Bow and Pledge #5 and 6

Most Honorable Heavenly Parent

Beloved True Parents of HEH

Today, as always we offer our sincere gratitude for being able to offer this devotion for the sake of HMM. We are truly lacking, yet we are resolved to keep our promise to gather here out of our intense desire to comfort You, to see our Mother's return and health. Here in this Office where True Father Works, at the World HQ which is like the Womb of Mother, your precious children are gathered to mobilize the entire cosmos with Spirit and Truth. We want to give all our earnest sincerity to be together with You from this very moment of beginning in the preciousness of this time as no other.

We will cry and shout and pour out our heart as we can in this Place. Through the testimonies of the

resurrected, please allow us to harbor inspiration and hope to spread like a wildfire of resolve and strength forward. Through our prayers and hyojeong, resonating with Mother's circumstances and Heart to achieve victory with Her, feeling Heaven alive and breathing and the subjective SW always waiting to work.

We want to be the ones put forth with life-and-death resolve. We announce that H Japan has been born again on a path of loyal subjects and patriots advancing with a shout of victory in new beginning. We hope for this time of departure of the entire cosmos reborn for joy and ecstasy with You. We believe that Father is working and Mother will surely return glorious with great victory for the cosmos, as we build a tower of devotion with tears and love and absolute faith

This 4PF form represents creating anew creation through our body, mind, movement and gesture with the subject and object attending True Parents... By maintaining balance in all four downward, left and right movement. These changes in our body help prevent conditions of frozen shoulder in one's 40s and 60s, and allows a healthy body shape by balancing the body

This movement that embodies and substantiates Heavenly Parent. It is a movement where 'I' and 'we' become one while attending True Parents. It is an easy exercise movement that can be taught to and learned by everyone around us.

Among the participants in this special training, there are some who learned it just 3 days ago and are showing the demonstration on this stage right now. Let's learn it and bring joy to True Mother.

Right now, True Mother, because of our fault, because people of the world do not know about True Mother, She is walking the course of the cross, sacrificing for the H unified Korea and world. And I hope through this demonstration, I hope we can bring comfort to True Mother.

applause

We will train and we must become one with True Mother.

Testimony

Horimichio

(She bows to True Parents and audience)

3rd daughter of 2 sons and 3 daughters

I am currently attending Sun Moon UPA... apologies to True Mother for realizing the value of Cheon Shim Won Providence so late (She bows again). Even though attending university I hardly ever went to Cheon Shim Won on the 12th floor, preferring to offer prayer in nature...

I will be going on mission tour with 4th Top Gun Group, but not wanting to go out without properly understanding the value of Cheon Shim Won would be an act of disrespect to Heavenly Parent and the members there. So, I resolved to go to Yeongseong Workshop and experience the value with my body and soul.

Every day has brought my gratitude and earnestness, asking what realization Heavenly Parent had prepared for me today. I was shocked from the first day, the sight of the excellent coordinators. The sound of their resonance prayers offered at that very moment without a script, and the sincerity heart I could feel, 'This is it.' and saw hope with excitement. I had encountered the Essence and Reality I had been searching for for so long. I was so grateful to be able to received the Workshop along with the 2nd and 3rd gen, the future generations and coordinators, and truly could be resurrected in Spirit and Truth and also realize how lacking until now.

I was able to set my mindset for this Workshop as I was told to pray honestly and purely from the depth of my heart and went straight to Cheon Shim Won to pray, and the thought, 'I want to meet True Father' at this His Office. But the more I prayed, the more I wondered if there was a reason or circumstance that prevented True Father to work through me, but I realized He was waiting for me to rise to the standard He desires, which is that of being completely one with True Mother. That moment was my turning point and resolution to grow to that standard that True Father could acknowledge.

