Opening Prayer of Gratitude

Most Honorable Heavenly Parent

Beloved True Parents of HEH

Thank You so much Today gathered in this Holy Cheon Shim Won Devotion we knock on the Doors of Heaven with all all our soul and heart. With just 4 days remaining until the GWs, and commemorating the

14th Anniversary of True Father's Universal Seonghwa, may this not be simply waiting for a day to pass but a time of holy devotion, when we deeply repent and clear away all our flaws and shortcomings before Heaven.

On this night of vigil, please permit the work of grace to occur for when the impurities within us are burned away. Make us pure and renewed as refined gold. Please allow such works to happen.

True Mother Who has Spent Her Entire Existence focused upon Heaven and for the Ideal of One Family of Humanity under Heavenly Parent, now She is Enduring the 337th Day of Suffering... Ahead of the upcoming trial on August 31st, please completely Resolve the Trial and Unfairness that True Mother is enduring. Please completely shatter the chains of oppression and darkness (She took on for our sake and the world's sake and Heavenly Parent's Sake)

May this trial be an historic moment for the Righteousness of Heaven and Holy Mother Hak Ja Han's Fame before the entire world (moved to bow down and attend) so that the time when the Creator, Heavenly Parent, Directly Governs may Quickly and Widely Open, Surpassing Through All Trials.

After the 14th GWs and Anniversary of the Universal Seonghwa of True Father, May You Bring About Miracles to Complete all Providential history for final Victory, making this time a radical Advancement of Heaven's Unfolding Expansion.

We believe that You, The Living Heavenly Parent, Will Turn all these painful trials into a Blessing in disguise. We absolutely believe in this. Please let this nation and its people fully realize that they are the chosen people Blessed by Heavenly Parent, and allow them to repent.

Even if the reality that we face appears still so dark and of deep despair, we will press forward with firm conviction that the hope given by Heaven can never be defeated.

We earnestly desire and pray that the Moving Power of You, the Living Heavenly Parent, and the United True Parents, at this Hour May Overflow onto individuals, families, churches and the nations. (tears)

I pray all this in my name, Jun Yu San, as a BF gratefully Attending HMH... Aju

big applause

bow and gratitude

eldest son of 1 son and 1 daughter

I experienced many worried and crisis of identity 'Who am I?' but as an adult I accept who I was more...
As a pastor's child, I tried to attend church and grew up well with much love from my parents.

After graduating from university, I was commissioned as an air offices, but I felt fear for how many passed away from that service, but I dedicated myself for my country. Although I became a commander at a young age, I lacked experience and face many difficulties with elders under me.

My pastor gave me the words that a leader must lead with love and the higher position lead with a humble position of sacrifice, and no matter how good a goal is, only if the motive, the process and the results are all good, one can reach the destination of goodness.

I gained a great realization through those words. Even if difficult and arduous tasks are given, I must approach them with the heart that compared to the Path that True Parents Walked until now, they were nothing. As a result, I became a staff officer whom superiors could trust and leave things to, and I could be recognized as a commander whom unit members could trust.

It was a military life that made me realize many things despite my inadequacies. However, one day I

heard the news that a peer, who had gone through the candidate course with me, and was receiving training to be a flight pilot, had passed away in an accident. The fact that life does not go on forever gave me a deep shock and emptiness. It made me consider what kind of life I truly want to achieve on earth.

In that process, I deeply desired to participate in the International 40-day Yeongseong Workshop. Therefore, in 2024, I took a leave from my military service and visited CP with my parents, and tried to offer vigil devotion, and my desire grew stronger for the Workshop.

Ultimately, I discharged from being a career soldier, last June, and applied for the 23rd Yeongseong Workshop, and I came to stand here today (applause and he bows). (He purses his lips, thinking) However, Yeongseong Workshop was not as beautiful and touching a time as I had imagined. The daily repetitions of CY devotions along with a very busy schedule felt like a heavy burden to me. I even complained early in the Workshop that this was worse than the military.

During that time I had a counseling session with one of the training coordinators and expressed my thoughts about the Workshop schedule. Having previously lived as a commander of an organization, I said that the trainees need more time to rest, and I believed that my suggestion would naturally be accepted. However, the response I received was very different from my expectations and I ultimately had to face the reality that I had to accept.

