I kept thinking of the murky water, and I could not pray or do anything but stand there looking at it. I was a Blessed child, but only a few years ago did I know Who True Parents's are. I did the night life and came into a lot of money, but always felt I was in murky water.

I met my husband, and we got married. We were Blessed with 2 children, but marriage was different from dating. Marriage became so difficult. Then my husband got Alzheimer's and I thought he would one day forget about me and the children.

My parents encouraged us to reconnect to the church... I did devotions every day. The family began to change. My husband went to CP and did devotion conditions. The business was in court battles, betrayed by a trusted partner. We were put to the test to choose to sacrifice everything. He and his health eventually transformed... and I felt to go and at least match the standard he had shown...

We succeeded in offering extreme conditions for Mother, even our muscles were broken and fluid filled our legs... We experienced True Mother's Heart and Heavenly Parent and True Parents rooted in us, for a resonance and true-love determination together that nothing can destroy. (I paraphrased some of this testimony because it was given already twice during the week)

TESTIMONY

2nd of one son and 1 daughter... 9th Workshop and overseas mission

I went through depression due to difficulties of school life... I thought all was a show, not real. Yet as I went through the 16th Spiritual Training, I began to erase my negativity and accept True Parents and continue in the academy to stand proudly in this place. I worked with the culture and arts dept, creating various videos for 8 months, and handling videos at the broadcasting station, I was happy to convey grace.

After hearing a fellow academy member saying they had been living in gratitude and happiness every day

sing coming back from Africa, but I had a fear of the unknown world and could I truly love Africa as brothers and sisters, when I knew nothing of them. But preparing for the mission was not easy.

3 days before the departure, I was involved in a 4-vehicle chain accident when another vehicle was doing an illegal left turn. The pain worsened and I felt I might not be able to go to the Workshop. My parents told me that satanic was going to such lengths to prevent me from going, but believing there was a Heavenly purpose behind it, I received treatment for 3 days and I went.

Miraculously, the places of injury never hurt once and I was able to do the schedule. During the morning devotion I beat the drum and held the mike and led the lecture in French. I had to run without a break for 40 days and at home I might have gotten discouraged, but in Africa, it was a happy time.

Seeing their happy appearance and gratitude, made me want to give even more. The next letter was a source of personal achievement, not hardship. Seeing them ask questions and learn Korean, was my joy. During the training, 127 people gathered and I could get enrollment from 4 people in a short period.

Even on the day of returning to Korea, I could feel the love of Africa. There was a layover for a day, and since it was the airline's responsibility I received a complimentary hotel and spent a day of sightseeing. It was overwhelmingly joyful and happy in Africa, where fear of the unknown was outweighed by excitement (tears)

I might have had fear initially, but it became as comfortable as my own home, and when so tired, seeing the members devotion and gratitude gave me the strength to pick myself up again. They told me to eat well and worried about me and I was able to spend every day warmly feeling they were the family of mine.

I received far more love than the love I gave. It's been more than a week since leaving Cameroon, but I feel to meet once again... even I feel them with me. I have tasted the miracle of meeting b and s with whom I can advance with grace and love, and participate with the members of the academy and creating precious memories, living each day with gratitude and happiness.

Based on this, I will convey love to those around me and be even more grateful every day and reach to those not coming to church to restore them. Gratitude to all staff and academy and Rev. Sakuwa for such

overflowing love.

Warm greetings to the members offering devotions today... and he bows to all...

Today, amidst the great grace of Heavenly Parent and True Parents, I want to report on the progress of the 2026 Practical Education 1st half and plan for the 2nd half

Oct. 2025 a survey for pastors globally to say the challenges... The first were the lack of way to strengthen pastor capabilities with an increasing trend of new pastors across the continents.

But except for Korea, Japan and the US, there was this urgent need. We organized education with lectures that they could study voluntarily with 6-language translation and global distribution of access. 90 minutes of 6 sessions...

