Opening Prayer of Gratitude

Most Honorable Heavenly Parent

Beloved True Parents of HEH

-Today You have bestowed upon us a Sacred Day, a Holy Times

We realize that, without Your Love, we could not stand here tonight, so we will cast away all sorrows of Heaven. In the Holy Womb of our True Mother, we will synchronize our breathe with the Heartbeat of our True Mother and just like the fruitful trees, from our True Mother Who Gives the Nutrients, we will be the light of the world that cast away all dark things.

Tonight, it will be our flesh and blood offering and engraved in us, making us move forward together... this inspiration will be a comfort and joy to Heaven, so True Mother, please do not be worried alone. We will put all into practice to console the Heart of our Mother.

All brothers and sisters gathered with one-heart resonance, we will make the stepping stones to move forward for unification. So, for our determination to resemble True Parents, with our determination tonight... In grateful attendance to our HMM

grandson of 777 and my father is a pastor and my faith was not really my own... The Workshop was by urging of my parents but very unfamiliar.

I had never attended Cheon Shim Won because of my schedule, and because I had to pray for 3 times longer and I felt irritated, but I could see those peers following the exact same schedule without a sign of fatigue, and I put my fatigue aside and challenged to shout even more loudly, and going to Cheon Shim Won for prayers myself and going to soccer and making friends, every moment was so precious, catting at Hyojinjon and we felt one with peers who were strangers just a few days before.

I had never felt such a heart-to-heart connection with my friends, of the different culture. I felt so grateful for the experience and tried to offer the prayer of gratitude every day. At school my concentration is poor, never taking notes and having aversion, but now taking notes and really listening to the lectures of our church. Yes, that is what has happened, filling half of an empty notebook with notes... applause

There was such a closeness to these strangers who came to teach us like this... The Contents were so good, that I even did recordings to listen again, and this solidified my foundations of faith and I can positively re-study and resolved any doubts.

I am not the only one, among others who have testified. I have felt Heavenly Parent through tears during this period, which was the goal. But before having distracting thoughts and how to pray earnestly and sincerely had been a riddle. But learning True Parents's Life Course and how lacking I had been, unfilial to Parents. 'You must call upon True Parents just as you are without any pretense'

I have been calling myself a dutiful son, but what foolish hyojeong only to fill my own satisfaction, not any of the weight my Parents were bearing. It felt as though there was a nail driven into myself, far from risking my life, I couldn't even offer a single hour. This failure to show filial piety also to my parents, who had waited for my denying Heavenly Parent, and Heavenly Parent waiting for 6,000 years.

I went to the Special Prayer Room and poured out the apology in me, and words came out without my thinking and what I would not have usually said and tear flowed, they simply flowed, not with chest tight or nose tingled but warm Tears as if Heavenly Parent were comforting me, began at the corners of my

eyes and wrapped around my cheeks.

A phrase, 'Beyond every event lies the Will of Heavenly Parent and living in that is the flow of Providence.' Heavenly Parent truly answered me and I will never forget for the rest of my life. At first, it was a bother with me complaining, having been pushed by my parents, but now laughing, crying and enjoying together with others have been precious to me.

I plan to enter the military and will not be able to come to Korea for 9 years, and because it will be the last time, I wanted to drive the Root of my faith unshakeable in any environment and as the others also never forget each other as b and s. Without being swayed by others, I find my faith and standard in myself living solely for Heavenly Parent.

'Testify to Love'

We are so happy because know Heavenly Parent and True Parents's unchanging Love

The colors of the rainbow

All the voices of the wind

that reach out to find where Love begins

Every star in every sky

every corner of creation

live to testify
For as Long as I Shall Live
I will testify to love
I'll be the witness in the silences
I Will glorify Her Heart

With every breath I take
I thank Holy Mothe Han
When Words are not enough
For Holy Mother Han
I will testify Her Love
From the mountains to the valleys
From the Rivers to the sea
Every hand that reaches
Every Hand that reaches out to offer peace

Every simple hand of mercy
Every step to Cheon Il Guk

Therefore, staring two months before the Workshop, I prepared my offering 210 bows and devotion every day, leaving a deep impression on my heart. In the area where I live, members gather every day to listen to lectures...

