Opening Prayer of Gratitude

Most Honorable Heavenly Parent

Beloved True Parents of HEH

Today, resonated with the deep heart of Shimjeong of True Parents, They Desire us to forgive, love and become one centering on true love. We have gathered here at Cheon Shim Won, where Father Works and Mother Embraces us. Please Guide us that tonight, emptying all our own minds' thoughts may become a time of devotion to realize the ideal of oneness in heart and body, where Heavenly Parent's Heart and True Parents's Heart Enter into us, making Heavenly Parent's Heart our Heart and our heart Their Heart, abundantly loving Heavenly Parent and True Parents of HEH.

You showed and taught us throughout Your Entire Lives that the Motive of Creation is Love, the Heart of Restoration is Love and Everything of Your Will and Creation is for True Love with us.

We the children of True Parents may choose to obediently grow to be the masters of true love. Our true Desire is to Resemble True Parents of us, solely by practice response to Them of filial true love. True Father in the SW, (You Appear here in this Holy Place where all gather for You to be with us.)

In order to become completely one with HMM, True Mother, we Desire to be Clean, by every responsive choice before You, to cooperate to clear away negative energies (and fallen habit from our thought and that we spring forth anew only from You as our everything). You Give us Chanyang yoksa at this time (to heal everything adverse to our own truth from You.) (How could we not give thanks and praise at all times?)

Through the HJ Testimonies and reports, we desire to comfort and encourage one another and gain precious realizations. Listening to the Word, the Desire to Resonate with Heavenly Parent's Shimjeong and receive the Message from Heaven through earnest prayer desiring to comfort Heaven, move the SW, (give the connecting direction for the greatest Will of Your and our own will, and be Your body to complete accomplishment of) Your Works.

Recalling Mother's Words (for us to perfect) making an environment for going forward with moving the SW's (power connection) We pray to create the cheerful (and hopeful cry to Heaven that is absolute with Your True Love and Wisdom to untangle all problems (of giving and receiving a flow of Love to all each other and all Creation) that satanic ways can be moved (toward the true need of all Your Created beings...)

We desperately join our desire together (to make the necessary changes individually and together of foundation) for the acquittal and release of our Holy Mother Han...

... Kim Ju Wan of a BF gratefully Attending HMH

Name:.....

Moshim 40-day Workshop

bows and gratitude

youngest of 3 daughters

When I was young, there were difficult days filled with teasing, bullying (by street boys because my mother is Japanese) and false rumors. One day my school bag and clothes disappeared and a week later, they were found completely soaked on a school bench. There were books borrowed from the library inside, so my parents had to pay for the lost books.

The second year of school, my father passed to SW and when I told a friend, she said never to tell anyone else or it would invite more trouble. And I kept it secret.

In high school, I gained a little confidence and let others know that my father passed and that I attended the Unification Church, but no one really heard me and we got along well. But as time passed, a close friend asked me if I was okay because there were bad rumors about me going around, (tears) like that your mom fell into the Unification Church pseudo religion and your dad left the house and then died in an accident. Is that true? I fell into utter shock and wanted to find out who started that rumor, soon realizing it had spread everywhere with everyone at my same grade.

A few friends protected me, but others didn't believe me. The fact that my mother is Japanese and that we joined the Unification Church were not things I chose. So, I felt sad, but kept it all to myself until now.

(Tears)

When my mother told me, 'You are a special person, because you are a 2nd gen Blessed child,' I felt irritated. Her Words about the Blessing sounded (unreal). After becoming an adult, I majored in makeup at the university and immediately got a job, and living a busy life thinking I would be fine even without going to church, I left the church for five years. But two years ago, my mother suddenly asked me to go to Chung Pyung, and without even asking why, I answered, 'Yes.'

From that day on, I began attending the Cheon Shim Won Vigil Devotion. Since it had been a long time since I came, my mother told me to offer a greeting prayer. As I bowed and prayed, I suddenly began to miss my father. In my prayer I said, 'I want to hear your voice.' And just as the Vigil was ending, he called out my name three times.

Although I had understood the existence of the SW in my head before, since that day I came to really know it exists. I started my life of faith anew with that fresh heart. The praise testimonies through the Vigil Devotion, were a time of comfort for me. I came to realize that I'm not the only one having a hard time. There are people having an even harder time.

Earlier this year, my younger sister at her general 40-day Workshop, had seen that I wanted to receive the Workshop too. However, since I wasn't in a position to quit my job right away, I started praying devotion to make it possible. Miraculously, matters that had been tangled up were resolved in just a month.

Thinking that this was an opportunity given by Heaven, I went to attend the 22nd Moshim Workshop to make a fresh start, and feeling that my dad was with me. I also realized the importance of faith and how crucial the current time is when True Mother is on earth. I wanted to put the heart I came to have into practice.

Mother's first trial verdict was during that time, and in the first praise session, whenever my feelings welled up, I didn't want to be seen on camera crying, but this time, from the very beginning, an unbearable heart swept over me and tears flowed endlessly. I suffered so much and wondered what kind of Heart, Mother must have Lived with all Her Life.

And I felt a deep sense of guilt for not having offered devotion while Mother was in the DC. At the same

time, I came to feel my own mother's heart. I realized why, even after dad ascended, she remained in Korea and diligent in the church. I am here today thanks to my mother's devotion.

That evening, during the Vigil Resonance Prayer, I prayed, 'I don't know why I am here.' Then I heard a voice, 'Didn't you miss two weeks without being able to see your dad before he passed away? I let you be here so that you wouldn't have regrets.' This was the exact same content I had seen in the Yeongseong Workshop (tears).

