Opening Prayer of Gratitude

Most Honorable Heavenly Parent

Beloved True Parents of HEH

We give thanks for the grace and love that led us to Cheon Shim Won allowing us to offer devotion with one heart and mind for the well-being and acquittal of HMM True Mother. We believe that the prayers of Cheon Shim Won will not fall to the ground but surely bare fruit and the devotion of Cheon Shim Won will become the condition for thousands of AGSs to work and be the most perfect condition through which True Father Works.

As we offer our devotion upon the precious altar of Cheon Shim Won, please bring the Holy Spirit. When on earnestly implores before Heaven while risking our live, Heaven cannot ignore. Please let it be so among us, that Mother no longer Walk Alone and sandstorms no longer blow on Her, all attending with one heart and mind.

We believe, if all BF's move forward, mobilizing the SW, impossible becomes possible and all blocking Mother's path will be cleared and all Truth be brought to light and all will flow according to the Will desired by Heaven, and You command the Cheon Shim Won for such a work, with our life-and-death determination for our HMM True Mother. We are the happiest and most glorious children, as such with nothing to fear.

We will mobilize the SW and march forward strongly and boldly with True Father in the SW and HyoJN, HeungJN and DMN working through us. With devotion, a marvelous power arises and the person of devotion will surely succeed, and remembering those Words, we will do our utmost to move Heaven, and

we wish You would lead the entire schedule with Heaven's marvelous work today....

'The Day When the Wind Lingers'

"

My Mother's Voice echoes in my ears

Even if we are apart and time passes

Just the same as yesterday

When the darkness grows deeper

I picture my Mother's Face

When I stand before the mirror and smile

The Face that looks back at me,

How can we look so much alike?

The songs we sang together became a blessing.

" has become a memory like a gift

In the wind I hear

Your laughter that I long for

When the darkness deepens

I try to picture True Mother's Face

Stand before the mirror, if I let out a smile,

The reflection gazing back at me

How can we look so much alike?

The songs we sang together became a blessing.

The road we walked together

became memories like a gift
to the wind I hear
I long for your laughter
Carried within the wind
I miss the sound of Your Laughter so dearly

"

When I stand before the mirror and smile,
the Face that looks back at me
How could we resemble each other so much
The song we sang together became a blessing

heartbreaking news last month
and earthquake
For one mother it is a day when she lost her child... In Northern Venezuela 2 big earthquakes and livelihoods crashed
Buildings were crumbling down... and losing children... losing daily lives... losing our tomorrow
lost everything overnight... not just the buildings collapsing but everything for a parent...and now still looking desperately... I'm so desperate... I don't know where my child is trapped in... because, every day increased numbers of casualties, a 3-year old and 10-year old found dead... We have nowhere to go, no

house, many lost their jobs...

The thing I want is to see my son alive and whatever it takes to get him out. I still believe my son is alive, and waiting for people to support us. There are people trapped in the buildings, but we don't have the resources...

With the Women's Federation, we went out. My dad injured his leg, but we went out. On the tenth day, we were able to find the bodies that left this world. It was so difficult. The way is to rebuild this Venezuela and I continue my volunteer work and we need a lot of support (tears)

Loving our b and s, that is the completion of b and s love. If we have a b or s to love instead of a parent, you completed to work of a parent, you beloved sons and daughters of True Parents. What is True Parents's Dream? It is one family under Heavenly Parent. Where 2 billion people attend Heavenly Parent, that day is the Kingdom of Heaven on earth, you who resemble the truth, the Life and the Love need to become Their Embodiment.

So, you shouldn't just think to receive, but as True Parents have shown, practice true love, when even you support and give, you feel to give more. In that environment, you have those responsibilities. That is the way to unify the world. Do you understand?

True Mother has taught us true love, with the heart of a mother losing the children, that is the same everywhere. You love can save a life and many lives...

SUPPORT FOR VENEZUELA

We hope Heavenly Parent's Grace and Warm Hands continue for the Will

Report on the earthquake in Venezuela

National Messiah I Jon Mun

Beloved b and s around the world, hello everyone. For 33 years, also in Bolivia, Columbia and Guyana, I am a missionary, and coming back to Korea a pastor in Muyong Church... I extend my gratitude for the video to our H Central and S America Cheon Shim Won...