I resolved to offer 1,000 bows and reaching the 7th day, I shed countless tears leading to new repentance and beginning, and centering on the Words of Mother immediately after Father's incarceration brought me to my sense... I was realizing many things, reflecting how I had failed to advance to the standard of True Parents. The Director told me to keep the basic etiquette, keeping me with immense force. He told us to truly endure hardships and devotion so that we could embody the Heart of Heavenly Parent and True Parents... I felt for the frustration he must have felt watching younger members satisfied with themselves as if they had experienced everything after only encountering a tiny fraction of our Parents' Heart, and giving us warm love.

The Path of True Parents Who suffered more than anyone touched me deeply, True Father saying, 'I am going to restore even hell' and True Mother, 'Isn't it time to show our filial piety to Parents. Please take responsibility and work.' And PL, 'If True Parents give 100, to return 120... If They give 150% to give back 200.'

I offered a prayer shouting 'Aboji, Omoni, and my heart was breaking to see how insufficient I was, failing to be what was needed and only receiving Her infinite love. I wept endlessly in pain of that reality. I had resolved to be a leader of Cheon Il Guk, but when the environment was difficult and I failed to return the achievement, I had run away from my responsibility. Now I wanted to get closer to the Center and know True Parents deeply, but again with difficulty that pure resolve weakened.

When I served as a team leader for activities last semester, living each day in a flurry, I had judged centered on myself, thinking I will be a team leader next semester, trying to run away from leadership stresses at the time. The more stresses and responsibilities came, the more it revealed my selfish nature, seeking a comfortable position rather than thinking of True Parents, wanting to get a little rest rather than the responsibility being a comfort to True Mother Who has been advancing without ceasing all this time.

I repented my lack of gratitude for what Heavenly Parent gave me so that I could endure more hardship. True Mother has never rested but steadfastly kept Her Position, overcoming with gratitude when gratitude seemed impossible. As a child who wants to comfort Heaven, I too need that gratitude. True Mother, said to leaders that we should not sit down, no matter what the difficulty and how much you want to give up in the future, how to dream of the same ideal world as True Parents do, and repay our lonely Heavenly Parent Whom I met in the valley of hardship.

I will continue to receive True Father's education at Cheon Shim Won and offer devotion for True Mother.

'A Song'

Oh come to the Blessing... Heavenly Parent's Arms are open wide

Restoration is waiting with the true love

Leave behind all mistakes

Come today, now the Heaven realm is near

Bring your sorrow and find a new way

from the ashes... Our God is calling

O come to the Blessing

Testimony

Warigari Sako

We have 1 son and 3 daughters. I was sent to Japan in 1993 and have walked the path of ministry for 33 years and received the grace of studying at UTS by F's direction, and served as missionary in Vietnam, but as many Japanese leaders may sympathize with, due to many difficult and economic circumstance, I had to work in a company for 3 years in Japan.

Around that time a great tragedy came to our family, with my wife's exhaustion that I also could not solve

with my own strength. Eventually, my wife recovered through 40-day Workshop at the Japanese HQ, which was not the purpose of the Workshop, but I attended with her wanting her strength as best I could. Through this 40-day she is healthier than before and I could return to the path of mission work to this day.

This year in 2026, I took voluntary retirement according to the generational transition policy of HQ. Looking back, my heart ached for being separated from my family with priority of mission so that my eldest daughter stopped talking to me one day, and now she lives keeping her distance from her mother as well.

Also, my wife has been living to attend to my mother in Korea. I realized that the person that needs to change first is none other than myself. I who used to only look to my children's feelings when they are having a hard time, now wants to be the resurrected loved one who conveys that love to my children. So, I must feel the Heavenly Parent Who can share that love to children.

I had only one goal, 'Let me become a true parent to my children.' Since I do not yet know the heart of True Parents fully, I wanted to resemble that Heart even a little. So, I started bowing devotion Hoon Dok Hae, calling out name prayers, walking Mother's Path and the volunteer activities and even small habits of service and tried not to let go of the string of my earnest heart, and then I fell asleep each day.

