VIDEO story based on testimony

Even after losing her son, she blessed the perpetrator... the 19-year old in an unexpected accident and the world was wiped clean to a blank white for the family... She was working as a teacher and drifting from Heavenly Parent, even with the Blessing, she had no time to love.

She blamed herself and guilt like a deep darkness, her younger brother passing... But the feeling that she could no longer sit there in despair, the mother who had chosen prayers over resentment and offered vigil and made the decision no one expected, writing a HJ Paper for the driver that caused the accident, not love in mere words but through life, and she began to see the overlapping image of True Mother, and she was profoundly shaken to see what the Heart of a Parent truly is (the daughter) and how difficult must the

path have been for True Mother.

True Mother and Heavenly Parent Who could not call the millions of children God's own. Thus, she transformed into a sea of love, how is it possible to liberate that person, among the worst of enemies True Parents forgave them all. Amidst the vigil every day, at Cheon Shim Won her heart revived and yearning for True Parents became her life.

Her father found it difficult to join such vigils and the daughter began to feel for this... The mother said, 'I want to come with your father' and the daughter became convicted that this wish would be fulfilled. At CP, she ran into her daughter, 'I felt that if I went up just a little more, I would meet you' as they met there and hugging, the daughter felt the love of Heavenly Parent and True Parents and her parents in its entirety.

'Heavenly Parent, it is alright. Our family is alright now, receiving the Love of Heavenly Parent. Though her brother departed, his presence lived in people's heart, with the memories of one person's life that ran deeper than the world's prejudicial hates.

When praising, she felt here younger brother rejoicing and believes love does not end with death, her brother with them truly still. She decided to continue devotion for her father to come with them and truly become one.

Some never heal, but some embrace with love.

PROPHET RADEBE testifying to True Mother and True Parents

"Because those who are asleep cannot see...

That was a short tribute that I prepared for HMM, to remind Her and remind the world and remind you of the Seeds that She Planted across the world.

We are in an era of awakening and the rest of the world is still sleeping, that is why there is no alignment between the world, the PW and the SW.

The era of ignorance is over. It died with the era of Pisces. Now we are in the Era of Awakening, the Era of Spirituality, the Era of Knowledge (Family Mutuality). And those who do not Seek Truth Knowledge, they are going to be left behind.

Only those who are spiritually awake will be able to follow those Who are Spiritually Called.

Those who are sleeping will persecute those who are Spiritually Awake. Because they themselves are asleep, they will imprison and kill those who are Spiritually Awake. They cannot see what those who are Awake Can See.

Those who are Spiritually Awake will be called a 'cult' and 'demon possessed' and 'satanic leaders' and 'followers of Satan' by those who are asleep, because those who are asleep cannot see what those who are awake can see.

Holy Mother Han went to Africa. And She had a Goal. She was in Search for those who are Spiritually Awake. She was not Looking For any Dick or Harry. She was looking for those who are Spiritually Awake. And indeed She Found Them. Here we are today. big applause

Because those who are Spiritually Awake can identify others who are Spiritually Awake.

And those who are sleeping can identify those who are sleeping.

There is a saying in my language, but when you translate it to English, it is not so strong. 'Those of Spirit Know Each Other. They Can See Each Other'

I was not introduced to Holy Mother Han. I saw Her years ago, Sunday morning 8 o'clock with millions of my followers who can testify up until today.

It was a Vision in the Direction of Asia. And I was told, 'This Woman is Coming. Accept Her.'

I do not just go any way. As short as I am, and alone, I move in the Direction I was Guided.

But I was told in the Vision, 'Accept Her!'

Some years later I met the (dedication? introduction) Rev. Tamara Pakari. And then so goes the story. And I'm here today.

That is why I love Holy Mother Han, and I support Her, not because I was introduced but because I could see Her Spiritually. (respectful applause)

My brothers and sisters, the time has come. Let us be awake spiritually, to see spiritual things. We cannot sleep any more. To be religious does not mean you are spiritually awake. You can go to church every day. It does not mean you are spiritually awake.

