Opening Prayer of Gratitude
Most Honorable Heavenly Parent
Beloved True Parents of HEH

Today, while embracing a heart of yearning, Your precious children have gathered in this Place and we sincerely thank You for being able to welcome the subject partner SW attending True Parents of HEH.

Our True Parents Who we miss so much and long to see, before we knew it, time has already unleashed 304 days. Though we who are so lacking, feel so guilty even to look upon Mother's Holy Visage and do not know what to do, we gather with heart of wanting to see and attend You.

Please let today's devotion move the cosmos and move Heaven. We earnestly desire and pray that You will grant (greater strength and) peace to Mother's Heart, as our cry spreads out to all nations centering on

this Cheon Shim Won, we earnestly desire and pray that you will hold onto hope.

Most Honorable Heavenly Parent, now the vigil devotion at HQ welcomes its 1,613th Session and has already obtained its 1,095th Session. As all churches pile devotion with one heart and one mind, we believe that we can achieve victory with the alive and breathing AGS world, alive and breathing.

Heaven is Present and we have real witness that True Father is working. Let us move forward toward absolute standards and inspire You more to work. How could we who have experienced Your Love and walked alongside True Parents, ever give up.

And seeing how True Mother endures, let us walk together with Mother and drive our roots more deeply into Your Heart, and no matter how difficult or sad, we are people not ashamed before Heaven. We pray the countless righteous people can be found. And for preservation of Mother and Mother's Dream and Will...

True Mother's Words after Father's Danbury imprisonment

Compared to Unification Church members around the world, all of you pride yourselves as having received more Love from the Bosom of Father than anyone else. The people gathered here are all leaders. What I want to convey to you is about how many Words you have received until now and the Value of those Words cannot be measured. Please think about this yourselves. Regarding even a single command given, do you think you have all carried it out?

Meetings are fine as you have done until now, listening to Words and making new resolutions is fine, but I think that now you must have actual results that you can show to True Parents.

Before speaking about the Message to be delivered this morning, if there is anything I want to ask of you that you stand in a position that you sincerely repent before Heaven from a purely earnest standpoint and seek the path to stand anew.

July 20th 1984 was truly a day I wish could be erased and made to disappear. Until the very moment of departure, He encouraged you, and He went away still feeling hope in you. (Mother has blotches on Her Face and red nose from crying and is difficult with emotion but keeping Her composure)

On the 20th, while departing from East Garden, accompanying Him to the Main Office, I made firm resolution several times, but I could not help the tears flowing without My knowing.

Until He got out of the car, seeing He was not worried about what lay ahead for Him but instead concentrated all His attention on comforting Me. (Mother wipes flowing Tears).

I could not bear it. At that time, the guards over there said after Father went in, 'Now, He is in the trap.' Before leaving He repeatedly told us, 'I am going even to liberate the prison, urging us not to cry for Him, but to pray for the accomplishment of the Providence.'

Yet, upon hearing Words like that a sorrow that I could not suppress welled up in Me. I am saying this because I want to ask everyone to please act responsibly. The phone call given to Me today and the Message I want to ask of you, it is nothing other than the instruction that you, having received the Calling to take responsibility on behalf of Heaven, must kindle the beacon of fire for Christianity.

For you who face this era, and also from the perspective of Parent/child relationship, standing in the Position of True Parents, this is now your last opportunity. I consider this to be the final opportunity that Heaven has given us. Please fulfill what we have been doing thus far, and what is being directed and carried out now, by pouring in all of your utmost devotion and energy.

Heaven will be moved by your devotion. Satan will throw up his hands and surrender, and the work will unfold. Korean leaders, of course, but especially American members, please unite with Japanese

members.

I hope you will bear this firmly in mind and awaken, because your works will become an event in history, one that will show that Heaven is alive and working directly with Rev. Moon our True Father.

The history of you who worked and breathed the same air with True Parents in the same era, will be recorded.

eldest of three sons

Up until high school, I went to church, but becoming an adult, my visits were less frequent, after military only two or three times a year, after getting a job almost not at all.

I had not completely lost my faith, but I did not feel the necessity to go to church or to CP. I lived complacently thinking that when the time came, receiving the Blessing and having 3rd gen children would be fulfilling filial piety to my pious parents and contributing to the church, but not because I felt the value, only filial to my mother who came to a poor house in Korea and her sacrifice would not turn into a bubble.

