Before the Trumpet Fades

Morning and evening, with refreshing breeze cannot enter your sealed windows, with even a fraction of the sky how long would it linger before when you waited for news of the children across oceans and your grandchildren's tiny hands an elixir. Though I long for you, across mountains, you left and the gold and the waves have withered and scent of rubbing alcohol from head to shoulder, You Holy Body in pain, but the freedom to go to Your children is the greatest pain and children across the seas ache and even the mountains and seas... and the winds carry... silently guarding the path on which You will return... Let this be the final puzzle piece that passes swift as an arrow... ultimately crying even the roots, we will close to one grain of selfish gain and the key to opening the cold, iron gate was never far away when living a life without a single shadow. We will walk as Father to the end and be reflecting bodies of M's true love, wherever that rough Place or cost, we shall go it, we shall bury it in Your stead... and behold the waves of yellow flowers, Your return and a single dragon fly is writing the word 'freedom' in the empty air "

There is a saying that happiness grows the more you share it. You must share what you know. You must let the people of the world know. You all need to make the True Parents known. If True Parents are left out, you are merely an empty shell. You become useless. Let us attend True Parents at the center, practice and prosper according to Their Words, and become the proud leaders of unification in America.

the grace of a temporary Cheon Shim Won prayer room is being done... Hakauki Hoshikawa establishing these in many homes with changes in the families...

Family A: We became able to concentrate more on Cheon Shim Won at home rather than on our cell phones, and starting on the very night the pastor set it up, the drowsiness completely vanished and we could offer all the way to the end with sincere gratitude...

A place to receive the Heavenly Parent's and True Mother's Love. At first, we had some doubt but as soon as praying, tears flowed naturally and we prayed for a contact who had drifted away from church, and we realized our prayers were surely conveyed to God.

The couple resolved to offer every day, and before small things made big fights, but now marriage relationship restored, the daughter who left returned and change was also for my husband's sister's family with the husband changing to attend with her.

We are filled with awe and gratitude and will continue for the liberation of the clan.

Visiting families, some so difficult to encounter, but the grace of the Cheon Shim Won transform the

families to be the master and the area the Heaven realm.

Following the dissolution, I was overwhelmed but with the home being the Cheon Shim Won, I immediately offered there and visited core members families and connected their homes with our Cheon Shim Won... Now there are160 home altars, and many members are realizing the vastly different experience leading to resonance with Heavenly Parent and True Parents's joy and sorrow.

An old friend said he wanted to join the religion you belong to and even the reputation is not good, he said, 'What you are doing is not wrong, and just to be with you makes me happy.'

I felt the Heart of Heavenly Parent and True Parents that wanted to visiting the families, and when I visited I truly felt Heavenly Parent and True Parents with me. The church altar is a great new hope of the Cheon Shim Won Gift, and we will continue to attend HMH until the very end...

a poem of True Mother's lonely Heart,

There is a sorrow that belongs to Heaven that watches every child that does not punish but waits and endures and believes beyond reason in the children's return.

You also carry the Mother's course, to love without limit, to give without guarantee and to stay when staying hurts more than leaving every could.

There is a Heart that does not turn away as children wander, break and forget.

True Mother You live inside this Heart, and smile in exhaustion and carry the weight... There is nothing small about raising souls and pouring yourself... hidden inside gentleness and giving Yourself willingly because Love asked You to.

You have know a grief that sits in Your bones in your Body... Even when the world makes You suffer, You remain when life is unbearable again and again and give life again... exhaustion and gratitude can cause from the hardest days what is always about saving humanity not just raising children... You hold this and make the time itself the space for us to come again and in a world that forgets how to care, You remember how to call us back... You burn quietly, but in love that does not extinguish... and because You remain, we are still here... still waiting, becoming, held inside, a Love that stays and waits for us to come... home...

True Mother's Holy eternal Heart is warming embracing and transforming many 2nd gen.

This one repeatedly attempted suicide but then reborn. Let us meet the sincere repentance... Before the Workshop, I lived a debauched life, because my parents were pastors, there was a period when my father was away in America, and it felt that members took priority over family, and he was busy and it overlapped with the time my brother was born.

I thought my mother hardly ever looks at me, and I went to live with my aunt, but she would bad mouth my family and me, and in part I agreed with the complaints. Actually, I really had love for my family also, but mixed with the resentments. After 3 years, I could still not genuinely like and love them when I returned. It was so agonizing that I attempted suicide several times, and drank and smoked and wondered if I really was the daughter of a pastor.

