Opening Prayer of Gratitude

Most Honorable Heavenly Parent

Beloved True Parents of HEH

Upon the Cornerstone of BS and Ts Shed by True Parents, Beloved Heavenly Parent, we Offer our Gratitude to You this day at the 1,653rd Special Night Vigil Devotion, expanding the Horizon of Spiritual Victory and Opening a New Wave of Spiritual Fortune.

We here at Cheon Shim Won, which is Mother's Holy Womb and Beating Pulse, we Desire to be Reborn tonight, by matching our breathing to the Presence of Mother's Heartbeat. Like a Tree that draws Nourishment from the earth with deep roots that it not perish even amidst strongest winds and driving rain, please bless us so that we too will feel our Roots, and drive our Roots deep into the Soil of True Parents's Foundation of Life and be Reborn as children of hope who illuminate the darkness of the world.

Tonight, please cause our earnest crying out resonance prayers to widen the conduit of Heavenly Fortune, causing this Holy Place to become a boiling crucible of Substantial Holy Spirit, surging us forward in Spirit and Truth. May our prayers of tears cause the SW and PW to become one with Your Heart and Will for giving strength and obedient Attendance to True Mother Who Direct The Lead of Heavenly Providence amidst greatest tribulation, Opening wide the Great Power Winds of Her Acquittal and that all Unite First in Attendance to Her for Best Fortune Following Her Heart and Direction... so that unity of Korea is then Achieved.

Please Work so that the Tide of Peace beginning on the Korean Peninsula Extends across the 5 oceans and 6 continents, bringing about a Grand historical Turning Point, where conflicts and wars are ended and the H unified Family of One World Centered upon Your Intended Heaven on earth, using all our utmost Devotion fully Connected to this HW Cheon Shim Won.

We earnestly repent our own desire apart from You and pray to make all the more invitation for You to Work through us, keeping Vigil through the night that spiritual barriers be broken down and Rebirth and Resurrection into Your Love Flow Re-create ourselves as Substantial binding true love as Your children.

With the pure love directed solely toward Heavenly Parent, and a single resolve to resemble True Parents, we earnestly desire and pray that this will become a time of grace in which our spirits and bodies return to You, never the same after this night.

I pray all this in my name, Cheon Yu san as a BF in grateful Attendance to Holy Mother Han... Aju...

CHEONBO CHANYANG YOKSA

TESTIMONY

Atsuko Kayo

bows and gratitude

I belong to Olbadai Church and I received the Opening-the-Gates Blessing in 2012, and have 4 lovely

children. (I'm applauding for that)

My husband and I fell out of a good relationship due to certain activity we engaged in. As we began to argue and clash with each other, we fell from our perspective faith, shouted in front of the children while hurting them and each other. We lost our trust and even hatred began to develop, hitting rock bottom around the time of our 13th Wedding Anniversary, and breaking the Blessing felt unbearably painful.

Taking advantage of the children's school break, I went to stay with my parents for a week. Unlike me who did not know the importance of the vigil devotion, they attended church every day and went to the Vigil Devotion. I began to attend together with my parents. For me, drowning in despair at that time, it held the most warm and peaceful moments.

The next day and the day after that, I shed tears of repentance, asking Heavenly Parent for answers, and even when I returned home, I continued the Vigil Devotion and gained strength from listening to the testimonies and Cheon Shim Won praise songs of Workshop participants, and I thought, 'I want to become like these people.'

In September, 2025, I went to church alone and prayed every night earnestly at the Cheon Shim Won Devotion. My prayers gradually shifted from myself to prayers for Heavenly Parent. Immature in my faith, my heart ached realizing I had not considered the circumstances and Heart of Heavenly Parent and True Parents.

The thought and desire arose in me that I must attend my husband. Our relations improved bit by bit when we shared the same heart. Therefore, 3 times a week my husband and I offered Vigil Devotion at home and we offered 1,000 Calling Out Prayers every day so that we as a couple could become one.

After that my husband resigned from a job he had agonized over whether or not to quit. My husband debated about attending a 40-day Workshop and it did not easily come to pass. Meanwhile, my parents participated in the 93rd Cheon Shim Won Resonance prayer Workshop and my mother prayed that my husband's path would open up. My father also established the jeongseong for a long time for our couple, including calling out prayers and central resentment spirit liberation.

