Opening Prayer of Gratitude

Most Beloved Heavenly Parent

Beloved True Parents of HEH

We sincerely thank You for opening this Day, granting us this time. Even though we resolve to live a loyal life, today as well as we come before Heaven, there are so many things our attendance is lacking.

Thank You for Guiding us that we may become Your children, reborn in Your Grace. Today's Cheon Shim Won Vigil is directly Presided Over by True Father in Heaven and True Mother on earth, as One, and we can be in an environment here accompanied by good ancestors and AGSs when we come together for devotion and all can be liberated with this Gifted Place at this time of True Parents's Victory of Providence for the sake of good fortune to come to us and spread through us to all the world.

As much as we attend True Mother OBD absolutely and become one with True Mother, the faster the Korean nation can be unified and the Providence speedily rush to Conclusion. (I can't hear well so filling in my own prayer) Our blood, sweat and tears are eternal investment mingled with Yours Heavenly Parent and True Parents if we strive our best until the end when Your Dream is realized nothing short of Original Intent on earth as in Heaven.

Please Work through us as we present our hearts and voices together, please move the entire SW and PW to transform to its Truth with You and True Parents... Please protect our True Mother to be released as acquitted of wrongdoing and restore Her Health of Her Holy Body that all the more we may be spurred forward and see miracles of Your Living Power and Direct Sovereignty over this world through True Parents and all BCFs.

I Bong Jun of a BF in grateful attendance to Holy Mother Han

Gratitude

2nd daughter... fasting devotion and Spirituality Workshop, what I learned as a staff member...

I felt lack of love and judged myself by achievements, even I had always received abundance of love I failed to develop relation with Heavenly Parent. I could not deeply experience that True Mother was my

Mother.

With repeated practice of Cheon Shim Won Vigil and intensive prayer, I who could never pray in Korea before, began to pray in Korean, earnestly praying for True Mother and for the SW to work. I felt countless spirits around us working all the time. For the first time experiencing vividly that SW is working around us...

Another time the intensive prayer meeting even staying there briefly, that place was intensely cold and thinking of True Mother Walking this Path for Her children, my heart was torn in half. The way back to the TC I realized True Mother was not just a leader to respect, but Someone I wanted to comfort with all my life and She is my own Mother and my tears would not stop.

At Cheon Shim Won I cried out how I could be a source of strength for True Mother and begged Heaven to use someone as lacking as myself, wanting to be someone God could use.

Then the 3rd of the 3-day fasting, when I returned to daily life I realized with grace that I must not settle into complacency with it. I returned to the TC early, not an easy decision for my weak body, but I resolved for the trainees to enter into another fasting, with heart palpitations, nausea, dizziness, and pain reaching peak during time of Cheon Shim Won devotion.

However, on the 2nd day of the fasting I received a message, 'When you feel exhausted and on the verge of collapse, think of True Mother what She is going through.' Then thinking of Mother bearing children and going through intense suffering to Her Body constantly... I was surged forward to want to do anything for True Mother...

The coordinator then had a surge of tears, telling me he could vividly felt the devotion I had offered and that Heaven had fully accepted what I thought was a trivial condition.

Then when I was employed as a staff of the media team, fatigued and rushing just to finish my tasks quickly. I had fallen into a task-centered attitude, failing to pour into prayer my full heart.

Then, the coordinator said that we must become one centering on True Parents. That afternoon in the Special Prayer Room, I felt the passion to offer my all for True Mother, and tears fell down at that

moment.

Afterward, I ran to Cheon Shim Won and deeply repented for past days I had worked in my own ways, judged others and was consumed only in my own suffering. Thinking of True Mother Who bore vastly greater suffering at my age, without a single hint of complaint, I prayed, 'Heavenly Parent, please help me overcome my narrow perspective and feed more love so that I may fully inherit the Heart and Love of True Mother.'

I drew a card, 'If you earnestly pray with a prayer you will not forget even 30 or 40 years from now, it will be fulfilled. Those Words came to me deeply as if they were the Holy Voice of True Father Speaking Directly to me....

As part of the media team, I looked at the trainees every day through the camera lense. Initially, I was focusing just on capturing good photos. However, when I faced the lense with a heart after my repentance, it became a holy conduit through which I looked at children with Eyes of Heavenly Parent.

When trainees rejoiced, I rejoiced with them and when they suffered, I had a heart as if torn apart, and I realized that this was true love. Although that love is still small and imperfect, I began to feel the Heart of True Mother always wanting to stay by the side of Her children, wanting to protect them.