Afterward, all get together, and I always enjoy seeing them enjoy meals together, and then I felt deep wounds hidden deeply within each person's heart. This and that person each had their own life's journey and I felt choked up, thinking Heavenly Parent know every painful path of each person, not just seeing us laugh together.

Heavenly Parent, Who rejoices, yet grieves, loves, yet aches right beside us. Let's not forget this Heart and take it with us in the Workshop. When the Workshop began, I was thinking a lot about connections, and I ran into two people who had been in my CEBA team exactly ten years later. Just the next day I met someone who had warmly listened to my stories when I was spiritually weak. And I thought there is definitely something to this meeting of these particular people.

On July 26th waiting for the bus back, the Director said they needed two people to help out and I spoke out, and he said it is better the more people go, since two had already volunteered before me... and we went to the church..

It was a couple's home, and we were moving large furniture's, and they shared stories of the path they had walked before and treated us with true sincerity. After finishing, she took us to the restaurant and shared her own bottle of Sangita? and we found ourselves bowing deeply to them (even we were to come to help them, they gave us such love connection)

I began to ask, 'Am I truly offering love to Heavenly Parent or just a more external offering' This has given me such a wonderful environment and why am I unable to change. Then I heard a teaching about Jesus in the lecture.

If Jesus had not been crucified and welcomed the HMH, the Blessing would have happened back then. How wonderful if such a world had come to be, but if that had been realized, my parents may have never met and maybe I would never have been born. Thinking that way, it hit me that I would not have been able to know Heavenly Parent as we have chance now.

With that heart, I prayed in the Special Prayer Room, Heavenly Parent who bore 6,000 years and lost Jesus to the cross, and it was after this that I was Born. That thought suddenly occurred to me (tears)...

The history of sorrow and pain, and we were born as a handful of joy amidst that Sorrow, and I felt Heavenly Parent's Heart surging in me, how being here is precious and I am precious and I was crying out like that.

Coming out of the prayer room every person looked like a jewel and every sharpness of my heart melted away. I heard 2nd gen were people having received God's Love and Blessing.

But it was the Sorrow that I realized Heavenly Parent had walked through behind that Blessing we were given, and how very precious each person is (the fruit of that)

I looked back once more, and the family members and senior members and the trainees and all I met was an eniun connection... and it was not just about Heavenly Parent's Heart but the connection with each person.

I came to this international Yongsong Workshop to be a tribal messiah and witness to others with courage, but now it's not about courage, it's about a natural urge that I must do it. Heavenly Parent has loved and raised us even amidst such great sorrow and I can no longer live just for myself or keep this love locked up in myself.

Therefore, holding the Heart of Heavenly Parent in my chest, I now wish to attend the Moshim Era in the time of practice. Moving forward I want to cherish the connections and Heavenly Parent's Heart in each person and pass it on more... I wish to return Heavenly Parent and be a son that Heavenly Parent can say, 'I'm so glad that you are here.' (He's so natural and sincere) 'Heavenly Parent and True Parents, we love you, TY and he bows at the end to Heavenly Parent and True Parents and the audience..

'Wing of Promise'

True Mother, all your children are gathered here with a mind of hyojeong to fulfill Your Dreams and we offer this praise

Every one of us has wings... Each one of us carries them on our back... so we can leap out into the distant,

hope-colored sky, believing in Heavenly Parent. Some day those wings will catch the headwind and carry us farther into a wider world. " With prayers in our hearts, so we can reach that rainbow, we promised together... The world will change, the future will change, spread your wings and ride the wind... As we live chanting our dreams, we sometimes lose sight of what the goal is. But when we look back on the days of doubt and tears, we realize it was all God's Love... the moment you feel that you are loved, you heart becomes stronger... what lies beyond the clouds... Believe in your wings and soar " into the light of tomorrow... Riding the head wind, we can go even farther

HJ REPORT

Actually, I was not supposed to be here as Vice Director but as an itinerant on tour. On the 7th of May, PL called me and told me to come to his office. 'Mr. Yokoi please go for the CheonBo tour. The time has come. Not to tour in Japan but in Korea. Actually the Special Missionary went to H USA, and instead of him as a substitute... I was going... When time for the vigil devotion, I came to know there was 21 spots in 21 areas two and a half every weekend, and I asked why Heavenly Parent gave such a course to me.

