Letter to True Mother

tearfully,... Mother, how are You getting along at this very moment. I feel so deeply sorry for allowing You to Walk alone and there is not a single time I do not think of You.

Mother, up until now, far from understanding Your Heart, I have only done things to make You sad and distant from the church and my family, how did I live...

Through the general 40-day Workshop I realized the Love of Heavenly Parent and True Parents, but even returning to the church, I gradually became distant again, and how painful for You to watch me being thrown around by my environment.

With determination that I must complete this Workshop to the end, I set goals for an undying faith. There were many times of frustrations with myself when things did not go my way. I cried a lot.

However, I felt that the SW is working alongside us, and even my heart feeling collapsed, I thought this must have meaning and it was a reflection of the Heart that Heaven had to overcome with us, and I should never again say, 'I can't do this anymore.'

The reason I was able to walk through those times was the experience of hearing True Father's Voice as if from deepest in my heart, 'Father is with you. Because Father is with you, you can do everything. You must understand, because Mother is with you, you can do anything. Become like HyoJin.'

Amidst the battle of whether Heaven or satanic spirit would take each moment, I realized how I had lived centering on myself and even amidst You, the most precious thing was myself

I tried harder to offer devotion solely for Mother, with the 1,000 bows, I continually felt that True Parents were right before my eyes. Around the time of 600 bows, when I gazed upon the Portrait of True Parents, Father Appeared to be Smiling and I found myself smiling back at Father and my mind became positive and my body lighter. Could it be that M and F also crossed over hardships gazing upon each Other's Smile?

Surprised by the sudden change, I looked at Father and heard His Voice that I had heard before, heard once again, 'Yes, go over your past smiling from now on. Haven't you only cried? Father feels sad seeing that. Mother does too.'

When the break time for the bowing arrived, I prayed, 'I just saw Father Smile and my exhaustion has disappeared... But when Father underwent Seonghwa, what has Mother taken on as She Walked this Path? and the answer immediately came back, 'It is you children. Up until now, you weren't there.'

At this moment, I deeply felt the loneliness True Mother has born all this time and made the resolution that no more people drift away from You, Mother, and that I will bring them back.

Mother, I didn't realize what Heart You Had on this Path as the Mother of humanity, wearing a pretty dress and must have wanted to go on a Honeymoon with Heavenly Parent and True Father and share all the Memories and hug Him tightly while saying, 'Please don't go.'

Yet, I only looked at what I lacked, and even thought truly precious things were already mine, I left You time and time again. Mother, please do not say, 'Do not pray for Me anymore' Because You are here, I can become strong. No matter what anyone says, I will pray for You and don't worry anymore. You are no longer alone.

Not only I, but among the Spirituality trainees here, there are children who know how to care for others better than I do and who have poured out tears for You much longer than I have.

Only now do I realize I am happy only because I am living together with Mother and pour out not only tears but actions. Mother, I love You with all my heart.

VIDEO Ocean Challenge of Heyong Grand Church

When the Light Disappeared, You didn't...

You are always next to me, You Guide me through the darkness, when my eyes could find no dawn, Your Voice became the morning. You sheltered me beneath the rain, though You never stopped it falling. You never said I never braved/prayed, You simply held me through it. Some roles were meant to change me, some tears were meant to fall, not every prayer was answered, but You went through it all... When I had no strength to hold on You Held On Anyway. You are Closer than fear I couldn't...

True Mother: Humanity who are destroying the environment are polluting the oceans, a lot of creatures that are needed in the ocean are dying. When we know about this, we can't stay still. We need to educate those who don't know about it. There's a lot of things I need to do. Won't you help Me, even by just a small thing?

I want to tell you, 'Please Dream Big.'

When I was in prayer, You counted every heartbeat and tear I shed..... You Stayed. Not a mountain moves, not a storm is stilled... Your Spirit Wouldn't chill... my God, You have always Walked Beside me, Undeclared... You have Carried every burden I could never bear alone... Even when I couldn't feel You, You were Faithful...Even when I couldn't hear You, You were Speaking... When I couldn't see You, You were leading me on... No storm was ever stronger, no silence had the final Word... No grace could hold the promise of the love I always had... When the sky refused to open, when the ground gave way beneath... Not one storm has ever moved You, not one... Every promise, every breath, ever hour... You were standing in the fire... You saved me from it... Just to stay You never left... You never will.

