Opening Prayer of Gratitude

Most Honorable Heavenly Parent

Beloved True Parents of HEH

Today we have gathered for the holy Cheon Shim Won vigil devotion knocking on the Gates of Heaven with all our body, mind and devotion. On the foundation of this we lay down our shortcomings and desire only the Spirit and Truth of Heaven. Most Honorable Heavenly Parent, even though the reality we face now is a dark and difficult trial, we believe in the holy process of turning it to good fortune. Our True Parents, even amidst the raging storm, no matter what pain may come, please let it never overcoming the resurrection given by Heaven and this night cast all old habits and fears and fill only with Heaven's Love, burning and refining to the cleanest and clearest form like purely refined gold, stronger and bolder as passing through the rough wilderness.

Therefore, on the foundation of this devotion, let us exert a greater influence in the societies and communities and let the resonance be what saves individuals, transforms families and nations and the world. With single-minded desire to resemble True Parents, may this be a time for our spirits and bodies reborn.

Holy Mother Han We love You

HJ Praise

Japanese Workshop Trainees

Heaven's OBD

Mother, Your Dream is our dream and we will become one towards You

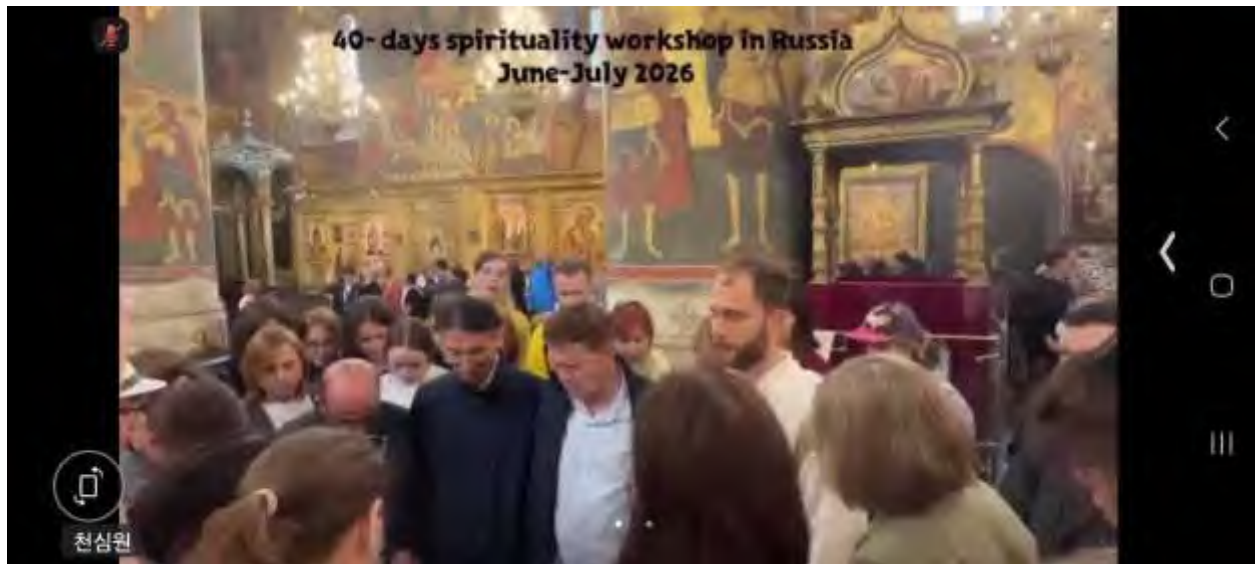

Within the fullness of grace my heart overflows

Let us all share it, with our souls poured into it

the true love

The true OBD, beloved by Heaven

The noble Mother Whom all things in this world have long awaited

You pour down Heaven's great blessings in abundance

One the path discovered through a long journey

Only now have we met the Lord of our True Parents

Let us also feel God's great joy together

Overcoming all hardships, we come together as one

The light of hope and filial devotion overflows

Let us all proclaim it

Our song of true love with the True Parents

Let us all proclaim it

Our Loving and Compassionate True Mother

The Mother Who moves forward without stopping

The compassion True Mother Who rebuilt the land of death into Heaven

Heaven's great blessings

She pours down Heaven's great blessings in abundance

HJ TESTIMONY

Attendance Workshop trainee

Kong Jin Un

Youngest daughter of 3 daughters

I joined the UPA that I longed for so much and listening to the Words of True Mother. But it was not easy. I lacked experienced and lived under the pressure I created for myself. I proclaimed True Mother but didn't really know True Mother as my own, and there was conflict in my heart, accusing myself, and my heart was shaken... I even thought about quitting UPA, but I am a 2nd gen and child of True Parents of this higher life. By not truly accepting Heavenly Parent and True Parents as my own had crushed me.

But my parents encouraged me and I came to the 18th Spiritual Workshop and the time WSs began were

similar, struggling. But there was an audience with True Mother. I asked, 'What kind of Workshop is it that True Mother would receive comfort in it?' I engaged with an ardent heart to find what the root and what the foundation I'm standing on is.

The sole fact that True Parents have raised, me and when I thought only of True Mother in my heart, True Mother I remembered had raised me in Jeju Island, and I realized that True Parents had raised me. And True Mother had invested Herself to create the Heaven we could see.

