Bow and Pledge #7

Opening Prayer of Gratitude

Most Honorable Heavenly Parent

Beloved True Parents of HEH

We sincerely TY for Permitting the 1,656th Cheon Shim Won Vigil Devotion and calling us into Your boundless Love. You have taught us that this physical world is such a limited reality, even our breathing,

walking, speaking and eating are all processes for living while Attending You in the reality of our Internal World, as our Parent (as our everything).

Through the Life Course of True Parents Who Personally Walked Countless Sacrifices and Achieved Victory by True Loving countless satans, we receive the Grace of Cheon Shim Won, CY yoksa, Offering Papers and Liberation of central spirits. Please let us never forget Immense Grace and Labors with which You untangled the countless resentments of our ancestors, which could not be resolved by us alone. If we continue forward for Your Heart's Will with utmost gratitude and repentance, with a new resolve so that every BF becomes a precious antenna through which AGSs can work, we believe that the joyous day of Yours that we can share in will surely come on earth as in Heaven.

After True Mother Returns to CheonjeongGung, after we Offer our utmost earnest prayers, devotions and efforts, You can Work to heal everything... Let us experience Your history of the Path of Restoration Heart that is taking Place enduringly, unchangingly at this very second, and each person's most necessary response to You, may it be expanded purely multiplied to become new Lineages of Yours.

May each BF member, each person Guided here be differently more fully loved and strongly committed before Heaven when they leave that when they came. May each of us Root our Identity and Value in Your Heart and be channels of the Flow of Your True Love unblocking Reception and Return in ourselves, our families and the world so that we may report Joy to True Mother.

Earnestly praying and desiring that this be the Offering You can use to Work all things to Fruition...

CHANYANG

HJ PRAISE

HJ Trio

which was the Team made out from the TC Staff

will be singing 'Song of the Wind'

In 2018, a member offered this song for True Mother

and sometimes we would go to the CheonJeongGung at dawn and sing this song, and with that memory

Lyrics

Will I ever hear someday in my life, the song of the wind

As time passes, will I then understand why the flowers wither

The people who have left me, and the others I will meet

Where do these fleeting connections and longings go?

With my small wisdom I cannot know

All I know is how to live on

More failures and time of agony

We realize we cannot avoid them

Now, if the answer is love,

I will love everything in the world

With the heart of longing for True Mother, so that She can again come back to CheonJeongGung, I hope

we can offer this song (That Mother Requested in the past)

12TH H Japan Resonance Prayer Workshop

Emanka Nobu Masa

TESTIMONY

12th H Japan Resonance Prayer Workshop

He bows

Husband of his wife and father of one child

Church Leader of West Tokyo Area

Wherever we become one and the Heavenly Parent descends for the Will, there are advances. I believe that all things begin with becoming one. No matter how strong our resolve may be, we need each other to accomplish with all things inter-related and we need God's Will (that is our own true desire and need) and we need to fully respond to God for that Fulfillment.

It is not just True Mother Alone Who Accomplishes Completion of the Entire Will, but I believe it is essential that each and every one of (BFs) becomes one with True Parents and walks together with Them.

Therefore, I strongly felt that, by resonating with Heavenly Parent, husband and wives resonating with each other and brothers and sisters resonating with each other to become one, every nation around the world, including Korea and Japan, will receive salvation, and Cheon Il Guk will be realized.

In fact, yesterday was the birthday of my wife, Erana Kokana, a date that happened to overlap with this 3-day Workshop. When the church leader asked, 'Leaders, would you like to come along?' I immediately answered, 'I can go.' However, at that time, I had not yet consulted with my wife at all. I agonized over how to talk to my wife. I thought she might be angry, frustrated or say it's fine if you go, but I can't support you from the bottom of my heart.

Working as a public official, there are times when I return home late with little sleep and the time spent with family is inevitably decreases. It is a path that is especially difficult to continue without the understanding and support of family.

The only reason I am able to walk the desired path of public service today, is because of my wife's support. Even so, I had not sufficiently conveyed words like, 'I'm sorry. Thank you.' on a regular basis and I had caused her much hardship. Amidst that, this time, my wife's birthday and the Workshop overlapped.

Thinking that I'm already putting her through a hard time normally, and now I am leaving her lonely once again. My heart ached. However, my wife encouraged me saying,

'I'm fine. So, please go. It's an opportunity to become one with Mother and the original pastors and church leaders.' applause

Because of these words, I was able to come here.

