Opening Prayer of Gratitude

Most Precious Heavenly Parent

Beloved True Parents of HEH

We TY for the Love that has Guided us in Special Devotion for True Mother today again at Cheon Shim Won, the HQ of worldwide devotion, and the Place where True Father is Working. Today marks the 324th day that True Mother is Walking the Path of Suffering...

As we are the direct children of True Parents, though we are lacking, we are offering prayers and devotion with a life-or-death determination every single day, with the heart that we are walking this path of suffering together with Mother. So, please Heavenly Parent Work through us, True Father, please Work through us.

True Mother Who has walked through a sandstorm where She could not see even an inch ahead, since True Father's Seonghwa Ceremony, True Mother strengthened the Cheon Shim Won Vigil Devotion so that we could advance forward with Spirit and Truth just like in the early days. True Mother, Who emphasized Cheon Shim Won Vigil Devotion so that we could clear away everything that could become a stumbling block to the Completion of Cheon Il Guk.

True Mother Who entreated us to strongly drive Cheon Shim Won Vigil Devotion so that the SW could work. And so that True Father could have condition from us for all to be mobilized and Work. We are offering prayers with tears again here at Cheon Shim Won again today, so that Your Words do not fall to the ground. We are crying out earnestly tonight.

Just like the seniors who did not lose courage and advanced forward even when they were in a pitiful situation, always being driven and chased in the early days, just like the seniors who advanced and advanced again while singing their Pledge with Tears, 'I will live for the Will. I will die for the Will', today we also desire to walk that path with such a heart and such a Pledge. So, True Father, please Work through us. And Mother, please have health tonight.

We believe that, as the sound of our prayers and faith rise, the results will become visible. We believe that good news will resound throughout the world. We believe that the Hope Mother Desires will be fulfilled like a miracle. We believe that Cheon Shim Won Vigil Devotion will create a miracle.

While the world is resting comfortably, this late night, we will pray like a war, offer devotion and advance forward confidently toward the Will, making sure to move Heaven to hasten the day of Mother's acquittal and release.

Please let this time not be a time when any of us fail to realize the true Cheon Il Guk before Heavenly Parent and True Parents of HEH. Please Guide us to be children who fulfill their responsibilities by

advancing with full power, life-or-death determination, never stopping toward that path. We offer our earnest hope and desire for this... all these words

International Yeongseong Workshop

Mishoha from Michigan

I've been stuck at home for 2 years of high school because of Corona, and I hated my life style, with my grades slipping and my relation with my parents worsening. Every day I would call my school counselor telling her I wanted to run away or leave this earth, because my life felt so pointless to me.

In spring of 2023, feeling purposeless, I signed off for GPA. My faith deepened, and because of Sunday calling times, it gave me a closer relation with my parents, but I slipped back into laziness and bad habits.

In November of 2024 I told my mom that I wanted to leave this earth because I hated myself so deeply. We decided I should attend the general International 40-day Workshop, but the self-hate persisted, which came from what I said to my younger brother in the summer of 2023, and although he forgave me, I never forgave myself.

While writing 2026 New Year resolutions, I thought and said to my mother, 'Why am I such a horrible sister to my younger brother' Then I heard a Voice, 'Go to CP and everything will be resolved' I booked the ticket, wanting to let go of my self hate.

applause and she bows

Then came July 10 with 1,000 bows offered and I had the most emotional SW experience I ever had, with HyoJN, HeungJN and DMN with True Father appearing on my right bowing with me, and a grandmother who passed also came to bow with me. Around bow 200 I realized I wasn't tired at all, but looking around I saw b and s struggling to kneel and rise, and my grandmother walking among them to comfort them, asking, 'Namkanchunha?' 'Are you okay?'

I noticed tiny angels lifting people up with invisible golden strings and my grandmother using her whole body to lift others. I burst into tears, knowing my mom had offered 120 days of jeongseong so that my grandmother could ascend safely. None of it had been for nothing.