My father had a liver condition. Despite that, he kept drinking alcohol and his health worsened. Thought my mother would accompany him to the hospital, I hated seeing that side of him. So, after school, worried that he might be drinking somewhere again, I would search for my father. And when I found him drinking again, I couldn't hold back my frustration and snapped at him.

That was the first time I had a major argument with my father. A few days afterward, my father was hospitalized. Honestly, rather than that he was in the hospital, I felt relief, but I never imagined, he would leave so suddenly and it would be our final goodbye. I hated myself for living comfortably during those two weeks and felt so sorry for my father.

During the Workshop, I offered many prayers of repentance and continued devotions to become one with Mother. Plagued by guilt, I felt as though this was telling me to Attend Mother well from now on.

Yesterday was my father's anniversary of passing, and I came to think that perhaps he is the very one who guided me to be in this Place today. Sometimes I feel confused and wonder if this sudden change in myself at the Workshop is right. But I have come to understand at least a little what Mother's Heart might be. But I realized more that I am a direct child of True Parents.

During the remainder of this Workshop, I want to offer devotion to discover what I must bring to Heaven. Now, I will proudly say that I attend the Unification Church, and advance with absolute faith.

TYSM Heavenly Parent and True Parents for believing in and waiting for as lacking as me. I love You (She bows again)

HJ PRAISE

2 sisters, one singing, one playing piano

the older sister, Ki Mari composed a song and lyrics 'Cheon Il Guk Arirang'

TESTIMONY

Name :....

eldest daughter of one son and one daughter of Konglin Church

I went to church with my parents when young, but drifted away in middle and high school from church and from my faith. I entered Sun Moon University, but for 3 years did not attend church or activities at all, until I took a leave of absence and had many conversations with my mother, and she naturally brought up the topic of the Blessing.

Although I had been distant from the church, I thought I should receive the Blessing. So, I began preparing for my Blessing and growing closer to the church again. While preparing for employment again and feeling at a loss, I saw my mother frequently offering vigil devotion, and I occasionally joined her. By chance, I saw the 5th Yeongseong Workshop participants during the Vigil Devotion, and seeing them offer testimonies from the stage, I thought I too wanted to be there with the 2nd generation. So, I told my mother I would go to the 6th Yeongseong Workshop on my own.

During that Workshop, I received indescribable grace and love. Repenting for having been distant from the church in the past, Mother conveyed through my mother, 'Since you came to the Yeongseong Workshop, you are already completely forgiven. So, do not dwell on the past.'

Furthermore, when I was agonizing over my future, answers were given to me through an elder pastor. The final day, I was able to have an audience with True Mother. At the moment I saw True Mother, I experienced bursting into tears, like a young child for the very first in my life (meeting my Mother), and the resto of the Workshop time was gracious and happy with my brothers and sisters.

I thought I should not keep this grace to myself and thought of my young brother, and with my mother and grandmother in Japan, we offered calling out prayers for my brother. I steadily built up prayers for my brother starting from a minimum of 130 times to over 1,000 times.

Honestly, at first I didn't fully understand about calling out prayers and just kept shouting out the names one by one repeatedly. But one day endless tears flowed, with the Heart of Heavenly Parent and True Parents Who are Waiting, Yearning to find even a single child, this tore at my heart.

Coming here and the Academy were already a miracle, but I thought, if Heavenly Parent and True Parents had Guided me this far, They would surely guide my younger brother to come here as well. And believing absolutely in the Words that prayers at Cheon Shim Won will definitely be fulfilled, I pushed forward.

Thanks to such prayer, my brother began attending various WSs and our entire family coming together for GWs was also fulfilled. But my brother still had unresolved things because he had not really found his

own faith. But while my mother and I ate together at Hyojonyon and shared stories about the path of faith of her and our maternal grandparents, my brother and I both burst into tears (maybe the first pair of siblings to burst into tears while eating there at the Hyojonyon)

But then, thinking my brother had been changed, I kept encouragement to go to the Yeongseong Workshop, but it became a burden instead and he pulled further away. But feeling that Heaven was truly calling him, I increased efforts more and eventually he did decide on his own to go to the Yeongseong Workshop. Applause

I was amazed and deeply felt that, if we do not give up with efforts and devotions, Heaven will surely guide and open the way. And I did not cease, but increased my calling out prayers and devotions. There were difficulties where we had arguments and lost contact, but he was eventually able to successfully complete the Workshop. In that process my mother and I realized the times when we had been forcing our faith onto him. We deeply repented for inability to accept him just as he was.

From then on, without being impatient for results, I entrusted everything to Heaven and continued my devotion. After the graduation, while having a meal with my brother, he casually mentioned that they were looking for volunteers for the next Yeongseong Workshop, and while toward the process of moving back home, my brother said, 'Sister, I want to try being a volunteer in the Academy.' And he served for a month as a media manager during the 7th Yeongseong Workshop, my younger brother who resolved that he would never do such things, wanted to serve in the Academy for 6 months.

I truly felt that all of the processes with my brother were truly a course designed to lead him to this Place, and that at every moment Heaven was listening to my prayers and devotions. But honestly, while offering intense prayers and devotions, there were many times when my mother and I felt so hurt, and my mother even said that it was too difficult to continue. Whenever that happened, I told her there is surely a right time, so let's believe and press forward.