An average of 332 ministers volunteers... First, we covered tithing and financial education. Transparent financial management is essential to build a trusted faith community. Hwan Sang Gu Pastor and He ban jack i bul, a honest lifestyle based on Biblical models and a long-term roadmap and strategies...

We learned how to achieve community maturity and management system to prevent pastoral burn out.

Inviting lecturers, we concretely reduced worship content, the roots of ministry, pulling away from mere doctoral preaching, heart-centered and inspiring realizations and hope.

We learned practical communication skills, including listening skills and education-supported videos in 6 languages and application to the field with break-out rooms used and centered around the directors, ways to translate and guide even more actively...

reflections of hearts changing and minds revived... financial education... Senegal... most impressive for him... to build trust with honesty as a sermon that can be louder than words

wonderful insights as a Romanian pastor alone just looking to True Parents's Words, on the one hand affirmation of the correctness of True Parents's Words but also more guidance to reflect it.

Deepest gratitude to all the lecturers. Starting this Sept, the 2nd half will embark, as we invite Rev. Koichi and Rev. Ann Konaskia and we will develop and invite Rev. Chun Yu Sang and Professor Ko Kang Hwan (?)

Only when Truth and Spirit harmonize as one, can we succeed as we need with foundation of the fruits fasted on the earnest devotions of members around the world at Cheon Shim Won and we will do our utmost that a history of revival takes place and bears fruit.

reflections from the new standard Principled lectures, Lecturer Hada, special circuit lecture Cheon Shim Won District 1

Here at the HJ H and E TC, I realized how the Love of Heavenly Parent and True Mother is endlessly being poured out. And this training focused on the New Standard Principle lectures. By integrating the Contents of True Parents's theory and the Epic history of P lectures, the OBD True Mother was witnessed clearly and cleanly as announcements were made to the concluding sections of Eschatology, powerfully emphasizing True Mother as the OBD Whom Heaven has long awaited...

This concluded it, and tears of emotion welled up from my heart before I even knew it. I was profoundly moved, think that at last a Principled lecture has emerged that rightfully witnesses HMH to the world. It is brilliantly organized into Contents that can powerfully proclaim even to the Christian cultural sphere

Reflection from Lecturer Jinosaki, Special Circuit Lecturer of District 4: Huhyomin who authored the 3rd Exposition of Divine Principle desired that the incomplete Truth be completed. I felt that this desire has been systematically organized to be known most deeply through the True Parents's Theory and the Epic.

The Essence of Heavenly Parent is delivered vividly, and we are finally able to liberate Heavenly Parent in a deep wave of emotion washes over. I thought that the Director Hyuhyowon must have been liberated amidst great joy. It answers the fundamental questions of life and the universe, as well as the essence of great human history. I am convinced that this clarifies the status and value of the OBD with deep emotion.

Reflection from Church Leader Kobayashi Obadai Family Church... I was able to understand more clearly that True Mother is the First Coming of the OBD, finally Born after 6,000 years' history of restoration, as it moved toward completion, enabling True Parents to be established for the first time in human history with the Birth of the OBD within approximately 400 years after the launch of the Presbyterian Church in 1542.

And the Feast of the Lamb is completed through the Marriage of the OBD and the Messiah (of a New

Name of Jesus 2nd Coming Mission for that), this made me realize more the value of the OBD that Heaven has prepared through a long history.

I have learned about the Providential background and more deeply felt the Life of True Mother, walking an unimaginable path of loneliness and sacrifice of a cross to fulfill Heaven's Mandate.

Lastly, Okiosi Hamamatsu Family Church Leader... During the prayer meeting on the bus and at the hospital, the feeling of my own helplessness rushed in, making it a time when my prayers could not form into sound and I could only weep and sob with tears. Heavenly Parent was waiting for that prayer and weeping together with us at the Special Training.

The words given to us by Director Hori, 'From now on, let us truly build Heavenly culture' touched my heart deeply. Even if it takes time, all the members of H Japan will unite and march forward together for the new creation of heart attending Heavenly Parent and True Parents...

