OPENING PRAYER OF GRATITUDE

MOST HONORABLE Heavenly Parent

BELOVED True Parents of HEH

Tonight, we sincerely TY for Allowing the Cheon Il Guk Chosen BFs all over the world to gather at Cheon Shim Won with one mind and one Will, harboring our heart of Longing toward True Mother and Offer 1,676th Cheon Shim Won Vigil Devotion.

Here at Cheon Shim Won, with the Heavenly world and the PW as Subject and Object Partners become one, we are earnestly Offering Devotion and struggling to become the substantial embodiment of true love. We are being reborn... and in the midst of any difficulty, we look at every moment with Cheonshim and Reflect it through the Principle of Restoration Heart. We struggle forward to earnestly bear and open this moment to realization of what it means to be reborn.

The Formula of Restoration that True Parents have Exemplified and Taught us is to be embodiments of true love throughout our entire lives. And because it becomes the Condition for Heavenly Parent to Touch us and Work, we believe that You will Joyfully Accept this Cheon Shim Won Devotion we are Offering, with Your Endurance, Gratitude and True Love more than anyone else. Therefore, Heavenly Parent, True Father, please Work at this time.

Laying down everything, and with the position before You of a completely emptied mind (making You our everything), we will continue on to become the substantial beings of true love Offering Cheon Shim Won Prayer and Resonating. Please Work so that our prayer and every single drop of our tears bring Power to Protect True Mother.

We earnestly pray and desire that all the AGSs in the SW will make the path for True Mother's Return and even if it is an arduous task of the Will on our own, we will go... but You have Given us this Place to gather all strength of Heaven and earth as one with You and HMH True Parents and True Father 4PF, and the Inheritors of Heaven' Love and Blessing, and we will definitely become Victorious.

True Mother, Who is Praying for us without stopping, even amidst Her own Pain and at the price of Her Life at this very moment, please Allow us to (Fulfill Her Word and Direction that we have one Thinking and Direction and overcome ourselves to) become proud BFs before our True Mother for Her Joy.

All these words I Offer in my name, Kim Guy yon of a BF Attending HMH.

International 40-day Workshop

bows and gratitude

2nd gen daughter (360,000 Blessing) Blessed and with 2 sons and 1 daughter... I would like to express the healing I received through this Workshop.

When I was 7, my parents told me I had a high spiritual level. The earliest spiritual dream I can recall is of True Father Sitting on an ornate Throne, surrounded by warm, golden Light and soft clouds. He lifted me into His Lap, and I felt surrounded by indescribable warmth and love.

One morning when I was 8, I was lying in bed and my heart was suddenly pierced by a pain so strong that I couldn't even scream. After that my life was plagued by chronic health and spiritual problems. A chronic pain came and went, as if knives or clawed hands were cutting into my heart. No doctor could diagnose it. The torment was also spiritual. Negative thoughts began to come and go in myself, escalating into visions of me killing or hurting myself.

I lashed out at whoever was near, then keeping the emotions in my heart, which only made the pain worse. I isolated myself in my family and fell into deep depression. I continued to stay alive only because I heard about what happens to souls who take their own lives. When I was 14 I told my parents that I had grown tired of being angry, and that allowed them to begin rebuilding our tired relationship.

I first came to the TC when I was 17, and I was not a good trainee. But my faith revived when I attended the night vigil in person, and finally shed tears of Devotion. After I received ansu and beat my chest in CY for over a year, my heart pain disappeared completely. Yet, my torment from depression continued.

During the 2025 Youth Assembly, I was at my lowest. I desperately wanted to live, but I didn't know how. I was severely depressed. An empty house fading away. That night, instead of going to the night Vigil, I wandered around CP while a tocophany of evil spirits swarmed around me from the inside out. Eventually, I reached the Tree of Love and started to receive a little clarity that I must go to the Cheon Shim Won and seek answers. I started up the steps, dropped to my knees and demanded to know why my life was like this.

Then, Heavenly Parent Spoke to me directly. He Said he understood my pain completely and how much it hurt to see this child go through such trials. An overwhelming, bone crushing, deep sorrow overcame my whole being. And I sobbed as Heavenly Parent Told me this was only a little of the aching. I had been

thinking that my problems were insurmountable, but compared to Heavenly Parent's Pain, they were nothing. After that prayer, the barrier around my heart was gone, and for the first time, I truly felt that Heavenly Parent was my Parent.

A little over 2 months before I came here, my dad was touched by a 2nd generation's testimony and offered a strong prayer for all the 2nd gen and youth in our Movement. The next morning, I woke up feeling differently. The dull, numb film in my head was gone. I was at peace and completely awake. Through my dad's prayer, my depression had been healed. big applause

I started to smile, laugh and spend time with my family. So, I decided to Attend the TC for 120 days to rid myself of every lingering issue, so I could enter the Blessing with confidence. bit applause I was worried that I wouldn't be able to bond with other 2nd gen, but to my surprise, I was able to bond with others of all ages and races. Whenever I felt down, Heavenly Parent sent other children to ask what was wrong, or to give me food and medicine. I felt Heavenly Parent's Love through them.

Two experiences stood out. The first was during the 120 bowing condition. While bowing, I felt True Father ask me questions: 'Do you know what your life purpose is?' 'Can you stand in front of Satan protecting others behind you without falling?' Whenever I hesitated, He Guided me with gentle Words, or pushed me with a shout. I came to know that I am a precious child of Heavenly Parent and True Parents.