This is the capitol. It's 900 meters above the sea level. This is the angel's fall, the highest in the world, so beautiful, and much beauty and also oil. So in the 70s, they did not build other infrastructure, but relied on this oil. And this airplane, is was a time when Venezuelans would shop around the world to buy two of the luxuries, also real estate without even asking the price.

However, because of the socialist leader/dictator, one place they said the left is right, but there was ideological war with violence and then the economy went down, and all the currency, because of the super inflation, they used the currency for other things with the values changing. They also would throw out the cash... and those witnessed to are sacrificing for the nation and witnessing, and through the Peace Road, and the government officials have the monkey salary for a dollar, that was raised to 30 dollars to support a household.

It was before Maduro, that we had good relation with the government and 120 missionaries had a lot of persecution, but because of the mission we could do like a guerilla-type witnessing and the previous gov. fell and the new Catholic one also received persecution, but we received support from the Catholic Church.

These are the crowns gifted to True Parents during the Coronation Ceremony. We educated military and police and True Mother was able to come here twice, in this really dangerous nation with drugs and firearms abundant. True Mother toured Columbia, Venezuela and Chili in the tight schedule. And True Mother gave the Words to reach even one more person, and also the 3 gen came and gave messages in speeches, and many were moved.

And 5am in the Hoon Dok Hae True Mother gave the Words: There is a SunHak Children's Choir in Japan, and for the future, they will make it, giving money and signature and comfort for all of the missionaries.

And this is the Principle of the Santa Maria University, so moved, and became to A for P. We could do witnessing in this university with support. And doctorate was given to True Father, doctorate of humanity, the fourth that True Father received.

Overseas, they don't really do this, but we were able to make this SunHak University Choir, educating with the instruments and all involved are good people. And during his tour, the leader and native son gave support, visiting each family and praying for the difficulties of the members with sincerity like a father... Branch Preside and Elder staff and Kim Dong Oh Director educates them... applause

And we are able to see them growing there... And this couple, she is actually a doctor and becoming a national president even though she is not receiving money, selling her medical books to continue her mission work. She received death threats through the government and is in refuge in Europe... applause

As rep of True Mother, there are a lot of missionaries. And today is 1,000th devotion, and a missionary couple did kindergarten for children and currently living in Canada, really educating this...applause

This mission is not done overnight, but those educated in Cheon Shim Won are going to S America and the world, and I remember the heart and passion I went to mission with years ago, and so grateful our blessing gen is having this love and educating. A 16-year old youth participated, and actually became a member of the Congress.

He approached me in San Paolo in Brazil and he became the head... at an event and where we were attending True Mother, and Juan Guaido, his name, a true President he became. The other a dictator. He moved to Miami as a refugee, and America said he will leave his position and will not be punished, but eventually he was captured by the US.

So, it was a state of almost anarchy. The VP actually was assigned by Maduro. So, there is still corruption. And they will actually steal money from those going through the check point, and they also had an issue with earthquakes.

The very first team of the volunteer work were our Church, WFP and they share all the supplies they have really with the heart and spirit True Mother has exemplified, and they do their best.

One of the incidents, there's a lot of broken facilities, but no member in our FF were hurt, or only minor, none died. An elder missionary is living diligently even in this difficult situation and she continues doing tithes. We are able to see the Venezuela have her support greatly.

She had a heart to witness to youth in the universities but 3 leftists actually violently attacked her until she fainted and couldn't move for 7 months, but recently she was meeting a reporter of the newspaper. And she has a whistle and holy salt and to save the news reporter when the building suddenly collapsed she blew the whistle and shouted out and after 4 hours, she was rescued, but after treatment in the hospital, the news reporter actually died, she found out when she was looking for him.

But trying to fulfill Mother's Words, we see that none of us have died. We are receiving donations in Korea and Japan and all will be used to support Venezuela, so we ask for your prayers.

True Mother's Words

I cherish each and every one of you in My Heart.

The day I go to the SW, I want to keep in My Heart the joy of having walked this journey together with all of you...

Rather than talking a lot, I want to keep each and every one of you in My Heart and Memories.

'As the Time Goes By'

I'm sorry. TY. There were so many things I wanted to say, but I kept them in My Heart and looked only to Heaven. These many steps we have taken are love given by our Parents, the irreplaceable love for children that has come down from Heaven... Now I can express it honestly. At last, I am finally able to love... May our youth and our time become the wind, so that they may give you the strength to soar toward Heaven... Even as the months and years pass, it won't change... May our love remain forever...