Please join in applause for these reflections

Chun San Su from the Planning Department

Beloved members greetings

(and he bows)

Today, although lacking, I will do my utmost best to offer you news of hope and peace.

Testimony of Mako Hatkins, who experienced the warm Voice of Mother... served as a missionary in US and re-discovers the true love.

When I attended the CheonBo Event in 2020, my heart had continued to grow distanced, but I had a dream of True Father, and the contents in these dreams is very clear that I never forget it.

True Father was at the LV Cheon Shim Won with so many children cramped, and True Father prayed and then appeared right before my eyes and hugged me. I found it hard to believe, and I don't know how much time passed and then True Father let go with one hand and I followed that motion for where True Mother was sitting and talking with many members. I thought, 'Ah, that is True Mother' and then True Father said right beside my ear, 'You must go to Mother. You must become one with True Mother' and I realized I hadn't been able to go to Mother yet.

I came to Cheon Shim Won to get an answer from praying. I ended up in 40-day under the premise of a 40-day course. But when I went in, all were 2nd gen members even younger than my youngest daughter. Coincidentally, during these 40 days, there was a 3-day Spiritual Workshop that I was able to attend...

There were 4 of us who shared various stories and prayed together. Two of them were 2nd gen, and one said that their parents had left the church as well as all their younger siblings. They had received the Blessing and given birth to 3 children, but during the Workshop they shared that, although they had become a parent, they had no memory of ever receiving love from their parents, so they had come to try to figure out how they could love these children with a parents' heart.

What have especially J 2nd gen been through and gritted their teeth through it to come all the way to CP to give their devotion. I thought that somewhere, their parents must have piled up a corresponding amount of devotion. I thought about how much our 1st and 2nd fathers and mothers must have suffered in Japan.

We did our best in our own way for the American Providence, but thinking about how the J members went through such hardships to support... such as the Washington Times or restaurant providence, I thought how precious truly like golden eggs these children are. With that thought I kept moving forward.

I had thought I wasn't used to CP any more, but the night session started and I went inside, and the Director and staff members were there I felt truly happy like returning to my own home... with a feeling like, 'Ah, I was able to come back.', which I had never expected at all.

And then when I was sitting, still wearing a white shirt, there were the people wearing purple robes in front, and I couldn't bear it. I wanted to go up to the front. I went as far as possible where I could see the Director and continually gaze upon him during those 3 hours of prayer.

I have been told that Japanese people look at their clocks while praying, and since that is discourteous to God, I thought looking at a clock while praying was forbidden. But praying at Cheon Shim Won made me forget about time. What kind of situation is it not to be able to pray with peace of mind unless a clock was nearby to check.

At times the Director looked tired, and I was truly grateful that he did this every day to the end with few times to sleep... to the extent that I wanted to do something to help.