Looking back, God calling me back to the TC was not just for me to handle tasks as a staff member, but to understand the Heart of True Mother more deeply.

Through this Course of Providence, I gradually came to really know True Mother is my Mother and comprehending Mother's Heart even a little, feel that Mother is so desperate to find the children left in the world who do not know how deeply loved they are, and each of them a deeply noble and precious child.

Now I am returning to Taiwan, but I will not let this be a passing memory but take it back into my life, my church and my daily life, evangelizing with passion to raise up the children True Mother so earnestly Seeks.

Though I have many shortcomings, I will continuously receive the training to pass on the Love of HM to countless ones of the world.

big applause

HJ REPORT

'Planting CS Heart in this World'

2 years and 5 months since the Cheonshim Academy was lost and they embark on their new journey 260 graduated and 82 are short-term missionaries actively engaged...

Some trainees that have directly experience cheonshim heart and want to drive the roots of their faith deeper... and this 333rd day of True Mother's suffering, they determine to make the grace of this HQ known to the entire world.

Cheon Shim Won will remain Cheon Shim Won and I have put forth the 3rd generation and will create the environment that all can flow smoothly like flowing water and I hope PL will take full charge as we plan and move forward to foster Cheon Shim Won as pure water, a place that nurtures talented individuals

who can communicate with the pure and immaculate Heart of Heaven. This is the most important Work."

"We can say that the Cheon Shim Won is the Final Importance. It becomes the Root of faith, unshakeable that you must experience for yourselves. Do you understand? Will you do so?"

True Mother said that Cheon Shim Won is the most important, by becoming a Place where the 3rd generation will become talented individuals capable of communicating with the Heart of Heaven. Experience it yourself so that your roots remain unshakeable. Experience it for yourself so that you can drive down unshakeable roots of faith. This is why True Mother emphasizes the Cheon Shim Won Providence.

Today a total of 2,220 trainees have entered the Workshop. An overwhelming 48% made public decisions, dedicating for 6 months or even over a year, some entering UPA... majority had been dormant, wounded by family members and this transformation in less than 40 days, resonating with H Heart and before the Will, that a history of our youth experiencing this before our eyes.

We feel Cheon Shim Won as Father's Office and the Place where the subjective SW works... applause for all the AGSs working with HyoJN, HeungJN and DMN...

This was made with the cooperation of Heaven and feeling the need for more education, the Academy began, making True Father have so much joy and saying HyoJN, HeungJN and DMN would be the professors and He would Work directly...

True Mother said the Purpose of the Academy is a bounding philosophy to greatly develop spirituality and talents of pure waters with True Mother. She presented the direction of the Academy by stating that, if the spiritual worship was paining to become one with HMM, the Academy is a Place to offer substantial devotion to protect HMM while growing each individual's spirituality.

Today was a special day as we held the launch Ceremony for the 12th Cheonshim Spiritual Academy, 21 newly entering as cohort.

PL: The most important thing is inheriting Heaven's Heart. We must now be Cheon Shim Won practitioners. When we possess Cheonshim, spiritual giving and receiving takes place. Heaven will grant

wisdom, bestow love and give the power of re-creation.

Raising such a heart above all else, let us advance into this world with the Background of Heavenly Parent and True Parents.

VIDEO

True Mother's Words: You are planning to tread upon the edge of the Providence at Completion during this Age are truly happy people. You are receiving spiritual training, and at this Workshop, you must clear away everything that could become a stumbling block, uniting with the SW.

You know what you need is to make the SW work, uniting with the Cheon Shim Won devotion. With such acts let us achieve a victorious H unified Korea.

For us to really fulfill and realize the Mother's Words, let us fulfill our 5% of responsibility and make these efforts, gathering at Cheon Shim Won at 9am every morning, holding our devotion for HMM, taking turns with the 24-hour devotion team, for 2 to 3 hours at a time for Mother's acquittal and eternal health, started at January 10th, each team taking a photo like this and report.

Afterward, they offer the team-based devotion for Mother at Cheon Shim Won and for the final hour they gather at the Special Prayer Room, for the prayer of intensity according to the Program order.

As you know, a daily at the Cheon Shim Won Devotion, an academy student takes care of one duty per person VIDEO showing this

We return every even at 7 to review the testimony drafts and do counseling and we estimate how many members will arrive at the site and set up the chairs, double checking everything from the programs routes entrance and exit and rehearsal in a short span of time.

By 10pm, we dive into the vigil, maintaining our sharp focus until 1am, each individual pouring themselves in with the attitude of taking ownership.