At that moment, my father's words came to life, 'The higher your position, the more humble your posture must be.' Before, I had been a commander in an organization, and coming to the Workshop, if things did not turn out the way I wanted, I tended to complain or accuse others. However, with the idea of laying down myself at the beginning of the Workshop, I thought once more, I offered many prayers to Heavenly Parent, saying, 'Please help me endure.'

Furthermore, I wrote the Chinese character of 'endurance' countless times in my devotion notebook and kept repeating the phrase at the bottom of the page.

'Complaining is hell and gratitude is Heaven.'

I also tried to practice true love by buying snacks for the surrounding trainees. As I did so, good things began to come to me, much like receiving rewards in the military. First, I received better results than I

expected on the English test I took two days before the Workshop, after my discharge.

At first, I simply thought it was the results of my hard work and preparation, but additionally, when applicants were recruited for the Hyojinjon Workshop, I was selected among a very large number of applicants. As someone who loved HyoJN's music, my time at the Hyojinjon felt even more special, and came to feel by the love and grace received there, that it was not a coincidence as I first thought.

Gratitude grew with me, and to name the most grateful moment, it was during the vigil devotion on the 11th. I was able to hold the microphone and lead my favorite song of HyoJN, 'I Will Plant Love in this World', the song that I had always strongly desired to sing together with others. And I was able to attend on the very day of the HJJ Reports that I presented.

I could feel HyoJN's burning heart and have confidence to become a true child who plants love in this world for True Mother (applause) Singing right in front of HyoJN and HeungJN's Family felt like a big stroke of good luck. To others it may seem coincidence, but unlike my life up until now solely to protect the nation's air space and the lives of its citizens for 40 months in military service, this 40-day period, completely different from anything I had done before, was a continuous sequence of gratitude.

Through a spiritual experience, I wrapped my faith anew. In the winter of 2017, while receiving the general 40-day Workshop, I was sleeping in a state of extreme fatigue. Suddenly, my body was light as a feather, and there was the sensation of floating up. Then Someone Spoke into my right ear in a low and dignified voice. One sentence of it I remember,

'Unje, live centering on the Principle.'

Then, I fell back asleep not knowing who those words came from. But until now, I could never be able to forget that single sentence. And it means:

'To put down everything centering on what is right, centering on the Will of Heaven and living my life doing my absolute best with love and gratitude in the position given to me.'

Now, I'm returning to society. The path I will walk in the future has not yet been decided. However, one thing I have firmly resolved is that, since the military is more closed than open to religion than general

society, I especially did not reveal that I am a Unificationist, because of how it might have a negative effect.

However, receiving this Yeongseong Workshop, I have made determination never to hide or be ashamed of my faith. big applause... From now on I will proudly reveal my allegiance to this church and show what it is about by my living example. It is the unique religion leading toward Heaven.

Furthermore, I will offer devotion for my future Blessing candidate at the 2027 Blessing and prepare to build the Heavenly family Desired by Heavenly Parent and True Parents.

This Workshop time, I could look back on the thoughts and standards I had been holding onto, and how to let them go. Difficult and challenging times will surely come my way, but I will hold on to the single intention in my heart, living centered on the Principle, not forgetting the Love and Grace Given by Heavenly Parent and True Parents, and emulating the Heart and Love for True Mother left behind by HyoJN and HeungJN.

I will become a true child who bears the True Heavenly Parent and True Parents to the world, gratitude for this path to once again experience Heavenly Parent and True Parents Love thought an inadequate person, and gratitude to my parents and the Workshop.

'Only You'

TESTIMONY

Ju Ho Lee

3rd of 4 siblings and of the Tenth Heongseong Academy.

I attended church and respected True Parents, but did not believe in the SW, and as days went by came to think I could live a smooth life without faith, but at my mother's encouragement, I attended the Workshop and realized how precious it is to live alongside the SW and how much love I had been receiving from Heavenly Parent and True Parents.