My grandmother was spoon feeding the b and s, comforting them because we skipped lunch. After we bowed more, I found myself praying, 'Grandmother, please help those who are struggling more.' Whenever, I found myself self hating again, I heard, 'You're not perfect. Just do your best at your own level.' Then True Father came and said, 'Shal we do this together?' and bowed with me, holding my hand. (She has three pins on her purple robe)

Through this I learned that they worked alongside us, using our bodies because they wanted to move the SW for True Mother.

July 25th. I couldn't stop coughing the entire Workshop, and I thought I couldn't be together with the others. I was coughing so painfully and continually and I went to the bathroom and broke down crying because I wanted to pray and praise together... I went back and I didn't care if I threw up, I gave it my all, going to a trash can and throwing up a few times... Afterward, one-heart prayer was starting and I prayed in tears and repentance for the heart break that is out there and Mother is in the DC with Health problems.

But as I finished praying, True Father hugged me and I saw angels filling the empty seats, praising with us. The next day, even without cough syrup, I didn't cough once while praising with my team. I know

Heavenly Parent was working through me. applause (and she bows again, straight faced)

On August 3rd, I had dinner with an older sister from the Workshop and told her everything I struggled with. She told me I was making it harder on myself chasing perfectionism. We don't even care if a napkin is placed next to our plate, so why try to be perfect. She reminded me that God made me exactly as I am, so complaining about myself is really complaining to Heavenly Parent, and that I need to accept myself because Heavenly Parent loves me so much.

She said it came from lacking communication and wanting to be heard, and to communicate more openly with my b and s. I learned in the Workshop that Heavenly Parent and True Parents are always by my side and love me dearly and to take care of my thoughts and actions to reflect that. applause and she bows

TY Heavenly Parent and True Parents for guiding me to this Workshop and all staff and participants and family had home and True Parents... (She includes the Korean phrases) and expresses love and thanks Heavenly Parent and True Parents

Satsu Church

Workshop grace... I was dormant when in Japan. I attended in youth but drifted away along with my parents also, and resented being born as 2nd gen seeing my parents fighting and the difficulties in life and wanting to give up on life altogether.

But then I met Heavenly Parent and True Parents and felt the happiness and lived in my own way for it attending the Cheon Shim Won every night and the Workshop thinking I want to be one with True Mother and offer devotion for True Mother, but I realized that my faith was centering on myself receiving Heavenly Parent's Love, but now I must offer what protects True Mother. But even with that determination, my body was so heavy and my energy drained and I couldn't focus...

The coordinator posted me. I poured out everything and only still have my fallen nature and not able to change at all. I want to offer devotion but my body is so difficult. She said, 'Even so, I can see how hard you are trying, and Heavenly Parent and True Parents can see.' I then thought to do more, and offering 40 bows, and a voice, 'I'm even more grateful to you'

The card I picked said, 'When you have a grateful heart, your mind and body will become one.' I saw that Heavenly Parent had already been giving me the answer, always with me even when I was unaware of it. I began trying to change the negative thoughts, since that was denying the Heavenly Parent in me as well as myself. How much must it have hurt the Heavenly Parent Who loves me more than anyone else.

I then celebrated my birthday and it was for the first time understanding the value of my existence, having thought that I had no value and no one loves me. But I realized more that we are each precious being Born of our Heavenly Parent's Love. And when I thought how we 2nd gen exist by our True Parents Tears and devotion and the foundation of our parents, and I felt a surge of gratitude and regret not realizing it all this time.

I learned it is important not to pray from just my own perspective but Heavenly Parent's View and to resonate. I thought of True Mother and Her saying, 'I want to be with you until you are in your 30s and

40s' and at first I did not understand, but by praying I felt those Words of True Mother were saying She wanted to love us from the closest Place possible. I saw how True Mother's Course is so difficult to be kept away. I prayed desperately for protecting Mother and the heart of hyojeong.

It was also grace for me to serve as an interpreter during this time, even not experienced, I wanted to be of help to the trainees. How great to offer devotion for someone else in the lowest places, and leading me to an environment to learn the Korean language more.