We need to choose those who are awake today, our fellow religious people. To be religious is not enough.

How can I be spiritually awake? Only through those who are spiritually awake. They are imbued because they receive Revelations and are able to be spiritually awake.

Not the internet. It can confuse you. There are confused people here, who are confusing others.

Only those who are imbued /revealed for that from Heaven are spiritually awake.

May our Creator be with us. May we be strong. Let's be on fire. Kamsahamnida big, big applause

320th Day of Mother's Imprisonment... It must not end merely as suffering. Mother is bestowing still the

Words of Blessing and Hope. We must make sure that H Japan inherits the victory... H Japan churches are becoming a beacon of hope through the substantial Holy Spirit and reality of BFs attending HMH.

Changyang yoksa testimony miracle... Kayhanshin Family Church... SW and PW became completely one. 30 years ago the couple lent money that was not repaid, a large sum... They seemed to be directly connected but in a state unable to admit that fact. Having lived a life of faith for a long time, but they could not continue with ancestor liberation and Blessing.

But earlier this year, they could not sleep at night and called saying that 'I hope you can repay the money'... The person got cancer, and repentance came, and the recently deceased doctor and their parents appeared together and said, 'Please take good care of us'... and the Elder sister's husband who did not acknowledge the facts, did return the money and achieved reconciliation.

Upon hearing the story about the spiritual guidance, everyone was wrapped with graceful emotion... Then the liberations and Blessings could be achieved and all is greatly opened. This is proof of a SW and PW cooperation, and this Entrance Era Providence is rushing in. We are convinced that the members uniting and offering of True Mother's Course were tremendous conditions.

testimony... many part-time employees at my work place, and one was fierce and bullying those who did not align with her, but the more I read True Parents's Words, I realized the importance of overcoming all by faith, and I thought about it that she is helping me clear my indemnity, and she is a pitiful person who only knows how to live that way. Then she changed to speak to me kindly and clearly and we can even laugh together sharing jokes and the work atmosphere is good.

Before I would just think of myself as not doing anything wrong and being wronged with negative and resistant feelings... How great the HJ WSs are...

Mother's 320 Days is a long period of 40 days 8 times over and right now we offer a worldwide devotion for HMH and let us march forward so that we can make a foundation for the GWs and Father's Seonghwa and AGSs to work in the fullest from the SW. TY

CHEONSHIM WEEKLY

Paeng Yu Sang

Although I am lacking in many ways, I'm hopeful to share the hopeful story of TL flowing through many generations.

He passed many years in pain and bondage, spiritual limitation and bullying... He broke through with unrelenting devotion...

When young, my body was very weak and accidents and exhausted and bullied, and no good spiritual energy, many dreams about death, and I lived in fear that there were evil spirits around me. I thought it was entirely my fault, being lacking and worthless.

My head was filled with negative thoughts and wanting to die, wanting to give up, and my body worsened. Many thought I was a lazy person who couldn't manage myself. I stopped leaving the house, while I gained weight and deteriorated.

I received a suggestion to go to the Workshop, and I entered with worry coming first. My weight was 165 kilograms. Not whether I could experience the heart, the thought if I could even participate or finish, an hour to go to the Tree of Blessing and standing too difficult, and I couldn't wear the robe I received.

I heard the suggested from the PL to enter the Academy and lose weight, setting a goal to resemble Heavenly Parent, and began to practice one small thing at a time and began losing weight.

In the midst of that, I began seeing my fallen nature. I felt my body was breaking altogether. PL said, 'Have you ever talked to your resentment spirit?' I began speaking, 'Let's see if I win or you win.'

With the exercise sometimes, I literally couldn't get up and lay in bed unable to eat with severe body aches. Then I felt a body so light and different than before, and as if I could do anything, and I realized a large central spirit had departed. My weight kept going down.