With Mother in detention, I was able to offer devotion conditions more, and coming to America I received grace and love for being an Academy member, but 5 hours of sleep a day and intense schedule made me exhausted, but by my side were the fellow Academy members that comforted me and showered me with love, and I felt proud to be born as a 2nd gen...

In front of the Portraits I prayed that it was so hard and I wanted to give up, but to gaze at the Portraits again I felt a warm Smile upon me. I was missing my parents, but then realized that True Parents were my own Parents. Thinking about how this Place was where They had Stayed, and looking at the Portrait again every time I gained strength.

I want to return the love from the H America mission and I was made a coordinator at the Korea Workshop, but there were times I did not have mastery over myself, wanting to sleep at night, while telling the trainees to do the schedule. I asked myself, 'Why am I going through this hardship.' and the songs that said 'I will stake my life'... I opened my eyes and saw the Japanese members refusing to give up and praying so desperately. It made me reflect on how sad True Parents must feel to look upon the suffering of the Unification Family, and I came upon new strength and thought what I could do for the Japanese members and I distributed the melon water (putting it before the portrait first, after which I saw Them beam a smile and had a sense of fulfillment)

I thought that True Parents could endure so much because of this warm love.

I came to re-anchor myself again and again when I wanted to give up. Centering on the memories at CP, I will assist the pastor and his wife at church and bring the members that have left. To everyone of Yeongseong Church and my family, I extend my deepest gratitude. (He bows)

Pastors and members must love this testimony so much

'The Only Begotten Daughter'

HJ REPORT

Kim Ong Nam Branch Leader of Heavenly Central and South America

To inherit True Parents of HEH Who offer everything with such devotion applause

True Mother's Words March 17 2026

Beloved Members, Please be strong. Heavenly Parent's Will shall be fulfilled, no matter what the situation, do not let your heart fall, do not despair. You must have faith. Believe in Heavenly Parent and move forward.

Heavenly Parent always started a new Providence in times of difficulty. We must not lament. We must not be discouraged.

We must believe that Heavenly Parent has started a new Providential Work. In the eyes of human beings, it may look difficult, but in the eyes of faith, Heavenly Parent's Will is Prepared and a New Path is being Opened.

The difficulties we are experiencing right now, I ultimately Believe that it is a Process of Fulfilling Heaven's Will.

Beloved Japanese members, do not lose your Center. Heavenly Parent's Will shall be fulfilled.

These are the Words of True Mother. Even while Bearing the Cosmic Cross, She is comforting our Japanese members and encouraging them on the path of Blessing. And I'm convicted that these are also Words for all members around the world.

For our True Mother not to worry, we will show intent to do our best

And in front of Cheonjeong Gung April 2025, True Mother's Words to Yeongseong trainees:

Now you are going back to your respective countries, right? And you know from what you've experienced here what you must do. Right now you are a thousand people. You must witness ten and a thousand more than you here. When Wang Omma is on the earth, you can all gather in front of Heavenly Parent and True Parents as filial sons and daughters who walk this path freely. I expect you to become such children

So, True Mother really wants us to expand... and

July 27, 2024 in Jardim Main Hall South America: Clean water does not stay stagnant. You must keep on flowing. That is pure water. You must keep proclaiming the Truth of Heavenly Parent and True Parents.

Right now the Mother of Peace, the Only Begotten Daughter is in Jardim. Today is a great day of grace, a very happy and grateful Day of welcome. Today I saw your sincerity. I love you.

A Cheon Shim Won was made in Jardim and we were able to have a new start... And we had 20 members with Captain I Don Yew and Captain Songega on April 25 to San Palo, and for 7 months, they offered their service, and the Branch moved offices to San Palo to work effectively.

We had our 24-hour devotion team and education and cleaning teams to create the environment.

PL, centering on the grace of the Branch and the Spirituality Workshop, he helped our confidence and (applause)

Jardim, First Volunteer Corps were able to be victorious and after that they went to Brazil, Paraguay and

Argentina, and we still have people offering services to this day...

Especially from Jan 6 to Feb 17, they worked very hard. Now, our 3rd Volunteer Team arrived in San Palo and August 26th, they will come back, riding the plain right now.