Then Heavenly Parent gave me these Words that are to True Mother to the Japanese leaders... Work hard so that Heaven can receive your devotion and that Mother can be released on bail and receive treatment. We must make it so that SW can be moved and mobilized. H Japan the Mother nation must help the Father nation. This nation must realize fo fulfill so that it does not receive punishment from Heaven.

Whether one knows it or not, indemnity follows for what was done wrong in not offering devotion for Korea. (It was Words given to Director I Bon Sok of H Japan). That is why I was asked to go and serve members on the spot... and Heavenly Parent told me:

Will you go along together with Me. I heard this Voice, and how much Heavenly Parent wants to help and embrace and give love to the members in the field. So, he gave me this mission despite of my inadequacy and I welled with tears, but with resolution I set out from the 26th of July to 22 areas in West Gyeonggi and North Gyeonggi and North of Seoul, 22 spots... a video beginning in Incheon Church... Here's a video

So, I prayed to Cheon Shim Won and prayed, 'Is it better if I go alone.' God's Voice, there is a person who is very good at lectures and CY and same age as me and we have our lecturer and master god of ansu, actually a god of CY is Uno, strong and able, so he joined our tour, 4 of us like avengers went. So, instead of lectures I was to give testimony, to touch and console the hearts of our members and connect more to the Heart of Heavenly Parent and how for True Father to depart. How to make a word like back in the days at CY... hard without welling in tears and touch hearts and not compromise (the message from Heaven)

So, I was focused on setting devotions for an environment... Namyang Grand Church, True Mother visited and Inheritors also... and True Mother told them, centered on Inheritors all 2nd and 3rd gen are being dispatched as H Top Gun missionaries, many Japanese members there, and spiritually the foundation was laid already, and testimony of pastor

Above all else, returning True Mother Who is innocent is our responsibility and attending Heavenly Parent, Blessing will overflow like the Word, 'If we become one with Heaven, all will flow automatically' and now is the time of our tears and return through the trial that will surely still come, but behind devotion there is Heaven's answers, sometimes it is really suffering, but at the conclusion, there is joy and H fortune. (He really felt such inspiration)

We have Director Oh Sun Sok who came to the revival meeting, and I was to give counsel in Japanese, and as a Director, she was sharing the worries and concerns of the Japanese Church and it was a ceaseless session to answer every question. So, that Church Yang Gi Mun leader is there, and we have a prayer room there to have a dialogue Q and A with Heavenly Parent, but No, was it actually Heavenly Parent Who want that, for knowing my value and heart as the child and Heavenly Parent wanting to share Heavenly Parent' Heart with us.

I came to be living, judging whether I am judging or not, whether it's beneficial to me or not, but rather than knowing the Heart and Grace that Heavenly Parent wanted to give, I was thinking of what was to receive...a reflection to inherit the Viewpoint of Heavenly Parent..

For me, I was given the role to take photographs, and as I did, this time was most graceful because I did a resentment spirit liberation, thinking of my daughter who is distant and I am suffering because of that. I did the liberation for my daughter but not for my central resentment spirit, and then for the first time I

asked myself if there was a genuine heart of love with my heart for my daughter. Was there a central resentment spirit blocking my heart for my daughter. While taking a photograph, I was crying a lot. Really, it was not the problem of my daughter, but my problem, and it was a very touching meeting...

Center Leader Kim Myung Wok said the condition of the Japanese that was not very good. This mother was doing everything for her daughter but did not liberate her own spirits and I gave words, 'Please love yourself more. Heavenly Parent loves the missionaries as His child same as everybody. Our first generation missionaries share the same value to Heavenly Parent. The resentment spirits will not be relieved unless the first gens are happy.

another testimony from the Grand Church Pastor... Our family, my husband is not finished yet with his ancestor liberation and I wanted to proceed but for that my husband has to know about the SW and experience it, not only at CP but also at church, I wanted him to participate and so a prayer team was offering a chanting devotion and me along with them for my husband to come to the meeting. And from March to April, more than 40 days, we continued, and we have such an event. He was still refusing, but yesterday he was asking me, 'Shall I go?'... So, Heavenly SW is moving, and the ancestors are not liberated yet, but they are still moving, and something at my back and my side is helping me, and my sisters and church sisters.