There were times when I wanted to give up as well, but since Heaven never gives up to Guide us every way possible, I myself knowing that, could not give up. Resolved to continuing to the very end, Heaven brought about an even greater miracle, which was the Africa Overseas Mission. What had started as a mere curiosity about Africa for my brother, turned out to be Heaven's Guidance to go there. Although he once gave up due to difficulties, he ultimately went on the H Africa Mission. applause

Just before his departure, he went through an unexpected car accident, but still overcame that not to be a barrier. My mother and maternal grandmother never gave up 1,000 calling out prayers every day and kept in touch with my brother, praying that he would return safely.

Having returned from that mission, my brother had grown much more than before. His perspective of faith and thoughts on the Cheon Shim Won Providence changed significantly. He even gave me many realizations. Seeing my brother crying as he shared his testimony of going to Africa in front of many brothers and sisters from around the world during the Friday Cheon Shim Won Vigil, my family and I shed many tears we could not hold back.

Looking back on this entire process, I could do nothing but give thanks. When I thought that my devotion wasn't bearing fruit, I questioned and even argued with Heaven, but Heaven always warmly Embraced even those troubled feelings of mine. Above all, I realized that none of this would have happened if I hadn't come to this Place first, and then Guided even when so lacking all along, to this outcome, truly because of Heavenly Parent and True Parents and my mother and maternal grandparents' steadfast devotion even at over 78 years of age, my mother witnessed her efforts.

Even during the difficult time of the dissolution of the church in Japan, she gives thanks, offers family services and continued to walk the path with me being here.

There were many days of difficulties I can realize how Heaven was supporting to help me stand back up and move forward for Mother. Despite being lacking, seeing that step by step its for seeing how to move forward. One day I cried out, 'Why did You call me here?' Heaven always stands me back up saying, 'It is for you that I placed you here.' 'If you pray at Cheon Shim Won, it will surely be fulfilled.'

A distant relative, who is the spiritual parent of my paternal grandmother in Japan suddenly collapsed from a cerebral infraction and myocardial infraction and had to undergo surgery. If that person had not existed, neither my mother, nor my brother nor I could be in this Place ---without all of our family members offering devotion.

Moreover, that person had given true love to my brother more than anyone else during the difficult time my father was facing. After my brother left, my spiritual grandmother's health began to improve rapidly.

Although it had been such a serious condition, she opened her eyes, moved her hand, and even greeted us.

Now, her health has recovered significantly. And she has been moved to the rehabilitation hospital and is taking steps to walk. Through this situation, we were able to experience the miracle of Cheon Shim Won Devotion even more deeply.

Here in Cheon Shim Won, which is Mother's Womb, my entire family was able to be reborn anew. Having personally experienced the miracle of Cheon Shim Won from the closest place, the family will become even more united and call forth many more children for Mother.

Moreover, we will offer more devotion to restore the relatives who have drifted away from the church. We will become the family that lifts up reports of Joy to Mother during this Golden Age while She is Alive with us on earth.

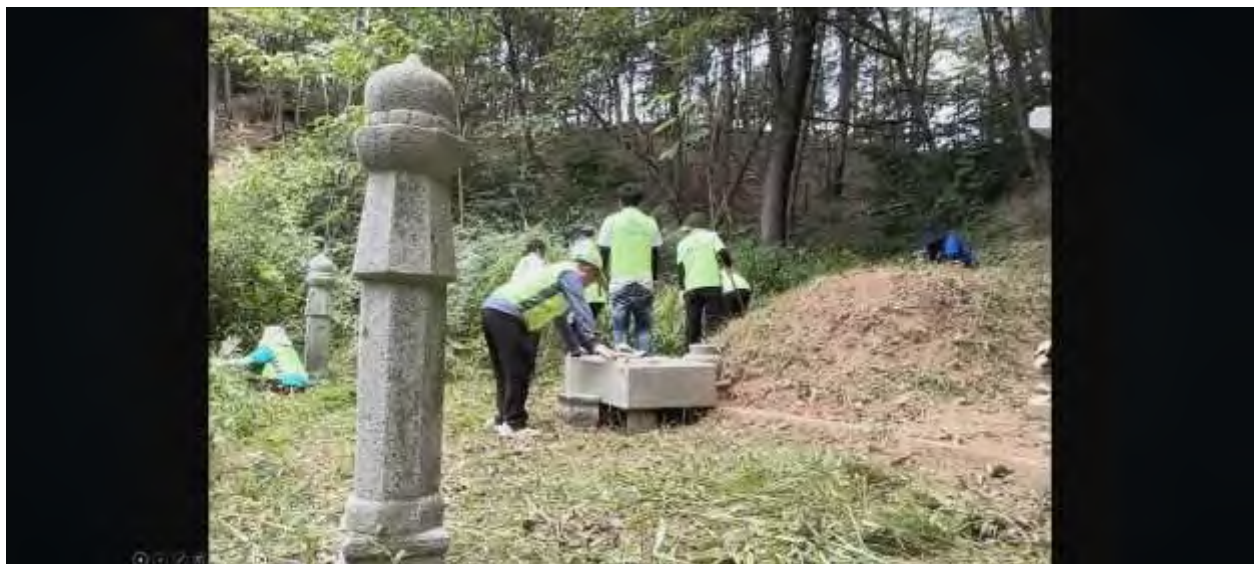

TY Heavenly Parent and True Parents for leading me and my brother all the way to this Place... I also thank all the Cheon Shim Won staff members, and the Academy trainees who have always been together with us. This conclude my lacking testimony...

applause

HJ REPORT

Chun Yu san Education Department Director

16th GPP 40-day Workshop Report

He bows... TY to all of you who came... I'm so grateful to be able to give this report.