True Mother: I have Said that, 'You are pure water. Pure water should not stay stagnant. You should be flowing. In order to flow, in the place where you flow, you will raise many lives... That is the basis... That is why True Parents have a Dream and just as True Parents have a Dream, True Parents also have a Dream that all humanity be pure water. That means that all humanity needs to Attend True Parents.

True Mother is the OBD, and they will bow down in reverence to the OBD.

This is the day that the Heavenly Parent has made, let us rejoice, let us rejoice, let us rejoice in it...

Even though our joy is compromised in this moment as we think of the True Mother, the Mother of Peace, Holy Mother Han, God's OBD, we are confident that Victory shall one day be Hers and ours.

When one of us visited True Mother at the Seoul DC, we did not see a broken woman or a devastated Mother, we saw God is Substantial Form when we saw Her.

I said to HMH, True Mother, on behalf of all of us that we deeply love Her, and that She has left an indelible mark on the heart of each and every one of us and there is absolutely nothing and no one that can destroy that true love that we have for True Mother and that True Mother has for each of us.

We committed ourselves to be true sons and daughters of True Parents, especially HMH, and we renewed our filial piety and devotion to serve True Mother, until we take our last breath on earth.

I told True Mother that She is Walking the Path of Jesus. God had already Prepared the OB Son 2,000 years ago, and was waiting for the OB Daughter, but it took 2,000 years for the OBD to come upon the earth and now in this moment, after the OBS (Jesus) had come, now the OBD, and it is time for the Marriage Feast of the Lamb ((through the New Name 2nd-Come Jesus' Mission Lord)) so that Heaven and earth can become One Reality again.

It was nothing that True Mother did for these (persecutions) to be happening now, but they had to happen so that God could fulfill the Promise through True Parents that Heaven and earth would become one.

And since it was God's Will, before the beginnings of time, to bring the True Parents to the earth, to bring us as brothers and sisters, One Universal Family Under God, we, you and I, are about to witness what God is going to Do through True Mother at this time, and the world will become one. They will finally know that True Mother is HMH, that True Mother is the Mother of Peace, that True Mother is the OBD of God, and they will bow down in reverence to the True Parents of Heaven and earth. Kamsahamnida.

I want everyone to stand, everyone to stand. And I want us to say to HMH, Oeg Monsei

I was wondering down a dark and sorrowful road, thinking that there was no one there... One by one, seeking out love, becoming a sky filled with shining stars, Beneath the moonlight bearing Father's Wishes, in the glow of the morning sun together with Mother, and with everyone... on the road where we spread our wings and move forward, the hopeful morning sun is waiting for us.....

Welcoming Address from H Japan

I Bon Sok President

The GWs commemorating the 14th Anniversary of the True Parents of HEH is a week away and we assure united with President Hori a safeguard sphere that protects True Mother...

There has been the release of the Epic video and someone from another faith made this comment after watching the Choir and the content of the lyrics, the melody and the way your hearts are united can be felt through the singing, how harmonious this course is.

I heard of the difficult situation you are going through, but seeing this kind of faith and energy in the midst of it is a comfort to me of another faith... a source of support, I will pray for your from afar...

Central spirit liberation... miscarriage and immense sadness and frustration and had the thought of following the child to the SW, but I learned from the Divine Principle what a mistake that is... I heard testimonies of giving birth after miscarrying and also after the liberation of spirits and I applied. A situation that made it difficult to be grateful, I composed my mind and even as others have said, Heavenly Parent will Bless that... and I was able to conceive a child..

another... I continue my life of faith even my husband was not with me in faith and my Cheon Shim Won attendance was the life line... I did my husband's calling out alone but could only do about 300 times a day, but then with the conditions I could continue beyond my limit and my husband experienced a chronic illness of bleeding inside, and thinking of his illness as my own, I participated in the CY and ansu and my husband healed and as well allowed me to attend the gatherings and we get along now better than ever before... Sincer gratitude for Mother Instruction to do 1,000 calling out prayers and to have others to gather strength with in the calling out...

Akiko Simoto... When visiting the hospital with a hyper thyroid illness, I was told that a tumor was there but then before and after being dispatched on March 4th to this year, not a single day did I not attend Cheon Shim Won, and then praying with sorrow and apology to the spirits for their experience and liberated them to receive the Blessing and attend True Parents... even just a ten minute CY every day, so grateful to True Parents for bestowing such grace...