I met Professor Oh Jin Jung and I said I realized True Parents had raised me and tears burst forth, and the Professor said, 'You came to the Workshop well, and you should raise those around you' Strangely, then my relationship with Heavenly Parent in me was also restored when the realization came more intimately as True Parents did. Then spring became the flowers blooming for me, truly happy.

I spent one semester while attending my believe Heavenly Parent and True Parents, truly happy, even though there were days I could not hold my Center and wondered how to fulfill the motto Mother Spoke. I was led to participate in this Workshop and realize True Father provides education suited to each individual. It was a time to find out what true attendance is. As I participated in the volunteer activities, I contemplated on it.

Through the devotion I felt my true attendance and joy after it, not only accomplishment of victory, but what welled up in my deepest heart, the joy of attending True Mother. True attendance follows with joy. But that does not mean it was easy, and I could not overcome my heavy eyelids. What meaning could devotion without meaning have. I used to think that the Existence of Heavenly Parent was far, but the life of attendance was to attend Heavenly Parent as my Parent and aligning the center of my life, not forcibly but Heavenly Parent's Thoughts my thoughts and Heavenly Parent's Heart my heart.

In all the processes there was the attendance of Cheon Shim Won and life that True Mother inherited to us. The attendance I felt was never enough to attend Her, and transcends all of this world. I want to be even a little comfort to True Mother and convey to Her that Her Words are being fulfilled even at this very moment.

Let my life be a time when True Mother finds joy through me, at Top Gun and other activities, I want to give my life.

HJ Praise

Hyo Jeong trainees

'Happiness'

A life that is not fancy but pure

A life where I can share the small strengths that God has given me. This is the happiness

There are many things that make me cry,

but I can pray

There are many things that are unfair

but I endure for my Parent

This is happiness, this is my joy

A gift from God that the world does not understand

This is happiness, this is my joy

living as my Parent's child

Beloved True Mother, we are truly happy to live as your children and we will become one through Your Love and we will absolutely protect

Though my life is short and small,
living for my Parent's Will
this is happiness of my life

Director of Cheon Shim Won Secretariat

Kim Ju Han

The song that we sing a lot for True Mother, unconditional...

When I look at Yeongseong trainees, I see them always running toward True Mother, only True Mother is important so they changed the name from just unconditional to unconditional for True Mother

All the WSs are born through Cheon Shim Won, so that's why we also put our center at the Mission that True Mother gave us and push ourself with our Workshop.

Cheon Shim Won, I will make it also that the environment is so that everything can flow well. I hope that Pres. Lee Gi-seong will move forward to make Cheon Shim Won a Place to educate talented people devoted with Heavenly heart.