Let's begin with True Parents's Words:

"The Old Testament Age is the Age of All Things, the New Testament Age is the Age of Children, the Completed Testament Age is the Age of Parents. In the future it is a Liberation Age. It is the Completion of God, the Completion of the earthly Kingdom of Heaven ((King Mother God and King Father God Realm)) and the earthly Kingdom of Heaven. This (now) is the Liberation Age. It is going forth in 4 stages. All of this is 160.

The UN forces also included the 16 nations, which means it becomes 4 times the #4. Because this kind of 4-stages happens due to the fall, to totally indemnify this, we must offer 4 times the #4. We must offer a Living Sacrifice that is 4 times the #4."

This #4 holds a significant importance the for the 16th GPP Workshop. From the First to the 16th and 379th GPP, by true love with Gapyeong cooperation, we were able to be victorious in 1,300 works... applause for GPP victory

We can see 3 common motives for our GPP participations:

First: It was a very good thing to empty and lay down oneself. It was a period when they could practice giving their all.

Second: August 31st, just before the first instance trial of True Mother, they were able to offer devotion for Mother's acquittal and release for safe return to Cheon Il Guk with True Mother's Heart.

Thirdly: They wanted to love the land of Gapyeong, the Capitol of Cheon Il Guk

sketch VIDEO

When I was praying in the Workshop, I heard a voice saying to go to GPP, and with a heart of resolve, I wanted to go for the acquittal and release of Mother.

another I wanted to offer even this little to help for Mother. We offered devotion and my heart grew to offer even more devotion for the restoration of Gapyeong... and I prayed a lot and even the times when I did not do the works, I could feel the Heart of Heavenly Parent.

I feel the Grace of Cheon Shim Won and I'm seeing the results of it and why I was guided here, with the big difference of offering devotion here compared to offering devotion at my house.

I will continue with these activities with a mindset of ownership, even after Mother comes out, because the restoration of Gapyeong is not yet done. And even I don't have anything, my heart is absolute wanting to Attend Mother and save Her.

I would like to do whatever I could to give hope to Mother, so that Mother's Thoughts will be my thoughts. True Mother we are together with You, eternally we love You.

I would like to report further centering on 3 perspectives: the Gapyeong, treasuring Gapyeong Gung, the final victory of the Epic Han People of Korea. Second: Making the summer worship activity an open worship service activity, and thirdly to rally up people for the Epic History of Chosen Han People of Korea.

The kick-off Ceremony is done first together with the General 40-day Workshop in Cheon Shim Won, centering on Cheon Shim Won. The next day the GPP trainees will do the kick-off Ceremony, where we introduce ourselves and receive the vest for the Volunteer Corps.

And the 1st to the 16th GPP batch will receive a plaque of gratitude. And True Mother Said that in the Chung Pyung Complex, there are so many Gifts here, Treasures here. And with the heart of finding treasures here, through this Volunteer GPP, we worked hard to find those treasures.

And one of the treasures is Imuitak, who is a patriot. He received the award of merit for the national foundation, but a lot of people didn't know he was buried in Gapyeong for 23 years, and there were no roads. No one went to this place and the tombstone was actually corroded, but the volunteers starting last year, they made the path of walking for 20 minutes turned into 5 minutes.

But also, when no one goes there for a year all the weeds and vegetation grows, and even they received that they couldn't make this path by others, so we resolved to do it ourselves, August 12th, when we did the weeding and gardening, Collateral liberation was in this place. And when we organized, we could see a heart on top of the tomb.

I felt that Patriot Imuitak prepared the words, 'I love you.' Then GY County thought they should do something, and they did some organizing and did the Memorial Service that we didn't know at first was the day of his death. I felt there was a reason why we witnessed this Memorial Service. And the team leader of GY County came and shared some words.

'In 1945, the will has been fulfilled by the liberation... (They did so much work to beautify it and made an offering table to honor him and gave speeches to gatherings there... and sang praise songs... It's very moving the contrast of the living neglecting or ignorant of those who service the nation and passed)

Another treasure is at the Entrance, near the library, 63 of the martyrs were there and they saw that one person's liberation was not done and they did the liberation for him and his wife, and the volunteer corps, during the collateral liberation, and they could feel the spiritual atmosphere change to a place where you could really pray well.

Then during the 40-day witnessing period, it is the tradition for 59 years, but during this Workshop period, we did volunteer activities in the open Sunday Services, with songs of praise. And this is the Cheonpyeong's Church, and Nam Yong jong, who came with Mother and participated 7 times in the GPP Workshop, he came and he didn't go back to Japan because he loved Gapyeong so much. And for the restoration of GY, he became a member of the Cheonpyeong Church and weekends he does this volunteer work... applause

July 26th, we had an open Sunday Service. I was invited for the Special Lecture. There were 23 new guests. But the members, all of our brothers and sisters did the calling out prayers and invited all of the witnessing guests. The person who is giving the flowers is not a Cheonseong member. There are 33 streets in Chung Pyung Town. And he is the town leader of Chonpunyon, who is giving the flowers.

I felt that he is almost a member, always consulting with the church leaders. And in the Chunpyun

Church, there is a residence prayer team, where they will offer united prayers for the people who believe in True Mother, and also offer devotion for each other's guests.

And for fulfillment of the dream of our brothers and sisters together, hoping for a good result in the church. And in the open Service, the people sang and danced and did volunteer work as well. And what I saw there was that the leader and the church leader and the H tribal Messiahs became united as one.