I was as if Heavenly Parent was saying, 'Do not use what I have given you for yourself but for others' And while offering devotion at Cheon Shim Won, changes were happening in my family at home with my father suddenly wanting to go to Workshop and giving testimony and wanting to go again with my older sister, and even making preparations to make a Cheon Shim Won in our home (this after harboring resentment with the church and fighting with my mother)... I heard Heavenly Parent saying, 'My son has returned with a grateful heart' I offered 430 bows, and although my body was very tired, I pictured all the b and s offering bows happily and tears poured down. I wanted us all to offer bows together for Heavenly Parent and True Parents and resolved more devotion for that day.

3 resolutions:

create a song for Mother

I was in a band since high school and felt the reason was for this, to comfort Mother through music and convey the heart of Heaven through people applause

second, to advance toward the Blessing

I will surely be victorious and advance vibrantly toward the B

third, to become one with Mother

I want to love Mother from the Perspective of Heavenly Parent and experience Mother's Heart more deeply

Until today, Heavenly Parent has been waiting for me and causing me to grow... Now is the time to return it and I resolved to enter the next Workshop and become a person who attends Heavenly Parent and True Parents and protects True Mother, with life and death full power investment

Father is Working and I believe Mother is Victorious. TY I love You (she bows)

HJ REPORT

Yu Su Hun Cheon Shim Won Office Team Leader

HJ Workshop of Love and Devotion for Mother

Held 4 times with immense grace... 1st, 2nd and 3rd gen gathered... all age groups can attend... and parents and children, couples... becoming one through the 4 Great Realms of Heart, regardless of any other factor, just wanting to harbor devotion to Heaven with a humble heart... They quickly became one family, even meeting for the first time

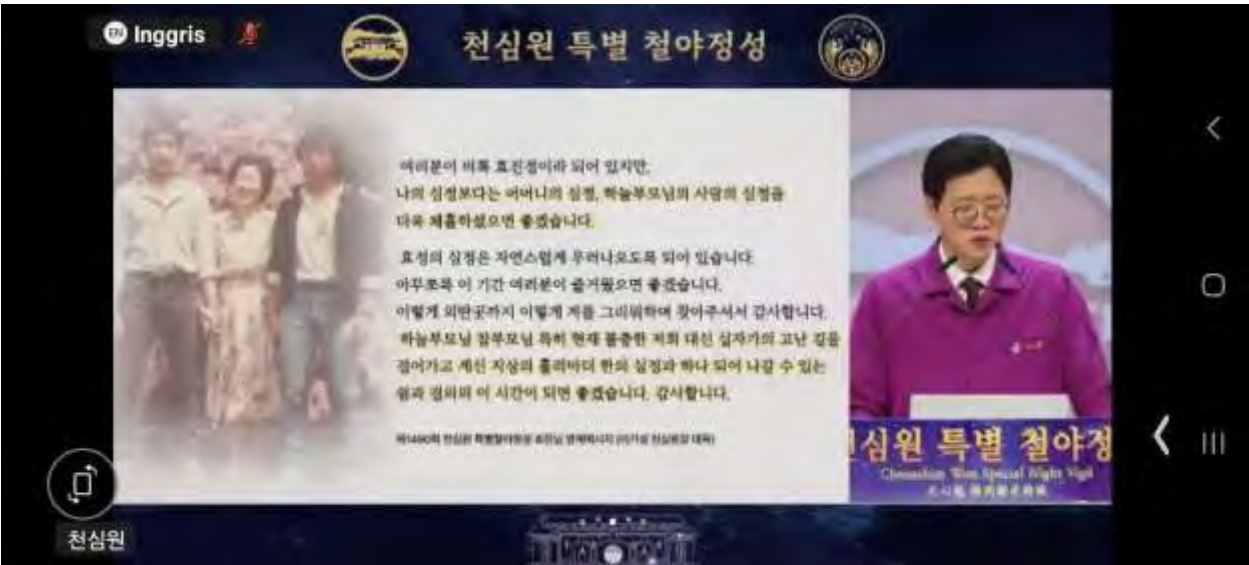

Mother gave us the Words: Forgive, Love and Unite... Through this culture of Heart, those who have worry and need more fresh start determination, please come here...

Mother visited the Hyojinjon - advance and stay... a place where HyoJN stays and grace is like an ocean... Mother said, 'I didn't know that such a Place existed'

There is something truly wondrous here and rain always falls on the first day, listening to the song, 'I will Love You Forever Like Spring Rain' and we feel him with us...

