Beloved True Parents of HEH

Thank You so much for providing us this Place of Cheon Shim Won, where we bring our longing to see our True Father and wipe away the Tears of our Dear True Father.

True Parents, throughout Your Entire Lives You have Walked a thorny Path of indescribable Sacrifice,

with Flood of Tears solely to release Heavenly Parent (from Parental Pain) and to liberate and release the entire spirit world and humanity.

Yet, when we think of how it is because of us and for us that Holy Mother Han is walking this present path (unimaginable circumstance that She should be in...), let all of us truly shed tears of repentance at this very hour.

Please let us pray with burning tears solely for True Mother, True Mother Who always worries about Her children more than Herself. You told us not to pray for You (You have already made the impossible Victory with True Father, but you need us to respond absolutely and You're thinking of the extreme consequence of our responsibility failures for ourselves, our families, the nation of Korea and all nations) But how can we not pray earnestly for You True Mother, taking this chance to awaken to Your Word, to know You, and to stake our lives for You, True Mother.

Until the Truth is revealed of Your innocence, of Your Identity, among BFs first and before the world... until the end, before and after Your release, True Mother. We will cry out until our voices are hoarse and gone, to be heard by Heaven to mobilize SW and PW to protect You in this emergency situation that only Heaven can protect You from, only how we are willing to change can protect You and give You Strength and Hope for the realization of Heavenly Parent's Dream on earth as in Heaven...

True Father, Who is excruciated by Your circumstance and always by Heavenly Parent's Circumstance, True Father Who is always with us and wants to express Love and protection for True Mother by enacting our mission and bringing the results, True Father please work through our gathering of sincere devotion, increasing devotion, that we resonate and never be the same by exposing our repentance and gratitude in everything, that propels us forward, that You can work through, that HyoJN, HeungJN and DMN and AGSs can work through (Sometimes I add to the prayer through my own tears)

We gather at the place of our longing hearts together. We yearn to hear Your Voice, the Voice of our True Father, Who always Works behind our back only ever desperately wanting to help True Mother, to be able to Work through us for the Purpose of Creation of our Heavenly Parent. May Mother's 338 days of pain on the brink of death not be in vain but make an explosion of realization from the deepest hearts of humanity, and make the transformation in the world never again to be as before that hurt our Parent's Heart inconceivably...

We believe in moving the spirit world through devotion prayed with all our life for True Mother. Please show us the move of Heaven... allow us to see it, spur us on to reach all each other and the world in Presence of Direct Dominion of the Heavenly Parent of us all, tasting hunger and fulfillment of the true, eternal need of us all, by making Holy Mother Hak Ja Han the Absolute Central Point among us from now and always, the same End as the Beginning Concept in Source Love Heart Relationship of Family and Lineage nuance together.

Please purge our selfish thoughts and our own pain focus, so that we may be completely one in resonance with Mother, and enact and experience filial piety while She is still with us on earth now so fleetingly of time left. Allow us to more deeply Know the terms Substantial Holy Spirit, Only Begotten Daughter, and the Sandstorm Path and the Greatest Gift of Cheon Shim Won, with the extreme concentration of a thousand victories, so that True Mother may no longer shed tears alone, let us be the 'Shield of Hyo Jeong', will to give more than more as in a battle, resolving all the Providential issues.

As we cry out for our guidance and Correction, let us go all the way, nothing yet reserved, all the way to hear anew and trust and respond, so that we bear the fruits of victory, as remains only up to each of us

joined together, truly having the Central Pillar sustain us by that attendance of our all.

May this time of devotion be the catalyst of Your Desired development of us, with the Subject Spirit World and the Object Physical World becoming completely one that we see the miraculous Works in a Reign of Grace and a waterfall of Blessing poured down upon us (that we fully realize we receive and fully only want to return to You, to True Parents and to all the people of our humanity). Please, please let us see our True Mother's Release and together attend Advancement as Her Body going forward to realize all Providential Goals...

In my name, Kim Ju Ahn of BCF in grateful attendance to Holy Mother Han

Like my name which means doing the best, I tried my best from a young age and serving in church as a Seonghwa Sunday School teacher, however, somehow the question arose, 'What am I attending church for?' Looking back, my life of faith was mostly habit, attending with routine, thinking it was better than not going at all.
The my heart plummeted when Mother was taken to the DC and how could this happen? I entered the

spirituality and hyeongseong Workshop, I came to realize how True Mother and True Parents walked this path, but deep in my heart something was lacking and empty alike from how I was at church.