True Mother, you Dream is our dream and through our tears we will become one. We will return to You, True Mother.

HJ Report

Associate President Rev. Yokoi

The special prosecutor has recommended 13 years for Dr. Hak Ja Han of the Unification Church. It was so shocking, the OBD Who has no fault, that this nation, this government... How could it be?

But I was able to receive this Message at the 3-day Workshop, in June, we saw this Supreme Court dissolution, and also July 10th, this recommendation... In the midst of this, I believe in the importance of the 3-day Workshop, and what would have happened if there was no Workshop.

Message: True Mother: I have dedicated My Whole Life to realize one family of peace, through the True Family Movement... traveling around the world emphasizing that we must attend Heaven. However, My Heart aches so much that a person whom I entrusted with everything brought about a result like today.

Even now, wars and conflicts are causing bloody fights around the world, but I cry out, 'Let us attend Heavenly Parent. At this time, when all countries around the earth can attend Heavenly Parent as brothers and sisters countries and achieve Heavenly Parent's Dream of Heaven on earth. Let us become one.

I believe Heaven is alive. Heaven will surely realize the Kingdom of Heaven on earth. The 2nd and 3rd generations of the Unification Family who can take charge of that work, are moving forward toward the world as true children attending Heavenly Parent.

Centering on this April 2025, I have created an environment that fulfills the Dream of the Heavenly Parent on earth. It is a fateful and grateful thing. Now that we have made ourselves known, there will only be thriving and prosperous things to come.

Therefore, I believe that the long-awaited, peaceful world of One Family of Humankind Under God will surely be realized. I will continue forward toward that goal, no matter where I am until the day my Life ends.

I will pray that this country which has received the Blessing of God, may become a country that fulfills its responsibility (unlike the forsaken of Israel) and that its people may become its citizens.

We are not stopping, but we need to move forward even in this situation as direct children of True Mother. Therefore this Tenth Cheon Shim Won resonance prayer 3-day Workshop has meaning. True Parents have prepared this. The participants who registered here, 430 people, I felt that, for us, we have the mission to really fulfill the Heavenly tribal messiah responsibilities and restore the world.

I really felt that Heavenly Japan as the Mother nation has the responsibility I felt the Words that PL at the Academy read of True Father's Words:

Whatever you do, you must first establish a heart-centered standard. Only then, you will not be shaken, a standard not just heartistic, but of becoming one with True Parents. Only then can you move forward

without being shaken in any circumstance.

Because of Heavenly Parent and True Parents, we have become Their children, but your sphere of life has a fallen environment. Therefore, we may be shaken. It means that we must properly establish the heart-centered standard, that the standard we move forward with is that of Cheon Shim Won, so that no matter what, you will be able to move forward.

The Light of fortune for H Japan will surely come, if you offer cheonshim as the standard, H Japan will surely become full of H's Blessing.

When you believe that Heavenly Parent is Alive and Working, even feeling broken hearted, even the harder it gets, the more you concentrate, think of Heaven and move forward, so that a great Blessing will come and last.

H Japan members, I feel so sorry and grateful. You are children who have tried to move forward with AF and AO to Heavenly Parent and True Parents. I know that no matter what trials come, you will come out with an obedient and grateful heart. H knows and True Parents know what kind of hardships you have come through. Therefore, I hope that you will never give up moving forward in this most difficult time and will become chosen BF's of Heavenly Parent and True Parents, moving forward as H filial sons and daughters. Amen

True Father really wanted Japan to be the chosen people. Looking at the situation, we couldn't help but shed our tears. But True Father is really enduring with the Heart of embracing our Japanese members and giving encouragement. We need to understand the deep, deep, deep Heart of Shimjeong of our True Parents. If we realize that, we are able to stand up.

A lot of our volunteers really help us. And whenever there is a 3-day Workshop, and a special Workshop, volunteers come from Japan...

video testimony

Why did you come all the way from Japan to volunteer at this Workshop Place? 'By thinking what I could

do for True Mother.' It brought me such joy to interact with everyone that came with such sincere hearts. Although I cannot fully know True Parents's shimjeong, I felt I was helping in some way to convey it.