Two days ago, during the Special Vigil Devotion, I suddenly found myself leading the Oeg Monsei. The date had changed to the 16th. We sang the Fight Song of the Will, offered praise, sang in unison.

Finally, my wife would have spent her birthday alone with our child. Although, it was through a screen, at the very moment of welcoming my wife's birthday, we were able to look at each others' faces, pray together before Heaven and share that moment together (wow, Heavenly Parent provided that because of his heart)

At that time, I felt that this was no coincidence, but that Heavenly Parent's and my wife's cheonshim

which sent me to this Workshop going beyond her own loneliness, God Guided us to this moment. It was only for 3 days of separation, it became a chance for our bond to grow even deeper.

I sincerely thank Heavenly Parent and True Parents for sending this wife to me as my object partner applause and I felt again that loving the family closest to me, loving the wife of God and becoming one. And I hope I can also hear my wife say, 'I'm so glad I met you' and only then can I love all the people with all my heart...

Right now, H Japan, centering on President Hori and also President I Bon sok, is making whole-hearted effort to reconstruct H Japan. I felt being part of this Workshop was one of those crucial efforts.

To be honest, I thought this Workshop was meant for the first generation members to offer devotion. However, perspectives changed drastically. During the praise prayer and relay prayer sessions when people came up to the podium to pray on behalf of everyone. I had assumed it would be led by those with a lot of prayer experience, but listening to the prayer of the 1st gen sister who came forward, I experienced a profound repentance.

She prayed like this: I too want to become like pure water, but the more I try the more the ugly parts inside of me are revealed and it's agonizing.

She must have expressed this in words with a pure heart. Yet, seeing her willing to cry out this prayer in front of everyone and striving to change herself even at her age, deeply moved me. Hearing this cry, I felt rather that this person is truly a 2nd generation or higher pure water.

I was truly moved to see the 1st generation praying with a pure heart like a little child in order to become one with the Cheonshim alongside the pure water. We the 2nd generation members rarely have the opportunity to listen to the heartfelt prayers offered from the depths of their hearts by the 1st generations.

Members are disappearing, and in some other (acquired or rented or home) facilities, it is difficult to pray out loud. Especially since 1st and 2nd members spend time in churches and receive education separately, our chances of hearing the earnest prayers of the 1st generation members are even fewer than what the 1st gen experienced. Therefore, I could not listen to them right before me without shedding tears.

During (Anahi's) lecture on Cheonshim resonance prayer, guidance was to repent for the past and present, be honest saying what kind of person and what the times specifically were that you now repent... and someone near me was praying exactly that way. I believe for H Japan to reclaim its original culture moving forward, this Workshop is truly necessary.

Beyond generations, cultures, man and woman differences, to become one with Cheonshim together and resonate with Heavenly Parent, husband and wife resonating with each other, with the leaders, members with one another to become one and advance the Will, I became convinced that this is absolutely necessary, and I earnestly want to convey this value to West Tokyo Region.

Furthermore, centering on sparing human life and expanding Truth (of True Mother's Wisdom) to become one, the Will advances.

'Butterfly'

HJ REPORT

Kim Myung wok

Director of True Father Counseling Center

bows and gratitude and speaks in Japanese special for Japan members

With the title: The Hand of the Substantial Holy Spirit that Guided from Death to Life

We need to read a lot of True Parents's Words to practice and perfect Them.

True Father's Words: about the importance of liberating the spirits of the reality of how they are attached and continually attaching to us at an average of about 3,320 with each person, ruling over conscience and body as the realm of satanic thought and action... If my conscience rises up a step higher, evil spirit stays with that, so the ultimate issue is to expose and true love the spirit with liberation Truth of the Age of Mother and reorganize my spirit world with spirits transformed to be good, and renew with the kind of ongoing thought and action attracting more good spirits....

Many conscientious people are targeted by dark spirits and become mentally ill without understanding the spirit world, so that phobias occur a lot, and a worldwide phobia is arising. The issue is feeding my passion to fight for conscience overpowering what goes against it.

A person establishing an absolute Center cannot be ruled by anyone in the world, and can be a Heavenly Revolution, capable of moving Heaven and earth

testimony: Uaka Nakosha... daughter began a week where she did not eat or drink anything, couldn't sleep and would sometimes speak with the voice of a different personality

The mom says they had been attending the Vigil Devotion every night and heard testimonies that when receiving HJ at the Family Counseling Centers, problems were being sorted out... Because we realized it was absolutely a spiritual problem, we went to CP, and difficult for her to even board the plane, using a wheelchair, but upon arriving, she got up and began to run.