And he came here and was clapping and shouting 'Aboji and Omoni' and I was so surprised to see him doing such things since 2007... applause

After 19 years still distant and then breakthrough... My memory is so vivid when going there to answ her husband, so even before 3 people beforehand, I was having diarrhea and then went back and for the 3 times, noticing that the satanic was distracting me, but at the end I could give him an ansu, and I noticed the obstacle that satanic creates, and I vividly noticed the Presence of H SW.... And the Grand Church Pastor Wo Chun Wang is 3rd gen, and his father has deep connection with me.

And from Japan I went to Korea under the command of True Father, and there were not many Japanese there and many were mistaken, pointing and asking how a Japanese could be a minister in Japan. But despite the adversity, and because of it Heaven works more, and I come to call him hyung and serve him as my brother, and his son 3rd gen did the hands over with him. And there are many members and 2nd gen members.

True Mother, right next to Kuri Church, She made a youth center, and the environment is great...

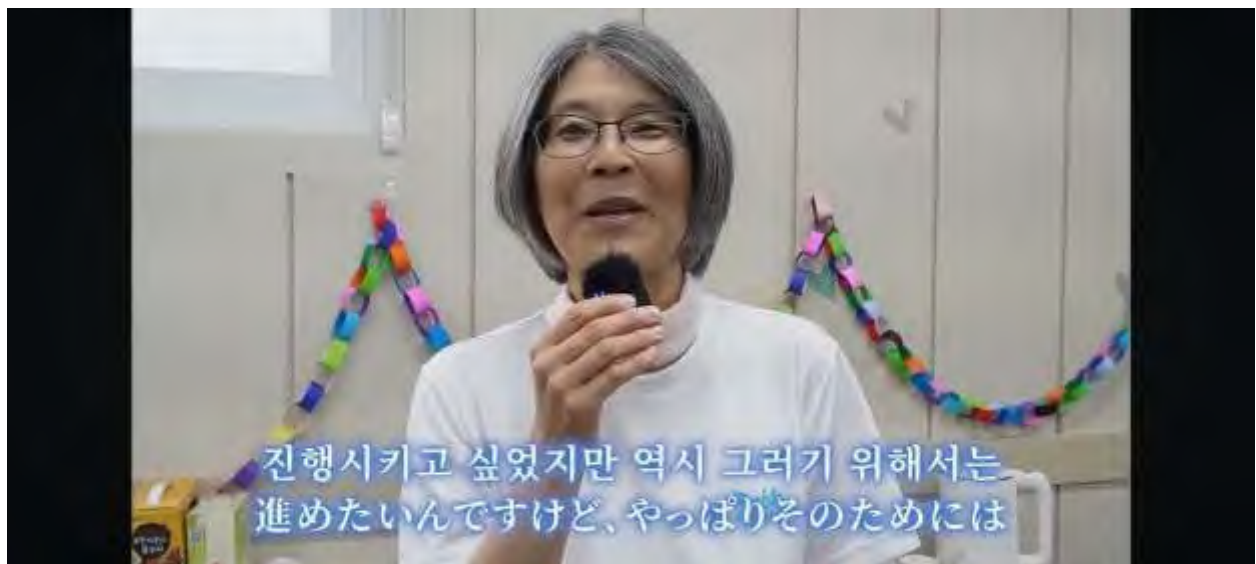

reflection from a 2nd and 3rd gen...the sessions... originally it's a group counseling centering on the Japanese members, but we centered on the 2nd and 3rd gen... How Heartbroken and shattered was True Mother's Heart but She continues with such Love and I felt I must put more of my own heart into the 2nd and 3rd gen with sharing the same heart.... and do not give up, and in difficult position is the way of the great Blessings.

I too have to heart to overcome until the end. And it was on the monitor, a question, 80% of questions were about Blessing and I was giving the answer, and when I was in the Sun Moon University counseling, I was given an answer and giving the Blessing to my own children, and I was in a position to help these 2nd and 3rd gen overcome their difficulty, and Heavenly Parent giving such an adversity to this people, and I was dispatched to help them.