Standing on stage as a staff member, I felt I was delivering love to all the attendees.

Who do you most want to bring to this Workshop. 'I have an older and younger sibling that distanced themselves from the church, and I want to bring them. I just want to be a source of strength for True Mother'

In the Workshop, we can realize our position as direct child of True Parents, but also afterward you have chance to love others, resonance shimjeong and help others, receiving even greater grace as those who participate in the staff, the praise team...

During the Opening Ceremony, one brother always comes and sings, 'Save the World with Cheonshim' and this is really very moving. (The Cultural Department Director Kim Yong Oh...

His interview:

It is an original composition. It is a song of our Church. Therefore, there is absolutely no problem for the Japanese members to sing it any time. In fact, I think it is a really good song, and I hope you sing it often.

Some time ago, Associate Director Yokoi asked me, 'Since there is a 3-day Workshop, and we will be singing this, could you come to the front and sing with them?' And I didn't hesitate, because if my small talent could bring the Japanese members a little grace, I wanted to run from my schedule to stand on stage for them.

I actually counted how many times I sang on that stage alone, about 250? times and in the past I had a chance to sing directly on March 23 last year in front of Mother, and that was one of the songs, during the visitation at the DC. Those songs linger in my heart still today, and I want to convey that song to the members that I sang for Her back then, as much as possible.

How can I pour even a fraction of True Mother's Shimjeong into these lyrics and sing to everyone. We are facing this trial and hardship so that we can fulfill the Mother nation responsibility. I'm not sure if opportunity is the right word, but I hope it it a time to become one with True Mother and resonate with Her profound Heart, unite with Her even more and overcome these difficulties together...

This team leader, whenever I talk to him, I receive a lot of love and heart. When he comes on Thursday and other leaders, I hope we support them.

Interview... the group prayer for b and s, and each of us felt these are the children True Mother really wants to reclaim, and for each others' families and friends and continue to walk together with b and s, my family (and they hug and jump/bob together)

another... so full of grace... they prayed as if my prayer topics were their own, and I gained confidence that it could still be accomplished, overcoming anxious thoughts, I absolutely must do it, and so grateful for those who prayed for me, and we are connected especially so that I want to keep this connection forever...

Omonim, we love You... Kamsahamnids

the similar thing is not just praying for each other, but praying with the Heart of Heavenly Parent and True Parents for each others. Praying for others is the answer of how to draw close to the Heart of Heavenly Parent.

another: I missed my flight when departing and I felt the weight of my past problems and inadequacies, but determining to offer my absolute best. When I heard there was 430 and I was the very last one, I felt that Heavenly Parent had truly called me here, really wanting me to come.

Lecturer Hara Ashi, said praying with the honest heart is a true prayer. My desperate prayer was crying out to True Mother, 'Mother, you son has arrived. I have come to protect you.' I realized what it means to empty myself more, and it means letting go of the eyes I saw myself with. Heavenly Parent always thinks of me as a direct child. I really had to surrender the version of myself through my own eyes, so that I hadn't really believed it and lived my life unaware of it.'

another: So sorry that True Mother bares the cross for 2nd gen. I usually do this at home where I can't raise my voice and my heart slackens a bit, but here I could give my all to give some strength to Heaven.

another: With Mother's situation, I was just filled with apology and wanting to give something back and I pray Mother's innocence will be proven as soon as possible and that She could be returned to the Palace.

Also, there were only 429 participants present, but I already told PL that there were 430, but I had regret because one person didn't come, but with the heart that even if that person didn't come, I would register. But just before the Workshop started, he was sweating saying he was late. Half of my heart was kind of angry but also so grateful, and we proceeded with the opening. True Father was solving all these things, and those who really didn't participate, try offering devotion at the right time, and True Father will call you here.

Also, there was resonance prayers and awards.

I prayed what kind of Shimjeong True Mother was having now, and I felt True Mother so wanting to save the 2nd gen and that I wanted to help Her somehow.

In the past, I distanced myself from True Mother, so I prayed hoping 2nd gen encounter the love of Heavenly Parent and True Parents.

During the praise prayer, the 2nd and 3rd gen, realizing True Mother emphasize the praise prayer where we can directly receive grace better than an hour lecture, and through the culture and arts, I realized, to move the heart of the world, share this arts and culture and our prayer directly connected to Heaven. I have this conviction truly.

