude. I love you.

And her letter: I could not understand my husband, and because it was so difficult, I lived just avoiding him. I thought of just giving up and living like this, but as I continued to make eye contact with my husband, a heart of understanding and forgiveness arose. Thank you so much for the opportunity of having a new start. And we make a resolution to attend the vigil as a couple, even if it's just Friday.

True Father also spoke of the relationship between Parent and children:

"The relationship between parent and child represents the relationship between Heavenly Parent and Me. I Who have children must be able to love them from a Position of Heavenly Parent, and the children love their parents also from the Position of Heavenly Parent. There are many families with children here. Only after raising children, we can understand the Heart of Heavenly Parent. And only when one matures can we really realize the effort and sacrifice that Heavenly Parent, True Parents and our parents made.

And I actually invited my mother here and paid for her fee for Parents' Day, and I just want to say if you attend your parents here, that will be your filial piety. Please give many gifts to your parents.

My daughter, truly thank you. Thanks to you, I was able to spend the happy time. It was like looking at myself from the past, worrying and thinking a lot and I would think, "What should I say to you?" but I think Heavenly Parent must have had the same heart. I wish to love you more and but when you were hurt it felt like my fault and it truly hurt my heart... I was able to realize that Heavenly Parent is feeling the same things. My daughter, who taught me Heavenly Parent's Heart, thank you so much for being born as my daughter... (And the daughter keeps wiping her tears and they hug at the end)

another letter: When you prayed for me with tears, I ignored you. I never said I was grateful. Because you're my physical parents, so sorry for the life I lived even until yesterday. If you had a daughter who thought of you, how good that would have been. You must have been so lonely. Why did it take so long. I'm sorry. Mother, I love you.

True Mother gave us the Blessing of grace and the Holy wine Ceremony and had no doubt, but trusted us in our resolutions to live better lives, and with all our wrongdoings we come to think that True Mother takes responsibility for our failures and our hearts are filled with sorrow.

reflection: Heavenly Parent, the Sacrifice and love of my mother is all your grace, and to be able to talk to her face to face is also Your Grace. And for our True Mother Who has sacrificed too much, allow Her to return and allow us to carry the responsibilities. She said Her own Life, forgive, love and unite and She truly wants happiness of our families, saying to pray for ourselves and families.

Rebirth through the heart of pain of True Mother, this family had so much difficulty on the list of worst 4 families, but through the 3-day, he said he became a new person and the children said that the parents love each other so much, and they also changed and offered desperate devotion, reading Mother's Autobiography and bows and resonance prayer and wish papers once a month and attending the TC program and coming to the special prayer room and reading Hoon Dok Hae and prayer devotion.