All our WSs are to educate people who can directly resonate with Heavenly Parent and True Parents... Heavenly Parent is putting the most love and having the hardest time...

We must establish 3 generation and from elementary school cultivate pure children that no one can come and sway, the earthly and SW becoming one and moving forward,

all the staff and trainees moving forward not to let any of True Mother's Words fall to the ground.

PL: Even when God fulfills God's Will, we have the human portion of responsibility is absolutely necessary. Therefore, while offering devotion through the night, someone gets healed, someone receives visions and, so someone has an inspiration and a spiritual experience. But not to come to the WSs thinking that such things will happen just by coming.

You must fulfill your own portion of responsibility. Sometimes the resolution to risk one's life may be necessary and devotion that goes beyond one's limits may be needed. Even one who offers endless Cheon Shim Won devotion, there are cases when, even one speaks loud determination, does not appear after time passes, because it becomes more difficult.

However, there are people who do the devotion even more earnestly when it becomes difficult, and Heavenly Parent is watching all those appearances.

We should not just be passionate when the atmosphere is passionate, but always have the heart that Heavenly Parent is watching you, and with unchanging heart and attitude, push forward to keep the standard high.

True Mother said that CP must be the place to develop in many ways, and we have many different WSs. There are many attendance and academy trainees volunteering to make these WSs happen, without notice, they sacrifice in every Workshop, thinking of themselves as the owner and engage like that.

I hope you will remember these who attended, like the supermen and women, these are the moshin attendance brother and sisters... applause

When I think about the trainees, when I ask, 'What kind of image comes to mind when you think of the coordinators come to mind, and it's as if they are supermen and women. And I hope Heavenly Parent guides them.

DMN said, 'If you think of Heavenly Parent, you would naturally want to attend Heavenly Parent, and if you love True Parents, you would naturally want to attend True Parents. It does not just mean that a desire to attend arises, but that you practice it in your life.

The Attendance Workshop is not to simply learn how to serve. It is a course to learn how to practice True

Love and realize the path of attendance that each person must walk.

Attendance with true love leads one to truly take on difficult task because of loving the other person, and feeling the other person rejoice even it means lowering myself. It is not by force, but natural by true love practice.

DMN sent this message of the essence of true love. But there was a trainee, as attending and it was raining, the word, 'Let me practice. Let me bring myself into action', those words lingered in his heart. And I was walking without an umbrella, and he came and put an umbrella over me. He was a little embarrassed at first to tell me his name and just said he was a member (just trying to practice true love, but then told his name was Qwan Han Nin... Han means Korea and Qwan means Japan. I told him, 'Wow, it seems like you'll be someone who represents Korea and Japan.' And in my heart I prayed that he would be someone who brings joy back to Heavenly Parent and True Parents... applause

Then he went to Cheon Shim Won and offered 80 bows and using the 500 won coin, he said he would flip the coin and if the number side comes, he would join yeongseong Workshop again and if the other side, he would join attendance Workshop. There is such a phrase, 'If you're curious then 50 cents.' The crane which represents True Mother came, and he felt that he needed to practice attendance, so he joined that Workshop.

At first his body was so sick that he wanted to drop out, and he faced complaint and dissatisfaction, but I pledged to be a child direct that resembles and represents Heavenly Parent and True Parents. I truly hope he will become the core member of Hangnam Church and make it prosper...

Another trainee, Nam Yo San, a soccer player. His motto was 'protect the goal post' but now his motto is 'I will protect Mother' He went forward with Workshop, not lose the foundation he polished in the last. The last day he got a serious injury of torn hamstring and received notice of termination from his team. He felt emptiness and despair as if everything was snatched away in an instant.

Tears came and he prayed to Heavenly Parent, 'Why do You give me such a trial?' At that moment, his chest became hot and he felt a strong pull to go to the Attendance Workshop came into his heart. He thought, 'Oh, this is Heaven's Will.' His resentment and sadness gradually changed into gratitude and determination to risk his life.