True Father's Words of Guidance from the SW to the Academy students:

You're living in the Golden Age of the Providence, which did not simply Arrive but was opened through the Victorious Foundation of True Parents. Sons and daughters must work in unseen, humble positions.

You must not be arrogant. That you were able to reach this position is not because you are exceptionally capable but because Heaven has sent you. You must always maintain a heart of gratitude.

You must steadily practice emptying yourself without ceasing. You must become role models for the 2nd and 3rd generation, giving hope that our children will also become like that.

Our academy students are gathering devotions in unseen places at this very hour. While serving as staff, it is difficult to maintain complete focus on the vigil and please give encouraging applause for their even greater strength...

Since our HQ often holds various events and unexpectedly and we apologize to our onsite students and please think of them as they try to handle problems doing their best.

Gathering in Cheon Shim Won, True Father's Office, we attend the subjective Heavenly world and offer devotions tailored to the level of the trainees with most appropriate timing and gathering intensity for Mother's well being, including bowing, resonance ansu for Mother's eternal health and as was the case last week, we all united with one heart to offer 1,000 calling out prayers for 40 minutes

'Mother Please Be Victorious'.

True Father's Message as Heaven bestowed grace upon us: Pure Water of Heavenly Parent and True Parents. They are the leaders who will lead the future and must live a life of the practitioner, pioneering their own path, rather than going because someone pushes them to go.

They must be able to walk the path they need to take while resonating with Heaven. I hope that you are reborn as true children who resemble Heavenly Parent and True Parents. In this way, all the devotion is encouraged so that they can do it entirely. We provide direction so that they can plant the roots of their faith on their own while resonating with Heaven...

Introducing coordinators... for all the WSs who are academy student who after receiving the spiritual Workshop resolved, even if I am the only one, I must try to fathom HMM's Heart. They prepare the programs for the following day when the Cheon Shim Won ends. They must prepare programs for the continuing participants and at the same time preparing the HJ Report... They do the work with an attitude of utmost devotion.

When others are resting, I see them crying for them, one with an IV drip. They are praying ceaselessly.

I Choi Yan Coordinator reflection

While there were many difficulties serving as coordinator 6 times, I personally feel that sacrifices are needed by Heaven's Providence. It was a great joy to be able to contribute even a little to the restoration of children which Mother Desires the most.

As coordinator I overcame my own laziness and for devotion to give more love to each and every trainee. When I saw trainees changing when my small devotions were made for them, I felt great reward and gratitude.

During these 7 months, I faced many shortcomings and limitations, but because of that, I was able to cling to Heaven even more. Whenever I thought, 'I cannot do this.' I cultivated the mind to take on the Heart of Heavenly Parent and True Parents and to cause Heaven to believe in me.

As coordinator I was able to lay down my self-centered heart and strive to become one with Heavenly Parent and True Parents. For what was all important to True Mother to serve that became what ultimately helped me grow myself.

This utmost devotion of coordinators permeates and strengthens the trainees. We have a report just now that they will start a 24-hour devotion for Mother after the vigil tonight. Let's encourage them to offer the victory and the joy to Heavenly Parent and True Parents... applause

Announcement of intent to conduct a 1,000 calling out... all former trainees, anyone who has received the training, all are welcome in parallel with the GWs Program, and all gathering for a source of grace... and where all Blessing can become one... continuing to carry the spark

1,156 people at Workshop conducted in the Main Hall... and those who offered the conditions wore the purple robes and heartistic unity with AGS world unity...

True Mother's Words on the small needle to find in the desert when a storm is raging, it is the child that can become one with HMM True Mother... In such a desperate situation, the 1st, 2nd and 3rd gen must become one. I was the one who stood at the center leading the Providence in this final age. You will do that, won't you?

We are able to see these Words fulfilled... Seeing this, I have no doubt that if we unite, we will overcome these trials and take a miraculous flight. The Hyojinjon Workshop is a time again for 3 gen to become one and through art and experience of the 4 realms of heart and weary minds make new determination

also the fishing Workshop time to offer devotion throughout the night and offer fishing devotions... and academy cleaning and providing equipment and food so that the participants can fully concentrate on their devotion...

reflection: I felt this place is where True Father truly dwells and Works. Preparing for the Workshop was physically very difficult at times and the thought, 'I want to rest a little.' crossed my mind. However, the more I tried to be grateful.

Rather than avoid difficult moments, I threw myself more in them and realized the heart of not losing to a satan. As I practiced that way, it paradoxically became the most thankful moment for me.