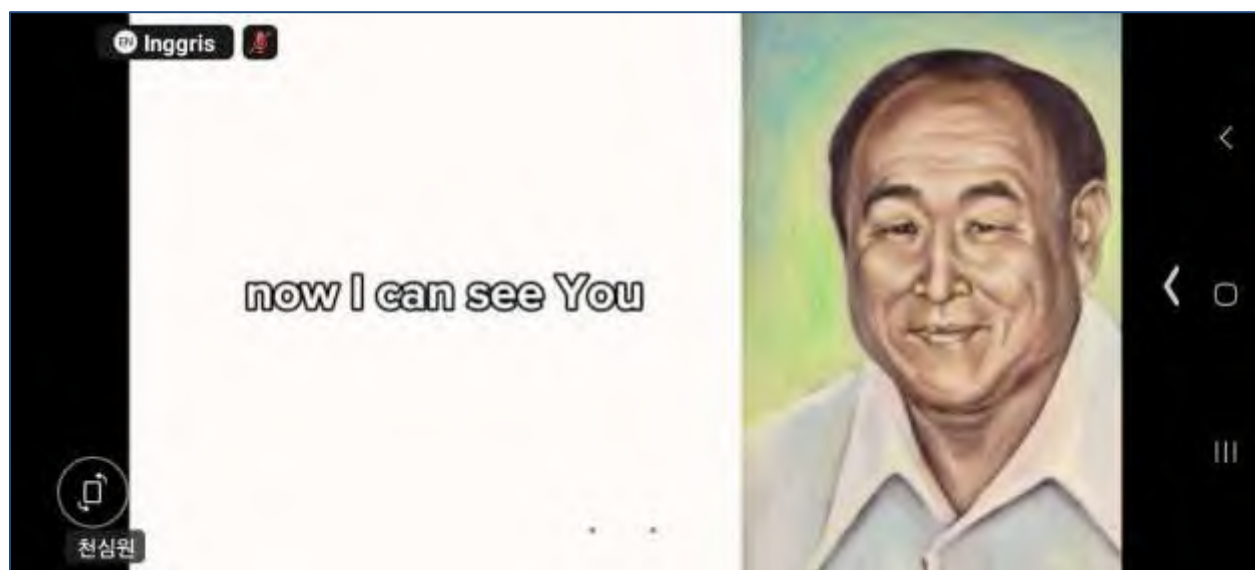

After severe injury of a car accident, and my mother wanted me to go with my brother and consented to tag along, and then understood he heart my parents had raising me, and how they always trusted, waited for and loved me unchangingly. I realized that was Heavenly Parent's Heart. It was deep affection so deep no end could be seen, always forgiven, even awful things.

The past me was arrogant I suppose, and realizing after hearing the Course of True Parents, I hadn't been able to realize loving those who try to kill you, but realized that was the heart of a parent. I couldn't understand the hearts of the Korean people, who think of everyone as family and my father also considered the church members were family, not priority over me but of the same family.

Taking responsibility, since I was born as a pastor's daughter, born as a 2nd gen is the most important thing, so even if I cannot go to public mission, living a life for the sake of others and creating an environment that 2nd gen can return because they are in the same situation as I was. I will serve people and love them and I want to move forward with Heavenly Parent as my Parent, realizing.

After coming here, there was nothing but regret. When I think of the responsibility entrusted to me, the sorrow of Heavenly Parent and Mother and Father, the desire to give up disappeared and I simply think that even someone like me can be of a little help, thinking of the Life Mother has walked until this day.

I was able to realize how shabby and weak I am and how agonizing it must have been for Mother, despite the fact that I am Her child, Mother still forgave and loved me. my gratitude, thought I am someone who doesn't know how to love, even just a little I hope I can be of help now, incompetent as I am, please watch over and guide us.

Dad, mom, I'm sorry... tears... Even though I am standing on the foundation built by you risking your lives until now, I strayed and even insulted my parents... I am truly, truly sorry... You bore me in your womb, and gave me life, but I tried to cut that life short, time and again, but you waited for me and loved me anyway... TY for loving me..

Turning becomes re-opened relationships and living for others publicly... But he did not give up with the

heart of servant of servants...

My father was evangelized while a medical student and dropped out for the life of dedication, even every one in the village had high expectations and for him to enter the Unification Church became a great source of criticism and my grandmother thought her son had died. She said she did not think of me as her grandson.

My grandmother told people she didn't know who I was. There was hardly any conversation when I went to her house and I would clean the bathroom thoroughly, but she would say not to come back, but returning and cleaning repeatedly was how I wanted to prove that the path my father chose was not wrong, and I wanted to prove that I am now building a family and living happily.