The Attendance Workshop was already 21 days, but hearing his story, I felt he should be able to still join since Heaven guided him. What's amazing is that while preparing for the soccer team, he came every weekend to the intensive prayer continuously, eventually guiding him to the Workshop... applause to him who made such a

great resolution

Heaven is working to guide all these trainees, and grace flowed.

VIDEO

many times together becomes habit, living together becomes habit, and whether a small or big sacrifice, living for the sake of others, and is what makes me happy, sharing True Parents to this world, and then a life of gratitude, even in small things... growing and feeling grateful, feeling joy...

thinking, 'Would I be able to do this later?' but if I have this experience, everything will be okay... Because True Mother really loves me, I want to attend Her forever... under True Parents's Words

We must live a life for the sake of others... If you live a selfish life, making others uncomfortable, you deny H law, not resembling God and aligning with the fundamental order of the universe and only then complete your character and only then receive true love and become true parents, teacher and owner.

As they offer their devotion, their practice only for True Mother, they grow and fulfill True Mother's Words one by one.

True Mother: From now on you must live salvation no longer through faith but through attendance. If humankind had not fallen, the path would have been for attending God, with your life and heart, wherever you go feeling that Father is in front and Mother behind you, Heaven always with you on the left and right and above and below.'

Every day the trainees sacrifice, volunteer and put themselves into action, while also reading these kinds of words, but not by force, only from their heart. They are truly our beloved b and s, children of True

Parents.

Even we are in chaos and difficult times, remembering True Parents's Words: forgive, love and unite. And they do devotions without being asked to do, but worrying about Japanese members in despair, and they created a session of hugging members with heart of True Parents.

testimony: The moment I hugged them they started to cry and I cried too. I wanted all crying to disappear. One told me, 'You must be a help to True Mother' and I felt I wanted to but was so lacking. I didn't know if I was doing well, but I felt that Heavenly Parent sent us to be a comfort to each other.

Until the middle of the Workshop, they sacrificed in ways as never before. Even some complained but then centering on True Mother's Words, saying, 'Let us overcome and become one.' These created a band on their own and resolved to do the busking. Some might say, 'Why is the band playing so loudly?' but they performed with the heart of sacrificing themselves.

To be honest, it was difficult to create a band, but because of their volunteering, it was naturally formed. They said they did not have enough members for some songs, but they will play another son and come back in the break time.

Testimony: I let go of my life and came to Korea for the Workshop, but I realized that I was full of my own thoughts. There were people I couldn't love or forgive, but I thought I would overcome this trial with resolution. Even about to give up, I was embraced by Heavenly Parent's big Love to realize my heart was misaligned, even thought I was living together with Heavenly Parent for 24 hours, then in my daily life I forgot, but when asked to practice the flute, but I couldn't do anything and was stuck in that room, then thinking, 'Heavenly Parent, how long have you been waiting to let us know, and I was grateful for our True Parents to meet Heavenly Parent Who was alone, even risking Their Lives, just wanting to share love. Of course, this path not easy, but I hope to return joy to HM and feel HM substantially, and then I could feel happiness in the Workshop.

testimony: going to the university of arts for 4 years and living in Germany and learning music all only to offer joy back to True Parents. Then she attended the Attendance Workshop, and felt to go to Korea for True Mother before hand. When we begin the Workshop, next is the performance, but the performer didn't come out to the applause when announced.

After a while, the sister walked out and was crying, and before he played he said he went into the room to practice, but the room was locked and no one could hear and she made all the sound she could as loudly as she could, and then felt Heavenly Parent's Heart Shouting to the children not responding and shedding tears, then someone opened the door, and she came later and played this song that was so moving for us.

Two people who were brothers were forcefully taken to the Korean War and they resolved to survive for their mother. And I then, when listening to the song, could not say my prepared words but focus on that message to move forward as b and s and become one centering on True Mother.