Drawn by mother's devotion and some inexplicable guidance, I wish to share the grace I received in this Place. I had previously attended Cheon Shim Won devotion only twice, but here at Cheon Shim Won I shed tears endlessly for the first time in my life. At the 1,588th devotion, I earnestly raised my voice, 'Please work for the swift return to CheonJung Gung of Mother!'

At that moment Mother's Heart was suddenly and passionately experienced in my chest like a storm. True Mother's Heart dedicating Herself without resting for one moment for the Desire of Heavenly Parent for one family on earth, was felt just as it was—a sublime emotion I had never felt.

It was the Mother's Heart that worries about the child's well-being no matter how foolish or disappointing the child may be.

Even amidst endlessly difficult circumstances, Mother's True Love Embraced trainee members and all of humankind, paining for them before Her own Pain was felt, making my chest feel as though it would burst out.

The moment I felt the depth of that Love, a deep Loneliness and Sorrow that could not be fully expressed in words, also rushed in together. Until then I had only remained with a sense of duty as a family member

and doctrinal faith. However, that incredibly warm yet terribly sorrowful and lonely experience felt, made me aware, 'Oh, this is precisely the Essence of True Love and Unity possessed only by our Unification Family.

It was a Heart that could only be felt because of the history of True Parents's BS and Ts over the Course of Their Entire Lives, Sacrificing Themselves first for the restoration of humankind and to resolve this land of CP in tact.

Embracing Mother's Heart of Enduring while looking only at us amidst harsh storms, I could not lift my head due to a sense of guilt. When I went to Cheon Shim Won to pray afterward, tears mixed with wailing did not stop to the extent that even I was surprised.

True Mother has said that even 2nd and 3rd generations should not merely inherit the faith of their parents as knowledge or concept. One must experience the substantial history of True Parents and the SW, and put heart into Cheon Shim Won devotion in order to grow as a true protagonist of generations.

The effect when I read True Mother's Autobiography last year, I only thought Her Life was amazing. There was almost no emotion welling up from my heart. I knew Mother only through knowledge. However, coming to CP Cheon Shim Won, I was able to feel it with certainty. I would not have come here but for the 80 years' Lifetime of True Parents, of devotion and sacrifice, creating a Garden of Eden and inheriting to us a Heaven realm experience how we can live while attending Heavenly Parent substantially and numerous members devoting to create this massive cultural sphere, allowing someone lacking like me to feel it.

A heart of sincere gratitude welled up. Cheon Shim Won was truly an amazing Place, feeling my deepest conscience revive and my soul becoming clear. My chest was filled only of good thoughts of cheonshim, thinking, 'How can I love, forgive and become one with others more?' And I deeply realized that this was the key to solving every problem that True Parents Walked through.

In the past when True Father entered Heungnam Prison in the North, the way He survived and won the victory in the death trap, where everyone tried to harm Him was definitely not through fists or confrontation, but through thorough sacrifice and service.

While reading True Parents's Words that it was a strategy of loving one's enemy while blessing them even after being struck ten times, praying for them with tears, even after receiving a thousand beatings, I thought, 'Would I really be able to do that?' It was that life of a great saint that I dared not even imagine.

It was through the Heart of True Parents Who Endured to Comfort Heavenly Parent's Heart, no matter how many tens of thousands of times they suffered unfairness, I could personally realize the meaning of the Words, 'Cheon Shim Won is the Office where True Father Works and like True Mother's Womb.'

Empowered by this grace, I began participating in the Yeongseong 40-day Workshop starting last Saturday. Coincidentally, July 18th, when this Workshop began, was the 300th day of True Mother's Detention as well as the one=year anniversary of the search and seizure of the Sacred Cheonwon Gung and and Cheonil Gung last year.

I remember the rainy sky when I resolved that I would never forget this day. Although I was not directly at the scene, my heart ached as I watched the video of the members shedding tears and offering prayers at the grounds outside the Cheonjung Gung wearing raincoats amidst the pouring rain.

At this very moment, the spiritual environment of persecution and difficulties directed toward True Mother are continuing. However, this Yeongseong Workshop

period, I will drop the anchor of my faith even more firmly.

Casting aside conceptual faith and arming myself with substantial heart, I will pour in all my strength and devotion to pray for True Mother's victory and well being and safe return to Cheonjeong Gung.