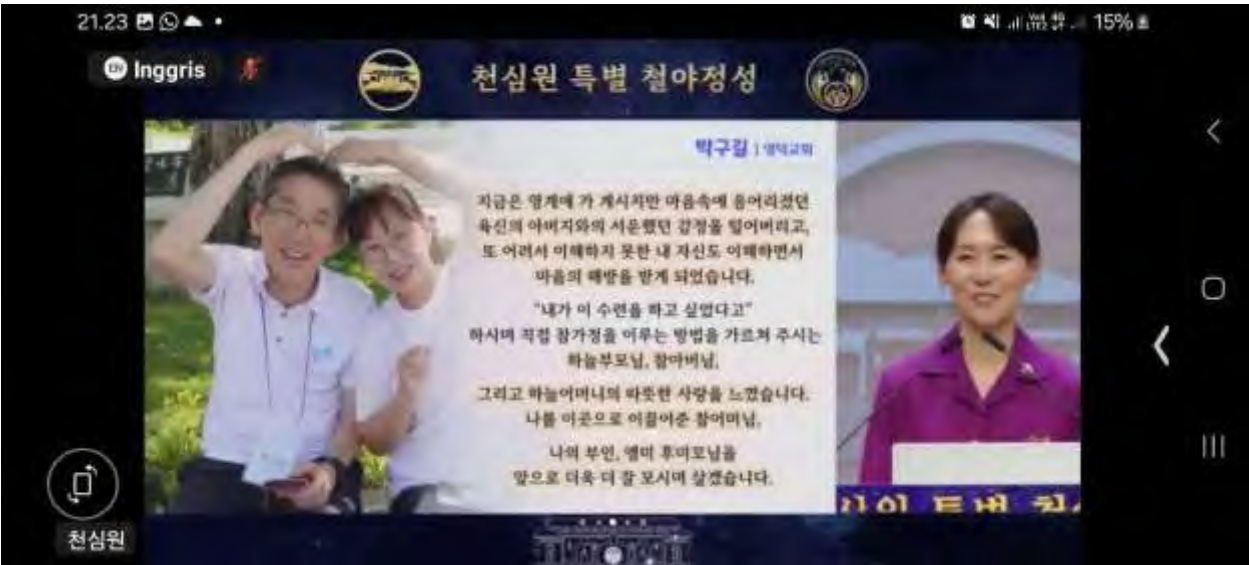

Beloved family members, looking at these members who do this, do you feel hope to establish true family and are you excited for the 3rd true family Workshop. We ask you to come with your family or alone and cry and pray and let it be a time of making new resolutions to HPs.

---

Break

Busking

---

Hoon Dok Hae

Pray with tears, Pray while shedding sweat... You must be reborn through the Word. In the early days, you did not calculate any reasons. You were simply joyful and grateful when you saw True Parents and when apart missing Them and wanting to hear Them.

You must not have calculations, 'Oh, if I do this much, I will be praised.' You must let go of such calculations. I'm saying, 'Let us create a Unification Church that is overflowing with Love and is alive and breathing.'

To restore the people of your local area quickly, the light of the church must never go out. You must make truly firm resolutions as people who live in this era and attended True Father, you must not tarnish your Owner.

To become people who True Father remembers in the SW. To do that, what must you do? You must not rest. You must create a church that is alive and breathing. Being alive as a person means continuously moving. Only a dead person remains still.

Ends are not important. Practice is important. You must practice. Now is an era of showing concrete results. You should not sleep at night, but always remain awake and make it a church where the lights never go out. Only then, when Father looks over the world, He will be drawn to come because the lights are on. Would He not.

I am saying, 'Do not let it become a Place that True Father might just pass by.' When you pray, you must

pray shedding tears and sweat. Even if something strikes me, it may pass right through me, but I will not collapse. You may pray with this kind of conviction.

Even if there is persecution and oppositions arise, you must know that God's time to fulfill your prayers is drawing near.

As much as it is difficult, you must know that the time is near, focusing only on God, you must live a life where you can stimulate new things yourself. On the day you lost such feelings, I am telling you to pray staking your life and death.

Even if you have to offer a vigil prayer, you must pile up devotion. The more times you try, the more you may enter an even darker dead end. When that happens, you must be able to fight even more strongly, having the heart that you will subdue the Satan that follows you to your side and praise God.

Pres. Lee Gi-seong's Message

WSs...

(He mentions Cameroon

For H America, we are planning to go there and volunteer, an amazing grace that fulfills Mother's Words, not dragging people but truly 260th day of their devotion at the DC... We will go all out until the day of Her Return and Victory... Please have a heart of gratitude toward them at the DC.

Heavenly Japan Niship Yuko sent her reflection: 2024 October, she started to attend vigil devotion at church and to have religious negotiations and spread True Mother's Word to 19 Christians, and today from March, a pastor and wife who asked where they offer vigil devotion, and we said they could come on Saturday to our church, and on May 30th, no church building, so attending church online, and today a pastor and 6 Christians of a Christian Church offered Unification Church Service, this happened.

