Opening Prayer of Gratitude

Most Honorable Heavenly Parent

Beloved True Parents of HEH

We sincerely thank You for allowing your children to gather at this time of the 1,617th Cheon Shim Won most special vigil devotion time. Our True Mother Whom we always long for, You have given this Place of Cheon Shim Won, the Mission HQ of worldwide devotion and the Main Hall of Cheon Il Guk devotion.

We cannot fully express how precious this time is of all humankind together with HyoJN, HeungJN, DMN (YoungJN, HeJN) and all of the Subjective Heavenly SW for moving forward in Spirit and Truth. As a multitude of 40,000 gathered to attend Heaven, fully mobilizing to pile more devotion, we earnestly pray and desire that it will become a pure, pristine offering solely to the Providence and the administration of the Will.

B Heavenly Parent, here at Cheon Shim Won Main Hall and the development of our spirituality, we earnestly pray and hope that the embers will spread ever greater for our earnestness to succeed for True Father to work substantially.

In this Place where Heaven's Heart dwells, please Work so that we look deeply within ourselves to hear Heaven's Earnest Cry. And through countless miraculous testimonies and Words of Messages imbued with Hyo Jeong, please Guide us to be children who can testify about True Parents within the realm of absolute faith.

2nd son of 2 sons and on daughter

Academy experience... In the past there was bullying in high school years, and depression even wanting to give up on life, my faith was with my parents but not of myself. I imprisoned myself with the pain of the past and my own inadequacies and doubt of things.

My mother suggested the Workshop, and wanting to escape my difficulties, I went to the Yeongseong Workshop and then the Attendance Workshop and now in the Academy raising my standards of faith, taking charge of Cheonyujang and... busily trying to keep up, with Workshop and endless tasks, and days that passed in blur, without any particular thoughts.

I went up to the dormitory and happened to meet a member who asked if I was Academy and then, 'The 2nd and 3rd gen who pour themselves in place of the 1st gen are truly a hope and precious treasure. When you work hard, difficult moments will definitely come. However, Heavenly Parent gives us grace far greater than our hard work and struggles. Therefore, rather than complaining about the pain and trials that come your way, if you overcome them with a grateful heart, you grow by one step rightly.' These words came with gratitude and encouragement. I felt that this encounter in an unexpected situation was no mere coincidence.

I looked back upon myself, not paying attention to my inner self amidst my hectic life. Why did I resolve to join the Academy and serve? It was through the grace of the past WSs. Praying in front of Bonyangwon at the Workshop before, there was a moment when True Father was there lying down, I prayed repentance for how I was unfilial before Heaven. True Father Appeared and said to me,

'It's alright.'

That simple short phrase washed away all my burdens and filled my heart with comfort and love, and I shed tears I could not hold back.

Furthermore, I felt the urge to take care of Mother in place of Father Who no longer has a Physical Body. (tears) This led me to resolve to take the Attendance Workshop. I set out bowing to offer devotion solely for Mother. However, despite praying earnestly and serving diligently, it felt as though nothing remained in my heart.

Even when I prayed fervently or called out in loud vocal prayers, there were days when I shed almost no tears. So, I prayed asking to deeply experience and resonate with Mother's Heart. Because I was that desperate, I struck the ground and prayed like a mad man.

From then, True Mother's Heart Surged from the depth of my own heart like a tidal wave. Yet, I was too inadequate to receive that Heart. I felt an unbearable weight of Mother's Sorrow. Filled with grief to the point where I could no longer produce a voice, I could do nothing but wail right then.

I came to realize just how desperately True Mother is wandering through the blinding sandstorm, and why She brought inadequate myself to this Place, causing me to deeply repent (tears) for having such a self-centered life. I realized that no matter how much people persecute, resent or abandon Her, because we are Her beloved children, and because She hopes even one person with stand by Her side, True Mother is still searching for a single small needle and Walking the Path of Sacrifice on behalf of Her children.

Realizing this Truth, I firmly resolved that from now on, I must properly attend such a Mother and bring Her Joy. Through the great grace and love of Heaven over those 80 days, I was thus able to resolve to join the Academy. By listening to the words of a member I met through the guidance of Heaven, I was able to re-discover the purpose of my faith and the direction of my life.