Centering on the 4 activities: First Cheon Shim Won devotion in Jardim, starting at 9am and in the Branch we start at 10pm and 4-hour relay devotion and training devotion and devotion for True Mother's innocent release, and River of Vernaza special fishing devotion ---for witnessing and Mother's release...

First attempt, we caught nothing. So, with stronger determination and prayer, and Captain I Mew Myung offered desperate prayer ten minutes before finishing and then caught a fish over 80cm long, a kind of fish rare to catch. (Pintado)

And now, we have five new members we are continuing to teach. Then Secretary General Hun dok and another leader caught Dourado...

And we had a 40-day with 240 members... and a Cheon Shim Won Devotion Team and for True Father to be mobilized, working hard to prepare the environment and food. And with different languages, communicating by heart, witnessed to 5 signed membership people.

Pilgrimage walking True Parents' Footsteps... River of Rappa? and we made a Mother's Path over there of much grace, to mediate and pray while walking... and we have 3 farms and the Salabra Holy Ground and Farm... and Waterfall of Iyasu that True Mother in 2018 visited... and even there is a rainbow in the picture...

This is the HMH Road, and the Rufta River of such clean water. True Mother and True Father Would Bath Here and with grandchildren they would fish and sing... truly like the Garden of Eden when They stayed here..

For three months, including Brazil we toured 8 countries, offering special fishing devotion in the River of Verunda, before we begun... and the Dourado emits a golden light, truly a cool fish.

Pres. Kim Mung Te showed this fish to Father and He came here and caught many of them and laid a

foundation of devotion in such a manner. So, our Branch Secretary Staff was the first to catch this and then Pres. Olympio Gia caught the 2nd. And I was not able to catch one, until in the end, I caught a 68cm Dorado, which was actually the biggest among them. So, I was so happy.

In Korea it's summer but in Brazil it's winter. So, the fish were not that active. So, without devotion, you will not catch anything. And people said how to catch, but I said preparing beforehand is our responsibility and then the fish's part is to accept being caught... We have to ask the fish for them to be caught.

And the purpose is for Mother's innocent release and then to rid of the dark energy and third is victory of witnessing... With these goals we started our tour to

Brazil, Ecuador, Peru, Bolivia, Uruguay, Dominican Republic, Uruguay and Costa Rica, and we held CheonBo WSs. So, 598 is liberation and 593 is ancestor Blessing and 1,598 central spirit liberation and 389 offering papers. and we always have a CheonBo Workshop in Jardim

True Father to Jardim, Central and South America: How much I have waited to embrace this land. From the moment I went to SW, you don't know how much I was thinking about how to make Jardim the Place that Heaven Desires. You must know that when I was coming and going from the Jardim Workshop Center, I was going through many spiritual wars, and... Now, through True Mother, things will be cleared up spiritually one by one...

And now it has become a land able to be Reborn into a Land that Heaven Desires. You have been victorious during your first Yeongseong Workshop. And the Seeds of Hope along with you and the Inheritors of Heaven's Love and Blessing, through your grand victory, it feels like you have planted well the Seeds of Hope

(True Father's Message of Blessing)

And True Mother made Her 7th Visit to Jardim, and because of the rain it was rotted through cracks here and there, and the interior was not pleasing. So, with the heart of attending True Mother in this Place, we renovated the entire interior.

(Wow, after renovation is truly Heavenly clean and bright) I believe it will be the biggest and most beautiful Cheon Shim Won, and every night we offer devotion with our volunteers. (Chanting in the video) and every night devotion. For 40 days for the victory of witnessing a HJ Divine Principle Workshop and 250 participants and made 40 teams of people across 19 nations and we sent them into witnessing teams...

So, our volunteers and potential witnessed candidates. about 300, plan to attend the summer Workshop, and educate to the extent that we can teach Divine Principle to whoever we meet on the street.... having ancestor liberation ceremony in a graceful manner... great joy and great weight off her body and pain disappearing...

Heavenly Parent and True Parents gratitude from Branch staff... preparing I had bitter thoughts and complaints but able to find peace in my heart and all the spiritual weight melted like snow and a great passion and determination came to offer and dedicate to HPs. I will become absolutely one with True Mother to be a true child and move forward...