One day while offering one-heart prayer during the Vigil, the thought kept rising within me that, if not

now, I cannot go to WSs. I encouraged my husband to try going to 3-day Workshop. In the meantime, we learned that Hyojinjon Workshop was going to be held, and my husband who has long respected HyoJN and his music, attended Hyojinjon Workshop and 3-day Resonance Prayer Workshop.

Experiencing encounters with HyoJN and True Father, in the 9 days of Devotion, it became an unforgettable time for my husband. Upon returning home, my husband had completely changed. And for the victory of Mother's first trial verdict, as a couple, we offered Hoon Dok Hae, prayer, calling out prayer and 250 bows together for 43 days, while my husband also fasted multiple times and offered earnest Cheon Shim Won devotion prayer.

I realize that Heavenly Parent must have been the most saddened while watching us fight. I'm sorry for only thinking my own way. Why don't you go to 40-day Yeongseong Workshop. I will take care of the house work. So, go and offer devotion for Mother. applause

I was truly astonished upon hearing those words. Although worried about the children and finances, I did not want to have any regrets ahead of the first trial verdict, and wanted to offer attendance at the Workshop. There were also miraculous cooperations financially. My grandparents gave us money, and my Workshop fees were supported by my parents.

Looking back I realize that those difficult times of the past were impetus to attend Cheon Shim Won and WSs and become one with Mother. I sincerely thank Pres. Lee Gi-seong along with many staff and members who guided me so that I Meet Heavenly Parent and True Mother.

It has been 2 weeks and every day through lectures and Cheon Shim Won praise songs, I felt strong emotions (with the high Spirit praise atmosphere and being with Direct Truth Subjective SW attendance to Mother). I could see how truly ignorant and lacking I was (and how influenced by lesser environments).

There was so much I did not know about Providential Contents, the workings of the spirit world, how much True Parents's Sacrificed, and what we ought to do. My heart aches and tears fall every time I pray, feeling apologetic that I knew so little about our True Parents while claiming to be direct children.

I want to know the Circumstances and Heart of Heavenly Parent moe deeply. And I want to feel Mother closer, becoming a person who can feel heartbroken and shed tears for Mother, rather than my own circumstances.

During the remaining period, I will strive to drive my Roots even deeper, with the sense of responsibility that this is not just the Providence of Heavenly Parent and True Parents alone, but the Providence in which we go together. I will make this a time to think and resolve what I myself and my family can do for True Mother.

This concludes my testimony. Heavenly Parent and True Parents TYVM and I love you (and she gives a sweet smile with her eyes)

TESTIMONY

Moshim Workshop trainee

Chanun gung

bows and gratitude

3rd daughter of 1 son and 3 daughters.. Hamyeong Church

I have completed the 23rd Yeongseong Workshop and now the 11th Moshim Attendance Workshop, which I spoke my resolution to at the time of my last testimony. Frankly speaking though, that resolution did not come from a deeply earnest heart. It was more surface-heartedly and general, that I would go at some point in my life, and I had the mindset that I can just take a little break and join a later session.

However, while consulting with the pastor, my thoughts changed significantly. The pastor told me, 'In this Era when every single minute is precious, it makes no sense for you to take a break before going to the Moshim Workshop. Hearing those words, I ultimately decided not to go home, but instead I set a goal to actively participate in all programs and empathize with Mother's Heart.

During the Yeongseong Workshop, with the mindset that someone else would do it, I did not participate in any of the Devotions, and I was busy hiding behind others. At the time, I did not think that that would become a huge regret. However, at the Closing Ceremony, while watching the sketch video, I saw how others had been calling out and praying in tears until their throats gave out, and offering devotion to become one with Mother, and how I had just stood still.

Watching that, the thought crossed my mind, 'What on earth did I do for 40 day?' It left me with a deep

regret. Therefore, it felt as though True Parents had given me one more opportunity called the Moshim Workshop, Saying, 'Step forward and offer devotion yourself.'