(I had been moved by the stories of the young people who came for the Will hoped for by True Parents, despite difficult circumstances, and I felt they are truly filial sons and daughters, and I grew conviction that if my love and devotion deepened somehow my children would surely find a way to be like that also)

I was reflected in particular on the issue of pride among the fallen natures and habits, from Lecurer Kim Guy Ahn on the fall, left a deep impression... and I was able to reflect on the image of myself, not listening to my children's stories enough and unilaterally dealing with my children by my own thoughts, without really listening to them. I thought of the struggles that may have come because I put myself, my own thoughts first, before consulting and reporting to Heavenly Parent's first.

Through Pak Sung Mi's lecture on the Universal Prime Energy and give-and-take action, I deeply empathized as I heard, 'To enter the Heart realm of Heavenly Parent, one must first enter the heart realm of one's physical parents.'

My father was a man of few words, only expressing his heart after drinking. I grew up feeling that he was a difficult and fearful presence. I resolve to understand my father and liberate distance with him, who is in the SW. Naturally, my eldest daughter came to mind.

Rather than being swayed by my daughter's reactions, I must first feel... fill myself with love, so that she doesn't make the choices that I made. When I return home, I intend to offer HD resonance devotion in my children's rooms first. This is because I realize how much an invisible spiritual atmosphere influences a person's heart. Even more than visible environments, I want to first fill my home with Heavenly Parent's Love and create an environment where my children can return comfortably at any time.

As an external aspect, because I couldn't express my love well, I would also want to show my children that their father is truly loving them by expressing more and also listening to my children's stories, instead of speaking my words as I did before. Just as UPF through G and T Action, I believe that, if I practice love first, my children's hearts will open little by little.

Above all, what I realized through this Workshop, is that the power to change a family is not a special method but the heart of parents. I am confidently that if I first practice love that resembles True Parents and continue my devotion to the end, my children's wounded hearts will surely be recovered.

During this Workshop, I visited Cheongjeong Gung for the first time in a while. The biggest difference is that True Mother is that there. That is why every single explanation from the guide came back to me more deeply. Looking back at the history and the Holy Wedding of True Parents, I thought that True Parents were already looking toward today's victory, and walking that path, there probably were not many people who held the conviction together with Them at the time.

Japan is now facing the great difficulties of the dissolution of FF, and True Mother Who is leading the Providence with more difficulties than anyone else's, at such a time, I pledge to become a child who looks at what Mother is looking at, and achieve Mother's Dream together with Her. Gazing at Cheonwon Complex and Cheonwon Gung, I offered the following prayer:

'So that this beautiful Will of Heaven will be completed as soon as possible, I will first accept Mother's Dream as my Dream, and Mother's Vision as my vision.'

And then for the first time, I thought I felt a little of what Mother would be most pleased and happy for.

'Do not pray for Me, but pray for yourself and your family.'

I will no longer delay those Words, and I will live a life that puts them into practice. This 21-day Workshop was a new beginning for me, a chance to look at how I was when I first met True Parents and become a strength for achieving the Will of True Parents that is still alive in me.

Moving forward, I will do my utmost to follow the path True Parents have walked and build a Blessed family as a model within my tribe. I will be a father who takes responsibility until the end, so that my wounded and hurting children will return to their True Parents Embrace, and build healthy and happy Blessed families.

I want to convey my gratitude and love to my beloved wife, Sako, who has silently walked the difficult path with me with joy. My dear, Sako, I love you. (and he makes a heart over his head)

I conclude with deep gratitude to Heavenly Parent and True Parents of HEH for granting all this grace. True Parents, I love you, TY (another heart)

'Wing of Promise'

HJ Report

Kim Ju Wan

(wearing a fun outfit)

fishing Workshop moving forward, we miss our True Father and True Mother more and more

True Parents's Words: Hunting is for physical health as a form of physical exercise, while fishing is a mental exercise. While fishing, you think of your life and thinking a great deal, it is a remarkable thing to be able to have such time. You can analyze your past and find your future life. It becomes the most important time for us. You can be dignified and calmly reflect upon yourself. That is absolutely necessary.

In the East, this is called, 'The Way of Fishing'. That is why, if you fish for a few years, even if you catch a fish, you want to let it go. And you don't have desire to eat the fish. That is the way. It means the desire to eat disappears. So, one cannot imagine how much moral and mental development this brings.