Keto HY of Ecuador... June 10th... and the national leader was a lecturer who worked with me and we had 80 members participate in the GWs before her but then 580 people came.

It's a hard, long journey involved... Your can't go directly... have to go to Columbia and transfer... But the 285 meters above sea level mountain and 4.3 Kilometers above sea level and we decided to go there but each step was challenging, but thinking of the painful Heart of True Mother and for Her release, we offered devotion there... at such a place (wow)

The young generations are not so many in Ecuador, and Japanese members supported with piano and harp and there could be much more grace, and there was a lecture on CY... and held ancestor liberation and Blessing and time of entertainment, wearing Ecuador clothes with one heart and will...

How great would it be to have this entertainment time with True Mother... And Archbishop Thomas Shelly, his heart of loving Mother was sincere. And he offers devotion for Mother every day.

And when I visited before, our lecturer offered a 30 minutes lecture, but now our CheonBo yoka, and his church and our church, he suggested that we publish a book with both ours and their Principles... and he

truly has absolute faith in True Parents.

testimony - as the main vocal, all the processes were for awakening my spiritual self and a great help to truly feel the pain of Heavenly Parent and True Parents, and feel this Providential background that I could not understand, but could feel spiritually.

This is Peru, and we had CheonBo WSs here... In the past, it's nation had historical han for the damnations there... 121 participants there Peru, Bolivia and Brazil, and for 3 days they offered special ansu that bestowed great grace on all of us... and with special devotion and heart to attend HyoJN, HeungJN and DMN and much revival happened.

testimony... CheonBo Workshop, spiritual senses opened and was able to meet True Mother, Who said, 'I am here with you. You are my proud son, and I will never leave you alone.' This gave me great comfort and I will not forget and offer my great glory..

Abe Akino... She was living her life of faith in a distant countryside region and she came for the Workshop, and for some members it might be normal, but for her only a once-a-year chance. And she offered her promise to get closer to Heavenly Parent and True Parents, and could break down the spiritual walls and for 6 months shouting out and determination to have 3 spiritual children in the next 3 months... he goal.

Heteka family is here... with a very tall son, having a difficulty spiritual time and we offered special prayer and devotion.

Bolivia in the Convention Center, CheonBo Event... and needed many members support... After Brazil, Bolivia has the most members and they participated together...

Secretary General Alvin Alvarez... focused everything on CY yoksa and prayed for resentment spirits liberated, and the Branch leader felt that and ansued him for a longer time... and he shed many tears, and the Branch leader and staff team brough great spiritual fire

Bolivia his family... wife is a teacher and the husband has no job. If he receives spiritual liberation and he goes where he is called, but wife is having a hard time without support... They had long conversations,

and offered devotions in that house instead of coming back and the husband became a new person...

another family was restored and their children are Blessed, but a young couple had 5 miscarriages and they are fearful of bearing children, and we did special ansu and one-heart resonance prayer to overcome... As a victorious CheonBo family, they worked so hard.

And this is the brother of the church leader she witnessed to him and then her entire family, and her younger brother has absolute faith and obedience and supports the public officials with everything.

Costa Rica was the HQ of H Central and S America and he was once the Continental Director, but really spiritually difficult there. Although there are many members, they have a lot of conflict. So we had two sessions of Cheonshim resonance heart prayer and didn't have enough time or members didn't have time to do three intended... but they offered their difficulties and we would resonate and pray for them

video

Costa Rica... 5 WSs there and July 10 from True Mother: I believe Heaven is Alive and Heaven will Realize the Dream on this earth, and children of the Unification Family are going out to the world, and I made the environment that can bring realization of the Dream and all that is left is expansion... That One Family of Heavenly Parent will be fulfilled and until the end of My Life, I will follow (that path)...