Now just one week away surpassing the number 14 and 14th Universal Seonghwa, let us unite and bring a work of miracles.... TY

Mogami was my assignment and had to cover other places and H messiahs helped... and I carried my fourth child on my back and gather to serve the meals and wash the dishes and during my youngest 8 years old and others gave pocket money, and during True Mother's Statement saying 'making the elder people healthy' and with this a sense of happiness and singing Omayya Unya, it felt that we were family, and Mother said we needed to be 3 generations and how grateful to the in the place where 3 gen served together... elders who joined us. They are so skilled that the bean soup tastes so good at the Village Hall... and I went to the senior to great with respect and the Chairman and the towns' people all gathered and seemed surprised at the size of the Event...

The Signing of the True Family Movement, the True Father Classes, the Founding of this Rally, the Signing of the Autobiography of True Mother, the Movement for the Fifth UN Office, for Peaceful Re-Unification of N and S Korea and Epic History of the Chosen Han People of Korea...

I have promoted and been rejected many times, but I can never forget the elder people who smiled when we wrote down their personal life... When working in church activities and mission, there are heart-warming memories while doing church activities, and precious memories that Heaven has given me.

I was able to overcome post-partum depression by going to the Village Hall to do activities, getting fed by the elderly and being comforted, and even in a difficult situation like now, the elderly said they support Holy Mother Hak Ja Han, unlike my parents back home, whom I cannot visit often.

So, I feel healed when I go to the Hall. There are many situations where I cannot stay long and have to leave quickly, but if the situation arises, I want to go and live there in Mugambi. When I go to the spiritual realm I want to be in that realm and be together with them, while unwrapping the earthly life bag of memories.

I offer gratitude and glory to True Parents for leading me to share those moments with our elderly.

I thank my father in law who has spiritually protected my family with devotion every time, my husband who is supporting me with love who are in Europe and the Middle East, and my Wang Omma whom I lack to see by my own shortcomings, but my love for True Mother stands at the center of our lives, and I want to prove True Parents's Love through our lives.

Wang Ommas, True Mother, since we will now become a family that witnesses to True Parents, please do not worry or suffer anymore, and our earnest for you to return to Cheonjeong Gung soon. Wang Omma, Wang Appa, we love you, thank you... applause

street witness: Although I am lacking, I am standing here because I want to be a chain in the reunification of N and S Korea, which is the Dream and Wish of the Korean people... I would be grateful if you could listen together.

.. The military DMZ line of the Korean Peninsula is disappearing and a dove symbolizing peace is flying toward it.

Following the Teaching of Rev. Moon and Dr. Hak Ja Han, I received the Blessing Marriage with a Korean husband after crossing the border in Japan (to heal the war)

In accordance with the Divine Principle, let us achieve together the unification of N and S Korea together with the 2nd and 3rd generation. Seeing the family members doing the activities for the unification of N and S Korea, I was moved and I wanted to join it too. Seeing the whole family of 4 young children gathering as one and shouting that we must achieve the unification of N and S Korea for God's Will (child

in the background shaking the sign) and when I saw the children distributing flyer with their own small hands, I thought the future of our Unification Family is still bright. So, I want to educate my own children and applied.

another True Father also went to N Korea risking His Life in various ways, so we are doing even small things like this so we can be of even a little help.

We lived like this in Japan for 13 years, and I came here and I thought we should do some activities, so I asked, and now the street lectures are necessary. The children started by themselves, and even getting signatures. But at first we were rejected. There were various things and we only got one or two signatures a day about, but now the people are so moved seeing the children do street lectures, that they even sign for those not here, and some give warm drinks when it's cold and give snacks to the children.

And also, the children loved it so much that they kept doing it, and these days, a miracle happened when there were 21 people in one day. The power of the 2nd and 3rd and 4th gen is really stronger than us, even we work hard too, it is important to do it together with the children. That is in itself education, and we are continuing without resting.

It is a great strength that our family gathers like this, and other 2nd gen who want to do more together, we will, and reach out to all the people of N and S Korea in a fun way.

I think of this place as my 2nd hometown and it is a place where we cooperate with 2nd and 3rd gen. I'm proud that we can spend times like this.

We received the Blessing Marriage, and are now living happily.

Until now, we have been shouting here, but now it is so helpful that the family is stepping forward with us. It is the era that children and families must enter the Cheon Il Sanctum. I truly thank the (4PF True Father and Inheritors Family Moon Im Pyo? family) for really stepping forward here in Soerok. Our Japanese missionaries are fighting as well... Sungri!!