They started this open Sunday Service, and starting in June, I would come here for the Special Lecture, but every time 30 of the guests would participate. And the Regional Leader Anhoyol would really think about how to witness. And during his sleep he received a Message from Heaven,

'You need to testify to Heaven. So, with that, you need to share about God, and invite the guests to introduce God.'

And that was in June that they invited me to introduce God. And during this open Service, the coalition leader said, 'This is so good, so why don't we continue in July.' So, we did the 2nd Open Sunday Service, centering on the Ideal of Creation after the lecture. And we gave all of the guests the Portrait of True Parents.

Also, in August, I was invited once more. We did the Open Service, and centering on those who participated for the third time, after the Service we did the Declaration of True Family, and we did the Ceremony of the True Family, where they did the Holy Wine Ceremony as well.

And in Hyojonyon Church, there is the one-heart resonance prayer team. And it is a place sited as one of our pioneer churches. We have two teams, the Monarch Butterfly Team and another that offer praying the one-heart resonance prayer.

And yesterday we did the fourth one-heart Open Service where it was a Festival Sunday Service you could see all the food. And the coalition leader told me to give a ten-minute lecture focusing on why prayer is important. Since there is a one-heart resonance prayer team, now they will go to the one-heart resonance prayer teams' house. Core members prepared all the food and organized the performances.

The 2nd gen also sang. We were really touched by the preparation. And the Ambassador of Peace also

went out and sang a song. And our 2nd gen Blessed child, Iviyon, sang. And there were people who participated for the 4th time. And we had a time to hear their testimonies.

I'm coming for the 4th time this month. The reason I was able to come is because the Japanese missionaries who visited our home, and I couldn't help but come because of how kind she was. I never saw such a kindness. She was so friendly. I think she must be internationally famous for her kindness. And coming here, I received such good words. And it's an atmosphere really like a family. I had a heart that I want to participate frequently. I felt... I thought I want to go to the Unification Church. I want to come here next time. And because we are united in heart (there is no conflict with any differences)

That's why he wanted to come to the Unification Church, because all of our BF's offered such devotion and poured out their love. And this is how we can see new people coming. And our 2nd gen child, I Gi Yon, do you know her? And here is how she sings well. And there is a program to find a prodigy, and she is in the semi-finals. So, brothers and sisters, even if it's hard for you, even if you're busy, why don't you tune in and make sure to vote, so she may find her way to the finals. applause

In Seongmin Church, last August 26th, our Director General, at the World Mission HQ, we did a Commemorative Service for the Liberation Day. There 's a special place in Pongyeong, 'The Garden of Morning Calm', and up until the 16th Workshop, we never brought our trainees here, but in this 16th Workshop, for the first time, our trainees were able to visit this Place and they had a really great time.

Afterward, we visited a really beautiful cafe. This is the cafe from Sangun Church. Our witnessing guests were in this really big restaurant, and we were trying to witness to the owner. The Sangon Church has rented this cafe without any fee, a really beautiful cafe. And there is the person wearing the vest. He is not a member. Yet, he is the owner of this restaurant.

And we were having a lot of discussion with this owner of the restaurant. Last time, the leader of Gapyeong County shed tears listening to the Special Lectures. And this is his reflection:

'All the words of the lectures, I was able to reflect deeply. Dr. Hak Ja Han's detention, I was so shocked. I felt so proud about it. I didn't know much about the Unification Church, but listening to the lectures, I shed a lot of tears. If I have a lot of time, I really would like to look into the Unification Church. applause

I was a good reflection that he shared, but because of the members at that Church, I truly believe that he'll be witnessed to, if our member there offer one-heart prayer. And this is the video:

(Even in the rain, to speak into the microphone and they continue unchanged heart going forward with bright smiles...)

And there is another treasure in Gapyeong, the Chung Pyung Dam, built in 1943+. In the same year when True Mother was Born, the background where we could see this beautiful Cheonshim Lake is Chung Pyung Dam. From 1939 to 1943 they built this with over 3 million people mobilized. And please go here not just to look at the dam, but here are people, 43 of them, who passed away while building it, and there is the monument honoring those people.

And we wanted to do a Memorial Service there. However, (something liberating with the property). However, just while visiting to look at the dam, they did a prayer gathering liberation for the spirits. We went there to do devotion so that it will be registered as the cultural heritage site. It is currently registered as the national cultural heritage.

Looking into it, you can see this news article that says it's a property value that must be used for a tourism resource. For our goal to be realized, we continue our devotion daily, inviting GY County Leaders to the lecture on the Epic History of the Chosen Han People of Korea. 107 were invited, and on the 6th it was the event given by the UPF of GY County.

Actually, there were a lot of guests and Pres. Lee Gi-seong told me to give a special lecture. I wondered what I should give it on:

- 1. How can we protect this Great Epic of the Chosen Han People? keeping it just like in the past but connecting it to the reality.
- 2. How can we testify about True Parents as it logically leads to the Chosen Han People of Korean
- 3. How can we instill pride in the GY leaders through the Epic History of the Chosen Han People of Korea.

Centering on these lecture points, I did the Special Lecture. Her is the sketch video: (wow, tingles)

UPF Leader: 'Looking back at the 5,000-year history of our people, I believe that the Korean people are a people who Attended Heaven.'

President Lee Gi-seong: 'That is the reason we are offering devotion to move Heaven. Whatever difficulty we may face, we will be victorious.'