I felt that the Message given to me was also for all 2nd and 3rd gen pure water. The ones that can become a comfort and hope to True Parents are children who know the Parents' circumstances and resonate with Their Heart. They are children who pour themselves out for True Parents and stand in the position of sacrifice. I resolved that no matter how inadequate I am or what difficulties I face, thinking of True Parents in far more arduous and crushing Place, I will surpass myself and grow into a child who can become one with Holy Mother Han, True Mother.

After making that resolution, I prayed earnestly at Cheon Shim Won. Thinking of the Path of Father Who Walked the Path of BS and Ts in miserable places and Mother Who Sacrificed Her Whole Life with Tears and Devotion for Her children, I offer my devotion fervently, centered on the Words given to me, and I drew a card with the determination to live by those Words. It was Mother's Teaching:

'We must find prepared and righteous people, searching with devotion transcending day and night. True Parents searched for Their children, praying like a way without distinguishing between day and night.'

I thought that if the child found in that way falls short of that standard, they can never become completely one with True Parents. I deeply realized that, as Blessed children, we must stand tall as prepared and righteous people, upon the devotion and sacrifice of our True Parents and that we must offer devotion transcending day and night.

Furthermore, among True Mother's Words there was this Teaching:

'How many hours do you think I sleep out of 24 hours. There is no day and night. You must become those who unite with True Parents for the completion of the Providence and work diligently. During this Academy period, I will add devotion upon devotion day and night to put Mother's Words Given to me into practice. I will be reborn as a prepared and righteous person who can be with Heavenly Parent and True Parents.

Moreover, so that True Parents can find and raise such children, I will faithfully attend the members who attend Cheonyujon and Hyojinjon. Deeply thanking Heavenly Parent and True Parents for calling inadequate myself to this Place, and granting me such profound realization, I vow to live for the Will of the True Parents with sense of ownership at every moment. gratitude

Blessing in 2018 and raising 2 2nd gen... Spiritual Yeongseong Workshop grace... I am a youth church leader of a pioneering church in Pyangwon... I failed to raise even a single child of faith and I had only a sense of responsibility and burden left before Heavenly Parent... (tears)

Though I was in the forefront of witnessing, I was left with anxiety, restlessness and fear and question why I was the one to sacrifice and thinking my abilities were lacking from Heaven to work, and with such shame, I wanted to disappear in front of people.

But thinking of True Mother and my family, I could not leave, and I saw those praying at Cheon Shim Won with tears and all their might. This reawakened the desire I once had to love True Mother without reservation. A voice rose in my heart, 'I want to be reborn' so I applied to the 3rd Yeongseong Workshop.

My husband told me I had been called by True Parents, but I could not feel that at all at the time. (tears) Even after applying, my worries grew that I might return empty-handed again, and would I not be embraced in Heavenly Parent's Bosom. But with repentance I resolved for 6,000 full bows over 40 days. I thought it was now for me to step forward and I heart a Voice like Father's in my heart, 'Protect True Mother'.

Without I resolved to attend the Workshop for the sake of True Mother. (tears) I woke every day at 8am and climbed to the Tree of Devotion and pushed myself hard. I thought only with this standard, could I love True Mother. But I plunged into deep frustration and agony, feeling infinitely inadequate with myself, but I realized I was only trying to prove how hard I was working, not truly offering devotion for True Mother.

At that time the coordinator said:

Laying oneself down does not mean merely laying oneself down for Heaven, but offering self for Heaven.' I then simply immersed in the Workshop with all my best. Once, during 1,000 calling out prayers, because Mother had not given up as well as b and s beside me. I could then truly feel Heavenly Parent was loving me with all Heavenly Parent's Might. I realize that devotion was meant to restore the relationship with Heavenly Parent and True Parents, a grace to be able to find the Love of Them giving Their Lives and no longer take it for granted, harboring the hope to bring the sorrowful history to a joyful conclusion.

However, I still became engulfed in deep self reproach. I prayed, 'Heavenly Parent, why has my heart fallen to the very bottom after these two stages. Today I receive the Cheonshim robe, but do I truly have the qualifications?' (tears)

When I thought I could no longer offer devotion, a Voice, 'Why are you stopping as if to give up. It is okay to rest for a while, but never give up. If you give up, truly nothing will be left.' At the same time the image of True Father wearing the CS robe flashed. The day Heaven's children receive the CS robe is the day H anticipated, the day H's children make a new start and the day Satan fears the most. I felt Father embracing my deepest self and I cried out, 'Father, Mother, I will move forward with confidence.'