I prayed, my name as a BF attending HMM, and the Christians showed us a bright smile. And this is the work of HMM and the AGSs, and attending devotion online is the lifeline and looking at all of you, we are truly encouraged and strengthened for putting into practice the harmony and religions becoming one, and I will continue to spread out True Mother's Word the Christians and pastors of Christianity...

applause

testimony today, a wives' 40-day participant... When we receive the Blessing we still live within the fallen realm of this world and we may be drenched with negative spiritual background, and when fighting with each other, how sorrowful to Heaven, but yet there are those who don't give up. The mother tried to understand her husband (and for the children to understand their father) and the mother offered so much devotion and then the daughter received such amazing husband.

And even the parents who fought so much, they together want their child to have a happy life and she got a profound turning point with support of her husband and foundation of her parents being Blessed family, and was able to go on to live diligently centering on the Heart of Heaven, truly a precious daughter, even overcoming how to resolve any conflict with her husband, any negative feeling through asking in prayer as her mother suggested...

The object of true love is more precious than Heavenly Parent. Living for the other is true love.

If not for this, any conflict with her husband would have remained... But now living in such a manner learned here, she can truly make a happy family...

So, we must think, 'Where are the roots of my heart, the roots of my happiness and love are Heavenly Parent and True Parents...' How are we or not thinking in such a way truly having no shadow and the

existence of the 4PF, at the center of that is God and True Parents, by give and take action of Family Pledge:

Our family the owner of Cheon Il Guk centering on true love. And her heart of gratitude and true love centering on her spouse can bring about a happy family even if it is not easy...

Having a heart of hatred even toward you spouse will happen if you don't put away that central spirit, those thoughts that come. All the conflict and divorcing is because they think things are rotting and unfair, but because we received the Blessing, we must remind ourselves what a salvation chance that is, even all the way to restoration of the standard of attend Heavenly Parent and True Parents truly as your Father and Mother all the way to eternal Life, True Parents Who take responsibility for you and The Root as HPs.

Last time the young lady who would shout in her vigil devotion behind everyone, and she was carried out by many people, but in the end she went to the special prayer room and she was truly in the spiritual environment of a spirit that committed suicide in a bathtub, and she was told to say HMMH, and when she did all the spirits were put in order. All the spirits fell to hell because they could not meet the True Parents, and they became the false people, tribe nation, world, cosmos.

And to change all that, that realization that they met the True Parents and felt Their Heart on a profound level, so thinking True Parents her prayers changed to prayers of tears and he concept changed. No matter what, I will cherish my husband and live, and truly her spouse received the Blessing, not just continuing to live by our whims.

So, the wives 40-day and husbands' Workshop is truly important so that many ideal families come about.

Yoon In San offered the precious testimony. Looking at the Workshop trainees, he said they looked so distant from reality, but that was his conception. And with concerns about the Blessing he came, but things changed when he learned how to pray for the first time. He lived all the way to adulthood as a 2nd gen, and how many prayers holding the hand of his mother in church, but only now learning how to pray.

All ministers and pastors, you must teach how to pray. If you prayer ends, it is like your breathing ending. So, learning how to pray, he said he was astonished at himself shedding tears and the doors of his heart

opened and cheonshim entered. Then he said, 'Ah, I was seeing things only through my head, and this cannot be explained through logic, but through heart and faith and spirit, I was able to feel True Parents.'

Then things changed, and he thought of the creek he was cleaning, and like us, that creek must be give attention maintenance, like we need prayer maintenance. Soerak myeon is close the Heaven on earth, even people walk around at 12:30am at night on the streets, this is not the case. We must offer devotion to expand this Heaven in Gapyeong Province.

So, if you don't clean, it only piles up. If you say, 'I love you, and let us work together but then scam the person, Heaven cannot work. We must open our heart and see what's inside. And when we do, we must (clean, organize, liberate and think for the other in a life of true love)

(missed the end main points of the testimonies)