With Cheon Shim Won Devotion and the GWs Devotion and for Works of miracles to bring Mother back to Cheon jeong Gung, let us unite and offer devotion... TYVM

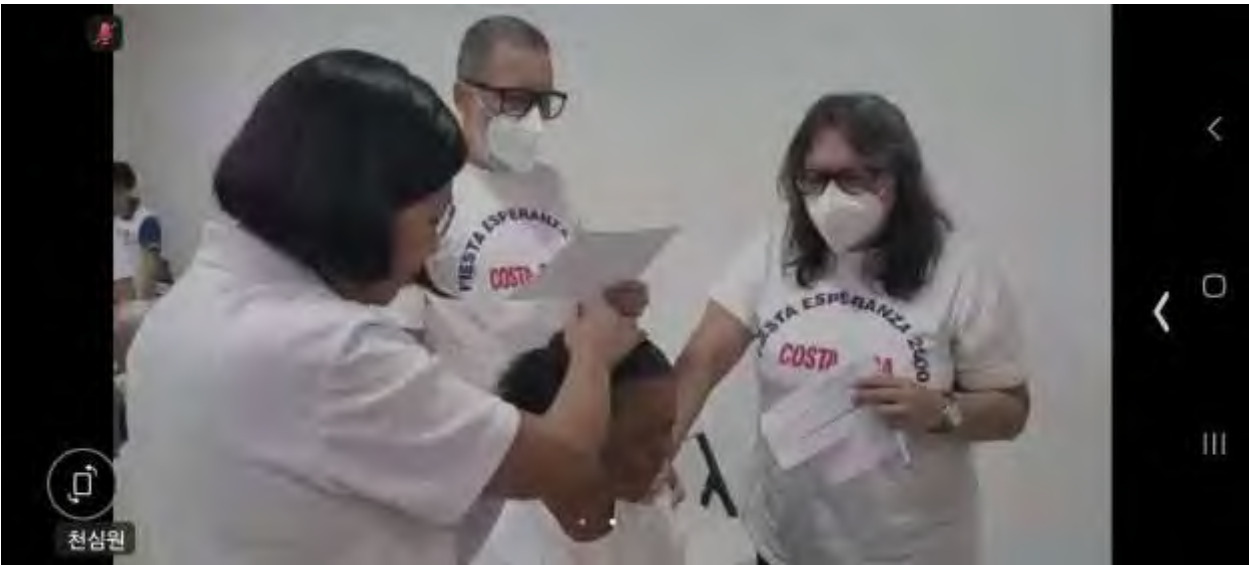

BREAK

BUSKING

Hoon Dok Hae

Your body is a supercomputer that photographs and records a lifetime. The limited life in the physical world is transformed into an eternal life in the spiritual world that transcends time and space

When living in the womb, one receives nutrients from the mother's physical body. And when living earthly life, one conducts life while centering on the 3 basic elements of the universe: water, air and light along with nutrients. However, once one enters the SW, physical nutrients are not needed. And one lives eternally while breathing love.

In this way, regardless of who a human being is, they are destined to live 3 stages of life: ten months in the mother's womb breathing water, and 100 years in the earthly life breathing air and eternal life in the SW breathing love.

It is not something we chose but a Blessing given to us by Heaven. Where else is there a greater Blessing than this? But saying that we believe in the SW does not mean that we should live vaguely in relation to it. We must know what kind of preparations we must make in the PW for the life in the SW where we must live eternally whether we like it or not, and we must make proper preparations.

Just as a child born with complications in the womb cannot help but live as a disabled person for the rest of their life, if things go wrong after birth, if we commit sin and evil acts without properly knowing the Will of Heaven in our brief earth life, we will ultimately go to the SW and pay the price (unable to have the intended love life), according to the Karmic law of cause and effect.

It means that the spirit body entering the SW must pay indescribable pain and suffering and indemnity. Once we strip away the physical body, it is too late. It returns to a handful of dust, but our life, mind and hopes are not buried along with it.

Our hopes, mind and life actions are faultlessly recorded on a supercomputer called the physical body that God has set up. Because this is the path from which we cannot return, even if one beats the ground and wails, and because, even if one wails for ten thousand years, one cannot do anything about the sins alone. Your ancestors must cooperate over your physical lives and receive indemnity from your lives for their own sin.

Your ancestors are watching, sometime weeping in sorrow, sometimes in joy. By teaching these facts so clearly, who could there be who would not believe in the reality of the elder SW?