So, during the cheonseong education session, I participated much more actively, and I was able to learn about the drum and calling out and other prayer. That day I prayed that I would learn about being a drummer and a leader in calling out prayer before I went home, no longer passive at all. I would take courage and offer devotion.

Afterward, during the devotion time, the coordinator asked me to lead the calling out prayer at the intensive prayer gathering. At that moment, I got goose bumps, realizing that Heavenly Parent had been listening to my prayers until then, and it made me feel so grateful.

Holding the microphone, the feeling was different from any before. Before only my throat hurt and I thought it would never end no matter how much I shouted. But in leadership role, I felt I was representing the entire assemble and also the SW. A much more earnest heart naturally welled up from within.

After 40 days of yeongseong and 7 days of moshim, it was the first time I offered prayer with all my might and earnestness for Mother. I sweat a lot and my throat hurt a little, but it was also the first time I felt an overwhelming thrill that tingled throughout my entire body. I thought to myself, 'Why haven't I done such an enjoyable calling out prayer until now?' which led me to look back and reflect on whether I had been setting limits on myself while offering devotion.

From the very first day of Workshop, the coordinator repeatedly asked the question, 'What does the word 'moshim' mean to you?' To me, it meant 'burdensome', thinking, 'I can barely take care of myself. How can I take care of anyone else?'

While attending I often heard phrases like, 'You must lay down yourself. And you must give 100% to offer devotion. But I didn't really know how to put that into practice. However, during the intensive prayer, Director Kim shared the following words:

People often say the 2nd and 3rd generations are precious, but the most precious are the 1st generation members, who passed down the Heavenly Lineage. Because of their sacrifices with 100% investment, you are able to be in this Place. Hearing that, my parents and church members came to mind first. They had laid down everything of their own to come the the unfamiliar lands where the language of communications didn't flow well, and invested 100% to fulfill he Providence of a parent with True Parents.

As the gave birth to and raised 2nd and 3rd generations, they thought of us before themself and were attending us from the lowest places. I came to realize this. I reflected again on how much encouragement and strength the staff and members of the WSs I attended had given me. I had been thinking of 'moshim' as something only difficult and grandiose. But all around me there were many people laying down their lives and practicing 'moshim' attendance.

I came to know that because of the BS and Ts and sacrifices of the 1st generations, we the 2nd and 3rd gens can exist today, and because of their devotion, I am able to receive education here at Cheon Shim Won, I felt that I should cherish this Workshop day by day, not as something to take for granted. Now, I felt that I should attend 1st gen members so that they no longer shed tears of blood, and so I can make them shed tears of joy and tears of hope.

And during the Moshim period, I want to learn what Moshim attendance is by bodily putting it into

practice, starting from the small things in serving others. And moving forward, I want to grow into a child who can even attend True Parents and Heavenly Parent.

I want to offer my gratitude to Heavenly Parent and True Parents Who Guided me up to this point in this Place. TY for listening.

HJ REPORT

Rev. Lim, International Workshop Leader

Respected and beloved leaders and members from around the world, Hello everyone,

Grace of 286th General Workshop for international members

First, True Mother's Words:

What is it that can care for and embrace people of the world? 'It is Cheonpyeong.' We must build an

international training center in CP. It is to create a city environment, a comprehensive village that can assimilate differences of cultures of each nation. We are the build our TC right in the Center of it.

Therefore, we must make those who have worked hard in foreign countries as missionaries receive training, instead of just returning home, and receive training as an honor. An international family does not simply meet from different countries needed to form a family.

From the Viewpoint of God's Providence, the International Famil is the Fruit of history of Restoration through Indemnity and the cornerstone of peace that substantially inherits the true love of God.

When we overcome the differences in language and culture, that very thing becomes the model of life in the Kingdom of Heaven. International families must become protagonists of a great family that embraces the world. When they all come together centered on true love and serve as a model for the Kingdom of Heaven (where all filially obey the King Father God and King Mother God as One Realm of Direct Sovereignty), that is the Place none other than the HJ CheonBo Heaven and Earth TC and this 40-day Workshop.

Here we can diverse races and cultures from around the world. We start with orientation, resonance prayer and faith guidance. Here is a testimony during orientation about he moving anecdote of the founding of the TC:

True Father/True Parents, without giving up, even in pouring rain, build the first holy buildings with the member workers.