Moving beyond simply being my parents' eldest son, I will stand tall as an elder son of Hyo Jeong who comforts the sorrow of True Parents. TYFL

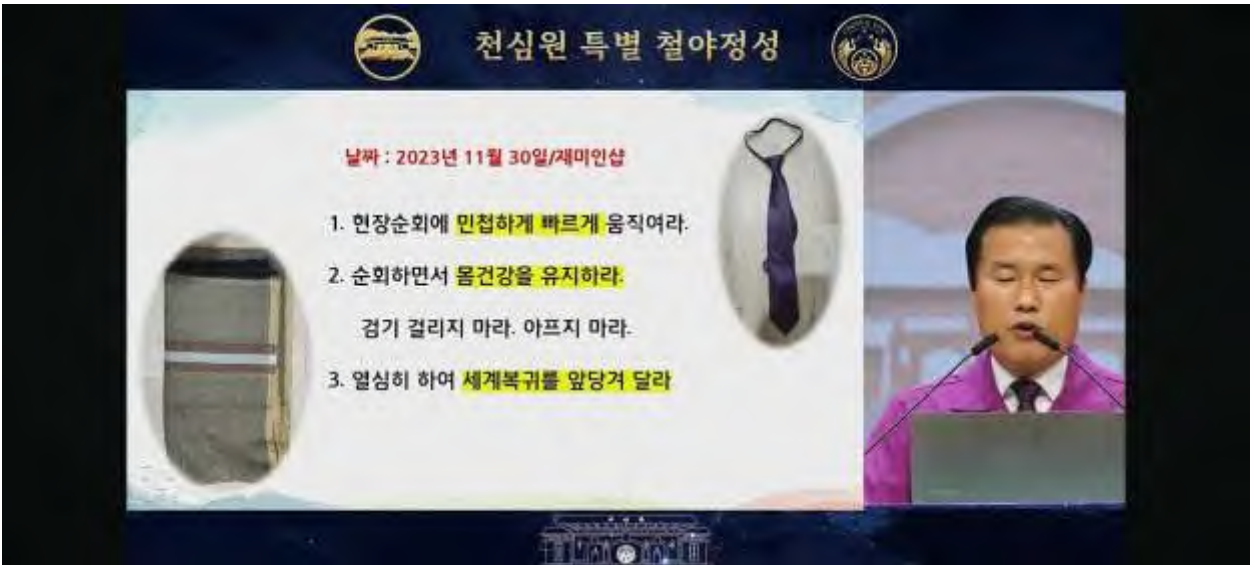

(So grateful, so grateful that Heavenly Parent and True Parents have you with Them)

TESTIMONY

Japanese Workshop trainee Masa Kenta

(He bows to True Parents and the audience)

I came to figure out my career, with no church, I felt unable to pray deeply, and I became exhausted from doing daily devotions and Hoon Dok Hae at home. I came to unblock and find the answer here in the Land of CP.

As soon as I arrived, by the guidance of Heaven I could participate in the 3-day, and my motive was corrected to focus on my relation to Heaven, but when I was assigned duties, a conflict arose in me. I thought I would need to focus on my personal Workshop.

However, when I heard PL say that the most important thing was to become one with Mother, I realized I had been self-centered in thought and prayer. When I thought that there are things that only become visible when one is first one with Mother, changes occurred.

I received a call from my father regarding my career path, and it was public service (an answer only 6 days after I arrived). I began to search for my original mind and when I prayed if this was the way to go, I received, 'Aju.' so I pursue it.

Because I resolved with cheonjeong H Heart, I began to realize I was a logical person, and maybe unsuitable for the Call, but through the many programs to be one with Mother, my original mind was awakened and I became undefeated by logical thoughts...

The lecture of the Theory of True Parents, I realized Mother's Life Course is what we 2nd gen must walk and inherit from Parents...

That resolution of Mother could never have been easy, but only because of knowing the indescribably han of Heavenly Parent, and I too want to move forward in that way toward the future.

At that time I recalled the starting point of my faith with a sensation that this Person is my Mother, but at the same time an extremely frail Grandmother Who could not walk, this the most Precious Person of all.

Thinking about the coming era and when Mother goes to SW, who will proclaim Her as the OBD and Mother, and I will walk this path of faith in order to proclaim my Mother.

Afterwards, I spoke about this to my mother, and when I thought I had to have some reason, I made a confession of faith... I heard the 2nd and 3rd gens are connected, and they come into existence by knowing their parents' faith.