I began to throw myself into more places to help more people and 3-day Workshop supporting. Now I am 105 kilograms, and I will not stop here, but will make my body healthy to always protect those I love and

be a strength to Heavenly Parent and True Parents...

Lin Harez

empathized with Heavenly Parent's Heart, and in Brazil, she sought out HyoJN... pledging now to fulfill Mother's deepest Desire.

I came here and deeply reflected and ever since Seonghwa Workshop, I have now moved to Seorak Town and am studying at the high school here and participate without fail in Cheon Shim Won vigil and intensive prayer every day. To be honest, always thinking of Heavenly Parent is not easy, nor is living constant gratitude, but I am trying every moment to think of Heavenly Parent.

I have now been to the Hyojinjon Workshop once and two more times... When I went the first time during Seonghwa Workshop and third time, things were so hard for me, living here in Korea, in ways that might not be considered so hard, but day by day I grew so exhausted, offering the conditions, bowing, but also lonely and feeling drifting and so I went to the Hyojinjon Workshop, and that time I received a lot of comfort and I poured out so much of that difficult heart and cried a lot and I think I felt HyoJN loving me like an older brother and Heavenly Parent Loves me, so it felt like HyoJN was saying, 'Whenever you're struggling, you can come here and rest, so cheer up and work hard for Heavenly Parent and True Parents.'

It remains the Hyojinjon Workshop that remains very memorable to me... (She joins the dance in the video)

How difficult and painful must Heavenly Parent have felt when Adam and Eve left Heavenly Parent to follow Satan, when Jesus was nailed to the cross. When True Parents came to this earth, how great must the joy and hope have been when finally Your Sons and Daughters were Born... How immense the pain when you lost Your precious children to Satan...

I promise from the depth of my heart that I will fulfill True Parents most Holy Desire. We will surely be victorious... surely, surely... We will achieve this...

(again the dance video, we can see her)

They are truly our future

This from Japanese young Yuna Yoshi, her congenital condition with profession of hyojeong to be a light to family in Japan

Up until now, I had a strong feeling that I could not stand proudly before Mother and wanted to change that... and become a child who could stand before Mother so I went to the Workshop... I couldn't love myself, avoided others' gaze, having a congenital disease, and shortcomings in my life at home.

Heavenly Parent's Voice reached me, 'Even so, I love you.' and I felt very strong that Heavenly Parent Who loves even someone lacking like me, is right beside me. My brother is the same disease, and I think my parents suffered the most, and they put in the various devotions and to find the medicines not harmful side effects, and all that was expressions of their love.

I thought I hated the disease, but in this Workshop, if it is me, I can overcome it, and it was given to me to overcome for the fruits of that overcoming. I told Parents not to worry. There were times when I could not walk the right path or live the right path of faith that caused You even more worry. Yet, I shall surely return to Japan as a newly-reborn person not resenting my disease, so please no longer think that it is your fault. I am fine.

Gratefully, I could attend, but the night before my physical condition became so bad with a high fever, but while praying in the devotion, I remember when Mother went on the national tours, even when Her condition was impossible to travel. And others tried to stop Her, but She Said, 'Do not stop Me. If I do not go, who will?'

When I cried at that moment, True Mother Appeared Smiling Gently and Reaching out Her Hand to me. I truly felt that at any time, any moment, True Mother is Reaching Out Her Hand, saying let us become one, not only with Me, but with everyone.' And I thought I must step forward to spread that Love, as to those feeling so despaired by the dissolution.

'Tears are the Smile of the Soul' True Mother, truly, truly, I want to see You. I miss You. How are You spending ever day at the hospital now? Are you eating better? If only I could, I would love to stay by Your Side and hold Your Hand continuously. Truly, because of my lack, True Mother had to walk the path of the Cross Alone. And I am truly, truly sorry.