One Autumn day bags of rice were piled in the entrance and she actually asked me to move them for her. She asked me for a favor for the very first time. I felt I had moved up to the position of servant receiving orders. After that whenever mail came against the house, I would handle it on her behalf. As I continued to visit, before I knew it, I could talk with grandmother late into the night and she told me of the trouble she had experienced after her son went to the Unification Church.

She testified to me, and I felt I had restored the birthright among the birth sons, and when she said she had raised her grandson splendidly, I was so happy and I wanted to tell my children what magnificent path my father chose so that I could enjoy this path. My father had a beautiful youth and life.

Now, no matter the weather, I make a phone call to my grandmother and she tells me to come quickly again soon, and I am filled with a desire to go there even now. Grandmother Atsuko, I have come to realize you have become to think you son seemed like he disappeared or died, and life was so difficult for you, so I understand why she had no choice but to pour out all those difficult parts of her heart to me.

Right now, my desire is to meet grandmother at the earliest possible day. Every time I call, she says over and over, 'When are you coming again. Please come quickly.' When she called last time, the dementia had partially started and she could not recognize me at times. I wept so much.

When I offered prayers about my father from Cheon Shim Won, the answer was that my father had been

an extremely lonely person and always said, 'You must not become like me' because he was living in poverty, having dedicated himself to the will he didn't want his children to live in poverty like that... I say to my father who dropped out of university, 'Please be assured that your children will study hard to be splendid people inward and out and inherit the path you chose also, so do not worry.'

I want to make it so that such a father can shine eternally by the course he chose. The words, 'Engage in tribal messiah activity echoed to me from heaven' and I was assigned to Seongdong mi where a previous member had difficulty and laid down the work and being treated so poorly, I created many reasons not to go.

I asked myself 'Why am I here?' and it had no other reason than True Mother. I then had to go for the sake of True Mother. One day, I had a severe, inexplicable stomach ache and before I knew it the words came, 'Let's see who wins, you or me?' Since I could press the accelerator of the car, I went to the village, and as soon as I arrive there was the leader of the village who welcomed me to his house and even served me coffee. I knew that I would have to run to the restroom if I drank the coffee, but I needed to have a conversation with this person so I drank the coffee, and as soon as I did (after hearing, 'Will you continue to love after this' and the pain disappeared and the village began to change toward me.

All the residence coming to the village hall came to the TC. The atmosphere completely changed after the Entrance Ceremony. And instead of being called, 'Hey, the Unification Church' now she seemed to treat me as a human being, and members would make requests for me to clean the village and host events. One went so far as to ask me to take good care of the village.

Heavenly Parent, trained me from my maternal grandmother, that no matter how difficult the people were, they could surely change. Heaven showed me in advance, and I feel so strongly that the devotions of HyoJN, HeungJN are making an appeal. Every time I make devotion I hear, 'Attend Mother with a heart and devotion greater than us!' and I feel tears pour that I become a little closer to the better devotion and I press forward...

testimony Deaconess Desamov offers all night devotions continuously... one according the grand time and local time solely for True Mother's well being and the Unification Church family's future, and marking her 7th? 40-day fasting in total... Deaconess She said she had a dream in which there were so many snakes that I put them all 4 snakes into a white plastic bag and buried them in the ground, and thinking that I needed to sanctify the somewhat gloomy environment and for the eternal well-being of True Mother and that the True children would repent and return to Wang Omma True Mother and for Moon Shin chul and heung... Shin chul nim came and ate what I prepared happily and for the 4PF of Moon Shin chul, Moon Shin heung Nim and Cheongju...

I bought a lot of pizza and placed it on the table and Shin chul nim came and ate it with a very bright expression, so I dreamed a dream in which I hugged him tightly. Although there is not much time left, with utmost devotion, becoming completely one in body and heart with Wang Omma and earnestly yearning for H USA's Cheon Shim Won and PL who is taking charge of all future providences, Japan and the chosen people and for the children to fulfill their responsibilities, I will offer my devotion.

I earnestly pray that the day will come many 2nd and 3rd and 4th generation can and repent and for all gen to return to Wang Omma and I will offer devotion so that the Korean and American families can once again fulfill the way of loyalty and filial piety to True Parents.... Thank you sincerely...

She is Mrs. I sang mu is the driving force behind this devotion, and many have gathered for their own circumstances but the end always cries out for HMH release and longevity and promising to be the children who repay Her devotion, we will go forward risking our lives.