I had once asked my mother why she set upon the life of faith. She said if she did not go the way of this difficulty, someone else would have to go. With her tears, I realized my mother's faith is being inherited in me.

However, when I made my resolution, it was not a simple sense of mission but that I must go and any other path was unthinkable, then I profoundly felt it is not wrong, but only look at Mother's Footsteps and Appearance and inherit Her Heart. applause

Together with my mother's and the ancestors resolution, I will proclaim the love of Heavenly Parent and True Parents to others in the future... Omonim, I love you.

Re: Grace in the Icksan Church

Rev. Moon Baeg Wan

True Mother spoke in the court

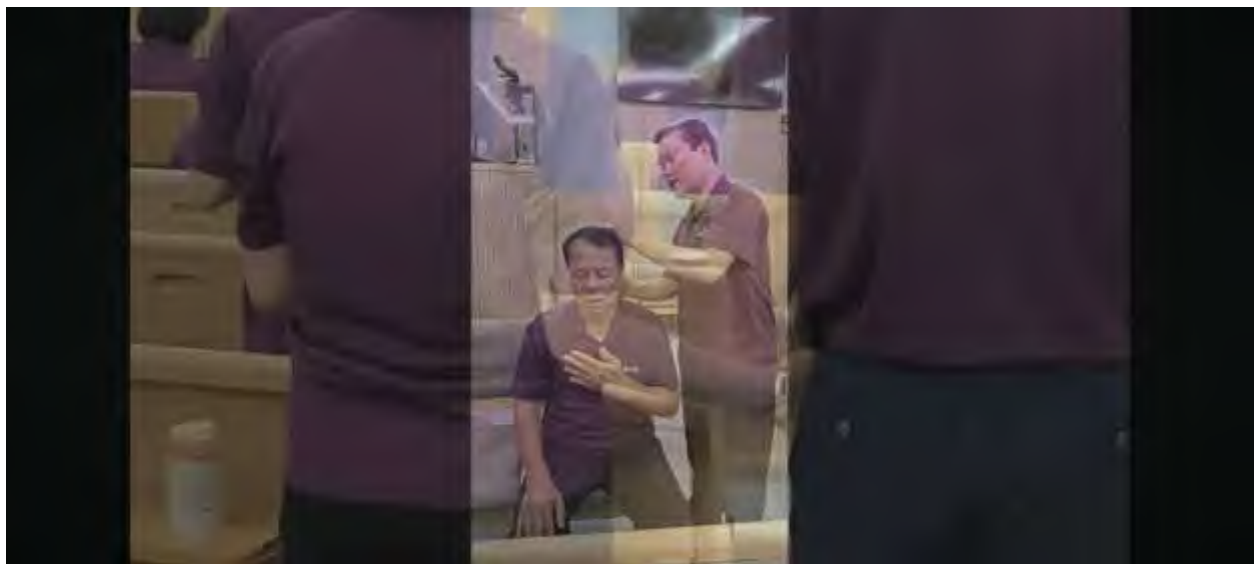

I believe Heaven is alive and will surely realize the Dream on earth. The 2nd and 3rd gen are stepping forward as true children, and I will continue until My Life ends.

In the Bible Mathew 5:4 - Blessed are those who mourn, for they will be comforted

This leads to Heaven's comfort and answers

The Iksan Church

1. Mission entrusted

I believe Heavenly Parent and True Parents call people first and entrust the mission in that Calling

As a Peace-Loving Global Citizen...

rather than know on My own, I asked God about everything: Do You exist? Do You have a Wish? Do You need Me?

And how Father could be used, became His Life, 'God, why did You send me to this place?' Father experienced God's deep Love... Garbage and filth should be sent to drainage and the water that is Father and Mother put in. Do your Mission well.

And True Mother gave me a necktie as a gift and said:

Move swiftly in your mission

Do not get sick

Work diligently to bring the restoration of the world

In August sent to Icksan again and asked why. The answer was revealed one by one while working at Icksan... a city Heaven prepared long ago.

August 10 of last... The name means a mountain where benefits are added and where profits are accumulated

In 2007, True Father Spoke at the Icksan Rally:

No matter how high a mountain is, it is formed when dust particles pile up and pile up. When there are many such profitable people produced, God cannot help but take interest in the region. Isn't it good?