Mother, these 20 days were a time of devotion exclusively for You, a time prepared by Heavenly Parent to wash my heart and to prepare to properly attend True Parents, allowing me to make a new start for Heaven. I thank You, Mother, from the bottom of my heart.

Now, I have accepted my weaknesses, but I have Father and Mother and my AG ancestors are with me and I will move forward making Mother's Dream my own dream.

Gratitude to Heavenly Parent and True Parents and coordinators and staff members and my husband who always prays for my victory. Heavenly Parent and True Parents TY, I love You

True Mother's Words for theme: Forgive, Love, Unite

Praying, and these words are not a simple request or word of comfort but are the Words of Life, just like how God, Heavenly Parent has given to Adam and Eve, so like the Words of God, the Commandment of God that we must keep. So, my b and s, I hope you fulfill these as if you received them directly from God.

True Father when He did not have a lot of members, He clung to each name of one person, and He did calling out prayer for up to 400 people. It took an hour and a half or two hours. As He shouted out, He

could realize what kind of spiritual problem each one had. And True Mother told us to do 1,000 calling out for Heaven and True Father to surely work.

So, in Cheon Shim Won, in order to absolutely believe and practice, we offer this calling out before every kind of Workshop, and for True Mother's well being and return as innocent. And every time we offered more diligently.

Another goal was to go over 300 attendees, and 345 attended this Workshop. This was fulfilled by True Father and Heavenly Parent... Despite how busy and tired, they offered devotion and bowing so that there would be no obstacles for True Father to work through their earnestness.

True Father: Because 3-day Workshop is short, you may worry that you did not learn a lot, but don't worry. AGS world is listen. And when you go back and want to practice in your life, just don't let go and AGSs will let you know the way, so there is no need to fear. You are not battling by yourself. Behind you are Heavenly Parent and True Parents and AGSs are always with you. You have a strong background of support.

With absolute faith of Heaven, go back to the age of children. Right now, you're not middle age or old age, your heart must go back to the heart of the child, and with the earnest heart of the child looking for their Mother, you must cry out to True Mother, and just like a little child, you must accept everything with a pure heart.

This resonance prayer Workshop, Heaven's Gate, the Doors of Heaven have opened so that you can learn how to Heavenly communicate. This Workshop is teaching you how to Heavenly communicate with Heavenly Parent. This is the time when you set the right frequency with Heavenly Parent. As you offer Cheon Shim Won devotion, you must delete all the obstacles individually that causes a block to the Providence.' (end of Father's Message)

So, True Father truly gave us very precious Words in this hour, during this period. So, because of this, even from the opening Ceremony, a lot of members cried, even before as we offered the preparation song, the members were already shedding tears of sorrowful heart.

I could not help but take photos, and my eyes turned red and tears welled up. I felt how earnestly and

desperately True Father has guided each one of the members, how He has worked, and also the many tears of members for True Mother, opening that path of tears so wide, they naturally just shedding tears together. And our staff also with them. I was touched with every cell of my body and I felt True Mother and comfort also.

The Heart of Heavenly Parent and True Parents waiting for you was felt, and my tears did not stop.
Testimony:

Many in their 50s and older attended and seeing them shedding tears, I thought of the life of them amidst numerous hardships and trials and realized the faith is not passed down automatically, but when we learn and practice the lives of the older members...

Upon hearing these Words of True Father, I cried out loudly right on the spot: 'Why is True Mother at the forefront fighting alone. On behalf of True Mother, you must have the weapon to fight. You must take all the bullets. Why is True Mother fighting, risking Her Life. You must arm yourself with the weapon of prayer.'

I felt True Father has prepared the weapon and this 3-day is how to offer prayer in one heart. We could learn this core prayer. And as the member listened, she thought the following: (She was living in Namjun where there is a Korean fold tale, and with True Mother's trials, She realized that True Mother is in that same position as the folk tale.) Then who is the righteous person who will save True Mother. Who is the true, royal inspectors? True children on behalf of True Father Who does not have a Body, must become the true, royal inspectors on behalf of True Father, Who can solve all problems on earth.