Pastor Chan Un Sok... And as my husband attended and was exhausted from the cancer treatment. He had to lie down in the middle but when the Director place hands on his head in the CY, he began to be better and his stomach and his expression was much brighter. Today, unlike before, he for some reason received the ansu well...

At that time, I was given the word that someone was going through the chemotherapy, so I gently place my hand on his head and gave him my hyojeong stick to hold and I felt some H rays shining on him, and I felt he was receiving the love of Heavenly Parent, and then I heard this testimony for him... and I offered the bowing and chanting prayers and HJ Wish Papers, and whenever I go for such a ministry job, I offer prayer devotion holding my stick and saying, 'If you have given me such a path, I wish that You would work through me Your Love and the Ability of Heaven planted in my hyojeong stick so that they feel the Love of Heaven

Pastor An Jok, and this was supposed to be Pastor Shin Dong mo's last destination, my final destination I was obliged to go for and I asked God if it was a victory or not, and there was many stories. The Church pastor arrived late and I was thinking maybe my devotion was lacking but the Pastor gave a welcoming address for 30 minutes but was so inspiring with words like, the higher position I get the more I must put myself more down so that Heaven will work through me. I was about to give such a testimony, and it was

Heavenly Parent reminding me to have such a heart of humility ---

And substantially testifying to us... another... How the history of Heavenly Parent and True Parents is accomplished, and how the fall deviates from the original trajectory even while knowing the correct path to take (The Pastors words inspired me) but in the meantime the pastor said he was related to Ang Jun gung whom I love so much... and there was a Temple where they commemorate An Jun gung, and to hear he was related, I was telling him that it is like the Kingdom of Heaven on earth how he was giving me good fruits and holding me back and how Heavenly Parent loves me that the pastor did not want to let us go.

Kim In Chong Pastor, do you remember Kim Yum i gave testimony... 'I could deeply feel Heavenly Parent and True Father being together and through the hyojeong CY, I was reminded of True Father's education in Cheon Shim Won and that the more difficult the situation, the more we must live with full devotion and humble heart. Actually, a lot of people shared in that church that True Father came to them, and True Father appeared actually in this church True Father said, 'I didn't come touring just to meet Japanese missionaries, I came to meet my younger siblings and because I missed the elders who shed tears for True Parents from long ago. True Father started crying and, it's not about just touring churches, ut wherever the missionaries go, True Father is touring the houses or the members who could not go back to the church and True Mother.

And I could not give these words, but after my lecture this was reported through my prayer. The Japanese members, True Father is going to visit each and every one of them with more love than when True Father was alive. What is important is He was saying younger members who have traveled to the edge of the world, they are My younger siblings and I want to console the heart of missionaries and serve them and bring them back. True Father was asking me and telling me, 'I love them.' This was the reason I came to empathize with it (tears) and we will offer devotion for Mother's Victory and longevity.

True Love enables us to overcome any miserable situation. There is only achievements. True Love begins by investing life and forgetting about it. Heavenly Parent is there. That is the Love of a Parent. It is investing and forgetting. Investing and forgetting.

God has continued to do that since the fall. God Continues To Do It until all humankind is saved. How pitiful a God? Knowing that, we must attend such a God as our Parent.

Throughout My Life, even while entering prison and entering all sorts of cursing and insults, I did not change. Ever since the first human ancestors fell, many walls have been erected. Walls on the individual, family, tribal, national, worldwide and cosmic levels have come into being. Those levels of stages of walls are blocking your path. How do we break them down.

The foundation upon which those walls stand is the physical body. Therefore, the body is always the problem. The individual, family, tribe, nation, world and cosmos, everything is based on the body. For True Parents, no matter what persecution comes, it is not a problem. The issue is that we must walk the straight path. We cannot walk God's Path in a zig zag. The Path of Love is the shortest, straight line. It goes the straight line. That is why True Parents received the persecution of Satan throughout Their Entire Lives. The more True Love is put into Motion, the more it does not result in a deficit. The output becomes greater than the input.

False love has an input greater than its output, but true love is always an output greater than its input. Therefore, True Parents invested everything throughout Their Lives and then forgot about it. Then, what would be the result of true love. The world gathers around. when you think about how True Parents have traced history while suffering on behalf of such a public Path throughout Their Lifetimes, tears flow from you in torrents before you even realize it. Who is making you cry like that?