Also, Icksan has meaning of inner village or deep village... It grew centered around a railway, but in 1977 suffered a great pain of the explosion incident. It was integrated with Icksan County to have the name of Icksan City today.

However, Heaven's history began long before this. There is tradition that the last king came and settled in the area. It traces a brilliant culture that I believe is a Providential foundation from long ago. The church was establish beginning with Tikanes Enyaneh, who entered with the witnessing of a brother I Sang-on, who started the first 40 days witnessing pioneer activity

Chairman Kong Jong-won and Deaconess Om Sun-tae began pioneering with the home of the brother as a base. They witnessed to Deaconess I Bo-hi of the 72 Couples, Kim Jai yon, Kim Bon neh and Hi Dong Jun, who received Blessing at that same Blessing together. She served as 4th pastor, witnessing to more than 16 families. Therefore, we consider Deaconess Kim In Eh to be the mother of Icksan Church... that

seed growing through the countless tears and efforts of members until today when there are 156 families gathered together.

I am serving as the 28th pastor. Whenever True Parents visited Cheon Bok, They also visiting Icksan several times and Blessed it. Furthermore, in 1986, They established Ilwon Jewelry.

It took time through persecutions and foundation to dedicate the Church in 2022. applause

At that time 400 churches signed a petition in opposition and even went to trial. Elder Han Dong gyu made a great contribution. I realized I am called to connect to an even greater history.

History of Cheonpyeong lantern and the history rising

video

They gathered saying, let us gather our devotion for at least 3 years, at first small but then 20 and 30 and connecting with Cheon Shim Won devotion began to be a spiritual axis.

Chapter 2 of Luke, these two come to mind...

Simon and Anna never left the sanctuary while waiting for the Messiah.

There were such people in Icksan as well. Deaconess Kim Tu Sun offered devotion at Cheon Shim Won and CP before anyone else, making a seed of prayer for Icksan Church. Moving beyond the 1,095 days of True Mother's Shimil devotion, she continued her devotion with 40 rounds of 40-day Workshop.... big applause

Also, Elder So Sang Won loved the church so much and was almost the only male member who joined the Cheon Shim Won devotion until the very end.

While doing so on Dec. 15th 2024, he suddenly collapsed and ascended due to a heart attack a few days later. The spirit could have went down, but I would like to called him a devotion father of Icksan Church, both arms raised when he was offering his 1,000 devotion at HQ. He always sat in the front, but he sat in

the back that day.

I think of him as someone who loved devotion like his own life. His faith was also inherited by his children. His son So Ga He serves as church leader at Kamon Church and his youngest daughter is preparing for her public service mission through that education course.

We got to see how saving one person saves many. I also received the education of the drums and Cheonshim staff. I applied this, and the members felt a deeper focus and oneness. With ansu for each person about 3 min, personal testimonies came of healing and restoration continuing even now. Appointing an altar where over 30 people offering devotion was established, to break 40, we made home groups of devotion by day of the week, and as a result 40 has now become the base line as we challenge more people. And on Fridays we have 70.

I told my church that this is the way to solve all problems with more people praying together. We pray together calling out names, especially one battling cancer. On Monday, Wed and Fri we offer for health and Tues and Thurs for dormant members...

testimony: severe pain and unable to swallow... separated from family in a hopeless situation... but she was placed on the list of prayer... Recovery arrived around the time of the GWs and with liberations... and the doctors were amazed... (She realized the deep love of Heavenly Parent and True Parents more desperate than she was just to save one person, and she will be back to Korea August 3rd.

We read and studied the Course of True Mother to set the environment of prayer, a community of church with the greatest gift of Cheon Shim Won making prayer and heart to start our practice and result.

4th, the fruit of transformation

Through the data, this is how the GWs participants increased and the 3-day Workshop attendants increased... more members... 14 young people and 9 elders were among them... applause encouragement

Kim Hoon Yong... I Sun Yon... Sal Ahn Jung (gave testimony 3 times) Sah Yun Ah in H Top Gun and began the CLA Course... applause

There was less change in numbers as transformation of members... 23 sent the essays of testimonies now instead of prayer being burdensome, seeking the Cheon Shim Won

also the effect of the staff and prayer... 'complacent life of faith was why I was not able to offer fervent devotions for Mother, and now I put it above anything else... also led to the fruits of healing and family members found faith stability and also 3rd gen child being born...