By learning such things, you can bring humility. If you become the head of a department, you will be able to treat people in a gentle, manly manner. It has become a training ground that can harmonize all the people.

In the fifth Workshop, beyond Gapyeong, we headed to the Gangwondo, and from this district from 18 churches, 19 public workers and pastors joined. As our attendance Workshop offered devotion in the night, they cleaned the grasses and went to the island for fishing, so it proceeded with a lot of grace.

The day before, I gave a report, but afterward a thought came to mind. Yesterday, at the Hyo Jeong ceremony, we must release a fish, but there is no fish caught, so I prepared myself and went to fishing and hoped that I didn't get too tired from fishing and it became 3am and I prayed, 'Father, please let me catch a big fish to release, and as soon as my prayer was finished, miraculously the ringer rang that I caught a fish...

It was 47cm, the biggest CARP that I have caught. So, I had a conviction already and came home singing, for the victory of the Workshop... Usually, we have the largest and most fish and now big fish awards, and on that day I talked to my staff, 'This time Father will truly work strongly, and it's 76th Anniversary of Korean War and 72nd Anniversary of the Establishment of the FF in Korea, so either True Father will let us catch fish with those numbers.

It became 2nd day of the Workshop, June 26, 2026, and in 1963 at Incheon Father began the Cheonseong Providence, and that day of the launching ceremony for the Cheonseong boat. So, I felt this day has the great significance. True Father: In 1963, I made a boat and the name of it is Cheonseong Boat. It means Heaven's Will and God's Will is accomplished. Whether it rained or snowed, I did not mind. I even fished when the downpour was falling, even it rained until evening.

But this fifth Workshop, for the first time, there was a great downpour. And this is uncomfortable commonly for a person, but for the person fishing it becomes a greater chance to catch bigger fish. So, we began gratefully...

video

thoughts while fishing:

'Although I am a pastor, True Mother, knowing Your Heart I will offer greater devotion.

'Right now True Mother is in prison, and True Father from the SW, 'Who will resolve this problem?' And if True Father was in the PW, how would He resolve this problem? And the thought that this really resembles the life of Unification Church pastors, as we hold onto the path alone, waiting for the person. Not even one fish came to my rod, but it was similar to the heart of waiting for members to come to my church...

'I offered ten thousand calling out prayer and I shed tears on behalf of True Father, and because it poured rain, like with True Father, I did not know whether it was my tears or the rain, and that's how I stayed up over night.

F: In order to become someone special, despite whether it rains or thunderstorms, you should be able to fish. When it rains, how does it make the difference. Without fishing when it rains, you will never know.

Even a fish never came to me for 21 days, I had one heart, 'Because God came, that helped a miracle occur. And that was the most important time for us.'

PL: As we attend this Workshop, the miraculous works will occur and I hope you move forward and shout and become such miraculous Kangwon leaders...

I give gratitude to True Mother Who opened the path for us to know True Father through the fishing, and my path came also through the fishing as I contemplated through Cheon Shim Won devotion before True Parents, Kongwon District will become a district to bring joy and gratitude back to True Parents and I resolved this again through this time.

During the opening ceremony this time, we had a graceful praise... video

special song they used to sing with Father

200 H Japan missionaries will be singing this song... and during the opening, a brother Shiganomu, who had spent time with True Father fishing and through this F opened new ways to save people through Cheon Shim Won on land and fishing by sea. With what kind of Heart did Father do the fishing, He told us

PL: In this fishing Workshop it must be a time to inherit power through resonance, if you think from the moment I thought the rod, F resonates with me. You will be able to feel Father workng and it is very much so catching a big fish and at Cheon Shim Won even if you dream, it will be of catching a big fish to offer but how much better in reality...