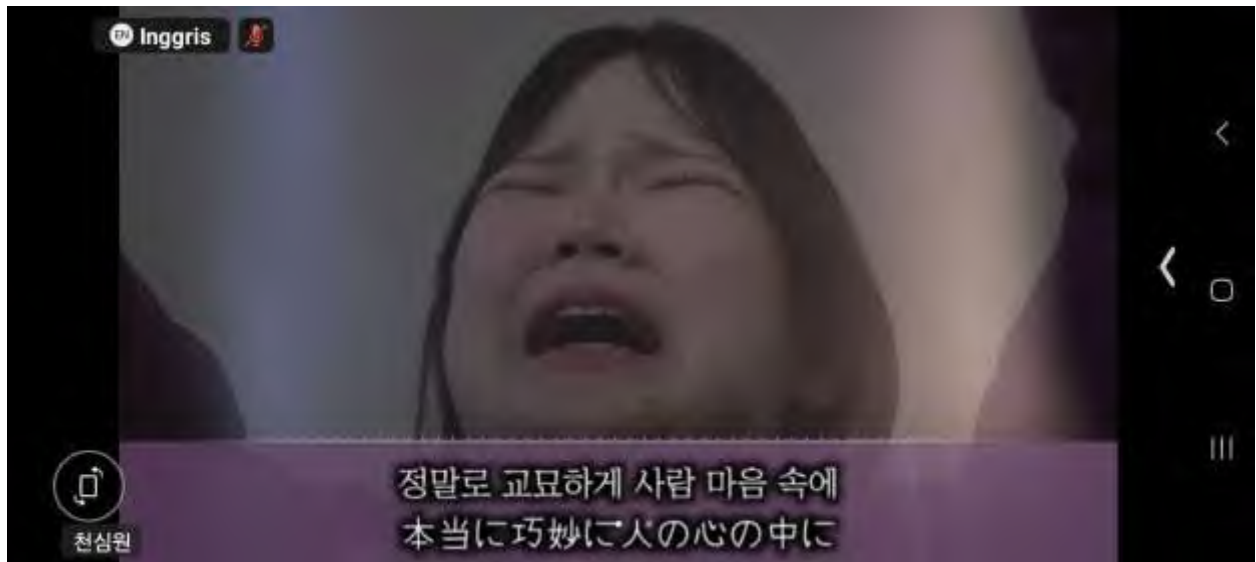

Rev. Yokoi's lecture about Mother was truly, truly, truly touching lecture. The one building so different from the others, with containers of water and ice and tea, and being thirsty, I tried to drink it, and seeing the balance of the water and light, I thought, 'Ah, this is Mother. This is Mother Herself, and Mother's devotion, and tears would not stop, even there were others around, I could not help but breaking down.

I heard a Voice then that was truly a Woman's Voice, so for the first time I realized that this was the Voice of H Mother, truly a sensation I had not felt before, the Voice of True Father God was so different. It was truly the warmth and Voice of a Woman God, Who wanted to convey to me, 'Do not worry.' I became conscious of H Mother, and having met H Mother, the thing I felt most was how can someone like me help Mother.

Satanic cleverly enters people's hearts through those closest to them, but if each of us becomes like Mother with Her True Heart and Character, many of such people around, then even the most satanic would not be able to target Mother. If the whole world were filled only with such men and women, wars could not happen, thinking 24 hours a day for each person, and I want to be someone who can live like that.

applause

As we each become shadows of True Mother, H world. Next, the miracle that can work when we embrace someone with a Mother's Heart, a heart that was very shut...

This passed May, resolving to witness to another person, this person was someone I had witnessed to and also come along with me to CP. But with a single remark, 'Could you pray for my family', contact was cut off. After 40-day devotion we became back in touch. Someone at his family had gone through such hardship. I took him with a mother's heart and shared nature and SS.

Afterwards, praying with tears at Cheon Shim Won, a member who is not even yet a member officially, and I prayed and cried together with him, which he said provided great comfort and strength, and I realized this is true witnessing. Showing Heavenly Parent's Heart desiring their happiness and feeling their sorrow with them.

Although I knew my friend's mother was a devoted Christian, I wanted to extend invitation and attending the GWs together with my family and at Cheonwon Gung, and coming out of the Cheonil Sanctum I received a call with news that the parents had conducted the holy liberation.

Applause

testimony of becoming completely one with True Mother, who maintained a home church for 26 years, heard a message like True Father's direct command. Hearing the Cheon Shim Won lectures, I felt I also needed to go to the WSs, and True Father told me to come in July... and that all need to operate home churches, but people don't know, and True Father said to convey the grace He has give to me to others, how to do home church and run it.

To support Mother, all must rise up and do conditions to support Mother. Satanic cannot touch the Blessing, but because we are individuals who did not rise up, satanic attacks us. We need the foundation of 3 children and then challenge 12 and then challenge 43. He said because we did not do it in that way, Mother is attacked and taking responsibility for it.

We all need to make efforts for that to protect Mother and if we do, God will move the SW, and God

asked me to convey this, which is why I came this time.