Moving forward with the Word and Spirit and Truth is key... As we began calling out prayers, hearts of parents changed to embrace their children not as their own but as Heavenly Parent and True Parents's child. Heart capable of waiting for the child appeared.

Husband with many complaints after Father's Ascension and losing faith, now suggests by himself to go to Cheon Shim Won personally not even just by Zoom...

This member guided by a Christian Church pastor, after the 100 calling out experienced the members' love and devotion, and even while working a job enjoys Cheon Shim Won twice a week with repentance gratitude, feeling I sought Her out far too late, with tears...

We embrace each other's heart with prayer and sharing, praying and crying together and building each other up.

Looking at True Mother's trials, I felt inadequate and needing to cling onto Cheon Shim Won Devotion more, and the results began to appear... Since True Mother has taught us specifically how to offer devotion, we must move forward with obedient submission gratefully.

Culture of prayer and youth people involvement increasing... Coming to church can 'feel' that someone is praying for me, a family that cries and prays together.

At first we aimed for 100 and then 120 goal, as with Mark in the Bible. Members became naturally unified with the result of 122, by the attitude of them that they could do this because they were doing it together.

Shiluwon is a poem that opened the eyes of the blind

Oh, Lord I will thank you for giving me Cheon Shim Won (He sings) Do not let me depart from Your eternal love. Aju.

This Cheon Shim Won devotion must lead to practice of love. With 21 members, pilgrimage of sister village to push forward. There was a moment when all the churches made a sister relation with the churches in Gapyeong County...

At the festival and era of entering Cheonjeong Gung unfolds and in other villages, we learned that love is completed through action. And at the monuments, we are build on foundation of numerous sacrifices...

Faith must be completed by love in the field

Sistership is sharing foundation and mission..

Before coming, I did not know well, but after visiting the site, my heart changed completely... We will continue to flow the love back out and revive the community and save people

The Vision of Icksan

Let us right know and proclaim the Epic history, learning the Providence and identity of True Parents and convey to the people

My wife came to know about it after seeing a precious video. I felt that my mission is to make this known.

video... Where did this nation begin

Practice and attend True Mother at Icksan Church truly hoping True Mother returns and please come to Icksan, and if we pray together this will happen...

Where prayer never ceases, we transform the individual, family and church

Through Spirit and Truth, even at Iksan, we will build a church that Heaven rejoices over

Cheon Shim Won devotion is an eternal love story with Heavenly Parent, we write it every day

What should we do? I believe that when True Father works, He told us to offer prayer passionately to realize the unification of N and S Korea. How much devotion should we set? The Messiah works on the national foundation, two and more. I don't think 3 is enough but national-level foundation, so what is the lowest number of the nation, I believe it is 144,000 is the least amount, which should not become only on special days but every day, and then Cheon Shim Won can bring the greater and stronger miracle. Like a Heavenly tornado unfolding transformation.

Cheon Shim Won is the place where beneficial people emerge... embracing Heavenly Parent and True Parents Love, we become a Church of Spirit and Truth... applause

BREAK

Busking

Hoon Dok Hae

To return to the early church and revive with Spirit and Truth. For 1,095 days, I did not miss a single day and crossed 5,600 kilometers of the path where True Father went and where we climbed the 12 peaks of the Alps that I and True Father climbed together.

I resolved, as I promised you, that I will return to the early church and revive the church through Spirit and Truth. This was to keep the Promise made to True Father that no matter how difficult, I will see it through to the end in My Generation.

I have lived while endlessly vowing, I will unfailingly accomplish this for You. For that I will not change. At this time of opening the Era of Cheon Il Guk, you must stand in your respective positions of fulfilling your responsibilities.

You must become one with Parents through Spirit and Truth, and 3 major Scriptures. Now, you must sublimate yourselves under the standard of AFAL and AO. It means you must offer devotion. It means you must sublimate yourself by offering devotion just as DMN did.

Therefore, if you live following the Life shown by True Parents, you will automatically attend True Parents. Where True Parents go, you will go as well. You do not need anyone's help.

In that regard, if you lack experience and are inadequate, the CP TC exists, where each family is to resolve the problems of their own family by themselves. Why is Cheon Shim Won devotion so important? It is so that True Father in the SW can be mobilized to work in the environmental sphere that we must expand for Heavenly Parent. That is also True Father's Wish, and the wish of all humankind.