Being prosperous is coming... and next are words of the precedence for the direction our members must take and this message PL:

While I was working hard on the Autobiography Movement and passing out the Mother of Peace and I got this from an Ambassador for Peace:

'It has been a year since receiving the Book. Why did She walk such an arduous path, when She could never stretch out Her legs and had to live amidst the world's mockery. Why does She voluntarily walk this path, embracing the children who criticize Her, again and again embracing the world again. She has said that since She embraces the world, the opposition and criticism does not exist in Her own Heart, even being misunderstood, deciding to untie up a knot of this unfortunate history in Her own Lifetime.

Visiting with this Heart all over the world, they began to call Her Mother of Peace, the Dream and story of a Life that Followed the Will of Heaven with passion and devotion. I truly felt the magnitude that cannot be gaged by my own thoughts and an excitement that cannot put into words. I closed the final chapter of this book. What kind of Teacher in this world must I meet to receive these teachings.

I Who agonized over this have found it, the True Parents the True Teacher, the One Who Came as the True Master of the World, The OBD True Mother, I have met Her. Peace permeated my heart and before I knew it, I felt a warm inspiration envelop my entire body (PL wipes tears) I intend to Love such a Mother.

I want to wipe away that Mother's Tears and follow behind a Mother Who saves the world and walk the path She Walks and attend and respond to that Mother's Wishes. I intend to follow diligently. Even if I cannot save all of humanity, I can cook a meal for humanity and smile for the person next to me, I will pick up trash on the street, give my seat to a grandmother on the bus, take my re-usable basket at the market and re-use my cup and not speak ill of others. I will love my neighbors. The vows surging in my heart follow one after another and overflow with a bright peaceful smile on my lips, I feel happiness by setting a table for a warm dinner together with my family.

After reading the Memoir just once, she fell into such resolution sent to me to follow the OB True Mother. Now is the time to take our the Memoir and read it again and understand what kind of Person True Mother is Who has Lived Her Whole Life for Peace.

Testimony for the light of hyojeong deep in our hearts.

When I was in Japan, I boldly said I was a Unificationist and coming here to Korea I proudly said it also. Even asked wasn't I ashamed? No, when I worked because our family became stable, I just kept working starting to think if my mouth is kept shut and I just endure, won't my family be happy, but I couldn't come to church gradually, but I reached a limit I couldn't endure any more and I just came out, I ran out.

And even though my husband's younger brother called me, I went silent and didn't answer, but as the oldest person in this position, I felt to say sorry and apologized sincerely and he accepted it and we are getting along well. And I came to this Cheon Shim Won for the first time to offer prayer. It was shocking and I just cried feeling like I was a baby, and the next day they said Cheon Shim Won was like the Mother's Womb. I was tired and lonely and I can honestly say those things and that's how my Cheon Shim Won prayer started.

When cleaning the church I felt it was my church, no matter what anyone says (tears) so I want to make it clean the dirty places, leaving aside who did or didn't do it, I wanted to love the church I attend.

Rather than hurting my husband, I wanted to give up on myself too, but I truly lived ignoring my husband for one year even in the same house, but my original heart from Cheon Shim Won was teaching me that this was not right. I wanted to talk to my husband, but I closed the door unilaterally and I didn't have the courage, but at Cheon Shim Won I naturally talked to my husband and now the person I am truly grateful for is my husband, who leaves at dawn and comes home late at night and I go to Cheon Shim Won and he eats alone and washes the dishes alone, and when I come home, I saw him sleeping and I felt so apologetic.

Still, you could tell me not to go to church. Why did you send me to church. To listen to your story, even though ignoring him for a year, it seemed I was offering devotion alone, but now it truly seems we were all doing it together...

There are still difficult things, but the words I want to convey to Mother is that I am okay and I will go with You till the end (tears) and protect my family, and with that heart I came to the 3-day Workshop once again, my second. What I felt then was, 'Oh Mother is truly the most pitiable Person in the world.'

How did Mother endure all those things, when it was unbelievable, why did She believe, why didn't She give up. I thought I wish I could love Her many times more than Mother Loves.

The wave of hyojeong is illuminating across the seas...

From Taiwan, she shares... I have just graduated from university and felt need to reflect on myself before starting work. I'm very interested in project management and at university I spent investment in those field because those capabilities are needed, and I thought I could contribute that way, but can living like this really be a help to True Mother? I had a continuous emptiness in my heart because both of my parents participated in church and activities and I with them, but I truly didn't know how to overcome this situation. My heart was closed and I didn't even want to move forward. But that a person like me to really participate in the 40-day, but I felt Heavenly Parent guide me here.