I began home church in 1999. We had not a penny. But we received, 'Build a church for us' So, we managed to secure a house and returned there and began witnessing. We are those who have dedicated ourselves before God, witnessing for a lifetime. Therefore, I resolved that I was not going to work a job, but would make witnessing my central focus.

So, I started the home church and tribal messiah that Father had continually spoken of since 1970, but we had not executed it. So, this time I thought, 'Let me truly do it. Preciously, if I had prioritized my own livelihood, my own finances, the me of today would not have happened. At that time, instead of thinking how to feed and clothe myself, God accepted that condition, and advanced along the Will of witnessing at the center and has led me. I continually see how God protected and nurtured our family...

When starting the home church, True Father said first establish God's righteous culture and traditions. Teach a lifestyle of attending Heavenly Parent and True Parents no matter when or where we are.

I used to look at people always through the Principle, guiding them through words of the Principle and thinking, 'We must strip away the person's fallen nature like this. We must guide like that. But then God taught me not to guide through the Principle but to govern with love.

After that encounter with God, all my inner conflicts truly vanished. To come to the Unification Church, people had to cross many valleys. So, just anyone could not easily come. However, a home church pleasing to the eye, people should visit and think, 'Ah, I want to become like that. I want to be together. I want to be like that.

True Father told us to make a church a home church. The current age is the age of the heart's substance of practice of the Word. This has changed because Mother achieved victory. This Heart starts from heart, and it is the substance of the practice of heart practice of the Word.

What True Father is telling us now is that when God Created this universe, God/Heavenly Parent created it with the joy, hope and fluttering heart of Creation. Therefore, Heavenly Parent tells us now to re-create ourselves together with God, with a fluttering, excited heart.

If a husband and a wife fight and argue, the seed of evil is planted in the child's spirit. That seed absorbs nutrients from the environment in which the child grows. And when a child grows into the budding stage and growing stage, it erupts. Father taught us this.

And so I prayed, 'How can I eradicate that? If you provide good nutrients, the child's evil elements disappear, and the seed of goodness grows larger. The evil seed drops off and is eliminated. Father taught us this.

So, I asked, 'Then how do we provide that environment and those nutrients?' Originally, the home provided that environment, but because that home did not develop a family of true love, those nutrients were not there. True Father provided those nutrients through the history of Chung Pyung.

Heart means the irresistible emotional impulse to bestow love upon an object.

God is the Embodiment of Heart. That day, I approached the person I wanted to witness to with that kind of heart and shared the Word with the Heart of Mother. And I saw that person listening clap their hands and truly rejoice.

I realized that, if we witness today, life truly enters people. Therefore, we have been continually witnessing in mind since 1999.

Back then it took a very long time, taking a whole year just to lead someone to the Blessing. But in this present age, because of Mother's grace, there are people who receive the Blessing in just 3 days. And some take that path after listening to the Word just 5 times.

I am now deeply realizing that Mother is working, so that it is truly possible to so shorten the time. If you truly challenge yourself, the history of the Holy Spirit, the history of Mother, and the Victory and grace of True Parents will truly descend upon us.

Tears... Indeed, a person cannot grow without parents. Feeling that I am growing by receiving Mother's Blood, I express my gratitude to Mother, right now, every day.

A group of about 20 to 30 members are active today. Naturally, every morning begins with Hoon Dok

Hae. In the daytime, we go out for witnessing activities, making sure to meet at least 3 people. And at night is the Cheon Shim Won devotion.

Truly, when we hold the Hoon Dok Hae in the morning, thanks to the grace of attending the vigil devotion, we receive various Messages from Father. Based on that revived foundation, we visit various people. The first thing everyone does is make a list. We write down all the acquaintances, family and people connected to us, putting their names on a list and praying for each and every one.

In the midst of witnessing, we plan various events. We hold cooking and flower arranging classes, health seminars, sometimes movie viewings... to simply gather together... club-like activities, karaoke sometimes, or on Sundays we do like calisthenics, sometimes even on family trips.

During family trips, we always read a little bit of the Word together, and husband and wife invite all their family members on the trip. Wherever we go, we always create an opportunity to encounter the Word.