Therefore, you must report to True Father at Cheon Shim Won. You must offer devotion and prayers saying, 'Today, I'm going to such and such a place. Father, please be with me. Please show me the power of Heaven.'

It has been said that the two pillars of how we move forward are Spirit and Truth. There are still many stumbling blocks in building the H unified Korea and H unified world. You must offer devotion. You must become one with True Mother, the OBD, and root yourselves even deeper than the olive tree.

In the future, the Mission HQ and Cheon Shim Won will move forward side by side. That is why I am establishing Cheon Shim Won Branch Offices on each continent... US, Asia, Europe, Africa, Central and South America, and they must increase even further. Aju

and in H USA Cheon Shim Won, it is their 1,095th day to carry on with their vigil. It matches True Mother's Shimyeong Devotion.

If you offer resonance prayer for 1,095 days and we are here at True Father's Office and if they enter resonance prayer, something amazing in the H USA

Cheonshim Choir trainees' song and in Taiwan, pure water attending Workshop and attending public officials from Taiwan.

We heard True Mother today, with True Father and M saying, 'Do not cry or pray for Me but for the Providential Will accomplished. And we need to light up the fire of Christianity, carrying out all directed and making results. All Her Words I believe applying to us as well.

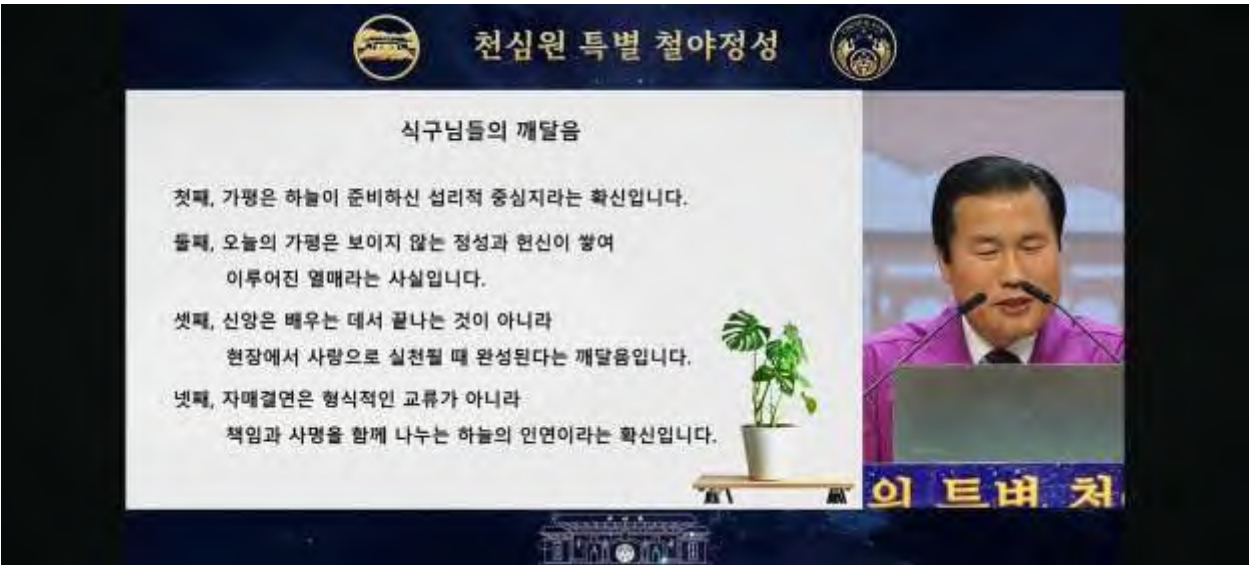

The song, 'Mother Dear', this song, I believe will stay forever in history.

Testimony... He was only coming hardly at all, but 'he felt' he needed to receive the Blessing, not only centered on being filial to his own mother... but rooted deeply with Heavenly Parent and True Parents, feeling True Mother's Heart coming into his heart like a storm, something utmost noble and earnest and lonely... and that this is the essence of our community heart so that instead of returning to rest, he went to Cheon Shim Won and prayed and wailed.

He experienced this in only 5 days, and felt by just first sitting down in Cheon Shim Won, felt abundant grace. It really is True Father's Office and True Mother's Womb.

I hope he truly continues as the first born not only of his family, but for Heavenly Parent and True Parents filial piety.

testimony becoming exhausted and what if he moved forward only like that? But he decided to come and receive an answer how to go forward from CP. He was able to set his path after a call from his father and the request to become a public official of our church, but especially with the dissolution, not so easy.