I realize that True Mother is truly loving each and every one of us boundlessly. And right now in Japan, there are many b and s who are wounded, troubled and grieving, but even so, thinking that She wanted to save each and every person, Mother is always reaching out Her Hand to them.

That is what I feel. True Mother, I will make a firm resolve to live on so that I can become someone who can give love, even to the b and s who cannot feel it now, lonely by themselves. Thinking that True Father, telling us to take good care of You, True Mother. Please, no longer worry about us.

Earnestly, earnestly hoping that True Mother receive unanimous acquittal and be completely released. Mother, I truly love You. Please, Mother, return to us.

applause

Two children of Pastor Che Hun Moon of Family Church in America... Che Chon Un testimony... 3rd gen child. She experienced True Parents's Love fall down like a waterfall.

Around this time people usually do internships, and I was going to stay in my hometown and build my career and I didn't understand my parents suggesting to go to the Workshop now, but I felt in the future would be harder.

As a 3rd gen, my father and maternal grandfather were pastors, so good environment but it was habitual faith, and should I call it arrogance..? I'm doing well on my own. Don't I know Heavenly Parent well enough now.

When I was praising at Workshop with a difficult state, it happened what others had said, like a waterfall

of Love at the same time apology not understanding Heavenly Parent's Heart until then... crying to the point I truly couldn't control myself... and I realized this is truly Heavenly Parent's Love.

So persecution gives the Blessing and up until then, Heavenly Parent and True Parents felt like such lofty figures and the Academy and the trainees gathered together, all so tired and dozing even in the middle of praising and compared to the Path of the Will that True Mother Walked, then realizing this is truly nothing... even since very young, True Mother. Can I offer to fail to do even just this much.

I think I'm coming to understand what it means to place Heavenly Parent's Will with top priority, and if this is my standard with absolute faith, that is truly the life Heavenly Parent Desires and the life to give all love and good influence, and that would be the biggest change.

My father is leading the church and always positive about everything. First invest, first invest, he was always like that, but now I see that was Heavenly Parent when I was asking why does he live like that. My father's absolute faith and true and power of investment, not just wishing for my happiness but they ran a church to also wish for the happiness of others.

Even my mom and dad graduated from universities and gave up all ambitions attached to that... I feel so apologetic that I only understood the essence coming to this Workshop. There were many times I thought I was doing it all myself without help from my mom and dad,... but that was not the case... Why did I stubbornly turn away from the path that Heavenly Parent Intended and try to pretend that I didn't see.

Why have I only begun to receive until now and think to repay until now. This world is so corrupted, killing each other over trifles and snatch things away from each other. How heartbreaking for You as Parents.

Thinking all was my achievement and doing well by my own abilities. From now on, I will strive to be a child who can return even greater love to this world, this humanity that You Wish to love and embrace.

Mother, Mother, Mother, please return quickly and show us Your Smiling Face.

--- By the repentance of his older sister, Che Yu Yon came to stand up with is faith... after being born into a faith of routines, not of himself, and it was a both to me, not caring about the meaning nor proud to be a

pastor's child.

I went to Yeongseong Workshop pushed by parents, but one statement moved my heart, 'The greatest achievement of True Parents's is me' How could that be with all the accomplishments of True Parents. Then I remembered the words of my mother, 'The greatest achievement of my life is giving birth to you'

I am this child. While 'I Will Love You With My Life' and the lyric, sacrificing all that I have... and I thought of my parents living this love... What had I done? And I could not give any answer. And shedding tears, I experienced True Parents's Love with all my heart. And looking back, my relation with my mother was so bad, asserting my own opinions and arguing...

But seeing my mother exhausted and having sacrificed for me. Then I felt 'If it feels right but give grief to my mother, it is wrong' 'If it feels wrong but gives good feeling to my mother, it is right'

I realized my parents had raised me with the Principle. If my father had lived contradictory to his faith, I would not be standing here. I had no choice but acknowledge the true life my father led. He alone did not leave and dedicated himself to the church until the very end. I was raised with ALAF and AO and I feel heartfelt gratitude to True Parents Who opened the path of those teachings. It was by no means wrong, but the victorious path

That is what True Mother is shouting to the world...