We had 19 people who registered but only 13 spots, so we divided teams so that they can pick which spot they want, nd this moment was the most nervous, so they chose through lottery for the good spot like a moment of life or death...

video showing how the teams were made

Chon Yung I and Vice District leader and.... became the leaders... and ten teams were made

Also, the Cheonyu jon restaurant are becoming more famous... whether the chef's skills are getting better or he is receiving revelations, but all these foods were so tasty... and he made mixture with sprite and watermelon and different fish and foods.

But this Workshop has the lowest water level, when it drops they go deeper waters and we could see the big fish swimming before, but we could only see smaller fish, but with our devotion and absolute faith and energetic postures, they went to their spots.

At the fourth one, no fish were caught before the vigil, but this time with the worst conditions, they caught 3 fish 46cm one of them, and the day before he caught a fish that was almost the same as mine... and 37cm CARP, but it didn't feel like he caught the smallest but the impression was that the young people are rising up... and 40cm bass (eats every fish that it sees and considered one of the most dangerous fish, and I felt impression that Gongsong will be able to liberate all the resentment spirits.

We were able to show what we were doing live. Up until now, a special thing... (before half went to sleep, but this time no one slept but stayed at the fishing rod. Because no one came from our staff, we were moved to see it... Then the light did not turn on

True Mother: I said that the Unification Church must be a church where the light never turns out and people seeing that will want to go to that place.

As we look at the devotion attitude and having worked with this heart as a public official, these Words of M came to mind...

After taking all the spots for everyone, we prepared F's fishing station and right next to there was a spot that looked wonderful, and at about 3am, we put True Mother's fishing station, so truly at Mother's station and rod a 76 or 72cm fish would be caught and this would be a miracle that could not be denied how True Father is working...

and I put the gold one, and if True Father truly works, this golden rod will catch a fish, and we were so hyped, and then at 40 minutes the bell rang on this rod... applause This fish was exactly 72cm... wow...

When we measured, this is the impression... unbelievable... We measured again... For me, all the goose bumps around my body, with the coordinators, we were so moved and shed a lot of tears. True Father loves Kongwon District and was truly working and we had a time of a lot of praise...

Pastor Kim Gwon Gung caught 38 blue gils, which is a record... He will give testimony later

So, the largest award was to Chung won Gi, Kim Yong dong and Pak yong do big and most fish award

Fishing is tremendous devotion and I pledged again that Kongwon Province would become to give joy and gratitude Pastor Chun Mung I... He was quiet and stable, even he caught the big fish, he was so calm... We were moved to see him

Big fish award, two bites, then no bites until lunch and then given the big fish and a church leader with me must have been praying continually... The night before it was 46cm bass, but then measuring it the next day lunch it became 50cm. All of you know, that is it impossible for this kind of incident. Even asking AI what percentage and it said never, almost impossible. It was even kind of scary. Did it naturally grow? Did someone else put the different fish? Truly a mystery, and we checked the photo again... It went from 46 to 50.

True Mother: If you become one with HMH, your characters will grow dramatically. (That Word came to mind)

We decided to understand this phenomena with True Mother's Words.

Kim Kwong dong who caught the most fish. I discovered that the fish were gathered under the shadow and I felt, 'Now, you must be someone who crosses the 48th parallel. Isn't it time for you to move forward by yourself rather than by just what I give you.

PL: Believe in the Cheon Shim Won Gift and through it let us solve problems and go forward and cross walls. I think it is a great Blessing to hold this fishing at such a surprising time. We should bring about the work by bringing about a new way. Fishing is only when fish bite, so it means it is connected to God's Providence and it shows Heaven is working in the Gongwon District and Blessing will come.

True Father's Message: When you look at all things, you can know the true love and heart of Heaven, times to know that God created all things by investing everything... Offer fishing like a war, life-and-death determination for Mother's return, a great work will occur... total investment will bring the result

Despite downpour, they conducted the fishing devotion and they made victory. And at the closing, we released the CARP 72cm for True Mother and another fish 30cm representing future generation, 'Release of 2nd gen CARP' for young people to be found in the future.

Another thing, Secretary General Pang Sang Il and Rev. Yokoi have the sister's relationship and they brought all the mixed coffee as a present for each church, and I have expectation that many will support us in the fishing devotion.