One day, the thought hit me, 'Why am I receiving this Workshop and am I doing it properly? The desire to give up did not easily fade away, even I kept going forward. Right after vigil I went and prayed, pouring out my heart to Heavenly Parent, shedding tears. Then I felt Someone warmly embracing me and the contents of the lectures came to mind, and I shed tears even more.

(A dream with True Mother Appearing and saying this this motorcycle goes as fast as 250 kilometers and to be sure to go as fast at least as 240, and I wondered what that meant and fell back asleep. Mother appeared again and said that She is here with me and has been waiting for me for so long and She loves me. But those were not just words. I really felt that Love.)

Even you wanted to give up, Heavenly Parent has been waiting for you, never leaving." I realized that my faith was not desperate and earnest enough with true desire to understand and resonate with True Parents. I thought I was seeking Heavenly Parent first, but Heavenly Parent had been seeking me first. This spurred me to be more earnest from then on and do something more always, no matter how small.

I went to every event and wrote down things and I felt eventually how close by my own side Heavenly Parent was, even when exhausted and weary, there ready to allow me to take one step more. A desire rose in me to practice and share this love.

Goals are to return to the field and convey and help those gen who left to feel and participating. I want to restore and bring back all the dormant or lost children... I will not lose the heart of the experience I learned here, and so that True Mother may return as soon as possible.

Heavenly Parent and True Parents never gave up on me, staking Their Lives, and I will follow that path to bring a happy smile to True Parents Faces as They look upon me, which is my own happiness.

3rd daughter... father as a public worker and mother working all the time, and going to church was our natural routine, and it was a place of many friends and warmth, and my parents poured out their devotion so that I could feel the love of Heavenly Parent.

Friends sometimes left the church, making me feel lonely, but I had no thought of leaving myself and even participated as a leader in WSs... but a lingering question was whether True Parents were really my Parents.

Because my parents continued, I continue to go to church as well. I wanted to receive the Blessing quickly, but being young, I was unable to properly attend my spouse and had to break the Blessing, but then feeling guilty and worthless and determined not to receive the Blessing again, and it was suggested that I go to the TC, but my exhausted heart did not recover easily, but little by little the healing came...

During the Devotion Workshop, I offered devotion every day, but could not draw closer to Mother's Heart... until I heard a testimony of a sister feeling denied by her family, but her mother persisted, and then her mother shared about a kidnapping experience, and how she had overcome all of that... Then thinking of True Mother betrayed by those She trusted and loved, Her own children departing and no one really listening to Her Story (tears) no one by Her Side... True Mother is none other than the One Who thinks of Heavenly Parent's Heart first and worries about her children's suffering first...

I saw how I had been thinking only of myself.. and came to realize that Mother is my own Mother, and there must never be a time in the future that makes Mother sad. But having lived a self-centered life, what did I have to offer Mother.

So, I entered the Academy as others did to be reborn and bring at least a little joy to Mother... in the support projects dept I was a captain for 4 months, a time I struggled against my own inadequacies... but looking back it was filled with abundant love and grace, learning if I overcame moments of difficulty with love and blessing, Heavenly Parent would surely remember...

I became curious about what moshim was and through the lives of HyoJN, HeungJN and DMN lived, I could start could grasp through True Parents's Lives and senior members lives... I was asking myself how I could make True Parents rejoice, thinking about that every moment, just as True Parents only thought of us and bringing joy to us.

Doing the volunteer services for about a year, I was able to be Reborn through Mother and apology wells up, but at the times my body is tired, I want to think of Mother once again. How inadequate am I, but still I will strive to be the one who loves True Mother the most.

HJ REPORT

especially today of an overflowing Hall...

Father's 14th Anniversary of Seonghwa

Kim Yong Jin shared briefly about the schedule and I thought there wouldn't be any more report, but PL asked me to prepare something I hope is not too lacking...

Photo two days before a Spring GWs and symbolizes unity and protection... the day before Mother's first suspension in the hospital stay... also two rainbows over the Cheonseong Gung...

True Mother so difficult, but with vigil devotion with increased sincerity, we can see the number of GWs registrations increase... now 157,756 at the last one, and the report this noon 132,641 so far

PL: From now on it is a battle of jeongseong that will produce result... of spiritual forces and places without jeongseong lose. Therefore, you just need to believe in Me and move forward. I will always be with you.