True Love has the power to move you beyond all people and across the universe, enabling us to overcome any miserable situation. There's no complaint there. There's only perfection, only success, only achievement. We are smart people. Heaven opens up conceiving such things.

True Parents passed through environments of persecution on the individual, family, tribal, national and worldwide, cosmic levels and created a sphere of all those levels of victory. Thus, They have Stood at the very Pinnacle in the political, religious and cultural worlds and all other aspects of the present day.

Although True Parents received the greatest persecution in the terms of being persecuted, no one since the beginning of human history has reached the highest Position, except True Parents. Aju.

PRESIDENT LEE GI-SEONG'S MESSAGE

19,400 Places 40,400 are offering their devotion...

Many parts of Korea and they always analyze and report their devotion 14,400 in H Japan and H USA, Jardim, also LA San Francisco and around the world connected

In the Main Center Yeon ah nim and Hoon Sook nim, after finishing their tour, they are with us tonight, 323rd day with one heart and will for the acquittal of our innocent True Mother... even in such stormy and persecuted days and any temptations, same like a rock...

We will resolve and offer devotions tonight, and in front of the DC... 'The long-term trainees 597 and 4 40 days 398 and Japan 118 and International Member TC 119 GPP 68 Yeongseong 49 so 270...

H USA, there's one sister who finished her 7th 40-day fast she did... After True Mother's arrest, after

finishing the 2nd 40-day, now she is still offering vigil at the very front... That's an amazing surprise. Actually, so difficult to do even one 40 days... She doesn't seem to be losing weight, and she made it victoriously big applause

At H USA, there was a cake-cutting time of celebration

And in Europe and in Russia 14 Yeongseong trainees... Russia's so big and in Bella Rus 4 Yeongseong Academy... even such a country there is Academy having kick off ceremony and dispatched to many parts of Europe and there was an amazing Peace Road Event today. And they arrived at HJ Cheonyeong Complex... And the pastor was hearing the voice of Conscience asking him who would do the Peace Road, who will host it? So, he made a resolution to start a Peace Road. Starting 12 years ago, starting from Tashika Japan to Pusan to the CP Complex and they arrived at the Tree of Love.

So, it was not planned, but spontaneous that we had a time of celebration and welcoming them. They were to arrive at 10pm, so if they are attending lets... applause

And Pastor Hanzuk in the back... I wish the camera could feature them... (a flash of them) One of the members is 100 kilos and difficult for him but he never gave up, and we could set such a foundation for the innocent release of our True Mother. So, whenever we think of people piling devotion, let us be the ones to have this mindset to do our best.

Today, Che U Sok gave testimony... He is grandson of Che Chon Bok... Che Hun Mun, the church pastor is the 3rd son of the NY Korean Church and two sisters introduced last Friday and Ceh Un Sok student, we gave him a chance to share, son of a pastor, so we were assuming that he would have such a good faith. He had been complaining not know why he should go to church. He did not join properly, but for the first time he was joining in CY yoksa and lost his annoyance completely...

What if he had not come? He might have lost his identity as a 2nd gen, but his father was worried about him, and now all three children of our pastor, just an amazing thing happened. Making good friends in the Workshop, he had a conviction and phenomenon. How he was thinking about himself was exposed to lack the filial piety, not only hos own parents but Heavenly Parent, he did not really belief and called out really sincere repentance, realizing that everything has a will and he would follow the Providence.

Even he was not willing to come, he had such transformation. He studied a lot in CP and I believe he will be a great leader and not be tempted by others but move forward for the Will of God. Che Hun Mun, our church pastor is a successful man, making 3 children to become filial sons and daughters. Cheon Shim Won is the greatest treasure given by True Parents.

However, how many times, how much have parents been putting an efforts without hardening your hearts by unfilial behavior of your children. These were shouting out, waiting for the pastor. 7 children have to be raised well, and then what a great treasure for Heaven.

His goal for the people around him to be naturally witnessed to, offering Principle and bows and prayer and even after coming to Workshop, he still did individual hyeongseong... He felt the distance from Heavenly Parent, and he was praying earnestly to fill the Heart of Heaven.