Our Workshop did not offer superficial or just formal devotion, but they put everything into it. We did 24 hours of devotion, and what was amazing is that they wanted to do more after that. They were calling out like that but the coordinator had to stop them. That is how HyoJN, HeungJN, DMN are inheriting their hearts and being trained directly and resonating with Heavenly Parent and True Parents/True Mother. This is the proof that Heavenly Parent and True Father and Mother are working.

testimony: I heard the Rev. Yoshoi Yokiaki lecture and felt to do all the remaining ancestor family during the Workshop by receiving unexpected money, after putting my whole heart into the goal of the Will. If we do this, Heaven will solve all our problems. Rev. Yokoi said that if parents could not do it, children would need to do it.

The severance pay came in suddenly and she could pay the entire fee. After that, she didn't have much money, but contacting others who also quit their job, they didn't receive it, for the entire time. Usually, trainees do not think about the liberations, but just offer for True Mother. But by this also could resolve personal problems.

How to attend Heaven is to attend OBD, True Mother.

True Mother's Words (there was a trainee who fulfilled these words) As I prepared the HJ Report, it changed into a song, a simple Korean folk song type of song, and one of our trainees who could compose a song, said she would create it. Late at night, it was accomplished. Even being curious without receiving 50 cents, let me share the music...

Mother! Mother! I want to attend you for thousands and tens of thousands of years

After the Cheon Shim Won all-night vigil ended, I barely had strength to open my eyes, yet I offered my bows with all my devotion and called Your Name with all my heart. Even though I wanted to just lie down and sleep, thinking of You, Mother, gave me the strength to get up. Kneeling on my sleeping bag, I called out to You with all my heart. If this devotion had been for myself, I probably would have stopped because it was too hard, but because it was for You, Mother, one more time " " I want to attend You for my whole life " for thousands and tens of thousands of years.

I'll do it! No one is making me do this. The love I have received is so great that I want to attend You, Mother. For my whole life! Every day I want to give You my love. Until the day You smile, Mother, I will attend You, I will attend You. I will attend You. My whole life! I will do it! " " No matter what anyone says, with this one heart, I will attend You for my whole life.

(song is at Cheon Shim Won Studio.. Tang In Jung, PL's wife, I feel can sing very well. I hope she will come and share her singing. We will share the link... Tang Gi Ung applause

We went to the museum but didn't have a good Place to give lecture so had to go to the 4th Floor of Cheon Shim Won Building, but trainees felt that this was not coincidence that we came where we have DMN's things exhibited. They felt connected to DMN, and as we moved to give lecture, without being asked, they carried all the tables and coordinators felt sorry for them that it might be too hard, but instead they thought of the trainees coming next could receive grace also in this place... applause

This beautiful culture of heart is spreading, and as they moved, special lecture, with DMN's things there, those receiving the lecture had a lot of inspiration there too.

Brother Kim Mun Dah gave a lecture of a lot of grace. When you go to CheonBo, there is one thing your will never forget. It's a small speaker where you can listen to DMN's Voice and feel Her Heart and what was going on at that at that time.

I am serving True Parents's Family at East Garden, but I am not sitting still. I pray day and night and do whatever I can as my strength allows. Do not let your guard down in your youth, a time when you are more vibrant and your blood is boiling. Do your best. Give your all with courage. Become a person who

can be a leader of Heaven, who can boast to the whole world.

To young people who have a boiling heart, DMN shouted to them as to all around the world. And to do my best, I am offering greater devotion.

The calligraphy, 'Devoted Heart, Serving Heaven' True Father gave DMN this... Our trainees walked the path with this heart like DMN, our young people truly becoming the CheonBo treasures of Heaven. But as we began this Workshop, 'How to become the Treasures of Heaven?' Heaven working through us is the way. But unless we sacrifice for this, Heaven cannot work.