We are truly such people who can save True Mother. That 's what our sister felt. Through this Workshop, all of us, every one, on behalf of True Father for Him to Word, we must become such people who can save True Mother... applause for this realization received...

The Workshop trainees applied that devotion here. As I expected, our members were just like the Academy trainees. This devotion with heart of gratitude... video

I had been focusing more on my own desires than Heaven and could not leave all to H... I will think of Heavenly Parent and True Parents first from now.

After the lectures and during breaks, members come and ask personal questions to consul about. But I could only share briefly because of time, and they could not ease their hearts, so we made a special program for about 2 hours, so that they could freely ask and receive answers.

It was a lot better than I expected, and a time of happiness... laughing... I thought of this time as very precious... I was grateful that my experience and answers could be as one member said 'A light on a dark road' and we must connect young, individual prayers to be for Mother.

We had Cheonshim Choir and the reason I asked the two to sing was how they sang this same song with tears and how our members could tearfully resonate with HyoJN's heart... It felt like gathering the substance anew as True Mother's wanted, the time of praise I knew was great, but together with Heungseong prayer... thinking of the path of the cross, and deeply apologizing and sensing the Heart of Mother toward us children, moving the more through the praise time,

And all the members went up offering prayer and devotion together and then go up. They were able to engrave what kind of resolution they had, already making a path of tears, and were able to offer the praise very beautifully.

'Because our circumstances were bigger, we could not be greater, but repenting and offering the praise with tears, we felt received with grace

I experienced the contrition/repentance, unity and harmony, and together with 2nd gen youth, even to the point of my eyes swollen shut, and feeling as never before the Heart of Heavenly Parent and True Parents... I proclaim that anyone who offers the prayer and praise here can meet Heavenly Parent and True Parents, as never before..

And there was a brother who became like a start... He had the cancer spread to his lung, but as a couple they came to 3-day, and this was the fifthe time, and he actually registered the earliest without fail. He didn't look like he was someone with cancer but greeted us with his wife and that made me shed tears.

At the 14th Workshop, offering prayer with such desperate heart, so many tears and he feels his body getting better, living with the mindset that even he passes he will do his best. He is still working hard on

the bean farm to keep his promise to offer Mother many beans... many black soybeans... He staked his life to come to this Workshop... applause of encouragement... If we offer well, I'm certain he can be healed, True Father will work.

During opening ceremony, PL's Words about members and the church: This time through Cheon Shim Won resonance prayer, to unite as one and move forward with the belief that each churches Cheon Shim Won room is connected, transcending time and space, through a rainbow bridge with the Main Cheon Shim Won. Then the Word of Spirit and Truth will occur in ever church, and a church like Mother's Bosom can be realized in every church.

Do not despair. Do you understand? True Father also clearly Spoke when entering DMN's presence, 'Mark My Words, and you will leap forward without fail. What True Mother is Wishing for today in prison, is precisely those Words.

If you become one with Me, you will certainly soar. No matter what national persecutions come, a strength to overcome it will emerge. You must arm yourselves with that very faith through this Workshop. ' (PL's words)

Because of this a lot of special moments and new records... Usually, we have VIP's sit in the front and only have 4 or 5 people, but with 12 public officials added who attended with our members, we had to make this long line in the front, and this moved our hearts.

We had the rankings, and I just wanted to offer the applause to congratulate them...

testimony: All of the struggles with inadequacies and difficulties, all was realized as love and promise to be one with True Mother. I too will take pride in being True Mother's child and be one with HMM with our whole church, True Mother already victorious and we will present you with this year of only good things. For you well being, I offer this letter.

Also, interview: Our goal is for the minds and bodies to be held to inherit cheonshim and we came together 8 of us... and we want more than 50% of members to wear the purple robe and we could use the church vehicle and every hour was substantive and like a jewel, our Cheon Shim Won in our hope. In the field, the human minds get complicated, but here we can directly connect with Heavenly Parent and True

Parents and the Heart of True Mother...

We plan for all to have one-heart prayer to fulfill our goals and dreams... Mother, please stay strong.

The numbers increased so that it surprised us. People received grace they took back to church with their testimonies... The pastors have great responsibilities and difficulties... applause for all the public leaders throughout the world...

another ranking... 11 times and 5 times attending yeongseong Workshop...