We will cling to True Father and offer devotion as if we were at war... Message from a pastor

weekend Workshop began since 1995. It's been 30 years... It is the 1,747nd, truly without ceasing. Let us resemble Heavenly Parent and go until everything is finished. 1,087 members registered for the weekend Workshop and continue devotion.

Yeongseong 40-day 363 and they sang the praise in front of us... with other WSs H Japan 56 members came and H Korea held the Workshop for 14 days because summer vacation is short...

This morning we had the graduation ceremony and in the past, members moved quickly, but tonight they stayed and danced the song, 'I Want to Attend Forever'... not a secular world song... the Academy trainees made the song... They practiced dancing so hard, and truly we had a good time with them... and even when a 2-year old hears this, they dance and want to be wild, to attend forever...

If they go to the universities, 19 members resolved they will go as the Yeongseong Academy, and members who go abroad 16 resolved for that... There are 400 new students and if 400 attended, how amazing...I feel how it could have been even better, but compared to the Workshop before it is totally different.

This is the 16th Resonance Prayer Workshop and the pastoral couple came Ho Hung Bae brought 21 with him... couples that is... Why together as a couple, because they wanted to educate the resonance prayer team so that that would be alive in each church, spread out and inherited to other nations, and you can see that is happening... What do you feel about this? as you look at this? The miraculous work unfolded...

True Mother, Said She told us that, although we may be a single drop now, eventually we would be a river and an ocean. Those Words are happening now. The miraculous work of CS must unfold to all the churches around the world. You must gain that strength so that True Father, HyoJN, HeungJN, Daemonim can work, and attend the Era where Heavenly Parent can Word directly through us.

Transformation from the Era of Faith the the Era of Living and Feeling Heavenly Parent's Directly Working through us.

We gather for each other. It is difficult for Heavenly Parent to work on the individual level prayer, 'Please help me'... The prayer for the other is much more powerful, with true love activated, allowing Heaven to work.

Our brother Yang Sang (Yang positive not yin) He does very well in his school, able to fulfill all his prayer, and as he offered prayer for others, he was able to experience Heavenly Parent, and when others offered prayer for him, he felt he was in Heavenly Parent's Tears and Love, and afterward his robe was soaked in tears.

How many times have you offered prayer for others. As we offer it, we saw the work of miracles and healing and grace... All the members need to feel this kind of love of family in the church... being next to it and being one family, one brothers and sisters and so grateful. I saw them waving through the praise. Such power is here to inherit at the CheonBo H and E TC.

You heard Prophet Radebe... Those who are asleep are letting the dark spirits think and feel them. I hope you reflect yourself whether you are truly awake and believing in Heavenly Parent and True Parents.

We held an event with the Branch Leader U Pi Yong... Only the day that the prosecutors asked for Mother's 13-year verdict. Chun Yu San main lecturer went and he had met True Mother 3 times and he gave the lecture 3 times and so much grace with all of them resolved to center on HMH in that Event. We should not be asleep. We should be shouting.

When Mother made the Statement, I gave my address, and those who did not realize who True Mother was were able to wake up and such work unfolded with their enthusiasm to let this be told and understood. And we must use every source and means possible to let the world know about HMH.

There was a very important report... 30 years ago a member lost his money, and later 3 ancestors came in the dream of a debtor and eventually made that person pay the money back. And just like that, we must make the Holy Spirit AGSs to work and True Father work, and not stop praying..

Kim Hyong hyung... He was living a lazy life of dark spirits. His only concern was whether he could endure this Workshop, but when he started challenging talk with the central spirit, and see his lighter body as he works diligently with the lighter body.