We have something called 'marshay', not done by professionals, but everyone brings their special skills and runs it like a market, making and selling flower arrangements or those good at clothes, displaying them, or those good at cooking, or someone offering foot massages, using each one's various skills. We challenge ourselves to do this every two months, with flyers introducing when the marshay will take place.

Various, interested people come by. Through that we meet various people, become friends, and by listening to their worries and by the joyful relationship. People ask why we get along so well, or they say they want to visit a gathering like this. So, once they feel that way, we invite them to a seminar.

Tribal messiahs must enter their global communities. Right now, we actively participate in neighborhood volunteer association work, craft cutting and various other activities in our local area.

Our home church has continually performed 'wadaiko', a Japanese traditional drumming with young children... we have also adults and ordinary people also beat the drums in various ways, contributing to the local community wadaiko, participating in summer festivals and various city events.

So, we are so happy to be invited by the local community and participate in this way. And the amazing

thing is to feel how God works on anyone. Even the very young members diligently study when attending worship services. I realized that God provides the worship perfectly suited to that time.

Therefore, worship does ot end just by listening to the sermon. Afterward, there are reflections with one another, through the grace of worship and sharing, coming closer.

We have continued the Christmas gathering since 1999 in the form of a family cultural gathering, staring with just 9 people, now 200 to 300 gather by renting out a venue, and we continue.

There is nothing that cannot be achieved through the power of love... If this is a true love religion, they must not love only the Unification Church, just as a filial child is filial only when they sacrifice themselves, we must love the country and the world, even by sacrificing the Unification Church.

This made me realize why we were dissolved. Truly we failed what F instructed. I will establish a family, clan, country, world cosmos where we can live together with Heavenly Parent and True Parents. Mother, please forgive our sins. Mother TYSM for opening the path for the 2nd and 3rd gen members to truly return before God. Mother, TYVM tears and tears and tears... Please stay healthy. We love You, TY

Centering on the 4PF and our elders and leaders from various organizations coming here, I'm very grateful.

58,000 are gather globally

This is the time when we can feel the spiritual Light from Heaven and have prayers truly answered... Those who offered sincere, life-or-death devotion and offering 120 hours of devotion straight, and then they could meet True Father and you could hear their testimony.

The husband did the extreme devotions and the wife came to meet his standards. Heaven really works 24 hours, horizontal and vertical, this really is the era of Heaven working. As we substantially attend True Parents, the Heavenly Parent's of the Day, if you really believe that we live in the Era of Substantial True Parents on earth, I believe you can experience that ers.

The person who created the video today, was the very person, Qwankyong Min... He had depression and emptiness and even despised the church and thought all the testimonies on the vigil were a lie or a show. After receiving the yeongseong Workshop, he changed. And his sister is who works in the TC, and she really did the calling out prayers for him. Now he is part of the Culture and Planning Dept.

As he was working in the TC, they were advertising for the H volunteer and only one person, the same who gave the testimony volunteered, and he went to Africa, but 3 days before, he got into a car accident. But how amazing his parents are saying this might be a condition that you can go to Africa safely and return well.

So, he had non-stop given lectures, not just to assist and help, but he became an owner. Coming back he missed his connected flight but took that very well, thinking, 'Oh, Africa already misses me and wants to give me more time to look around Africa.' He said one day he wants to meet an African woman and start

a family together.

He testifies what a miracle it is that all this could happen with him after a past of every day of depression and loneliness. This truly is a beautiful result. This kind of people need to reside in the Korand Churches so that they revive as well.

Our Yeongseong International Workshop, the person in the middle came a long way and from the International HQ, we heard the report of going with Spirit and Truth.

H Japan, despite being dissolve, they as s and d really with the standard that a filial child is born, they go out, and they went over the 1,000 vigil devotion margin. If they march forward with unwavering belief, knowing Heavenly Parent is with them, they will greatly rise up.