What remains such a deep impression from the counseling is that, 'Separating the spirits itself does not solve the problem but we must realize in the family what the issues were to heal them to be liberated inter-relatedly with the parent and child and marital relations also having effect. She told us there are cases where the spirits that attach resonate strongly with what is going on in the family, and unless we lead a life that urgently strives to cast off fallen nature within the family and between husband and wife, simply performing liberation will not solve the problem.

Kim Myun wok Director, made us realize that there was a spirit showing the faith of our family through our daughter.

the mom: My husband had been diligently walking the path of the Will as a public servant, and I was busy working a regular job, indeed for the path of the Will with economic restoration, and it seems there was a great shortage of conversation between husband and wife and family members.

This made us deeply think whether we were truly making our hearts one with Heavenly Parent and True Parents of HEH with true love being conveyed in our daily lives (the important emphasis to have as the result of other hard work efforts).

Little by little we saw that our daughter's condition was not of herself, but where another spirit had entered. The answer was given with great devotion, and we believe many spirits departed, but because our daughter was completely exhausted after the ansu and not having had anything to eat or drink. She went to the hospital and had the fluids to gain stability and recover gradually.

However, the next morning when our daughter woke up and said, 'This morning at 7 o'clock, you all were supposed to die. We were truly shocked, and then our daughter showed a fever and symptoms of the flu. When medicine was administered, it began to stiffen her body. And we thought, 'What on earth is happening?' The thought of her dying was unimaginable. And we were told that if this continued, her life may be in danger.

At Magnolia Hospital they told us that there was nothing they could do, and that it could be a certain named condition, which followed with hospital transfers and tests and the parents living not knowing day or night or whether they had eaten or not, frantic at the possibility of their daughter dying. But concluding from all of it that it was again spiritual, they returned to Magnolia Hospital at CP, and Director Kim came to check on them and brought ice cream and from eating that, the daughter also ate the hospital dinner that night in Kim Myong Wok's presence, and became able from then on to eat little by little, but she kept going in and out of consciousness, so we thought this was going to take a long time and returned to our home country.

We thought it would be best to do our best for the liberation of central spirits, and we liberated 13 of them and the ones making our marital relationship difficult and for more with everyone's help. We took advantage of the FF family retirement program, and that afforded us a great deal of family time together.

We cannot tell what the initial effect of the ansu was to give foundation to other efforts, and what could have happened if we had not gone to receive it at the Counseling Center where DMN is working... We became able to feed her and enable her baths and then she ate by herself and her strange behaviors gradually decreased and she realized again with her siblings.

The daughter speaks: I had no idea I would come to this state, but I realized that being able to converse with others and enjoy things together was by no means an easy thing, but now I can feel truly grateful. TYSM for praying and offering your utmost devotion for me. (She smiles widely).

We realized that even a day of ordinary family life is a truly great happiness, but especially while True Mother is enduring such a Course to liberate all of us, we felt we need to expand this consciousness we now have of family, beyond family to the level of local community and nations working together.

We owe such gratitude to Director Kim Myong wok and PL and the Family Counseling Center staff, who embraced us without any conditions just as being their own family and so that this child could truly revive, with the ansu and all done here offered to Heaven, also the 2nd and 3rd gen members and Magnolia staff for us to be a healthy family.

True Father's Words: Then what kind of person is mentally ill? It is a person who acts one way today and another way tomorrow and cannot simply digest all the orderly situations there are. Therefore, this kind of person harboring two minds and changing every day, undoubtedly communicates with spirits (influencing).

However, people who believe in religion, believe in a single goal. Centering on a single point, and having such a conscience for attitude of life. Because they hope to elevate to a higher dimension, if spirits come through people, it is one-sided, and because everything is taught toward a single goal, to such people it appears normally. You must know this. (I don't understand so well by how that is translated... took a screen shot of the Korean)

The counseling staff did 21,000 calling out prayers... and PL and others embraced her with true love, she could begin to heal... When she came to the Counseling Center and I was hugging/embracng her and she was so shy about it, and we ate delicious foods and offering gratitude to Heaven... gratitude to The Substantial Holy Spirit Mother applause

True Father's Words: A spiritual leader must be like a doctor. When a spiritual person deteriorates, we must stay up day and night to heal them. That is what a spiritual leader is. Have you ever stayed up days and nights to save a life? Have you ever ran hastily to save a life. Such things will become the object of commendation and the standard of personality when you go to the SW in the future.