HyoJN gave Message: Although his Place is called Hyojinjon, I would like you to experience Mother's Heart more deeply. The heart of love will naturally well up. I hope you will all enjoy this period. TY for missing me and visiting me in such a remote Place. I hope this is a time of rest and determination where you can become one with the Heart of HMH on earth Who is currently Walking the Path of Suffering in our stead, while attending Heavenly Parent and True Parents"

HyoJN asked us to experience Mother's Heart, and most of the programs are for this through nature and resonance with Mother's Heart... We look at the night sky, count the stars and even write poetry. We also offer resonance, our devotion within nature, and there were many special programs that can only be felt at HyoJN video Hyojinjon Cafe... HJDJ with dancing and music, jumping... We changed the night culture into a day culture... and the DJ is a training coordinator for the Hyojinjong and brings the professional gear like this... enjoying the culture of heart together...

I started as a hobby, but praying in the HJJ Prayer Room, I saw myself going on stage and HyoJN was with me, and I felt him with me and seeing the members beyond age gaps, I felt this is HyoJN's doing and gratitude for the ability with music and DJing

DJ Ray and Hyojong Kim performance... we prepared and let's welcome them... (DJing with Cheon Shim Won songs not songs where the singer doesn't know Jesus of Heavenly Parent and True Parents... using newly created techniques for the youth excitement...

If our members come here, you can naturally become one through art and culture.

Lecture of True Parents's Life... part of coming was to composing the thousands of songs with the heart of offering, and now the students are inheriting that heart of attendance... HyoJN said what is important is where that heart exists, to testify to the True Parents of HEH through culture and heart that praises Them by becoming one with Their Word, Direction of Heart. What is the inner Center, the longing for the Lord, love of the Lord and caring for oneself, children revolve around their Parents, and that is the Heart of Attendance all-important, longing for the Lord and Love for Mother and caring for others to the point of going beyond oneself..

Mother said about HyoJN, that it took time and manpower to get people to accept his good works, so he thought a lot 'Isn't there a way to save people all at once like a whirlwind.' That is why he did metal music which was way ahead of his time. 'I must do the work of creating music that can lead them to the church.' So, he created ten thousand songs in 3 years.

It was something impossible by human power alone. He did all the lyrics and composition himself. As a result, distinction between night and day disappeared. It was erratic and his body biorhythms completely changed. The physical body has limits, so if you keep consuming energy like that, don't you have to replenish it?

He resembled True Father in that personality as well. With that mindset, he was able to compose ten thousand songs. I was able to infer the answer from the Book entitled 'Yongeh' 'Spiritual Love', which is a collection of HyoJN's Works. It is still not an impossible task. It begins with a conviction that says, 'We can do it.'

I believe that we will truly be able to do many things in the future. 'Why?' you ask. Because we are special. And we can prove it. We have something better than others. We will fight to the end. Let us compete. Let us destroy evil with good. Let us see who is better in the world, in the end. I believe that one day our work will go to the Will. I have immense hope for the future.

As much as I can, I will try to help, serve with you and be with you. Aju applause to HyoJN for such a precious word of realization.

When you come to Hyojinjon, you can see this boat landing we opened at the end of last June. Now, if you have a boat, you can come to this Hyojinjon along the beautiful CP Lake, with the HJ TC at your back... It took about 20 to 30 minutes by car... but by boat, now about ten minutes...

At the Opening Ceremony PL offered this benediction: On this Providential Foundation, in order to fulfill Mother's Word in 2014, the Workshop should take place. I sincerely thank You that we have prepared this boat landing, so that boats can now enter upon the foundation we prepared and cleaned, upon all the devotion that HyoJN offered in a lifetime of preparing music and searching throughout the night with a

Yearning Heart to Realize the World where we can Attend Heavenly Parent through a Heart of Culture, Heart of Revolution.