Nakayama Mitiko, the importance of a home church. She started since 1999 and truly found the substantial 430 families. So, really practice and substance is important. Upon that foundation, she can communicate with True Father directly so much.

Also, at this time of Mother suffering the cross, those who don't have a child of faith have to have 3 and then go for 12 and then 43. We listened to this message very clearly.

We call ourselves tribal messiahs but we don't have the real thing, some just having the list of names. We really need to start with newly resolved selves and go forward. Even if we have to sacrifice the Unification Church, we need to love the nation and the world. And she resolved to love H Japan even more.

Sacrifice is not an easy thing. A heart of resistance or frustration or even hatred can come, but we are called to got the way of true love and even in the most difficult times, give hope.

When Jesus was about to die, he said to the person on the cross to his right said, 'This day, you will go to paradise with Me.' Jesus gave hope at the point of death even as True Father did like this. So, True Father said, 'Witness.'

About the Heungnam Prison, there were people who were willing to give their life to come with me, and I

couldn't speak so the SW spoke for me, and their ancestors came to them in their dream telling them to give food to True Father when they got food. There True Father witnessed the 12 disciples and held onto hope in that kind of situation and restored.

So, we at time of hardship need to embrace that hope for our members and to those who left. Show them that True Father is awaiting us. As we attend True Parents, we did many hope rallies as well, so that the world can see that True Parents are the hope.

In 884th page of... During Jesus' path of the cross, only one person had hope, going beyond his position of being sacrificed, he saw hope in Jesus. That was the thief on the right. We don't know his name. We still call him a thief. But continuing to the end of the 4,000-year history, he attended Jesus as the substantial form of hope. That is why the right side thief, on behalf of this land became a figure that showed hope and brought hope to the future world.

All 12 disciples didn't see hope and ran away. Because he was there showing that, Jesus had condition to resurrect. And True Father until the end gave us hope and offered cheers of Oeg Monsei and our members did not run away, but had hope through Father, and this was the kind of victorious history.

We are in the same situation now. We need to see hope from True Mother and march forward. True Mother is in Her final trial and said the Word, 'I believe that Heaven will absolutely realize the Dream of Heaven on earth.' and as children who attend Heavenly Parent and True Parents, the 2nd and 3rd gen are going out to the world. They are the ones who sang Way Maker.

It is a very beautiful and grateful thing. Now, that we have shown ourself, we need to see that vision of how much we bloom how much our church revives and shines. If there are members who looks back only at the past 53 years, that's not right. If you dream of prospering, the church will prosper and that is how we connect with the Heart of Heavenly Parent and True Parents.

And then, all those who prosecuted our True Parents will fall to the ground and weep, 'What have I done?' And we have to create that day and time. And True Mother said, 'Until the day I die, I will do everything for my goal, wherever I am' Us the same, no matter where we are, until the day of fulfillment comes, risking our life, we need to keep going.

As the chosen nation and people as the 2nd Israel, True Mother does not give up on this nation and She prays and offers devotion for it. For our future generation that has not more war and bloodshed, True Mother has given us these Words, and I hope you will see that is the only way to live our life.

True Father said, 'Even this nation has tried to catch Me and kill me. If I fight back with my Fists, I die. I press on with true love, not matter how much I was hit, because Heaven has always endured and walked in love, I will do that too.' That is why we are here to offer prayers with one heart. And in this time, I believe Heavenly Parent and True Parents are with us. Aju?

From our eyes are the tears of Heaven and True Parents, otherwise, we can go forward, but if we pray upon that standard, I believe Heaven will work, and it doesn't just mean the Korean people, but every BF members are chosen people. If we do not fulfill, we have to think what will come. So, we need to work and pray that Heaven will work and True Father can truly work, and not just happening better for us, but in the Cain environment of this work, so that Jesus can work, Paul can work.

We must raise our standard, so that Heaven can work. If our church only has 3 today, tomorrow you must make it so that 3 come. If you truly pray on the standard resonating with Heaven, Heaven will work through you and Heaven will prosper. I hope and pray for this. TY