True Father's Words: You will suffer for the sake of the greater Will. Then all people will follow in your footsteps. Who sacrifices their daily life for the sake of the church and who is closer to the tradition of greater devotion, greater heart. If a person at the very bottom tries to realize this Spirit of Love while praying day and night, shedding blood and sweat for the sake of the Will, whether that person is a woman or man, Heaven will connect a new work through that person, and open a new history. '

These words rang in my heart so deeply, and as I work at the TC, a lot of young people came and conducted the Workshop. From 2017, I saw many young people, but how many are still left not staying with us, and why? When I think about it, I always receive hints and messages through Yeongseong Workshop.

True Father's Words: It is because members did not push themselves and offer prayer and devotion for the Will... Yeongseong and Attendance Workshop. Parents come many times and tell me, 'TY so much for letting my child serve for the Will. If I didn't serve for the Will as a missionary in Japan for years, I would have left the Church. During that time, I felt how Heavenly Parent felt. I felt how Parents are moving and was able to realize how difficult it is for True Parents to push H's Will.

I looked to see, finally, my child can walk the path I have been walking. Please give more Word, and let them give more devotion and sacrifice more so that they can learn.'

Therefore, human beings must make effort to experience Heavenly Parent's Heart, not just serving the norms. There are those that would come half by force, but we only accept those who come by their own will, so there is not a danger. By believing in themselves and perfecting the Word to resemble Heavenly

Parent's Creativity and possess dominion over all things, even here one must fulfill their own portion to complete themselves, that is what Divine Principle says.

Because humans were created as the substantial object partners who return joy to Heavenly Parent through free will and the actions based on it, as in the Divine Principle, humans cannot become objects of Heavenly Parent's joy without knowing Heavenly Parent's Will and making the effort themselves to live according to that Will. If not, very difficult to put Parents in your heart and continue, cannot continue just by your parents.

I hope many come and attend, and while True Mother is suffering, let us all serve and sacrifice for True Mother, putting their own families and nations behind, instead of just receiving education, let us give all ourselves. Only then we can experience Heavenly Parent's and True Parents Heart, all that They have been through, and receive the greater inheritance. I hope our church can develop dramatically, each putting all their devotion and efforts in.

Break

Busking

Hoon Dok Hae

Every year July 20th is start of summer witnessing activities, 40-day that began 1957. All members did a one-week fast on July 1st, and it was also with Father's fasting that He declared this witnessing time, the hottest time when schools are on vacation, where one must sweat with their efforts for the Will. That is useful for establishing conditions of indemnity on a grand scale.

Members were sent to 120 locations for the first time in the Unification Church with only their travel fare and two sets of clothes, and to fast, work for 40 days eating only roasted grain powder, also told to start by working and begging for food. They went starting from the lowest position and overcame their

situations.

True Father fasted on His Birthday for 3 years. He ate food placed on the floor without even a dining table. And He had only 3 side dishes including kimchi and soy sauce. Such a path is of restoration. He even had to obtain the clothes to move forward.

Member went out witnessing without complaint or worry about money. Even while being cursed at, they would wake up at dawn to save a single life, making every dog in the neighborhood bark. Because of that they were pointed at by the villagers and since they could not work in the village, they woke up at dawn and had to travel about 40 kilometers to the workplace by bus.

With the money from their labor, they would return to the village, buy snacks like popped rice, have a party and give lectures. Such deep roots remain as seeds of Providential history.

They left behind materials that will remain in the history of the early church as this 1957 witnessing was set. They met each other in joy on the roadside and departed in tears as they rounded the mountain, hoping to meet again. These are moments you could not pay millions and trillions in gold to buy. Do you even know what kind of value that has? Aju

Pres. Lee Gi-seong's Message

Cheon Il Guk leaders are here and our devotion team piles up the devotion... The former Cheon Shim Won President and his wife are here applause

Today more than 40,000 are gathered.

Now, if you can, you must bring at least one more person so that greater grace will be bestowed around you. In the time of persecution, there was a time where people made their own cave place to offer prayer and devotion, so please do not think of the hardships as something to put you down. When you offer prayer at the most difficult time, that is when Heaven can work more and deeper.