Last time, Mr Huta came, but this time Victory of the Family Church, when I asked, She said she received

F's Message to come here, and was really fully participating, and True Father would come and give her a lot of message, Miko Akaniko. True Father said to me, 'Go in July' He chose this specific date.

'Are you going to just leave True Mother like this? Everyone needs to go tonight and establish a condition to protect True Mother. Everyone wants to do home church and family church, but they don't know how to do it, so go and teach them. And the love I gave you was not just for you. Go and distribute it, convey it.

This stands as a spiritual condition, but you have to move in substance. As it stands, right now Satan cannot touch the Blessing of us as substantial beings, however Mother is being made to take responsibility for the things that we have failed to do in substance.

It is best if everyone truly rises up and brings result. But even there is no result, everyone needs a condition together to work towards it in what allows the SW to intervene for works to take place. He told me to go and appeal this to everyone.

At Hoon Dok Hae I was reading fast but I couldn't hear the message. The Unification Church does not exist for itself or for the sake of others, for the world, the nation. I felt we had not done that in our daily lives.

'As long as I remain, God cannot work.' The reason God could not work is because of our own fallen nature. Regarding the natural world, I felt while doing Hoon Dok Hae in my family home church, True Father taught me something, how God made this universe with a bubbling joy, and to re-create myself with that same heart. And this time is the very time of shimjeong, so deeply during prayer and the Word, I truly realized that True Mother is uniting with the Heart of Cheonshim to re-create us to be one with cheon shim.

I had that realization and with every aspect God and True Parents governing, can feel in in the heart of the staff, how Mother's Love naturally springs forth from everyone, resonated and transmitted right to us. applause

I went to Cheon Shim Won, and after those words, I asked, 'How do you view this sister' and I heard, 'She really is a filial daughter, investing everything for the members of Japan, a sister of shimjeong. And you

were able to hear her testimony.

another: Trainee Joboto rul... He was working for a very long time in the Japanese HQ, and there was a lot of results made by him... and he gave a confession:

'When I first head about the CP Providence in the 1990s, the Divine Principle contained contents about the salvation of spirit persons through the cooperation of the 2nd and 3rd gen?, but there was not content about liberation of the SW, but no content at all about ancestor liberation and ancestor blessing, so at first, I could not easily accept it.

This could be deeply understood when Rev. Yokoi spoke about it in the 39th chapter. I repented about it and came to think that as part of the CP and Cheon Shim Won Providence, it is a separate Providence and there is no room for doubt that it makes a great contribution. However, as we transition in the final stage of the victory of True Parents and HMH, I had some feeling (past things) did not connect well with the current Providence.

However, seeing the video of 2nd and 3rd gen leaving and True Mother shedding tears and saying, 'I don't know what to do? How did it come to this? We must bring back the 2nd gens through CP.' Her Heart so deep to make such a great struggle, was a great shock to me at the time. It was such a strong shock to realize how much I had been organizing and understanding only with my head.

I could feel even a small part of this Heart of Shimjeong pierced so deep and was finally able to experience, if even slightly, the meaning of becoming one through Heart of Shimjeong, not just with my head.

I realized that I had hardly understood the Heart of HMH at all until now. The HMH Who was about to enter the Cheonwon Gung and establish the Holy Sanctum. I had ended with just imagining with my head.

I repented, and from now on I must truly seek the Word with prayer and praying again and again seeking that shimjeong.

Secretary General at Closing:

We sincerely thank you for making the staff of no hesitation and how much he did for Japan and prayed with tears. We will do our utmost so that Japan can feel at ease. These words showing he really loved H Japan. So grateful he is with us.

Starting August 1st the Seonghwa workshop, we have one slot left. H Japan will surely be victorious.

Hoon Dok Hae

True Parents desire unceasingly advanced. When I go to the SW and say, 'Heavenly Parent, I have come. I know that the Heavenly Parent will come from above and hold Me and hold Me with Tears.

Everyone know that True Father is truly with us right now, never leaving our side for a single moment. He is simply in an Invisible Form. What do you think He wants from us right now? It is unceasing advance.

God's Providence will continue throughout the entire world, continuing with our True Parents, until love and peace overflow, the culture of heart is established and a new order takes root.