Chun Yu San Education Dept Director: I want us to look at this land of GapYeong, and the actual name of the Republic of Korea is 'Han' Han Min Guk...

(GPP, They are seen cleaning the streets, cleaning landscapes, photographed honoring memorials... praising, being praised by city officials)

Choi Gi yo reflection: 'I participated in this event. My heart was pounding. Listening to the lectures, all of the misconceptions I had about the Unification Church were resolved. The fact that this religious organization was able to do things that the national foundation couldn't do, I believe that they need to be

given a prize.

I actually invited some to speak, and while listening to their voice, my reflection is that it is a great thing that Gapyeong needed, and I have hope that this will be supported. I like to share my gratitude (and he bows)

another: 'They really know well about the Korean War, and this Gapyeong County and the Korean War, those things might not be passed down to the descendants, but they know really well about all the events. I feel really glad about it. And I'm so moved by their activities. They did a lot of volunteer work to clean up the environment, and with a vision of what GY County should do in the future.

It felt like they are sharing all of this vision, and I want to say all of the ways I received from the members.'

Jang Dong uwon: 'Even though I lived a long time in GY County, I didn't know that much about it. But through the lectures today, I learned that GY is a place where there is filial piety, loyalty and respect, especially for the society. I am so grateful to the Hyo Jeong Volunteer Corps for their volunteer work.

And I also agree that this GY should be the Center of Peace. It was such a great time during this lecture. TY

Because of the time, I would like to share just one more of the reflections. This is from Trainee Kim In jong:

'While attending this GPP Workshop for 3 times, I came to experience of Cheon Shim Won, where my daughter participated in the 3-day Workshop, and my youngest son, the 23rd Yeongseong Workshop which was an awesome Workshop. When I asked what he would do when he finished the Workshop, he said he would go to the Academy.

(cutting short for time and ending with True Mother's Words:)

True Mother: "Gapyeong is a Holy Ground Prepared by Heaven to Save humankind, and it is the substantial capitol of Cheon Il Guk. Therefore, the public officials and members around the world and in GapYeong must become one and completely restore this GY area. With that kind of heart, if all brothers and sisters will offer devotion, (Heaven will succeed)

So grateful for all your devotions and prayers and we will do the Third Chosen Family Epic History starting September 9th to October 31st. The registration date is until September 22nd. So, if you are interested, please apply for it.

This 3-day Workshop is not just the history, but to instill the pride and better motivaion in BFs in order to fulfill the Providence. And all of the mindset of the BFs, the chosen people, our purpose is to spread this Blessing. And as we are really restoring GY, let's offer victorious results.

True Parents Who Paved the Path of Prayer Turning the Chung Pyung Out of Longing

When I came to CP and looked around, I saw the site was good. That is why I settled here and began to offer prayers. In Offering Jeongseong throughout My Entire Life, I Began to Pave the Path of Prayer. Any group whatever, if it is the best group, it is Established upon the Foundation of Jeongseong.

Because of this, it feels just like yesterday when I used to climb to the top of Mount Ayuta alone to pray. I am a Person Who had nothing in the palm of My Hand, there is nothing that I have Resolved to do that I have not Accomplished. What I Said I would Achieve I will certainly Carry Out to the very End.

I go to CP often. I do not go there because someone is waiting for me there. There is no one there. I go because I miss the spot where I used to struggle while Paving this Path in the Past. I miss the mountain winds and mist. I miss the sounds of the birds that echo. I go because I miss the feeling of coming into contact with the touching world a flow within the Providence of Nature. That Longing is something no one can ever take away from Me until the day I die.

When I look out into the front yard of CP TC, you can even feel that the river is flowing. This Place is a wonderful spot where the lake and mountains feel harmonized and are worthy of boasting about to the entire world. Trainees must come here to such a scenic Place, that whenever they look out to the mountains or even the courtyard, they will harbor noble thoughts.

The sun setting over the mountain tops, the sun rising over the highest peak in the morning of a fine mist and the scenery of people working. Amidst them, when all these things harmonize, before one even realizes it, one becomes dazed in revery. One fantasizes and dreams and through the Spirit and vigor of young people, rise greatly, and thus, it becomes the material to endlessly imagine things.

And one day, riding the waters of the Atlantic Ocean, passing through the Himalayas in India, people like

scenic place because they can draw new thoughts and new dreams. Even if a flying crane matches the scene like a unfolding scene or a small boat floats along the lake, one recites poetry filled with joy. Before knowing it, one stands up and dances with the rhythm.

Cheon Shim Won is a Place with an environment of all the conditions to make that possible. When the Power of Love Acts, it can become a Companion of Great Power that can Connect with the Essence of God's Power when God Created the Universe. Have you ever lived like that until now. How desperately have you sought the Path of perfecting your character, adjusting the life and growth of your body and mind so you can harmonize with the Love of the H resonance sphere. Without reaching this Place, there is no liberation.

CHEONSHIM CHOIR

'The Sun Rises Again'

(MODU Song)

PRESIDENT LEE GI-SEONG'S MESSAGE

1,654th Special Vigil Devotion TYSM... True Mother Who is Walking the Path of difficulties for 359 days, let this be a time when we earnestly pray for the acquittal and release of our True Mother.

Today, centering on the Heirs of Heaven's Love and Blessing and the 4PF of True Father, TYSM for this time to offer (globally gathered and multiplied) intensive prayer.

We have 1,105 trainees... GPP... 122 of them... Yeongseong Moshim Academy trainees... 160 of them and Il Won do 14...