True Mother going through such difficulties but we can fight it with our jeongseong... We need to put on the spiritual armor and devote for the victory of the first trial, that is not just a trial but a challenge of satanic. If b and s from all over the world participate and make massive liberation, the armies of Heaven and earth can work a total Work.

Now the direct Works of True Parents is transformed from the Cosmic Ascension of True Father and True

Parents as One and the spiritual authority will be bestowed where our devotion is a really powerful weapon, a water shed moment. We were not able to unite as one, and that brought more indemnity, but when we overcome conditions of satanic invasion and change ourselves to add strength to Mother. Even we have offered lacking jeongseong, it is still good to fulfill the conditions somehow, even by doing proxy registration for family, not only resolving the individual spiritual problems but as a condition for True Mother.

We are offering the prayer meeting for the pre-registrants... did the last one and here is a video

testimony of swift healing that was so surprising

wondrous feelings and things weighing hearts disappearing with tears when the ancestor or connected spirit is rejoicing before the ceremony even begins...

prayer for H Korea, Thursday this week. Please fulfill your registration tomorrow... We were preparing for this GWs and more than 1,400 people participated in the Workshop for that... Centering on the #14, not a coincidence of the #...

Director Kim Ju Wan shared the grace of the HyoJeong Providence

We pray the earnest heart of the volunteers working...

PL told me when I first came here that on weekends to change the Hyo Jeong Providence that has changed in the field, and I wanted to go, but there were no churches that invited me. This week I resolved that whatever church invited me, I would go. Then I got a request. That's how Heaven is giving this result instantly now. Heavenly Parent wants me not to stop touring but make a network to connect to the field with this TC and on thing is the Hyo Jeong System that Commemorates the Seonghwa of Father and making songs now thinking about Mother and singing of longing and love

MODU SONG... beautiful

from the Letter True Mother wrote to Father:

Whenever I feel lonely, pressing Your Holy Body close to Me, the Promise I made that I will settle Cheon Il Guk on this earth until the day My Life ends. Repeating that resolution I have lived.

Longing for True Father, looking at the moon, the circle at the back represents the moon and the crane and the meaning is embedded in this and our Team Leader Im Ho Yong offered devotion to produce this batch, with the heart of longing, True Parents will support.... and it is not a souvenir but it is showing and allowing us to remember how valuable walking this path together is... so applause for our hyojeong

Also, H Japan had the 71st Hyo Jeong CheonBo Workshop staff training, centered on President Hori Masaichi of H Japan, centering on the HQ of the Cheon Shim Won, they are making a new record of registrations.

720 currently registered to Workshop here...

vigil starting at 9:40pm and the Ceremony for Ascension done here...Aug 29, Saturday the first gen

unmarried spirits (those who had such faith, the doors are now opened, and if your parents lived a life of faith) Blessing together with the ancestor's Blessing and the 2nd gen SW Blessing will be in December.

There will be a vigil devotion also on Saturday and on Sunday a special Service for Father's Ascension, livestreamed around the world online and offline...

11 CY yoksa sessions, morning, noon and afternoon, including the morning one, for extra special grace...

How important the Cheon Shim Won vigil devotion... I went to the church as a lecturer and going there 3 months in a row and 30 guests participating every time and there is a special testimony of the elder Pak Jin Ah living with such faith with Deavoness Mutsara and he was in a difficult situation for participating in the Main HQ and needing to work...

PL Through the Words said need to offer devotion in the Main HQ for more grace and he listened to the words, but thought he really couldn't do that, but had a dream with soldiers of 2,000 and he was fleeing from them going all around the nation, and there were helicopter searching for him with a net thrown on him, and he was caught and the helicopter dropped him off at the Cheon Shim Won HQ...

He realized if he doesn't go, he might be attacked by an army of 2,000 soldiers and he then participated... I can see him right now... applause

So this vigil, when continuing one-heart prayers, we are able to see the blooming from it.

Prayers are on the foundation of all the previous prayers of Cheon Shim Won, and we have the stories of pure water children being attacked with illness and problems and then healed by reason of the earnest, united prayers, calling out and resonance prayers... 'If two more of you agree upon anything asked for, it will be answered by My Father in Heaven'

Seunghu, my son is being healed and the whole family being healed

Secretary General Patungi was a person who attended the most without skipping, not once but he actually caught cancer in his urinary gland, but through the Cheon Shim Won and 40-day and Academy trainees offered 13 Hyo Jeong Offering Papers, and became the foundation of his healing... He is completely

recovered...