With the boat landing, I know that the number coming here will increase, starting from the summer GWs. Therefore, I earnestly hope and desire that You Bless this boat landing so that it may fully be Governed by Heavenly Parent

And the splendid cafe here, the Hyoja Cafe where 'filial piety is mine'. You can consider it an auditory cafe where you can resonate with HyoJN's music and resonate with nature. When you come here, you can listen to HyoJN's songs in high-quality audio and obtain HyoJN's related merchandise by donations.

And the opposite side is made with floor to ceiling glass windows, so you can look out at the flowing river and resonate with all things of nature... I highly recommend to be sure about coming here

PL Opening of Hyoja Cafe

Please make this a place that when one visits, all twisted feelings depart, and with a discerning heart, only have a mind of devotion and loyalty heart, loyalty and filial piety, and loyalty in the service of God so that one can resonate and advance with the heart of Heaven and advance for Heaven, earth and humankind.

As such, this is a Place of Hyojinjon, where HyoJN stays and the Place where HyoJN composed music. It is a Place where HyoJN's Heart of Attendance Dwells, creating the environment that our members can feel his heart.

You can draw a HyoJN word card and see excerpts from HyoJN's Books. We were able to feel the yearning for his Parents and the Love for his children imbued in these words. Besides this, his Footsteps are everywhere. One member wept profusely as soon as he arrived at the Opening Ceremony.

Seeing members' reddened eyes, I resonated myself with a deep yearning. One member donated the sofa that HyoJN used, putting his heart of gratitude into it. Last time he donated a yellow sofa, and this time a sofa that True Parents had used. You can see it when you come here, such precious, sacred items.

testimony... resonating with True Mother's Heart and a dream when my mother and True Mother overlapped, and calling out the names of my sons, saying, 'This son also is a son of My Direct Heart' feeling this in my heart of heart.

testimony... wanting my children to inherit hyojeong and path of faith. Until now HyoJN was always a lonely person to us like a big brother, a person who made me feel sorry and heart-broken. After listening to the sorrow-filled life testimony of Rev. Hyo Jin Moon's lecture, I was able to resonate more deeply and approach HyoJN more.

By HyoJN's life of hyejeong, I was able to see more the path I must walk forward, and because of HyoJN's Heart for 2nd gen children was felt deeply, I also thought that I would hold onto these words, yearn for True Parents and approach my 3rd gen children with a heart of hyojeong.

Member Hyo Je Che, Hyo Je ho from the Hanman Church attended as a couple and wrote a poem for his wife:

Laying by the stream with my childhood friend,

wishing upon the starlight pouring down, I draw a rosy future, tying my dream to one star, and my friend's dreams to two stars. Does my friend's dream, who overcame poverty and dreamed of becoming rich, still hold the dreams of that time?

Since for me it has been over 50 years since I drifted on the waves of the world, still a shred of hope I dreamed of back then, still a hope to be a small contribution for the world. Let us become a light that brightens this world, truly changing it by the salt of hyojeong.

(When he was reciting this poem, the member Yu Mi ko was very surprised. It was because my husband was not usually the type to write poems like this, even writing a beautiful poem for his wife, and even reciting it.

It seems the whole Hyojinjon Workshop is full of romance, where you can feel the love as a couple.

There's also the case of a trainee, Song Yu Jong, Pyongchek Grand Church, a dormant member. I asked why he attended and he said, 'Because my mother was ill, I had no choice but to follow along as her guardian. I will never come to the church again.'

Upon hearing that, our academy students invested themselves for him, offering devotion, preparing delicious snacks and chatting and pouring love into him with all our hearts. The next day, the Training Director offered devotion for hi and drew a word card:

The standard of a Life of a messiah, is to resemble the Messiah's Faith

When we looked at the word-framing program choice of this brother, he wrote: 'To Resemble the Messiah is Faith' And we felt Heaven is always with this Workshop, and if a mother and a son come together, it will be graced so that they can become one in heart.

Other's expressed that through art and culture... like this Song Yu Pu Yong feeling deep heart with a talent of music rearranged the song, '18-year Old Suni' to express grace received.

another sister: I had always wondered how HyoJN lived attending True Parents and felt that that word contains his whole life and wanting to make the word widely known... Through that, I felt we were becoming one, and all here together, and we must cry out the heart of HPs together, and how much he misses and loves True Mother and wants to Express that aloud.