He began driving the taxi. When you reach that position, after a long life of ministry, he could have told his son not to do public mission work by knowing the difficulties himself, but truly he was aligned with Heavenly Parent and True Parents to pass down the faith and pushing them to find the victory we have made now.

So, our leaders in Japan, even if you are in a difficult place, you must tell your children to continue this life.

This sister knew as his mother, that someone else would have to take on the burden if she did not. Because of parents like them inheriting the faith to their children...

The composer of the song 'Butterfly' came and sang loudly

Moon Baeg Won is truly a special pastor of our church. Gapyeong is like the Vatican of FF as Mother said. His heart did not waver by being sort of pushed aside to go back to Icksan. Truly they will welcome True Mother substantially, I believe, and receive the glory and great revival throughout the nation, becoming a model of victory.

Today's 73 will become 730. I believe through the eyes of faith, and you also can see the visions. One of the dreams a member received was coming here and not being able to find their shoes because there were so many people.

In the SW, True Father is working and in the SW, True Mother is with us and all are working to set the right standard.

'As I go to the SW, when I say, 'Heavenly Parent, I am here, Heavenly Parent will come and cling to me and shed Tears. That Heavenly Parent's Love, I know that Love, holding Me and shedding Tears. Such Heavenly Parent is truly a pitiful Heavenly Parent, and True Father Lived His entire Life knowing that what no saint knew or explained before. (except Jesus)

We sang the songs over and over, unless we liberated the hell on earth and in Heaven, we cannot liberate Heavenly Parent. Verse 8 of the Pledge...

After 72 years, They have made mountain-like accomplishments that reflect all over the cosmos. Our brother is the son of I Jang Oh and has been attending, but he offered his house to FF and he has been attending our brother, listening to his prayer and working through him. True Parents's made mountain-like accomplishments and we must realize True Father is the highest Place in Heaven...

'My beloved BFs, True Father has set the H law and will work to expand the H environment, the substantial Being of the God of Night and God of Day and progresses the Providence in the PW and He will oversee the Providence by being absolutely one with True Mother in Heart, Mind, Body and Harmony

True Mother: Our True Father is with you right now. He is simply invisible. Until love and peace overflow, the culture is established and a new order takes root... What would True Father want from us, unceasing advance until the Will is accomplished... All the leaders are unceasing advance and unbelievable things can now happen.

True Father's 40 days of preparation for ascension and True Mother proclaimed oneness and True Mother's commitment to proceed in Spirit and Truth, True Father agreed 120%. So what kind of attitude must we have, to offer glory back to Heaven and cooperate with True Father, and that is done through Family Pledge verse 5.... We center on true love of the content of the SW...

We need to experience... Page 543... The preparation for new start of True Father and Me one in Heart, Mind, Body and Providence. True Father hearing True Mother said, True Mother, TYSM...

If we can go back to the early days of our church, resolving to be a living and breathing church, True Father said 'TYSVM...' I believe hearing this can happen to you when we become people who can resonate...

After True Father's Seonghwa, so many things had to be done. Even we could not fulfill everything, we must make ever day, year as ten thousand... and at least we must fulfill one of Their Words. We have received titles based on the responsibilities we must fulfill and wear that clothing They bestowed. At the Cheon Shim Won Ceremony, we wore the sacred clothes and were amazed, but if we don't fulfill, what will happen to us. You can bring accusation based on the responsibility that the holy robe brings.

One member was accused by True Father who shouted, 'Take his clothing away'. And members around him said, 'Oh, he worked hard.' but True Father shouted to take the clothes off. And I shared this to True Mother once.

The holy robes we wore at the CheonBo Ceremony, if we were given these things, what would happen if we were told to take those things off? You must shed stains and blemishes and do everything also for cleansing our ancestors. We need to cast that away to receive the proper BF to receive the titles through doing everything we possibly can to fulfill the responsibilities of fulfilling the Words of True Parents to us, and be the hope for the entire world.

The revelation H already gave us is to accomplish 144,000 to the vigil. Why do we get exhausted in the life of faith? It is because you're not having give and receive action with the True Parents of the most resonant G and T with Heavenly Parent. If you do, you will never lose energy but always have strength that can defeat the power of death. May all of you make this night the night of the song of victors as you push forward.