In the second Workshop part, there were lectures on God and human beings unity through as well as HJ Praise, and Hyo Jeong Testimonies from members. The Cheon Shim Won Era songs touched my heart deeply and made me feel unity (by the same Central Heart of HMM True Mother Connection there).

Then lectures on unification of North and South Korean as well as True Parents Theology and Holy Ground.

There was testimony of someone who felt the weight of Mother Spiritual and Physical Cross with their entire body. Also, through the Cheon Il Guk tradition and etiquette Session, there was a testimony of feeling led to really reflect on whether my life is living the Tradition of True Parents.

The fourth week the trainees practiced transiently meditation, breathing medication, recreation day and Padu Holy Ground. Among them, the time of meditation breathing is about giving rather than receiving. Giving is exhaling more, instead of fully inhaling in Cheonshim breathing, and through that there was a testimony of all the problems within herself disappearing.

Aso, in the Principle Lecture, Part 2, on Jesus. Upon hearing of Jesus Heartbreak that not a single soul was staying awake to pray with Him in the Gethsemane Garden, a sister realized that the Cheon Shim Won Devotion offered provides substantial comfort before Heaven and serves as a force that actively protects True Mother today.

My brothers and sisters, the Vigil Devotion we offer together today possesses precisely that kind of power..

Fifth week there were lecture on the Theory of True Parents, Chambumo Ron, and Testimony of the Cheon Shim Won and church Director... from the Family Chambumo Ron Director from Korea as well as

a Special Hyojinjon Program which will be introduced shortly...

, and we had the lectures on the Epic History of the Chosen Han People of Korea as well as True Mother's Providence today... There was a testimony where a Taiwon member, Hong Shlong Lin, shared that he had help with his confusion about he word 'han' with the concept of 'han' as encompassing the entire cosmos. It prompted a full day of prayer at Cheon Shim Won, where I realized that True Parents each of us as a special representation of the universe with concept that they are now committed to bring into their marriage.

VIDEO with Workshop highlights showing trainees transcending all different races and cultures to form one family... applause

testimony, Rainette Pang, Hong Kong -

During the CY, I heard in my mind small children calling 'Omma'... 'Omma' and I realized that they were True Children Calling for True Mother as She left for public mission. When I was crying and calling my mother, I was a few months old baby crying for her when she was leaving for work. I realized that this felt like being abandoned, which was still left in my heart and that would block me from feeling close to True Mother.

Continuing with CY, I called out in my heart, 'Omma, Omma, Omma'... So many tears were shed. And I felt a sense of healing taking place inside of me... applause

Trishia Kim from Mayaysia... While offering devotion, I opened my eyes to see a Light of a Woman, and I thought, 'Oh, She must be an AGS.' However, during the CY practice the next day, I saw a video of True Father and True Mother in Their Youth, and I associated the Spirit that came next to me as True Mother in Her Youth with Her Love shared with everyone.

another Yang lye Hin, Malaysia

Every morning climbing to the Tree of Love with my son and offering devotion. The devotion culminated in prayer when Heaven responded. When everyone shouted, 'Aboji, Omoni', during Cheon Shim Won Vigil, my visual field lit up brightly as if countless angels were actively working and praying for True