Through books and lectures, not just his music, I could feel his heart of caring and I want to attend him and AGS world together to repay HM...

Hiroichi Futima news: Born the same age as HyoJN 1962, and on the graduation day, he spoke for 30 minutes saying he would make the book testifying to True Parents, not done for ten years, but now announced it be finished and will be published soon.

'Mother's Grace' is the title...

He thinks it will come out at the end of August, feeling this is a message from True Father and HyoJN to convey to especially the members in Japan, used for witnessing to dormant members.

I always feel sorrow for hard work to raise funds and I hope profits from this book can be used.

So, that heart culture, we became one heart together and there are Workshop trainees and Moshim staff working day and over night to prepare for this environment in every way with all heart and sincerity in each session.

Lecturer Takaki and Director Jong Jin Hwa, gave passionate lectures of HyoJN's burning heart... I now think, 'If it were HyoJN, what would we have done right now?'

True Mother's Words: On the 15th... I believe that Heaven is Alive and Heaven will Realize and unfold the Will on earth, and that 2nd and 3rd gens will fulfill attending Heavenly Parent as the true children going out to the world, and I now proclaim it is the only time to prosper...

Many trainees are gathering their burning heart centering on this culture of Hyo Jeong, uniting all gen members, and for the ultimate victory we will move forward and put it into practice.

Lastly the 15th Hyo Jeong Workshop will be held this Friday and Saturday, until 3pm on Thursday, we ask for your great interest.

Life and death determination and advancement without stopping is our mission and responsibility.

Restoration is re-creation. But Salvation is Transformation. Salvation is simply a matter of a sick person being healed.

Because we fell, we must undergo re-creation and indemnity. For restoration, you cannot be saved just as you are. You must go through the process of re-creation. Therefore, you must absolutely believe in True Parents.

I did not walk the path of knowing God while holding onto my own thoughts. I scrutinized and delved into Principle, asserting that if a path does not start from such motives, based on this Principle is not true love.

Because I know true love, I unearth everything. True Love connects through the straight, shortest distance. No matter how much I struggle to find such Principles, I walk the painful path where I shed so many tears that I had to wring out the cotton trousers that I wore during the three months of winter.

To save humanity as children, one must go forward, even if it means skinning ones body, tearing off one's skin, one's flesh, scraping one's bones, squeezing out marrows as sacrifice. Because I know the Heart of God, I was merciless toward myself. You must not become a successor to Satan and leave behind Satan's blood line.

You must become Blessed children and family throughout the world who live by True Parents's Tradition and inherit the way of Heaven, earth and humankind with the absolute mission of tribal messiah. You must fulfill that responsibility without fail in your society, nation and world, embracing the entire human race to be citizens of Cheon Il Guk that HPs Desire and True Parents of HEH long for.

Only then will you who are living in this world at the time of True Parents be ancestors who are not ashamed before future generations.

For 6,000 years, Heavenly Parent and True Parents of HEH have concluded and finalized the Providence of Restoration through indemnity, and have opened the Cheon Il Guk of a new Era and a New History. This means that Cheon Il Guk which was Heavenly Parent's Wish and True Parents of HEH's Hope has been Established.

How will you offer gratitude and glorification to Heavenly Parent and Heavenly Parent of HEH. Are you aware of the great Will to Establish you as a citizen of Cheon Il Guk. You have the responsibility to testify so that not only this nation, but all people of the world may know that True Parents came to this earth, proclaimed the Word of Life and Opened the Cheon Il Guk.

You must vow to open the Heaven Realm on earth and in Heaven for Heavenly Parent and True Parents of HEH without fail. Advancing toward that path, with full power, life or death determination and no stopping is our mission and responsibility as we live in this current era.

unshakeable and faithful like the child that follows Heavenly Parent and True Mother, we now have the humility heart of encouraging True Mother centering on Heavenly Parent and True Parents, we can now bring the victory so encouraging each other with a resonance and resounding prayer, let us offer devotion so that the Will can be accomplished... (Tong in myong)

***Tonight, there was a press report...

about 24 spots were raised in our church and a thousand bank accounts and 82 people were investigated and, after going through this process, there was illegal evidences of some of them, found by the prosecutors and police HQ,

BUT, True Mother, by lack of evidence, we saw the news, that the government made a decision not to defer this and it was closed and returned....