And all the churches around the world, victory. A peace officer came to the Workshop and did the fishing photograph together with us, and photo and posted it... applause Let us leave the great results for joy and glory to True Mother, and I hope you catch the biggest fish for greatest happiness and glory back to True Parents.

True Mother: You cannot move Heaven with your own thoughts but you must resonate with Cheon Shim Won devotion and move Heaven, showing not only through your answers, but through your actions.

Break

Busking

Hoon Dok Hae

There are results that are visible and tangible. The SW breathes with the air of love. How much love is the witnessing results. When you do a lot of love, what follows is the fundraising, the restoration of all things. Your effort is necessary. Devotion is necessary. No one else will do it for you. Everything has been taught. So, now you must do it.

The time remaining before we go to the other world is shorter than the life we have lived so far. When people who have lived in the same era as us go to the SW without knowing True Parents and without

knowing these Words, how would they wail? They would accuse you saying, 'Why didn't you tell me this when I was alive? If you fail to fulfill your responsibility, indemnity will be required through your descendants.

You have heard and know all the Principles through the Word. From now on, you must fulfill your responsibility. All organizations, businesses and groups must now head in one direction. At the very least we must bear results that are visible to our eyes and tangible to our hands. I have come to know that this is possible. Heaven will surely work for us.

This is a time that happens only once in history. If you wish to join the ranks of those who practice loyalty and filial piety and chastity, you must change everything. Since the 2960s, True Parents poured a great deal of devotion centered on the area around Lake Chung Pyung and Gapyeong Gyeonggi dong, to establish a model where the people around the world transcending race, borders and culture can live together.

In particular, through fishing and life intents, they offered devotion and purchased this area, making foundation for the Providence. The surrounding mountain and fields, centering on the TC, are in the shape of the peoni flower symbolizing the restored Garden of Eden.

Going out on a boat to catch fish from the blue sea is the same as God's Providence of Salvation and Restoration. Living in the world is exactly like fishing. In Yongsu and Sungchon, we hold a fishing tournament, but depending on the season, we can also hold them in CP. We can also raise fish in the reservoir in Yongpyong and do it there. Aju

283rd day of True Mother's detention and they are in front of the DC... as the month has changed but the Mother is walking the suffering with patience, and we believe the light will show a new path, no matter how deep and wide the burden True Mother is bearing, in the end the flower will blossom and at the first vigil of the new month, we will offer prayer and devotion as if we were at war... pastor sent message

1,075 here at the TC

Russia, there is a CheonBo Workshop and 75 there

Il Won do today, their performance. In True Mother's Place of suffering, the place settling down and developing the most is Tong Il Mundo...

UPA Cadet 4th grade senior testimony, realizing about Cheon Shim Won Providence more late, she was sorry and confessed she never went to Cheon Shim Won but realized the value of Cheon Shim Won Providence and repented and resolved... 1,000 bows of devotion and she was able to settle and organize her heart completely one with True Mother and she wailed as she offered resonance prayer.

Knowing Cheon Shim Won is far more important than other studies, how to communicate... cooperate and work together with SW... You must be able to communicate with the highest Subject of enlightenment and work together to move forward.

You need to know who is the subject that you are making give and take action with, and to know who you are as an object. By raising yourself, as an object, and raising your subject to be Heavenly Parent and True Parents, and then you can receive tremendous energy and overcome any obstacle in your life.

When John was jailed in an island, he was able to write the Book of Revelation during that time. So we must train ourself to realize and receive the greatest energy where you will never energy. Really experience Cheon Shim Won as True Father's Office and the Place where Mother (can give the resurrection and rebirth, and HyoJN, HeungJN and DMN are working directly with each and every one that what would take many years can be a healing and growth realization of so few days here at CP and at Cheon Shim Won devotion, if you bring your belief and your goals of sincere earnest, all accomplished beyond our own strengths when we open up to the world of True Mother's Heart, and I hope tonight can be a night of that great resurrection for you more than ever before in this time of chance never before and never again...)