In H Europe and ME, Russia, Albania and attending together, and Jardim and El Paso and San Francisco, thank you for your prayer and devotion.

639 long-term... GPP 19... total 227 long-term are here... Overseas volunteer Corps 19... total 82 Yeongseong and 29 in Attendance Workshop

I hope all around the world offer devotion for the trainees.

We watched the Russia video, that your heart can be in Moscow right now, where they are at war, in a most desperate place. I hope peace comes.

Albania attending and July 21st 24-hour devotion. Inheriting the devotion that our trainees are offering, they will set that as a new start for Blessing in the ME. At the place of tears, Heavenly Parent's Tears you can experience falling down with you, making a true relationship with you, allowing you to be true children.

OBD, our sister gave her testimony, her sister sharing the testimony... wondering, not being able to settle down, able to meet a person as a match... and the 3rd daughter guided very well, and I believe this family had a lot of tears in their course, but the public official there and UPA were able to hold onto her, and she wondered about this Workshop and how True Mother could receive comfort from it, and she realized that True Parents's raised me in the past and now and will be raising me in the future, so They are truly my Mom and Dad.

Coming closer to True Parents, she was able to spend the days after the Workshop and in it happily, having come on her own accord with the question, How can I attend Heavenly Parent and True Parents

substantially?' And this is the Place of True Father's direct education, that she could experience vividly, and receive realization, 'True Attendance means you have Heavenly Parent in side you to life throughout your life.'

John 14... On that day the Father will be in Me and Me in the Father and you in you and you in Me (something like that) and this is that time. True Parents's can be in us, and we can be in True Parents, and that was possible on the 13th Year of Cheon Il Guk, when True Mother gave the motto that will pass down from generation to generation, receiving all well and bringing it back. And you must accomplish 4PF.

True Parents came down to Manifest HPs. And we are always attending Heavenly Parent and True Parents, in the Main Hall, in your family's room, in your wallets, you are attending True Parents, and as we live in this era, what we feel is that the Center of the 4PF is not just God, but also True Parents of HEH, and you must realize this, let True Parents live in you and you in Them for HEH. So, striving to achieve that is the life you have been living.

Our God, Heavenly Parent, in order to wear the Body again, that Heavenly Parent could not wear because of the fall when Satan took that Body to form the fallen body. But finally the completed Adam and Eve of True Parents, Heavenly Parent was able to Manifest, and to show us God, it had been Light, but now when you ask for God in the SW, you will be able to meet True Parents.

So, throughout our lives, we must attend True Parents and be one with True Parents, and at the center of your family with husband and wife becoming one in that way, and in the position where they can love your sons and daughter and then accomplish a foundation in their family.

Even at your work, to form a 4PF, you must have Heavenly Parent and True Parents at your Center, engaging in that way, and such an era has opened. In front True Father and behind True Mother, above and below you Heavenly Parent with you. As long as you set the right standard, Heaven will give you the education and move through you. We must have faith in this and move forward.

So, as you receive grace through all the work you're doing by experiencing miracles, I hope you give testimony. The Era After Cheon Shim Won Entrance, and I hope you realize and feel this as a fact today.

The HJ Report about the Attendance Workshop. As True Mother established Cheon Shim Won, a Place to educate talented people to be pure water, like pure gold of no resistance to understand and read Heavenly Parent and True Mother's Heart, those who listen to H's Voice and read H's Intention of Heart, so the Cheon Shim Won Providence progressed to this Attendance Workshop, one level higher than Yeongseong Workshop, a Workshop of completion, done through life of practice.

The person who can attend Heavenly Parent well, in that position, wearing the body of servant and tears for the ground and blood for Heaven and sweat for people--you can complete yourself that way. It allows the spiritual body to form a completion spirit. Now is the time to study what it mean to have a divine spirit. And they shared their reports, and a lot of trainees sacrificed themselves, but parents may feel bad, but still want to push their children more.