Gathering our hearts together, let us wait for the day of return of True Mother. Our church united with True Mother, vigorously wishes to make this dynamic where our church is prospering greatly...

Closing today and they are going back home and today they made a song in Korean for resolution of new

start. Korean Workshop trainees sang Butterfly Effect, and you have seen, if you send a child here, you are offering devotion to see your children on the screen and how they have changed. Best news for parents...

Michelle Ho is also a singer with Kim Jong Oh of the Cultural Center... She had issues of self hate... laziness, phone problems and wanting to leave the earth... After Workshop still could not shake this... Heard the Voice, 'When you pray in tears, when you communicate...' 'If you go to CP everything will be resolved'

Her spiritual vision was opened and she could see the True Father and HyoJN and HeungJN working and bowing together and also her grandmother and tears poured while offering the bowing, for the swift return of our True Mother, for Her acquittal They were offering devotion through her, through us, all these People from the SW are offering devotion as well, and when we have the common base, we can know that.

She has felt that it is the sentiment of throwing up the issues and they are healed... She saw True Father and the angels in the chapel were offering praise together. She received an amazing grace, putting aside all negative thoughts, now realized how to live and made a resolution to move forward with the happy and resonated life.

also thoughts of giving up her life... but after 18th day of Workshop, through the love of her parents, she realized it is such a precious thing, she will walk the path of the cross instead of True Mother, carry everything on her shoulders, so please come back, I want to protect You, dedicate everything to you.

By this one person, the whole family changed alongside... and her parents came to the 9th Resonance Prayer Workshop and the father gave a testimony and said he would come back to Workshop with the older sister... they are reading HD and praying and offering devotion, and she felt as if Heavenly Parent is saying, 'My son finally came back'.

Her siblings, which might be distant, I hope she will realize this dream for all the siblings to come back into the embrace of True Parents.

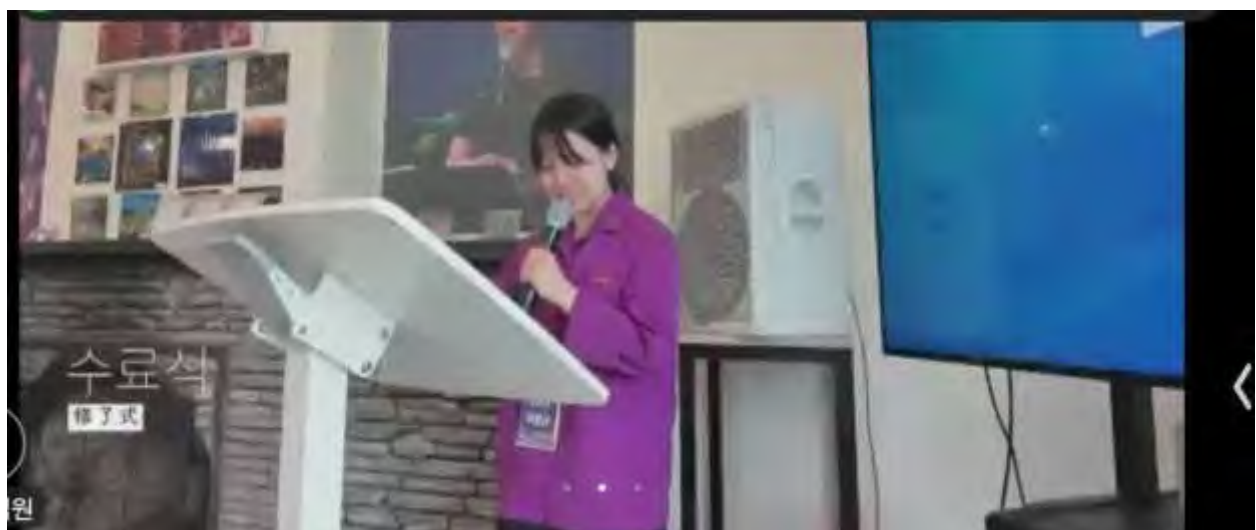

She made a resolution to create a song for True Mother True Parents... and she made this determination, life or death, to protect True Mother. I will make True Father Work. And I believe that True Mother will come back to Cheonseong Gung, That resolution will be realized tonight.