They put their motivation as if they were carrying out the mission, not just doing the Workshop for learning but living for the sake of others, so the young to attend as if attending their parents and practicing true love. They named their goal as 'TL Project' and to complement their members and have heartistic conversation (which they put forward themselves for us to accept)

Our younger gen, all the contents they share, I believe is adding more grace to every Workshop

True Father: Depending on how you offer prayer and devotion, depending on how deep you go, how much you want, the 3-day will become like a miracle of 3,000 days, so that while you're in the physical world, you will be able to experience Heavenly Parent's Heart. It is fascinating when you experience your original heart, so even if you are in your 70s, you must put your strength in developing your spirituality.

You're living in the era of spirituality and it is really good for you to put such effort aligning with this era. So, you must develop your spirituality until your strength goes.

What's important from the vigil is prayer. You must receive power and authority form prayer. Wherever I reside in the SW, True Mother also resides. That is why, when you offer prayer, it will be answered. 430 generations of your ancestors are waiting for your prayer so that they can move. (end of True Father's Message)

August 8, the next 3-day Workshop. Important moment is waiting for us, to mobilize devotion for True Mother and True Father to strongly work and fulfill the prayer we offer.

430 is the goal for the next Workshop participants, and for True Mother's return to Cheongyeong Gung, with one heart and will, we will be able to hold the Workshop at the Main Hall, so members around the world, please support, and with life-and-death determination, so that Mother can be released as innocent.

Moving forward to the position of absolute, oneness, harmony and single-mindedness with True Mother

On August 27, 2015, 3 day prior to the third Anniversary of True Father's Cosmic Seonghwa Ceremony, True Mother stated that HyoJN's Portrait must be Enshrined in Cheon Shim Won, explaining that HyoJN and HeungJN have become one as the restored eldest and 2nd sons.

True Mother reviewed that until now, HeungJN, the CheonJung Gyeong, the Grand Commander of the SW, was at the center of the SW, but now HyoJN attending Parents as the Eldest Son, I have proclaimed the 4PF of Cheon Shim Won... It is HyoJN, the Eldest Son of True Father. The Eldest and Second Sons are united.

Therefore, through their descendants, I must educate. Now, if you form a complete unity with True Parents, miracles will happen. If you pray and offer devotion, you can resolve problems on your own.

Such a spiritual foundation has been prepared. Now, is the time when the SW operates automatically. Within the foundation of devotion over 21 years, an automatic system has been created.

Father went to the SW and completely organized the H and earthly systems. Cheon Shim Won has not established all order and has grown so that, if individual members offer devotion from a position of unity

with True Mother, you yourself can experience the same kind of phenomena as DMN's Word.

No one else can do Mother's Work but True Mother. If you absolute become one with True Mother with harmony and single-mindedness, you can be victorious. On February 4th, 2019, True Mother visited HJ CheonBo Heaven and Earth TC and gave the direction to place the Portrait of HyoJN and HeungJN in Cheon Shim Won in royal dragon robes. This is to assure that HyoJN and HeungJN who assist True Father in the SW are attired with their status as the First and Second Sons, the true virtuous of Cheon Il Guk.

Furthermore, on October 20th, of the same year (2019) the Enshrinement Worship Service for the Portraits of HyoJN and HeungJN, the Gates of Deep Heart and Hyo Jeong and the Moon Heung JN, the Commander and Chief of the SW was held at Cheon Shim Won. Through this the BF's living today are living in this Golden Age. There has never been nor will there ever be any other time like this, when the OBD, True Mother is breathing right here on earth. I hope you will swear to become one with Me, and eternally build the Kingdom on earth and in Heaven together.

Resembling Heavenly Parent, may we progress and open our eyes fiercely to offer devotion as if we were at war (this from Pastor Sosigmon)

Leaders are here with us and members here with us... 676 members...

GPP 15... Academy 70... Taiwan Special 14-day have 104... International 118... Yeongseong Seonhwa Youth 40 and today among special people, H Japan has Seonghwa students 100 who joined the summer camp...

Today, the Special Devotion fishing Workshop and today the missionaries are offering prayer and devotion... I don't know if they caught a fish yet, but throughout the night, they are offering the devotion. Just the fact of being there, a lot of grace can come.