During the 40-day period following His Ascension, True Father met Providential figures and experienced the Heart of Heavenly Parent Creating the universe. True Father's Thoughts and Mine we the same. True

Father and I will conclude God's Providence with one Heart, one Body, one Thought and one Harmony.

Particularly with My Intention to renew the Spirit of the early church, True Father agreed 120 percent. Today, is the start of a new Providence. Since this is the time when True Father is making a new start in the SW, we much match that with True Father on earth and make a life-and-death total investment for the settlement of Cheon Il Guk.

For 40 days following True Father's Seonghwa was a preparation for the Ascension of True Father, needing us to become One Body and One Heart. When I said that I will re-establish our Church of the early days, with a living/breathing Spirit, True Father said, 'Omma, TYSM!'

Having a Spirit and Truth Holy Ascension, there is so much that must be done. We, F in this age and our BF's, we directly True Father's Words. Although we could not fulfill everything according to the Word, even now we must live such a life, thinking of ten years as one year, making a life-or-death determination and total investment.

President Lee Gi-seong's Message

Going over 1,600, now 1,612, with all my heart, welcome and congratulations.

Internationally 41,000 are gathered with one heart.

Cheonwon District 188 are here participating

H Japan, the Nagano Church 800th vigil... 430th... 33 together gathered Nagano... and tonight 14,300 Place are connected H Japan

Russia... Albania... 3rd H EUME 40-day WSs connected together... Spirituality Workshop, they are challenging with 24-hour devotion starting July 22nd, and we can see them connecting to the HQ, and Yeongseong and Moshim trainees offered it so sincerely.

Also Europe with determination to challenge themselves and we truly believe amazing great works will happen

Albania, we saw the video, such fervent and passion jeongseong.

In front of the DC, 243rd devotion marked, they are united with the HQ, and really holding up to True Father, and repeating His devotion, and gathering the hearts of love for True Mother and pleading for answer to our prayers that this be the devotion to receive True Mother's return and exoneration.

More than a thousand are gathering commemorating the 1,000th devotion in Japan and I Bong Sok and Mori President... and the great SW will be together, a time when both the SW and PW resonated and became a new starting point of amazing works, and surely H Japan will see greater works.

230 churches offered devotion in the Cheon Shim Won prayer rooms dedicated. And if all do as this, it is a faster and greater way for the works to unfold, centering on those prayers, everyone practicing, great works not before seen.

Venezuela earthquakes, July 24, 50,000 are missing. They receive such trials and tribulations... One person, the national messiah of Venezuela, that nation True Mother really Blessed to have such hope, and through this Workshop, I truly hope all of this dark history will pass away and new history unfold.

With your heart of love and support, we truly believe Venezuela can embark on a new start through your support. And the fact that not a single person from our church died. Also, our young sister rescued after 4 hours. If all of us truly I believe resonating... Let us remember with b and s love and support as you can. If able to offer through your church, it can be a great support and help.

A great opportunity to share with others how our FF members truly are contributing heart and hands and see even greater works of witnessing and let Venezuela be re-created as a H nation.

Albania Workshop trainees able to see how sincerely and desperately they were offering their prayers. Some say why should we cry in our prayers, but with this culture/tradition of HQ is being out to the frontlines with the deep Heart of Heaven when we resonate, we can see great works.

Associate Director Yokoi giving the report on July 10, the recommendation of the special prosecutor, but the resonance prayer time really cast away the dark force, so that we could gather earnest and sincere prayer for defeat over the dark forces. So, the more we are receiving persecution, need to pray and gather with greater voice.

If we really see more people gathered here, the dark will be cast away, and let us be seen in the darkest times, shouting Oeg Monsei. As True Father showed, in any situation, sacrificing with Blood, He shouted Oeg Monsei, and be victorious in the end.

Through the dissolution, I believe all will be gathered as the substantial manifestation by those who felt this heart being substantial beyond any situation and not losing their strength, fulfilling True Mother's Words.

True Mother: Our beloved b and s of Japan, please have strength. This was the very first message of True Mother. If you are in a powerless state, you need to have strength that Heaven is absolutely not being silent. We are able to see this through the Cheon Shim Won special devotion, not just lying down but able to see, witness, hear and know how Heaven is knowing.