Since I was young I felt Heavenly Parent as my own Parent, but so sad from the news of True Mother being in the DC, but I only thought of the sadness, but can I really say that I love True Mother, what did I do only for Her?

In the process of wanting to offer greater devotion for Mother, and I always thought that I could do it, but when we went to the Hyojonwon, True Mother would quietly stroke the grave unable to speak Her Heart and how great the pain of Heavenly Parent and True Mother Who lost Her child, and I also thought that Mother truly loves me and when we don't really understand Her and betray that Love, again and again (tears) such pain, but why can I not say I will take responsibility for more things.

Omoni, is Your health okay at this time. Are you not very lonely by Yourself? While at this Workshop, I felt the emotion of loneliness often and at least a little feel Mother's Heart and in the sandstorm having to move forward without letting go until the end. Mother, because of so many of my shortcomings, I have made Mother walk such a path until now.

Even I say I love Mother, what remains is what love I have received love from You, many times when my heart sank deeply, thinking that Mother is loving and praying and supporting me, I really hope to turn to Her Side as soon as possible, but now I know that there are really many things I can do. So, Mother, please do not Walk alone any more. I will join You too. I want to continue to move together for Heaven's Providence and become a child who strives to achieve Heaven on earth, so please do not cry any more.

The lonely Course of Mother that no one else could substitute, but only now we begin to know and cause the flowers to bloom...

'Let Us Return to True Parents'

334th day... We believe that this long endurance is now entering a time of transition where the closed doors will open wide and all prepared will be fulfilled, a new victory...

And in this Altar 1,635th Cheon Shim Won we absolutely pray for the absolute exoneration and freedom of True Mother... So Min Young sent this message

Today is a day we do not have a Weekend Workshop the week before the GWs... doing the registrations diligently... so far a total of 120,000 but we believe we shall achieve more than 170,000 and a lot of other communities have prepared the food court, and the KCLC is preparing food booths and also people are offering free rice and crackers traditional snacks that will be handed out...

And let us show the world during this period that we are moving forward united as one...

If the SW and PW are one centering on True Mother and when we share our tears, with this visibly that time, we can see the miracles.

The report from I Bon Sok of just doing the chanyang in the evenings, such recovery... Realize how much is resolved by Cheon Shim Won devotion, we are receiving such benefit of this era and we need to realize that more for the grace to come more.

80 gathered for HMH to be fully exonerated, we build our tower of devotion, with True Mother still praying for us in such painful difficulty and I encourage people to offer devotion during the week days, and now more than 30 people here are gathering. The determination and spirit of the leader is what is really important.

There was a time when I was defecating blood while dedicating with all our might, and even now that has stopped, I will never stop until True Mother returns, until the day of victory.

When we increase the level and intensity of our devotion, we can move the Heavens. The Cheonshim Choir, among them, right after the vigil last night and still now, they are offering 24-hour devotions, praying while doing Cheonshim resonance really shouting with all their might for True Mother's Release... nobody is actually tired, really crying out.

I served in the public mission for several years already, and there was never a time when the leaders did this, but our trainees are voluntarily doing this, and not only the 24 hours, but they were not able to sleep since more than that this morning, and since they are offering such devotion, it is not possible for them to not be one with True Mother and shed Tears and do whatever it takes to offer for our Mother, and among them those who are participating are continuing the schedule

There are a lot of drinks, Nikol, and these are for the pure water trainees but I don't know how they will feel seeing that these are specifically for them, but without losing their spirit, looking at them offering their devotion, I truly believe Heaven can be with them, and even some may want to try that Nikol, but they move forward even closer to Cheonshim. big applause for all of our trainees... Yeah...

This was planned by the Youth Bureau for about a year, so they are treated well by their Workshop fee paid, but by that we maintain our TC, and with all their might they build the tower of devotion, listen to the words of Heaven...

Now, 58,000 people are gathered and in H Korea, we are gathered... the numbers are increasing... and after the vigil, they will go and embark to offer such devotion at 4am, and offer the fishing devotion for the Ocean Providence, centering on Ju Mon U, Han Je Gu Pastors... ride the boat and sail... I believe that Heaven will surely make it work for them to be victorious and for the final statement of Judgment that

Heaven wants...

For the cause of the Ocean Providence, as we watched the video, conducted as a Workshop and after they participate, to the Marina at 4am... Because it is a devotion actually fulfilling the Purpose of this Workshop...

H Japan, they are gathered in the big venue... 81,000 registered already and the # not reached, I believe H Japan will reach the new record... Also, in the Kenya HQ and Thailand and Malaysia, centering on the H USA it is where all around the world are connected...