The parents in the testimony said, if they did not go the difficult course of a missionary in Japan, they would not have received Heavenly Parent and True Parents Heart. And the time you are going to pass to the SW, instead of just passing down the money and inheritance you have, the real inheritance needs to be the life of faith, so that the children can lastingly be prosperous and happy throughout their life.

Starting the July 20th 1957 witnessing day, the hottest day, they offered fasting. In the hottest days, many rest, or take leave for vacation, even the president of the company. But in this time, True Parents push forward and push members forward. Why? At the most difficult place, you set the most indemnity. True Parents said to take only travel fare and not more than 2 sets of clothing, and wash every day with one to change.

He went out for witnessing with only one set of clothing and could not wash his underwear, so he just jumped in the river and set his clothes to dry on the tree and then went again. True Father said to set 40 days of fasting and only drink grain powder. In the past, every church had this roasted grain powder but now it disappeared. I hope you can experience this and know the heart of the early members. True Father directed like this, and during your birthday, like True Parents, they fasted.

True Father did not have dining table, but just ate on the floor with only 3 types of food, and all participated in this way or else they would be embarrassed to come out to the church. And one put his children with the cousins and went out for witnessing, living in such a way. That Spirit allowed churches to be established throughout the nation, as they went out as national messiah and put the FF Name, and

even now they still set foundation of prayer and devotion.

They were persecuted and mocked and finger pointed, and even all the dogs barked at them. they had to put themselves in labor to earn money. They would buy puffed rice and give it to people and lecture at that time. So, now the members of that are deeply bonded and meet with joy and part with tears. With this heartistic bonding, the world will revive. You must experience how deep our bonding can be, and this is the precious thing that we leave behind.

Those about to ascend who came from this, I'm sure will be remembered as the greatest, them being the king of their own tribe and nation and can call all the spirits to follow you to move forward. The title national messiah, how big and grandiose that title is, and you will have opportunity to ascend to the highest Place. So, please do not spoil it or devalue it by devaluing the Parents Themselves, especially now the OBD True Mother.

Heaven's Message to 2nd gen trainee:

Our Mother is the One Who sheds the most Tears. Our Mother sheds tears for Her children. That's Who She is. True Mother went into the DC for the humanity in this world. She put all the responsibility on Herself, pushing forward for the Providence, for the people of the world.

Our True Mother is the One, as She thinks about Heavenly Parent, sheds the most Tears for Heavenly Parent and for us. In the past, whenever She would say, 'God,' She would well up in Tears. That's how valuable our True Mother's Tear is.

As we were born and as we were raised, I'm certain that more than 90% of the time, we shed tears for our own sake. But listening to the Words of Principle and as our True Parents raised and nurtured us, they taught us to cry for the world, but many still shed tears for ourselves. That is the lowest-level tears we can shed.

True Father as He went from the South to the North, He shed tears from Seoul to Pusan. If I leave this nation, what will happen to this nation. He shed tears so much that a lady in front of him said, 'Did you lose your family?' But our True Father shed tears like this for the nation, for the world, clinging onto the sorrowful and pitiful spirits.

Our True Father's goal is to liberate Heavenly Parent. Heavenly Parent is the most pitiful Person Who has all the pain within Himself. So, my goal, my dream is to liberate Heavenly Parent and the SW from hell. That is why True Father and True Mother shed tears. Compared to Their Tears, what is our tears as Their children? I hope you think about your tears. When your tears have the same value as Theirs, and then you will want to shed tears endlessly, and entering that position, you will instead feel joy and love, ascending to that position.

So for the next 40-day period, let us make difficult things for ourselves, setting this period as a witnessing period and thing what you can do for the victory devotion, have you own goals and plans to offer, and set 40 days, plus 3 more days until Mother's final verdict is given, and let us all absolutely become one with HMM and then experience the amazing work of Heaven.

We will see Heaven's Blessing realized on this earth. Our Workshop trainees must overcome your limitations with your devotions and I hope as you pile up another tower of devotion, your receive grace in your devotion tonight... reawakening our hearts