PRESIDENT LEE GI-SEONG'S MESSAGE

The HyoJN and HeungJN families are together with us and the leaders of the Providential Institutions and the devotions are gathered with 58,000 are joining

700th vigil Daegu Church 100 are gathered with resolve until the end... more and more gathering in H Japan

H USA in LV and other Places, TY also Nepal... Jardim...

Cheonju Grand Church also 73 are gathered for 700th devotion also Hannon and Isu 700th and 600th

New Jersey Church 500th... going over the hill of 700th is really important... Here 2,100 gathered at 700th and True Mother was so glad and asked us to make a video about the liberation of the central spirits and educating them... so 700th is such a victory

2,200 applied for the Workshop and we can see how the Main Hall filled with 290 from the HQ, and there was a couple who listened to the Divine Principle and gathered right away to here. I am not sure if that person was shocked or not, ut more shocking things in the end... big applause and the couple stands and bows and smiles...

TYSM, you have come here very well. Even we see a lot of persecutions, but, seeing this place where the entire world can become one, is such a fortunate place.

311 offered the praise we saw... Taiwanese member's national President is still here... He stands and bows Mendese... 94 are gathered here... several churches in this place, Please do not feel disheartened that I didn't shout your name, Heaven remembers

There are trainees that offered the all-night devotion... other pastors and all of the elder pastors are offering their fishing devotion and caught a CARP, so TYSM... (They show the CARP)

The 3-hour devotion is here but the Cheonjuwon and fishing devotion of 24 hours, and when we asked

them to rest, but they did not sleep for more than 30 hours, offering the devotion, risking their lives, and this can bring great works, and 65 are gathered and Ocean Challenge

True Father offered sincere devotion as if a war and in Yeosu they are offering such devotion...

I San Mo who attended True Parents in East Garden, her 7th 40-day... starting when True Mother entered the DC... She had the dream but continuing her 39th day, really risking her life. Also, while she was giving the interview was the 37th day of the fasting. For us, when we're doing 7-day fasting, we might want to lie down, but she drives her own car and participates in the LV Cheon Shim Won and sitting in the front seat,... here she is offering devotion with such lively image... The one standing and waving...

She continues her 40th day and in her mid 70s but looking at her, let us realize our devotion is really lacking. All members around the world who participate in this devotion, the works can unfold, and all be together with the HMM, whenever we tune in to the frequency, we enter the era where we can hear what True Father is saying to us, manifesting in substance to govern this era, and become the heavenly village of families merging into the H Ideal of Creation.

After Entrance, we are the H citizens who entered into the Ideal of Creation, so we could see the different and special WSs developed, and sometimes I do the Opening and Closing Ceremonies twice a day.

And I am going through a lot of documents and facing this time, and seeing all the WSs developed, I am earnestly working for even greater Blessings and miracles... There are instances where we had to cancel the Workshop because we don't have enough accommodation. 2,000 will gather here in August, so we cancelled one Workshop.

We are using the basement of the hospitals and the Cheonmuwon 4th floor are doing the Moshim Attendance Workshop there, where DMN is actually meeting them, seeing this atmosphere of Spirit and Truth...

The EUME shared the Workshop praise, and I felt the AGSs of H Europe and Middle East are singing together. On the 38th day, there were the spiritual works with one person that 4 people could not hold

down because of the resentment spirits... But there are a lot of people who forget there is a SW, and there are the people committing all sorts of sins, but when we overcome the value of True Parents, all can be overcome.

Incidents where the trainees are becoming possessives, there is the lecturer who is overcoming this. This is the one who was crying and wailing with such heart, but now he is one of the greatest lecturers in the Japanese team. He is so great that Rev. Yokoi Vice President is actually jealous of him.

We also saw that the trainees were shedding their tears and the spiritual works are happening and the Branch Presidents, when they were able to resolve all this and truly move forward, and the one who was the leader of the Marxist Movement, we see though that a new Blessing and era can come and there be no more wars, when we really shine H's works and authority and we heard the HJ poem.

It was such a heartfelt poem by Chairman Lee seong man... Before the cries of the midsummer's acadas fade, please come forth... Before the trumpet creeper fade, please return to the Palace. A blue sky Cheonjeong Gung a single dragon fly is writing the word 'freedom' in the empty church...

big applause

International trainees sang 'Mother Dear'

Pres. I Bon sok shared what is happening in H Japan with offering family group prayer in the Cheon Shim Won of their homes...