Heavenly Japan 12th 3-day Resonance Prayer Workshop, exactly 700 people registered and participated together, and Hukoka Grand Church centering on the Makino Church Leader Couple, 48 of the congregation have gathered here applause

and from Nagano Grand Church, 20 of them are gathered here to participated in the resonance prayer Workshop... also Sotongsun, the Church Leader of Sotongyon, all of the leaders of the West Tokyo Church participated in this Resonance Prayer Workshop applause

In Heavenly Korea, the Cheonon Special District, 178 are participating in the Main HQ, and Sun Moon University Church, 75 of them in Cheon Shim Won Devotion... Cheonshim Church 15.. Icksan Church 43... Chanwan Church 30.. and also Chunchan Church commemorates their 777th Vigil... applause

1,600 churches and places in H Korea are connected

In H Japan, Nagano Church 32... Hukoka Church 23... and 13,800 places and families are offering devotion

Internationally, Heavenly Europe and Middle East Branch... 21-day Workshop in London and West Africa, Yeongseong participants are connected in Congo (looking great, good wavers -5th Heavenly Africa West Branch)

and Heavenly North America are joining our Cheon Shim Won... also other places 179 places connected

Also this Main HQ Cheon Shim Won in this Cheon Shim Won Wonggi Palace is completely filled, and I'm so grateful to be Offering Devotion together. And I'm sure Heavenly Parent and True Parents are there making it a grace-filled time of prayer.

We sang the song, 'Praise'. Now everything will turn around. The Korean 4-day Workshop trainees alongside the Korean Workshop Team offered this Praise for everything to turn around. Let's move the Heavens with our powerful prayers.

Kim Yong ah, Moshim Workshop trainee, shared such precious testimony. She was able to endure such

difficult times. Her father passed when she was in the 2nd year of middle school, and also during her high school, she received persecution because she's the daughter of the Unification Church and has a Japanese mother). And as a 2nd gen Blessed child, she walked this difficult path.

But in that difficult situation, like the mother of Moses, her mother told her, 'Since you are a 2nd gen Blessed child, you need to receive the Blessing. You need to Attend this church. Thinking about that. she received such grace. I believe she has such a great mother.

Miss Yeon ah, after graduating from university, majoring in makeup, for five years, she was dormant from the church for a very long time... but 2 years ago, when her mother asked her to go to CP, she didn't question that and just said, 'Yes.' With obedience to the mother inviting Blessing, since then she offered vigil prayers and really longing to hear father's voice, she listened to her father say her name 3 times, 'Yeon ah ya... '

And during the Vigil Prayer she had a time of such comfort, seeing her younger sister participating in the Workshop and feeling a heart wanting to join the Workshop as well, she resolved to join the 22nd Yeongseong Workshop and then the 12th Moshim Workshop. And seeing the result of the first instant trial, with a heart of repentance that she was not able to offer devotion for Mother before, she had a time of such repentant tears.

Listening to the Voice of Heaven again, she recalled the two weeks before her dad's passing. She heard the Voice, 'I called you here for you not to have regret (especially for the two weeks before her father's passing). And that time was actually the anniversary of her father's passing. What a great grace and gift for her to show herself fulfilling all of the things her father was not able to in his lifetime. Her father will feel that greatly.

Her father was an alcoholic who drank until his death. But because of that, he actually fought with her, having a heated argument. But then seeing that her father passed away (suddenly as she did not expect).

Nowadays, we could just liberate the spirits that like alcohol, but because the daughter was arguing, he went the path of seonghwa without seeing her. ((Did he actually go the path of Seonghwa? Did he go to the Workshop in SW as other spirits do?)) But through this HJ testimony, her father in the SW could be able to do all the things he wasn't able to do.

And for the rest of the period of the Moshim Workshop, thinking of what she could do to offer joy to Heaven, she said that she will be confident in sharing that she's a Unification Church member and testify to the world with a heart of absolute faith.

And Kimari's older sister composed a song for her, and the younger sister sang the song 'Cheon Il Guk Arirang'. I believe the lyrics of this song will be fulfilled.

Today Ponpiyon, Coordinator of Cheon Shim Won Secretariat has shared such a precious testimony. As a coordinator her voice is always hoarse, since she always offers such devotion. But listening to her testimony, she was not a person who had deep faith. She had a long period of time of being distant from the church. Even in middle school and high school, she didn't have faith.

And as a sophomore of the university, she did not attend church, but during an opportunity to participate in a Vigil Devotion with Mother, looking at the Fifth Yeongseong trainees activities, she was moved to join them. The 5th Yeongseong trainees was the first one where True Mother Met the trainees, and with the heart to join those trainees, and having the chance to Meet Mother, she cried as if she was a baby.

And seeing her face then enjoying the Yeongseong Academy, and the heart of restoring her younger brother, offering calling out prayers from 130 to 1,000 times for her younger brother, really calling out, she was able to resonate with the Heart of Heavenly Parent and True Parents, and shed tears. That is the Heart of Restoration of Heavenly Parent.

When we say we want to resonate with the Heart of Heavenly Parent, we need to resonate with the Heart of Creation, and also resonate with the Heavenly Heart of Restoration. In order to do so, we must resonate with the Heart of Restoration through Indemnity. Otherwise, we cannot resonate with the Heart of Restoration. For us to resonate with that Heart, True Parents have Said that we must witness and warn the world.

When we pray for the restoration of others, it is the time when we feel the heart of restoration. Our sister Onhiyon really praying for her younger brother, was able to resonate a heart of restoration of Heaven, a heart of restoration of Cheonshim, shedding tears with prayer and devotion.