Hyo Jeong Workshop song 'Wing of Promise'

And he HJ Report about Hyojinjon which was like a haunted house, but then after restoration it was uncovered as Hyojinjon... more than 300 people in the Workshop and in a whirlwind, and one brother

I have to go, " to the vigil devotion I have to go... and our dear sister Kosaki has performed a piece with the piano, an improvisation in resonance with the SW, not just a performance. Go the Hyojinjon and see what kind of music will be give nto you. Whenever you go there, you will know how Heaven is working through you.

Even the husband composed the poem for her and she was touched and crying by it.

And before GWs the Book, 'Mother's Grace' will be published...

Kim Cho Hi, wife of the pastor, who used to attend the vigil devotion. She was summarizing my words and she made it into like a picture summary and actually made a book titled, 'Heavenly Heart that Flows Alongside of Cheonseong' This is actually getting published, four books representing the 4 seasons. Even she is in Zambia, offering devotion and summarizing my words, and the lecturer cut out some, she is still summarizing...

Did you read properly HD Words tonight. Fallen people have to go through this indemnity course of

restoration... How did not know how difficult... True Love goes the straight line... I had to wring out the cotton trousers worn throughout the winder... Even tearing one's skin, selling one's skin... He has paved the path for the fallen humanity to be restored as we go on to fulfill the responsibility is the word given...

That is why we need to inherit the heart of absolute faith, be in the position of the proud ancestors of our descendants, move on without failing, full power... It is our mission and R to engrave in our hearts

We must not be the successor of Satan, inheritor of Satan... The indescribable sins... We have to clean it away and engraft the new lineage of true love, true lineage, true life, so that the one world of God can be realized. It can only be realized through the One True Parents...

You were born as a 2nd or 3rd gen, must die because don't know the meaning of the purpose of their lives. through the yeongseong Workshop, we have such a Blessing to be able to clean this away.

I asked one member if they sent their child to the Yeongseong Workshop and they said, 'Not yet.' It is the greatest gift and you must send.

I hope you can be in the complete resonance with the SW in the subject position...

We know that True Parents of HEH of this era have given us Cheon Shim Won as the greatest Gift with the Purpose that our families, as the owners of Cheon Il Guk will center on true love and become the substantial entities of the 3 Great Blessings and personal achieve the perfection of the reborn self and communities of Spirit and Truth... like the early church that overflows with true love and realize H unified Korea and H unified world

... Aju

That is why, while walking the path of suffering to forgive, love and unite those that oppose us and do more vigil devotions. We are weak and unworthy children, unable to do anything. Let us wring our hands with repentance as True Mother walks this course, we repent once again and please forgive us and let us not be swayed by the strategies of Satan causing members of our communities to hate, slander and come against one another...

Instead, we will raise both hands and befit natural subjugation... We will cultivate our love for Heavenly Parent and True Parents and love for Them through our Cheon Shim Won vigil devotions, moving forward.

2,000 years ago the Roman soldiers saw only a pathetic Jesus on the cross, but Heavenly Parent saw a future dawn of a new era and Providence brightening. Before True Father headed toward Danbury, the world laughed, looking only at the cold gates of the prison, but Heavenly Parent looked for the future and True Father uttered, 'Oeg Monsei' and may we have the same heart...

True Mother faced the mocking persecutors without the slightest tremor and proclaimed the victory and embraced that crowd of persecutors still as Her children... At this time we become please receive this

resolution of ours to live for the Will, diefor the Will... be comforted even if only a little... Mother, we love You Father, we Love You, and together we will lay the foundation where True Father can Work and True Mother will bring the victory acquittal, absolutely, we will bring the victory "

Binding together all the Hyo Jeong of the 1,627 Cheon Shim Won and for the release and healing release... I pray in my name Tsujinte

BOW

OEG MONSEI