One-heart calling out continued in the Gapyeong Church... and 29 guests participated... praying for the witnessing guests, making this environment and tradition... The Vice Director Hibaeashi... participated in the open church service with amazing result...

No trial can ever block the Path True Parents Walk. Everyone, have you ever shed true tears of sympathy and repentance before such a God for even a single day, God while placing humanity who inherited the lineage of the devel and has become the lineage of Satan are before God, and like biting the tongue, Heavenly Parent singly awaits the day of liberation, and therefore, Rev. Moon's Life was a history of unprecedented seriousness from others of the world.

It was an absolute faith and indemnity Course where He had to walk the Path of individual perfection, capable of judging and condemning the works of the Satan, but having to send even four of his children to the SW at the too young age, and casting His remaining children out into the wilderness, standing before you, having received the Heavenly mandate of the Savior Who was to Become True Parent.

He was to release God, and upon the foundation of humanity, He was not a person Who came because I needed money, power, prestige or wealth. It had been the Life of enduring harsh winter cold, without sleeping and forgetting whether it was morning, evening, night or day, Who has been running for more than 80 years solely down a Path of Heaven's.

Even in torture chambers where Flesh was torn and Blood was vomited, My Life has been that of a filial son, holy saint and loyal subject, Who did not pray to be served, but instead shed Tears of Blood to Comfort the Heart of God and Sobbed witnessing the tragic plight of God's children.

In a Life consistent with saving humanity with true love, abandoning the mountains and rivers of His Hometown, the single path of the Man Walking the Path Staking His Life According to the Heavenly Mandate, a Life Lived uncompromised and not even a hair by worldly eyes.

My Life may appear to be an endless war-long existence, however, no torture or punishment in this world could ever frustrate My Heavenly Path. It could not block the path of Heavenly Parent's Seeking after the children. It is the Life of a Man Who Lived Vowing, Swearing as He sat in the prison cell and gazed at the rain drops falling from the eaves, just as one of those water droplets will eventually pierce through the rock, tears falling from My Eyes will surely melt the frozen, heavy laden Heart of God and bring liberation and relief.

It has been a sacrificial course of teaching the 6 billion people through a practical Life of Loving ones enemies more than one's own biological children.

Tomorrow is the graduation ceremony of such preparation for a new journey...

Pres. Hori Masaichi and I'm grateful for all leaders...

And 41,400 people are offering their devotion. Those gathered here on the main site are offering devotion

#s of H Japan making a venue every time to gather...

H USA Cheon Shim Won and Cameroon and Philippines and Taiwan and New Mexico...

Cheonwon Church is 800th and another 700th

Injun Grand Church 600th and H Japan 555th

Even though the dissolution order was made, I truly hope you will build the tower higher and higher.

Today in front of the DC, there are those protecting, marking the 338th day of True Mother's Detention...
The path True Mother has Walked has been solely for the people of this nation and we are hoping for the 31st judgment, we pray the Truth will blaze and melt away the darkness of hearts

Today, 1,942 trainees are gathered here

166 coming from Yeosu... not even a weekend, but the Palace is entirely filled. This is the GWs, and when we live here on earth, we might think this is the works of our own deeds, but as the dream of the elder. He works at 6am and was thinking he cannot come, but helicopter capture him and dropped him here... How much is the SW working so hard to put you here, and all of the AGSs working so hard that one more person come here...

We need to realize these things. And thinking of Heavenly Parent will cause us to tear up and how much work the AGSs are offering so that the standard of our faith is changed and we enter a completely different realm, able to receive strength where people are gathered...

In the future, there might be a day when we say the Palace is too small, and at least every Friday there should be a testimony of drawing the Authority of Heaven when we enter the Era of H unified Korea.

True Mother's hope is that the single drops of water become the ocean, when pure water is able to see more pure water. Those words can happen when we become one and united those words can happen.

When we see only a few days left for the registration and we need to set the new record. Internationally 26,000 are registered and 46,000 and I feel more must register and listening to Director Jun Yu San, I truly believe in it...

The International Workshop trainees are singing and dancing and praising Heavenly Parent together. True Mother told us to come here where we are building and can experience the world of peace.