I listen to the senior members sometimes as if I were listening to True Father's own Words. It makes me reflect once again on myself about how I have been living my life and what I have been neglecting.
TYSM

These WSs are immensely popular and we are accepting registrations by group.

Furthermore, we have our Overseas Volunteer Corps to grab the devotion of the HQ onto the regional branches. Our academy students are resolved for short-term missions, centering on the Branch President, and are successfully engrafting the Cheon Shim Won of HQ.

When we counted, there was 1,062 trainees across the Regional Branches, going out from a period of 3 months to 6 months.

They are to engraft what they learned from here, so there are clear tasks and missions to carry out the moment they arrive, and they are becoming the indispensable presence. They arrive and begin to clean the environment and apply what they learned here with the various prayer forms and beat the drum for even one more member to attend while calling out True Parents to become one with True Parents.

They conduct Korean language education and pay close attention to the translations so that the words of the vigil devotions can be clear, striving to make them one with the HQ.

During free times, they also carry out ansu...

testimony In Ju on a mission to Africa:

I went with the resolve to love Africa even more than the people of Africa do. Two months in Cote D'voire allowed me to experience with my entire body that the love of True Parents and devotion of pioneer seniors are continuing to bear fruit even in the distant land of Africa.

I wondered how someone could offer such love for someone they have never visited, never met in person. I realized that true love knows no distance and no border. It was such a deeply faithful time where I could directly experience the love of True Parents Who have Loved and Providentially Guided the entire world until now, and I thought of the senior members who have pioneered that love while pondering more what my own mission is.

Furthermore, in our academy, we also conduct online missions, specifically at the Cheonshim Won Broadcasting Station, CSWB and the support team poured themselves into day and night outreach...

VIDEO of media team activities

True Father's Words: This is the Media battle that we must win for the future. Until now, we must bring more cutting edge facilities to resolve this necessity. It must be so in order to turn all young people

around, capturing more than half of the programs within the daily broadcasting rights.

It is a matter of how we can supply 26 hours or more of the 24-hour broadcasting programs with our own materials.

HyoJN also emphasized how crucial multi-media is. A broadcasting station is what we ultimately need, something primary to children in need. This is reality. Regarding modern culture, we must seek out and capture these formats.

True Parents have already taught us how fundamentally primary media approaches us and instructed us that we must supply our materials through a broadcasting station for 16 hours or more. We are devoting ourselves into the multi media as well.

Every evening when the vigil ends, less than an hour later, the Contents of the previous night's vigil can be streamed and watched for 24 hours. And every Friday, we can stream all the Contents from Monday through Friday.

Now, when listening to the vigils is restricted due to busy schedules and time zone differences, you can now listen to the Contents of the previous day at the desired time through You Tube. And we are continuing to develop it so that other channels are included.

I often listen to it while getting ready for work in the morning. I receive the touching grace of the precious night's vigil right into my morning.

True Mother stated, 'We must develop many WSs. We must make them run automatically. We must strengthen character. We must strive for the education of the 2nd gen and make positive changes for a new environment.'

To realize Mother's Words, we are actively utilizing media. Every Saturday night at 9pm, centered on spiritual graduates, we conduct a youth counseling center. Having already run over 30 episodes, Director Kim Ju Won of the Director Secretariat sets up filming locations at various places where Academy operates bring the Counseling Center fresh Content.

Explaining with patience, singing songs and experiencing youth willingness to talk about what is difficult to express elsewhere... through anonymous inquiries... about relationships, the Blessing, the various materials... and Director Kim Ju Wan provides counseling centering on True Parents's Words.

This is also a new challenge, and we sometimes feel lacking in preparation and execution, but it has gone from 30 to over 110 graduate viewers.

Reflection: I was often able to hear words that addressed my situation directly. They addressed the very parts I had always worried about and struggled with, giving me great comfort and strength. My relationship with my spouse improved significantly.

Furthermore, my younger sibling commented that the content was a tremendous help while preparing for the Blessing.

We feel that there are people out there in society striving diligently to keep their faith, just like me. Thanks to that I was able to start each week with a renewed mind, and a happy heart.

True Parents's Stated: Through True Love, our families must become the masters of Cheon Il Guk. Since it is a position where we lay the cornerstone with ALAF and AO, even if we must die a hundred times, we must go for the sake of humanity and the world.

Becoming masters of Cheon Il Guk with true love we will go forward for that sake. When devotion is so desperately needed, we will break through our limits and pioneer forward.