True Father is not a Person Who passed away, but is freely working as a free Spirit, going and working. Do you know how beautiful the SW is, so majestic that you will want to be there eternally, and for you to freely roam, you cannot be a sinner or you will be entangled by the sin, but you must bring something precious to there, and with True Parents's forgiveness, They have the authority to receive such Blessing, and we need such faith.

Jesus, no able to be a True Parent, He was not able to forgive the dead spirits in the SW, but only individually could forgive sin. True Parents went over individual to forgive collective and lineal sins, and we can be reborn as children of True Parents not children of the false satan. How big is that grace.

Because the Japanese members, their collective sins were forgiven so that we don't have enmity to Japanese people. How many wars have there been, but receiving this Blessing it is gone, and they can build an ideal world under the umbrella of the FF... and all spirits in the SW can be Blessed and reborn as Heavenly Parent's children and the background can be organized.

There was a grandmother about my age, and there was a time I was attending her and not a single day when she screamed so strangely at night. It was so scary. A time when we did not have electricity and we could hear animals from the mountains, and speaking that she sees her dead son.

We did a lot of Shaman rituals, but since we joined the Unification Church, no one was screaming like this, because of the Authority and ability of the Unification Church, this waves of people need know and be filled and we have the Cheonon Gung that we can be proud and bring the highest leaders of the world. All is prepared, with the Gates of Heaven open, but we need to overcome these present difficulties. That is the reason SW is wanting to work through us and we can build up the power for world transformation.

During the wilderness time, they saw miracles every day with water falling from the rocks, but because they were not maintaining faith, all of them died in the wilderness, except for Joshua and Caleb becoming the faith center of the 2nd gen from the wilderness, and with faith that made the walls fall down.

How much persecutions and True Father entering prison several times, and foundation in 120 countries, and with the name of Victory Over Communism, we really have seen the absolute victory for peace, the Berlin Wall collapsing with sincere prayers of HyoJN. Even we are offering devotions, because of our shortcomings, really seeing the devotion from I Kon mo Deaconess, we need to offer the devotions that can move Heavens, and participate on Zoom, and the SW will move and True Father should be moved.

We need to be in a position where our faith is recognized. Devotion needs to be subject to Heaven saying when it is enough, not we ourselves saying it is enough. Seeing the snakes in her dreams, she buried the snakes and then did another 40-day fast. We need to be able to see those things, offer the devotion and walk the path when Heaven will finally say, 'It is enough'.

In the eyes of Heavenly Parent, Abraham's offering was not enough. Before finishing the offering, Abraham slacked off and slept. When you offer your son and daughter, when Mother says, 'I am moved

by your devotion'. That is what needs to happen...

Some have offered devotion for 120 hours without sleeping, or 24 hours. To the elders who offer devotion at Cheoniljon, through one of the pure waters who offered devotion, I don't know how much tears when I read this, but first part:

After HeungJN went to the SW, and HeungJ HyoJ and I went, that heart of losing children and a spouse, it is a shimjeong that cannot be expressed in words. She cannot speak or rely on anyone, but She could not continue with humanistic perspective but gather Her heart, comforting Heaven more sorrowful than Her, and She thought of Heaven's Heart before Herself. That is the Image we need to resemble. Whatever persecution we are facing, we need to comfort True Mother, 'I will become the filial child who will comfort Heaven' We need to realize that position.

HyoJ and HeungJ, who are busy whenever I visit them, but they are only concerned for True Mother with a heart not at ease any time, but are in the position to look at the members in the PW and you need not think of what you didn't do. There is no 2nd and 3rd gen that is not born pure, but they don't know their mission. Pure is not knowing the world, but even living in the world not forgetting their birth. Not if they left the church and say not to call them 2nd gen. Those children who left and going farther from Heaven, we are losing them.

Mothe really loves Her 3rd gen children. It is the entire world collapsing inexplicably. True Mother risked Her lives, and when they turn their back, the pain of Mother. She was in a position to take care of others and not able to take care of Herself, even She was in utter pain. There were more people asking for favors from Mother than asking what Mother wants. We need to change ourselves to think what we can offer to Mother, make a Place where True Mother can rest, drop all Her burdens and not only through words, but fulfilling our responsibilities in our positions, and not make things Mother will have to concern and pain about.

In our positions, making our works prosperous, not making problems and more burden for True Mother. That is what True Father is asking of us, and Heaven will shower it with Blessing, like Deaconess I Sang mo.

After our prayers when we go out, out elder who was in the firefighting, whenever he sees me, he gives a

salute to me, even he was wounded and is retired, let us become a church and family of earnest prayer and devotion Heaven is moved by.