I shed a lot of tears reading these Words of True Father. We need to embrace all of our brothers and sisters, so that they can be healed and returned to Heaven Parents.

another testimony... had to go up and down the stairs injured his back and she could not use her arms and legs... and injury did not show up but coming here to receive anu first and second time healed me. Please believe and go to anu and invite others... (the pain had been so hard to bear, but it is healed completely today, and I'm grateful to True Mother...)

2nd gen brother with scoliosis... pain but thinking that Mother is suffering much more.. I came for anu and had great relief

(Since he participated in the Workshop, I asked him to come to the Academy, and he said he would think about it. But I gave assignments of HD reading and devotion, walking ten thousand steps, drinking 2 liters of water and he reported every day... and he felt more energized, head clearer, and the contents of the HD resonates deeply...

Now participating in the Cheon Shim Won Vigil daily, I truly believe he can change...

This brother has a mental disorder, and I gave the same assignment as to the children in the field, but this brother will do it... After 3 months and working at the Hospital... and when our hearts become pure through this HD and devotion and vigil, our hearts become pure and then we treat our parents well.

The HJ Abichon Grand Church is working a lot: This is the reflection:

We welcomed the Central Director's Revival Meeting by offered jeonseong for 40-days in prior weeks. We express our gratitude so that we could welcome the Central Director on behalf of True Mother, and Cheon Shim Won Vigil of 500th Devotion. We offered cheonseong so that many members could register

and participate, and grateful to be able to exceed the 100 registrations we sought. We always feeling passionately grateful for the Work of Mother and efforts for the revival of 2nd gen and 3rd gen children.

All of the HJ National League... Leaders are really working our best whenever we go to tours, to reach out to members to register (and looking at their efforts, I would tell the pastors, 'Please treat them well)

Sanbok Grand Church in Seoul, Min Hyung chul Branch Leader: Brother of staff: This is the very first time we came here... Pastor Min Sung gi, the entire family, I truly believe is a noble family. My heart was trembling going to this Church. We had lunch in this restaurant and the Pastor came with all the Deaconesses and Elders.

I felt that he is a young pastor that really attends the elder brothers and sisters. But he said these are the flowers of our Unification Church, because they attend the Cheon Shim Won Vigil Devotion every night, and that's how he cares about them.

From the first time we went to this Church a lot of Elders were there praying with all of their hearts... And this is a Deaconess who is 99 years old. Her daughter-in-law is attending her that she could come and receive ansu. I took her hand and told her it's because of her being a filial daughter that she could live to 99.

The earlier SS was done in her house. She was operating a guest house. President Won Pil Kim actually lived there. Eventually, she was naturally witnessed to. And she was able to be a guest at the Holy Wedding of True Parents.

Since she was 99 years old, I hesitated, but she said her body was really healthy, and she would never say that it hurt. She said, 'TY, I feel that my illness has been cured and my body reborn... She bows (and she looks so young for 99) She is such a precious member of the Sonbok Church.

another testimony... I heard the voice of a man leaving and saying, 'Why do I have to go out?' and the spirit going out from my lower back. Also, in a vision, Mother Appeared in the scene of the Entrance Ceremony. Through that Appearance, I felt infinite love. Also, She showed me a vision of holding a baby. And seeing that, I felt a cozy and warm love. At the same time I had the thought that I had so many shortcomings and sins.

Sokayama missionary shared: I actually told her to receive ansu looking at her back being curved, and it straightened after ansu.

another... I felt as though I was sharing in the Pain of HMH True Mother, but now my body feels light...

She received ansu for the 2nd time but other members who couldn't come because of their age had been waiting for this event...

Missionary Mikiko

This is the wife of the pastor at Sanbok Church. Her left side felt as though it were paralyzed... the day after ansu she slept well and I thought of the Words, 'Even when a member attends only once, they always attend more than once...

BREAK

BUSKING

Hoon Dok Hae

Live Prosperously through Harmony and Unification even when struck. The Source of the Power of the Heart is Love. Therefore, if you simply connect the explosive power of love generated with the give and take ((Circular Flow)) of the heart to God, it can unify things many fold, hundreds of times, thousands of times over. This situation is when all the people of the world live together eternally.