Our brother shared how he could revive through the Workshop, having had a depression to avoid people and barely any faith, no root of faith, and his mother probably offered a lot of devotion, many times asking his son to attend Cheon Shim Won... Without this of a mother, how could we hold these WSs... He was able to revive and deep root, and he has been serving at the Hyojinjon Team...

He received the encouraging words at the moments of his difficulties... Heaven will always give greater

grace and blessing for overcoming... not giving up...

He went to Pyonwon where Father is resting and heard, 'It's alright' and shed many tears and now resolved through many people. He will pile devotion and with the heart of a subject will live his devotion.

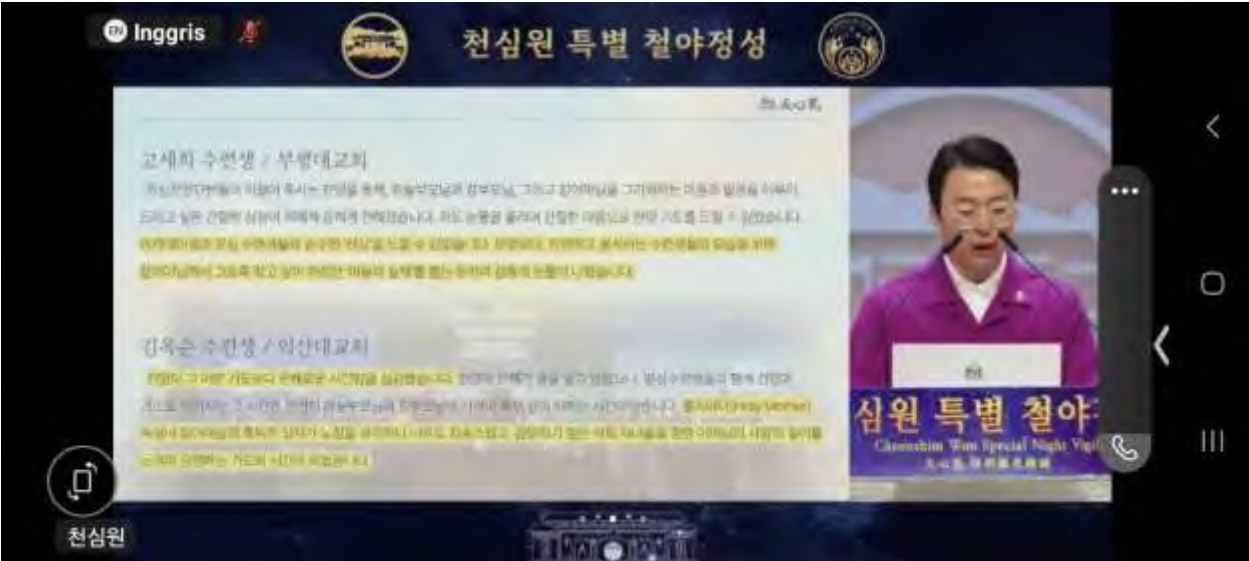

Taiwanese public official: As a pioneering church pastor, so many difficulties. When she went our the resolution was worn down and anxiety and fear came and even she blamed the church and Heaven and also self blamed, and felt the limitation of their heart, and wanted to disappear from the people. If whe disappeared, surely a big trouble would have happened, but Heaven worked through her, and moved her when seeing the b and s offering such earnest devotion, wanting to be like them...

Just the way your offer devotion with tears can be the causing force to make people revive. Please understand this. She faced the negative emotions, but I believe she truly received the power from Heaven. Why? Because she opened a door to communicate to Heavenly Parent. The fact that she can offer the 12 hours twice with victory is a power she has. Usually asleep at 2am, waking at 5am and offering the 1,000 bows, continuing the devotion. That itself is a power Heaven bestowed.

To feel the heart of restoration, you must feel the ST and B of going out to witness. It took 4,000 years for Heavenly Parent to find the Only Begotten Son, but He was crucified, adding the 2,000 years and the time of OBD... We need to find this Heart of restoring fallen people, realizing how hard Heaven has worked and also live with such a Heart, coming closer the Hyo Jeong H Heart.

You must know how precious the members are. In the countryside, if you go out, you will realize how difficult it is to attend an older grandmother and sit down with an older man, who drank and cursed, how difficult. Do not feel sorrow of not being able to witness one person, but be grateful that the experience was made for you to realize.