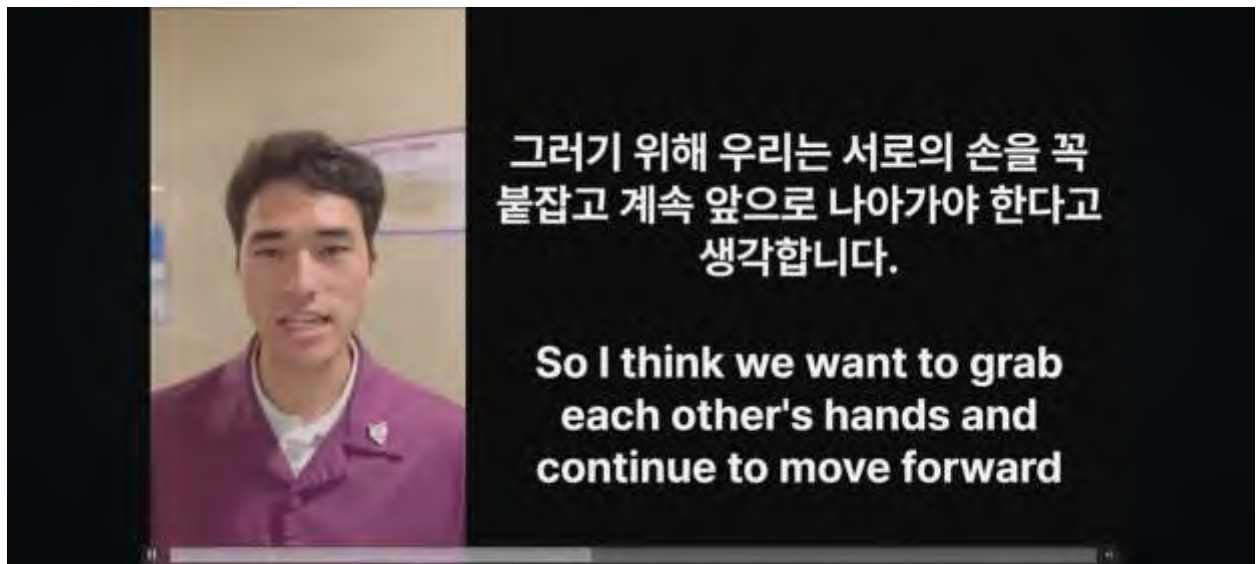

Mother. This spiritual vision allowed me to shout even louder, knowing that good spirits are on our side.

This member actually does not see very well, so her filial son accompanies her wherever she goes... to the Holy Ground and what she saw was with spiritual eyes, when Heaven was moved by her devotion and opened her spiritual eyes, and we hope her physical eyesight will also be approved.

Reviewing a testimony already given. Her mother having cancer and supposed to only have 5 years left... Her father said, 'Heavenly Parent and True Parents will never abandon us. Let us place our trust in Them' And when asking about my mother's well being, she would say, 'Do not worry. Let us place our absolute trust in Wang Omma. She is always with me and looking after me.

4 months later, this mother who had to live with the pain killers, when her condition was again checked, a miraculous event occurred that shocked both doctors and our entire family with repeated examinations confirming that the cancer cells had completely disappeared. And let us praise to Heavenly Parent and HMM True Parents Who demonstrated the Holy Spirit work for this entire family.

another from Du Yu Fang. Taiwan, whose mother had passed away at age 54 from lung cancer, which was already terminal when discovered. At that time the doctor said there was 2.1 centimeter tumor in my right lung said to be stage 2nd stage cancer, possible developing to 3rd stage and needing chemotherapy. At that time, I was exactly 54 years old, the same age as my mother when she passed away.

The Church immediately contacted CP, hoping I could go there as soon as possible. I underwent central resentment spirit diagnosis and counseling. And I was told that I need to at least attend 30 days Workshop and go to Cheon Shim Won Vigil devotion every day. But I had a concern about having to quit my job to do it. So, I prayed at Cheon Shim Won and asked for the response.

Heavenly Parent gave me a Message through the lecturer, 'You are not walking alone. Heavenly Parent is always by your side. You're standing upon the Shoulders of Heavenly Parent, so even if you shed tears of blood, never give up.' The moment I heard these Words, my heart opened and I decided to quit my job.

However, my work place offered to wait two months for me to return, and even the doctor for the surgery supported me to attend Church events. And receiving much financial assistance from members in Taiwan, I safely arrived at the TC. And by willingness to go through the surgery removing the cancer tissue, every night was more healing...

Repenting for not having been one with True Mother's Heart in the past and wanting to be one with Her more, I shed tears endlessly every day, vowing that I would offer even my life for serving True Mother, I returned home. After all the tests, the doctor told me, 'God has heard your prayers'. The tumor shrank to 1.6 cms. Then because I had a severe cough, surgery was postponed again.

After participating in the August GWs, I returned to the hospital, and the tumor had completely disappeared and the surgery was no longer necessary and to take a picture of the computer screen, that this was the Grace of God.