And after he came for the 4,000 years of history, True Mother Who came, and he felt the Heart of Heavenly Parent Who was Waiting for the children and the Heart of God was projected right inside his heart and he felt I am precious to be here and everyone here is so precious like a jewel. He found the Perspective of God and the Love of God and all his sharpness and shadows gone all at once, annoyance, anger, all fallen natures.

True Parents taught us the way of training, the training of longing. Many denominations have striven to get the ego down and the fallen nature down, but our training brings the fruition of longing for Heaven, when Heaven is projected inside me, that heart of longing clears all this fallen nature. Otherwise, its too hard to get rid of the fallen nature. But when the Heart of Father and Mother come inside me, it's the Model Course demonstrated by our brother.

But it has to continue, not change with a different atmosphere, the Heart truly Dwelling inside us so we can be the citizens of Cheon Il Guk, and we can be the ones to realize Heavenly Parent's Presence. So, just like his goal for the Workshop, he inherited the heart of finishing the tribal messiah and looking at every person as the child of God, and with the life of attendance he will move forward.

Next, Yokio gave HJ Report... Mother told Pastor I Bon Sok that Cheon Shim Won jeongseong has to continue, all need to devote themselves to it and mobilize Heaven with our church's devotion, and look back and reflect our devotion, and just like Mother nation has to support the Father nation. Even after

dissolution order, there must be even more Movement 3 times 3, and then be seen greater and even more rising, then the Korea will think that if they follow for dissolution, the church will be risen greater.

Please Heaven is sympathetic, we should not be saying it's difficult, but think how to save Korea from following... so Japan needs even more devotion and spiritual phenomenon happening in H Japan.

Through our Director, what True Mother has told us must be remembered by us... to not be punished by God. It is the Responsibility of God to fulfill through our part. Indemnity should not come as a consequence. Before that, we need to offer our devotion to stop it, prevent it.

If there is jeongseong in our heart, centering on True Love the Providence of Restoration was unfolded. We were transcending the walls of hatred. True Love is the straight way crossing all levels to cosmic. We have crossed the Wall that was erected. If we know the story of True Parents, we will be well of tears, and we need to follow the way of True Love. There's no other way that grows the national, worldwide, cosmic level.

Even amidst any difficult adversity, any kind of thing can be overcome. People are spreading the rumors of complaint and resentment. You cannot enter the Canaan land like that. They roamed around instead of going the straight way. If we don't go the straight way now, we cannot in the SW. True Love is the Way of God that has the victory and opens the Way of Heaven.

True Love leaves us in the best position. True Love has sent us. True Parents have been in the Place of the Best of the Best, and we need to concentrate until we feel that True Love dwell in us, engraving the testimonies tonight and moving with Heavenly Heart Training.

This is the night when True Parents dwell inside me, suffocating by Their True Love and Greatness and we'll be the people like a jewel, making up your mind. And the SW is waiting for you in this Course of Resurrection of the Second Advent.

Let us resonate with H Heart Cheonshim

PRAYER and PRAISE

... we have prostrated ourselves, but whenever we think of True Mother still enduring the severe pain, looking upon the cross that True Mother has been carrying all alone, we have been unable to pray with our lives. We have been unable to offer devotion with tears and we have lived blaming others and each other for faults. Please forgive us Heavenly Parent. Because of our shortcomings, we have made True Mother's Path even lonelier, causing wounds and confusion to the brothes and sisters of the Unification Family and failed to fully proclaim and testify to the glory of True Parents before the world.

Beloved Heavenly Parent, now we must change. Please work so that leaders and members become one, Japan and Korea and America become one, one Korea. Just as You told us: forgive, love and unite. Please work so that we may all cover one another's fault, wipe away one another's tears and become one heart and one mind centering solely on the Only Begotten Daughter, the Substantial Holy Spirit, True Mother the Heavenly Mother and True Parents.

Now, please completely clear away the barriers of division and distrust and resentment through the Cheon Shim Won works, so that we become one. Now feeling True Mother's Vein as our own and earnestly praying like a war to fulfill Her Will together praying fervently.

Whenever True Mother is going through difficulties and loneliness, let True Father Appear and comfort Her, HyoNN, HeungJN DMN and AGSs of the SW please work... Protect our True Mother... (Let Her return and receive truly healing treatment)