Heaven had listened to those prayers. Her younger brother went to the Workshop, but his faith didn't grow. He whole-heartedly rejected going to the Yeongseong Workshop. But after that she did not give up, but continued devotions. If you see a relative among your family who is rejecting, please do not give up, and instead offer more devotion and do calling out prayers and whatever it takes.

Offer calling out prayers. And when you build a tower of devotion standard, Heaven Works. This brother eventually joined the 16th Yeongseong Workshop. For 53 days with desperate prayers of calling out devotion. The result is that He joined the Academy for a month and then 6 months, and after that in Africa, when they were doing the Yeongseong Workshop, he went as a missionary. There weren't a lot of people who went there, but he's the only one who headed to C'otevoire in Africa. How fearful and difficult it might have been, but after going there, you might have heard his HJ testimony last time.

The day of his HJ Testimony, his mother, his father, his entire family gathered and introduced themselves. We had a group photo. And I had a time to take a photo with them, and the entire family became absolutely united. It was an absolutely restored family where they could Attend Heavenly Parent and True Parents. I believe they achieved a great victor.

Cheon Shim Won, when we pray sincerely, it will definitely be fulfilled. Because she had this and using this experience, she will offer even greater devotion. When we offer prayer with conviction, it is absolutely different than when praying without conviction. When we pray with absolute love, absolute faith and absolute obedience, that standard is absolutely important.

But when we see this experience, we can enter the absolute faith. Cheonshim resonance prayer trainee, if you have a heart that H Japan will not make it, it is not absolute faith. Heavenly Parent and True Parents have absolute faith that H Japan will be victorious as the Mother Nation.

Some drift away from the faith, but the Providence of Restoration is from faith to faith as the central figures of the Providence, with not just the standard of faith of the Old Testament, but the disciples received the baton from Jesus. The 2nd Coming Messiah, True Father, is the Person Who Received the Baton. Father Received the Baton from Jesus. Those who recognize Father, they follow Father.

When we're attending True Father with AFAL and AO. We need to know that realm of standard and when we are able to do so, we will be able to see the liberation and Completion of the Kingdom of Heaven on earth and in Heaven ((the King Father God and King Mother God Realm)) when we practice that kind of standard. We need to reflect if our faith is 80% or 90%, or is our faith 99%.

When we assess with our original mind, then whenever we face trials and difficulties, the shadow within our hearts, we will be able to perceive it and assess what percent our faith is. So for us to reach that standard of AFAL and AO, we will be able to resonate with the Heart of Heavenly Parent and True Parents, resonating with that realm.

So, through this 3-day Resonance Prayer Workshop, I truly hope that this period will be that time for H Japan resonance prayer trainees. Director Chun Yu san has given a report about the GPP Workshop. Through the 1,300 volunteer activities, inside the heart of Gapyeong people, they have a heart that these are actually truthful. It's really precious that we are able to have this kind of heart.

All of our families do their activities, yesterday as well, with all their truthful hearts. After the Gapyeong Church Sunday Service ended, the elder members will go to their respective places to share this result, and when all of our BF's are walking this same path, (there can be the results).

Wherever we go there is a festival, and we are always invited. There are tribal messiahs and if all our BFs unite with this heart (we can make results)... When True Father was in Danbury He Said, 'Do not pray for Me. Pray with unceasing faith to make results... Make a foundation for them to receive Me when I come out.

So, we shared the Divine Principle to all the Christian Churches, so that when Father was released, we did a great Festival. Within Cheonon Special District, all of the leaders and the Heavenly tribal messiahs are really working earnestly, in the weather, struggling with all of their efforting. And at the Church they have an Open Service where more than 30 people will join as guests.

For them to build such foundation, you can see the calling out list of the leader prayed daily. This is possible because of such devotion. That is the reason he is having such great results. And also in Tanyang, they are having great results. When True Mother is released and has time, you can say, 'True Mother, why don't You come to Cheonon Church and see.'

There was a building that was not our building at first, but now we have this Cheonshim House where we can share. And we can say, 'Mother, I will also invite You to the Tangman Church.' And when we share an entire environment, how happy can Mother be when She visits there?

At the entrance of the Garden, there is a really good restaurant, and we are (sharing to feed his heart and making connections with the owner.) And there was nobody who will operate his really good cafe there. So, he actually rented it for free for the Tanman Church to operate that really good place. And when we invite people there, it will be a really good atmosphere. And it might be possible for Father to also go to that cafe.

There was a Training Center. It was on a cafe foundation, but it was closed down and he bought it. He is now offering that Training Center over there. When Mother goes there, how much will She be joyful. And the Attending Garden Cafe in Punyun, we centered there. If all the Ambassadors for Peace would gather there, it will be a foundation where they could all welcome True Mother. We are currently building that foundation.

It shouldn't be a feeling like, 'Uhh, what would happen if Mother came here? If we would pray with yearning tears, 'Mother, please come here to Punyon.' I believe Mother would Say, 'Oh, there's such a good place here. I believe Mother never went to Punyon, but Father might have gone because of the Garden of Morning Calm.

There so many good places in Gapyeong. If all of the leaders could be made to praise HMM, if we made that foundation where we could say, 'Mother, please come.' In order to enable that, we need prayers with our tears. Everything is not coincidence. Everything is Providence. That is why a lot of our young people, in order to protect the True Parents, walked the path of sacrifice. UN soldiers, every one of them has made victory.