I hope my sister keeps gratitude ongoing through feelings of giving up. 'Do not give up. If you give up, nothing is left behind.'

'The day of receiving the CS robe is the day, True Father and ancestors have been waiting for, the day of H's anticipating. It is the day when you wear the robe, ancestors can also wear it, as ancestors have anticipated. It is the day to set a new start. If you have a prayer with CS robe, the satan will fear that the

most.

During this time of Workshop, I hope she becomes one with and fulfills the Dream of HMH as a pastor....
applause

We heard the song Dolai... If you sound it strongly, it is like the sound of a crazy person meaning. As we sang this song, all were able to ascend to such a position of feeling HyoJN's heart...

We heard a new song, 'TY' as True Mother said we should always say, 'TY'. 'I Love you' and 'Be happy' Be happy through witnessing. We should let our members listen more and practice this praise and hopeful he will be able to share it again this time.

Our members attending the 3-day very well with many tears... This did not happen by itself, but for 13 days, every day the coordinators offered calling out prayer.

The culture of 3-day, if those traditions are spread throughout the churches, we move forward more with Spirit and Truth. I hope the pastors can bring that to their churches to ignite their holy fire and revive.

Namon Church said that if True Mother is nimyeong, there should be an inspector who can find the incorrect worker. I believe that should be bestowed with our devotion gathered

Our brother works for the black soy beans to offer to True Mother, even he has the cancer, offering devotions to fulfill that promise.

We are developing the many WSs because of True Father in the SW and True Mother in the physical world setting down that victorious foundation.

True Mother explained that HyoJN and HeungJ have become one as First and Second Sons. We didn't have HyoJN's Portrait and we had to enshrine it at Cheon Shim Won, and we were attending and True Mother gave Direction to dress HyoJN and HeungJN as we see today to wear royal, dragon clothes. We had to draw them again and now they appear as we see today. The virtuous Emperor of Cheon Shim Won True Parents, HyoJN and HeungJN attend Them.

The Emperor is the Position that has kings under them and among those kings first are HyoJN and HeungJN, so not to think of it as 4PF of someone here with us, but they truly made the foundation of victory. And when the day comes, True Mother will offer Ceremony for them, and as we attend them as True Parents of HEH that transcend time and space, we must set the foundation that they come down and work through us.

If you set a new start today, SW subjective, will work through you greatly. For the two world to unify we must understand the SW very well and for the SW and PW to unify.

True Parents and True Mother Who Wear the Body of Heavenly Parent for HEH, and the 4PF in SW who are attending Parents, and our elder members and BF's who are in the SW, countless BF's in the SW, they must understand the PW as subject and Cheon Shim Won as the main Providence and Cheon Il Guk Constitution.

Cheon Shim Won is the Organization that represents SW. We are preparing that as the organization that represents the physical, we express the cheonmuwon, so the one who symbolizes or represents the PW is Cheonwon Gung. That Place is preparing to represent the PW, so Cheon Shim Won and the Three Organizations are like the Mind and Body unity. It is two organizations structures.

That is what True Mother is telling us.

But if we do not understand the SW and PW, we would only think of it realistically, and if we move forward in that way, we will bring sorrow to the subjective SW. So, wherever you go, you must over devotion to Cheon Shim Won. So, all the Branches and leaders and churches have established Cheon Shim Won, and within your family you must create a prayer room, and as you enshrine True Father as the Victorious Emperor, it will allow your family to not just repeat Verse 5 but know the deep meaning and do what is right.

We should be able to witness through the eyes of faith and how Heavenly Parent and True Parents are working this way and that. Now Heavenly Parent has substantially shown through True Parents, and you must attend individually and as family and create such a form of the church attending Heavenly Parent. If you still let dark spirits stay at your centers, you will have a lot of problems, anger, jealousy, fear, enemies. Then we cannot live in the direct governance of Heavenly Parent.

If you face such an environment, you need to pray devotion please for Heavenly Parent to liberate this spirit. Our sister faced the fallen nature and offered prayer and devotion, crying out and dedication to liberate that. You must offer that kind of prayer so that Heavenly Parent can liberate that. Once the cheonshim is the center of your life, you can have this kind of understanding and experience organizing all those things to receive love from Heaven. I hope you become such kind of children... Aju