Central resentment spirit causes the laziness and dreams to come.

And this sister we heard testimony, Yoshi Rino, she had the disease and suffered, but heard Heaven's Voice, 'I still love you.' And she felt that and please applause for her disease to be cured.

3rd gens testimony... Che Hun Mun, in America now, he gave birth to 7 children and raised them and this time he brought 3 of them to attend Yeongseong Workshop. He asked me to let them join and took photo with me. And his daughter shared, and as she offered 430 bows, she felt wonderful Heavenly Parent's Love. Graceful rain of Heavenly Parent like a waterfall and shed uncontrollable tears, proving this is the era we are living in where Heavenly Parent is working like this.

Che Un mon is one of the sons of Che Hun Mun Pastor, said someone like him was found, and through their stories, they proved how well Che Hun Mun has lived with their family. He also brought a teenage child, and Che Hun Sok, offered representative prayer and for the first time received so much grace. Heavenly Parent is alive.

P 879... The path we have to walk is the path we must overcome, and it cannot be done just with our own power. So, people of faith must offer prayer, pile up the devotion. The more you put effort, even falling into a dark place for a while, you must make Satan on your side and fight hard like that and move forward with vigil devotion.

If you offer ten times vigil devotion, you can get ten times more, and you can go deeper and wider and higher based on the amount of prayer and strengthen the path to develop yourself. So, if you pile up vigil ten times, ten thousand time, the return for Heaven and earth and you will be greater.

The prayer devotion with tears makes the impossible possible... the cry out prayer you offer to Heaven will be fulfilled, crying out. You must offer with earnest heart and wait for that fulfillment. It is written in Cheongseong Gyeong... pray with that absolute conviction

P879 Korean version... So, my b and s, we must shed tears, and cling onto something as you cry and pray.

Not the offering prayer for themselves and cry through that. P880 CSG Korean version, those who offer

prayer for the pitiful people, you will receive the Blessing of that people for the church, for the world.
Now you must change your direction of prayer

The prosecutor said to sentence Mother 13 years, but both True Father and True Mother always thought about sacrificing Themselves, hoping that the Will of Heaven will be accomplished. That is how True Parents walked and told us, when we cling onto the world, that's how much Blessing we will receive. CSG P.800... not just tears, even if you pour your blood, you must offer prayer. We have walked over the hill of the cross. Jesus offered tears of blood of prayer in the Gethsemane. That can push down the satan and we must offer that kind of prayer and push down the authority of satanic influence.. Let us make such strong prayer with tears...

Parents of HEH

As we offer 1,625th Cheon Shim Won devotion, we truly TY for accepting it... Please allow it to be only for True Mother. I believe Heaven is alive and will surely realize its Dream on earth. Please allow us to absolutely resonate with these Words. August is for 8 new beginning for True Parents's Victory, for the enemy to surrender, You have Blessed the citizens of the world and made them Cheon Il Guk... Please allow us always to be victorious only and all to fulfillment of True Mother's Providence.

Our brother I Sang Wu is offering the 39th day. I am sure that devotion no one can take it away, and please connect it to True Mother... Please allow the power of the devotion of Cheon Shim Won to be used and offered for Seonghwa Youth students to embrace the Will of Heaven and when they go out the Will shall be accomplished. Please Bless their future.

Yesterday, we heard the amazing report that Japan was able to reclaim the lost churches. Every day the report of victory will follow when we become one with True Mother's Heart. Allow us to believe in the victory at the end of this path. Mother, during this difficult path of Yours, please allow us to look at the same path of hope as True Mother.

At this time, please allow us to use this time to fully resonate with True Mother. Beloved Heavenly Parent and True Parents of HEH, the grace you bestow, please let us revive and couples become one and members comeback and be restored, allow us to testify through our mouth and reach this world, this entire cosmos with a veil of grace.

Let us become absolutely one with the Inheritors and for the substantial settlement of Cheon Il Guk