The trainee gave such testimony that even she was a Sunday School teacher, she had doubt in her heart. Through the difficulties of True Mother she felt not to stop with her life so far, but came here to find the important answer and find AFAL and AO... Only through that Heaven is open..

Even she was doing so much, she asked why thought she was doing so much she felt empty and through tearful prayers of honest report, she felt the warm Embrace of Someone and saw herself crying even more with realization.

You are able to be revived only through the Love of Heavenly Parent. There are people who don't recognize the Love of Heavenly Parent, even they take care of you for many years. She realized she didn't have earnest enough, and the difficulty dragged on. She offered every day a prayer at True of Blessing and HD and wrote all the notes and went to Cheon Shim Won to do 43 bowing conditions, and then received the amazing and great love and the need to share it to the Seonghwa and do her best to restore the youth.

The sacrifice of True Parents's impossible Life, when it becomes vivid to see personally, tears and resolve to embark on a new path Heavenly Parent's Dream their dream and bring their friends in the college.

There are a lot of gays being witnessed to, because of our conviction, and they did the Holy Wine Ceremony last time and will write their membership. When we have absolute conviction and know there is no other who Invested so much for peace in the world and we should not be discouraged...

(no translation for a long time in this part)

She said after hearing the kidnapping of her mother, then thinking about True Mother being betrayed by Her own children and she participated in the Moshim Workshop and shared that the commonality of her

own parents and True Parents is to think about how to make Heavenly Parent glad and offer back the love and joy to Heavenly Parent.

She made her resolution to offer her best and applause for them to be received for great Blessing in the future.

The trainees sang the title song Mother and Father's Hope and Plea 'Calling to us' and we truly believe that the earnest shout of our True Mother when we are able to unite with the heart, the way of the Monarch Butterfly course will be fulfilled and True Mother with absolute faith and confidence in the pure waters so that eaven's Dream will be fulfilled

Out from this battle, We need to show up with Gift to meet the standard to show True Mother what is absolutely victorious... They are doing their absolute best and meeting the standard of H Korea, we hope all of the volunteers will be a manifestation of their families good hope.

Centering on the 1,000 spiritual Workshop graduates, I really hope that you from this program not like the normal devotion, that we can move Heaven through these passionate youth.

No trial can block the path True Parents Walk. It is because Heavenly Parent is absolutely together with True Parents Who are absolutely united with Heavenly Parent and with absolute conviction they Walk Their Path, Living the most serious Life of Indemnity. They live such serious Lives, They Walked the Indemnity They Needed to pay for the children and to be as a judge, walking the individual perfection.

Their own children were cast out into the wilderness, this kind of indemnity... and upon that Foundation, to liberate the entire humanity. And Father not a Person Who came for needing money or power, but Came Enduring the harsh winter, cold wind and snow, skipping meals and forgetting morning, evening, night and, running for more than 80 years down a single path.

Enduring the torture chambers where Flesh was torn and Blood was vomited, Mine has been the Life of a Filial Son, a holy saint and loyal Person Who did not Pray to be Saved, but instead shed Tears of Blood to Comfort the Heart of God Who Sought us while witnessing the tragic heart of fallen children.

The years in prison could not block the path of a Man, sitting vowing and swearing as He sat is a chilly

prison cell, gazing upon rain droplets falling from the eaves. Just as those rain droplets will eventually pierce through rock, the hot Tears falling from My Eyes will surely melt the frozen, Grieving Heart of God and bring the Day of Liberation and Release.

It has been a Sacrificial Course of Teaching.

We who call ourselves the sons and daughters of our Parents, children whom Parents have called direct, no one can block our path. With absolute conviction True Parents's have Walked this Path of Restoration, and our responsibility is that our family walk this path able to have a national foundation and world foundation, for that Purpose our conviction should not be wavering whatever trials and tribulations we face, we should be able to testify that they don't block the path of H tribal Messiahs.

The dissolution should not be allowed to block our path, but we should be able to testify the words of our Father, testify that no authority of this nation can block the continuance of this path, and how is H Japan the most important Providence centering on this Cheon Shim Won and GWs making a new record. Let's make such earnest prayers to make the miracles.

You heard the testimony, right. After praying with such sincerity. We need to reflect and assess our own hearts whether we are truly giving earnest, whether we are united with Heavenly Parent's Heart or not. Let's make this night such a night.