That's the reason we sing 'Way Maker', that the composer really thought about the Korean land, and is a song Heaven has gifted in this time to know and see the Providence of God advancing through this Cheon Shim Won devotion.

No matter what trials, Heavenly Parent's Dream will absolutely be fulfilled. That is the reason for our strength. All our devotions and prayers are known by Heavenly Parent. And we gain strength by True Mother's Words that in the times of trials, Heavenly Parent has unfolded a new Providence, and in fact, the filial sons and daughters are being born, the loyal sons and daughters are being born.

These, when they are able to grow, we don't know what will happen, although difficult in the eyes of human perspective, but a new path is being prepared and opening for H's Will. I have that conviction, and H Japan can eventually soar high from running now.

True Mother in front of the court: Assoc. Pres. Yokoi gave these Words: We should never hurt True Mother's Heart anymore. We need to fulfill Her Words.

I believe Heaven is alive and will surely realize the Dream on earth. The 2nd gen or True Father who are moving forward can take charge of that work as true children of Heavenly Parent and True Parents.

Those who were praising up front, those are the Cheonshim candidates of these true children. One of the yeongseong and moshim and academy trainees were singing, and can you see their confidence. Some had the heart the same, that if they cannot see in this time, they will leave the church.

Especially, resonating with the heart of HyoJN and HeungJN, they will be transformed and not afraid of anything, but to fulfill the greater life for the greater Will of Heavenly Parent on earth, and the environment is created to fulfill it.

True Mother: 'Now that we have made ourselves known, only prosperity will come'

All of the owners of Cheon Il Guk should be able to prosper. We need to determine ourselves. If we don't prosper, there is a problem.

When we are able to be prosperous. This vigil devotion needs to be prosperous. Today 180, tomorrow 189, then 190. In all of the things, never making a deficit, a minus, only a plus.

True Mother has shared Her resolution to continue to move toward the goal until the day Her Life ends. She will advance even in a hospital DC. And let us pledge with Her that we will move forward and are prepared to die.

So, if you are in a deficit, whatever we are doing in any circumstances, like our True Mother we are able to be advanced. And even after going to the SW, we need to advance. Like True Father, not at all still, but

together with True Mother, and we need to match His steps, and She shared Her determination, praying that his country fulfills its responsibility like a 2nd Israel, that its people may become Heaven's citizens.

Now, those who are fulfilling these words are you True Mother and True Father have trusted us to risk our lives and practice and The prayed. Because True Father doesn't have a Physical Body, He is pleading for us to meet the standard that True Father can work and also the SW, for those great works, drawing down Heaven's authority and the Cheon Shim Won Providence, and we must liberate the central spirits of resentment, which the entire SW must support.

We need to stand upon the firm foundation of the past and show what works can happen, resonating and witnessing with the Heaven SW. This 3-day Workshop, all of the Cheon Shim Won resonance prayers and atmosphere of HQ, you need to bring this to your frontline of your churches, to your filed, to inherit everything.

There are complaints because of the noise, but we need to move to where we can shout and prepare our places for that to move the Subjective SW and feel that the Will is being fulfilled with our all today and the entire Palace... there is a spiritual shower here to participate in these prayers.

Even when we simply speak 'thank you' to the water, the particles change form. Because 70% of our body is water, when we enter into that deep, deep realm, your body and mind will resonate. When we have the wrong idea and thoughts, the wrong way will resonate, but where we feel Heavenly Parent's Presence and experience the love and shimjeong of Heavenly Parent, let us pray to experience that really, tonight.

(Now, is the time that we believe True Mother that True Father is listening and involving in our prayer, believe this and realize this when we shout)

Prayer and Praise

True Mother Blessed us that now there will only be flourishing ahead of us. We are so grateful. Upon the foundation of this Cheon Shim Won, this is a moment confirming that Heaven is alive and working, allowing the foundation of the 900th foundation to be build before the unjust liquidation of the religious organization and caused the H Japan family to build the eternal home church even the external building taken away.

Pres. Hori and all members feel the Family of substantial Heart rather than just a religious organization, the H Family Federation new start. Heavenly Parent Who lives and works, we thank You.

Since July 22nd, the starting day of the 40-day devotion of HMH our True Mother. Now a new start of the H Japan FF, with members from around the world truly uniting and being one with True Mother, Heavenly Parent and True Parents Shimjeong...