500th Cheon Shim Won... Special Itinerants are onsite... We see these types of devotion gathered, I believe it paves the way as a cornerstone for the revival of our Movement...

She said there was not a single time not thinking about Mother and then such an experience of True Father's Voice, 'I am together with you. That's the reason you can do anything. That how I work, do you understand? Everything is connected to True Mother.'

Every moment was a battle of thoughts and forces, but she realized that she had lived centered upon herself still, and she repented and was able to increase her sincerity and level of devotion and standard to communicate with Heavenly Parent. 'You need to overcome your smile. You were crying and I and Mother were crying as well.'

She asked how was Mother able to walk this path? 'It was because of You children.' She is a Mother.

And she made a resolve to find the lost children of Mother... Because True Mother is here she was ever able to receive strength, but now, not only with words but practice, I will wipe the tears and loneliness from You.

It is so not an easy Workshop. It is a devotion and it is to have a breakthrough so that True Father could be upon them and to make a new resolve. I believe and realize how important it is to receive the Workshop as a small child... so that they could become like the Dalai Lama... We need a Workshop for kindergarten students.

Receiving such Works of Heavenly Parent and communicating with the saints and the SW, from a young age True Father and True Mother from Birth, now is the time when we need to open that Era. When we enter the Original World of Creation when we can communicate directly with Heavenly Parent and True Parents, where we could have direct governance of Heavenly Parent and now we have the understanding how to discern from satanic thought and energy, from all away from satanic direct governance.

Today, the song 'I Want to Attend You Forever' and we saw this video, 18,000 views in ten days, just looking they receive such strength. But if we see more great music, I believe we can make an international hit, since this was made together with the SW.

21-day trainees sang 'Spread Your Wings' and they need to move forward without fear.

Today, I Bon Sok, singing such songs, 'To Become One with True Mother'... I listened several times and you can find peace as your tears flow down. Without giving up, Heaven will work even greater... Because of such devotion, the person of the greater faith was moved. How are they able to sing such harmonious and wonderful praise, even he doesn't share the same faith.

He was so impressed how they lost all material things but are really practicing love. Bible, those who are the peacemakers will be children of God... But only if we have the demonic spirit, we will instead have anger, and allow everything to go down by that. Even we have such criticisms and injustice from the world, we are not (cursing) not spreading hate and anger, we are enduring the path of the sacrifice and moving forward, and that is why there is peace in Korea and Japan and Heaven's Work of authority will be shown.

When we become absolutely one with Heavenly Parent and True Parents, we can see amazing things.

This John Calvin has prepared for the Birth of the OBD, after 1543 in 1943 True Mother was Born, and this prophet was born in the same year as Calvin... born and made a prophesy book

' the energy of the spring will go to the East and the Heaven Energy will bear in that place and swarm like bees and butterflies and people around the world will shout like a drunken person, Omoni, Mother. You will be able to hear those voices.

The cry of a cow is maa in Korean, resembling mother... To find this precious land, go to the place where they are shouting Omoni... This is prophesied...

This is a Place where God was Victorious, but the people of the world do not understand. Do not look right or left, but the Original Truth is here. This is a Godly Town that believes in God

This is the Prophecy of the Second Volume

The path we walk is one of H's Providence. Let us all believe in this. The need to believe and fulfill the Words of our True Parents.

H Law will protect the unity of complete Subject and Object that True Parents are... After They were victorious, even in the prison cell True Father walked as saint and True Mother as absolutely walking in unity with Heavenly Parent and our responsibility is to be absolutely

united with True Father and True Mother and increase our intensity of devotion to reach this...

There is only the joy of victory. Resentment will be the loser, but the joy of loving and attending Parents will win.

It was difficult for more than ten to gather, but let's offer more than the intensity of True Mother and now 80 people are soon offering devotion... with that mindset he could see this result...

Now is the time for devotion upon devotion... If all the people around the world would offer devotion upon devotion, the position where we cry is the place of sanctification. There is greater power than the holy salt. The community of these tears will prevail...

Even when we went to the hospital the skin rash didn't get better, but I saw the tears of the mother falling on the rash, and I had the realization that it will be better. Because of our tears, resentments will be cast away, with sweat and tears we can be sanctified and if that is not enough, Heaven will advance the Providence, where we are amidst darkness and we already know that there are true children of True Father who walked the path of sacrifice.

The Cheon Il Guk Sanctum where we can see this visibly, but because we couldn't enter that with our sin mind or heart...