TYVM for listening

BREAK

BUSKING

Hoon Dok Hae

Heavenly Law Protects the Unity of the Absolute/Complete Subject and the Absolute/Complete Object. Do you know Providential history and the Principle as well as True Mother does? You likely know only what has been already accomplished. That is why I am telling you to follow what I do (as I Say to). It is entirely for the sake of your future generations.

I published this Cheon seong Gyeong anew so that you fulfill your Heavenly mission and when you go to the SW, you can go embracing it. That way, you can tell Father, while living on earth, I received the Mother's Education, not the Father's Words, and I became embracing Them. I will clingingly achieve the completion and finalization on earth.

The Word is Truth. It is the Principle, and you must be able to Establish a world of the culture of heart before the True Parents's Love. I hope you will do your utmost for this.

You know very well what it means to live according to the Teachings of Father, Who is in Heaven. The Parents' Philosophy of Life is Living for the sake of others wherever we go, going for the sake of others. Therefore, we invest all of our devotion to Create Unity. When you invest more than 100%, unity is bound to happen.

When you encounter Love which is greater than the love of your own parents or the love of siblings, you leave the realm of love of the satanic world and move to Heaven's Side.

In order to become one you must invest. Furthermore, the one who receives must not cause harm or loss. By adding gratitude to it, the circular movement becomes possible, allowing you to establish relationship with the Great Cosmic Parents.

H Law must protect the complete Subject and the Complete Object. Circumstances cannot sway this. No matter how much national power of the Republic of Korea someone may wield, they cannot strike down or overturn a Person Who Maintains the Vertical Standard as a Complete Object before the Complete Subject.

Even if someone strikes that Person, because Heaven and earth firmly hold onto the Roots and sprouts, no entity can overcome that, and the one who strikes will inevitably be broken. That is the philosophy of life.

As long as one serves God above and the Vertical Axis, upholding the Position below, and as long as God Holds on without letting go, the one who strikes will be broken. Because this stands as a Pillar Representing the family, tribe, nation, world and cosmos, Heavenly Fortune can Protect this Pillar and Upholds it. Therefore, the one who strikes will surely be shattered.

HJ PRAISE

CHEONSHIM CHOIR

'Our Promise'

PRESIDENT LEE GI-SEONG'S MESSAGE

Centering on the 4PF of True Parents... 41,000 are connected and are gathered globally and
H Japan

testimony... not knowing Korean, she prayed in Korean and the SW opened up to her... Coming back, she entered the realm to feel with H Mother's Heart and prayed how to be of strength to True Mother, and to please use her, and True Mother is actually her Mother... and she offered 3-day fasting in the midst of this kind of schedule... Whenever you feel to faint, never forget the path of difficulty of True Mother, and even if my small pain can be a support, I will willingly (gladly) sacrifice myself.

Our Deaconess I Sang mo, after True Mother went into the DC, she made a victory of two 40-day fastings, and two 5-day and she did 70 times the fasting... and every day participating in the Cheon Shim Won devotion... big applause

When we think of these people and our personal devotions, even so difficult, we should have the heart of at least being of support, even if it's just a little, to True Mother.

Working as media she took on the eyes and perspective of Heavenly Parent, and by that she could deeply feel Heavenly Parent's Heart. I hope all of you can perceive with Heavenly Parent's Eyes. and those participating in the church and respective communities, look at these few in the eyes of Heavenly Parent, and view the member's devotion with eyes of Heavenly Parent, and look at H Japan and the world with the Perspective of Heavenly Parent.

Seeing and filing the Spiritual Academy was grace to go closer to the Heart of Heavenly Parent and True Parents, and She has proclaimed that when she goes back to Taiwan, she will be an instrument to share it and be a filial daughter... I truly believe Heaven's Love, grace and Blessing will be with her...

The HJ Praise is the main theme song of the 2026 Pure Water Training, where the spiritual inspirations through music shared hearts and in the process of making this song our hope is for True Father and True Mother's desperate Heart, testifying to that Love.

Sometimes we forget about True Parents but we are seeing that their Words are connected to us and that F's Hope and M's Shout will reach us and that we will follow that path... a beautiful song... applause

The Heart of our True Father should reach us. Even just singing, if you have never felt True Father's Heart, it will be a scarecrow, just fake, but when Father's Heart reaches us we listen to the desperate Heart of True Mother, and in that position, we become one with the Heart and Shimjeong of our True Parents...

It should be a praise and offer praise to move the Heaven, and if everyone could come together and participate, it would be so good. Far more than 2 to 3 people are the thousands of people of one heart...