The 2nd experience came soon after, when I was diagnosed with severe iron deficiency anemia. Just before, when I was enjoying the Grace the most, my body had become as heavy as stone, as if thick metal chains were wrapped around my limbs. In the past, I gave in to the evil spirits and skipped the program. This time was different. I resolved that, no matter how tired I got, I would keep sacrificing for my future spouse and family. Even when I dozed off during a program, I still went.

Before my 54 bow condition, I went to the Tree of Love for energy, and I felt energy enter my body. During the bows, I vowed that I would not fall back into depression the evil spirit had used to stop me from living my life. I challenged those spirits.

Even if you cut off my legs, I will crawl to offer Devotion. After I proclaimed this, the heavy exhaustion lifted like a blanket. After these two experiences, I was able to fully involve in the Workshop and now I resolve before you to become a strong and filial daughter of Heavenly Parent and True Parents. I will complete my 120-day condition, attend the upcoming international Yeongseong Workshop and then go to a Korean language school so that I can learn True Parents's Language.

big applause...

I would like to offer my gratitude to HyoJN, HeungJN, DMN and True Parents... Also, my parents and everyone who shared this Workshop with me. Hannulbumo nim Chambumo nim Kamsahamnida Saranghamnida...

40-Day Workshop trainee

Name:.....

(bows and gratitude)

2nd gen son of the 2020 Foundation Day, of the 2nd day of the 6,500 Couple Blessing

On October 31st 2026, when I heard the result of Mother's court trial, my heart was so complicated that I could not express it at all in words... the unfairness made unknown anxiety and anger from deep inside my heart surged. Innumerable words were going back and forth inside and outside the church, arguing about the right and wrong we heard.

But amidst that what I faced was only one thing, it was what True Mother's desperate Heart Saying,

'Become one.' I felt that I would only live if I ran to this Cheonwon Complex, which is like Mother's Warm Womb.

Pouring all the vacation time I could from work, I registered for the 21-day Workshop on September 1st. The very next day after the trial I received education through the various programs such as Divine Principle lectures, CY and resonance and one-heart prayers. In particular, it was a fully-packed day, day by day lacking nothing left up to the grace of the Cheon Shim Won Special Devotion.

Especially during the Special Lecture on Ansu, a goal arose with me to make ansu hands during the Workshop period. So I came to offer CY earnestly. As the SW was separated out, through spirit liberation, I became able to desperately cry out for Mother's Release, even during the Vigil Devotion.

Tears flowed out during the prayer without my knowing, and I felt that I had to kneel down and cry out at the top of my lungs, like a sinner confessing, rather than standing and crying out like others. From that time, tears began to burst out. And from that time I began to reflect on my past self and repent.

While sitting at Cheon Shim Won, these Words were Written: 'The 21-Day Workshop is a time to not only repent for personal sins, but to repent for the sins of the history of humanity. On the 21st day, I looked at the calendar and my heart was shaking. That day was exactly the 365th day since True Mother was imprisoned in the Seoul DC. On that day, I too was standing in front of the DC in the very cold weather.

On that day questions flowed by and pierced my heart. I heard, 'Park Jinu, Park Jin u, have your truly fulfilled your responsibility as a child of True Parents?' My shameful past flashed by like a kaleidoscope. I graduated from the UTS and walked the public mission of the Future Talented Dept. of Region 2 Sub HQ. However, the Sub Region was dissolved in 2023, leaving behind a promise that I failed to keep with my wife to received the 40-day Workshop, by going on into the secular work place.

Even at this moment, when Mother is Standing in the court, have I as a child fitting the great Purpose of True Parents Operating the Great Will of Providence, failed to fulfill my responsibility before the Great Will of Heaven. Rather than looking together at the Purpose for which True Parents were Moving, I was a child, who only looked at True Parents expecting and just waiting.

When I came to think to step forward with an ownership mindset like True Parents, the thought that no one could be free before fulfilling their responsibility tied into my mind. With that miserable guilt and apologetic heart, I could not help but beat the floor at Cheon Shim Won and shed tears of repentance.

At that time, another Word from True Parents awakened my mind. The 40-day Workshop is not a Place to repeat sadness. It is a Process of being reborn and born again as true children of True Parents. I could not just sit down here and shed tears and end it. I had to fulfill the 40 days, and be completely resurrected.

Risking shame and circumstances, I earnestly appealed to my work place that I needed recovery, and thankfully, the 40-day period opened where it could be replaced with a business trip report. After extending to 40 days, my Workshop, my repentance transitioned to resurrection. I thought, 'Now, let me dedicate my one body and offer my health for True Mother, with a healthier self. And at first, I ran from the Calligraphy Stone to the Main Gate.

After that, drawn by natural attraction, I started the Tree of Love runs, saying let's run 21 laps around the True of Love, and even when knees got ruined and my ankles got ruined while running, thinking, 'Let's go around even by walking. My pain became a complete reversal and taking the right side course rather than the left, I fulfilled 21 minutes before the Cheon Shim Won Devotion for 21 days.

I sweat a lot doing that, and I currently lost 10km. I'm experiencing growth together with the trainees who joined with vibrant energy. Going through a healthy growth process as a child Attending True Parents, HMH, contemplating my life after the workshop, I was reborn from True Mother's Womb and became Hanshin ho. I came to think of my wife who Attended the 'HMH Workshop' last summer.

Through Cheon Shim Won Devotion my wife heard the Voice of Heaven and laid down her stable job. And she held my hand saying, 'Is it okay if I walk the path of public mission? Going to CLA, she's now an evangelist at Kuri Church, and is the Church Leader of the Hyo Jeong Youth Church, which True Parents Personally Gave the Name to. Pouring out sweat and tears, she is at the forefront of pastoral ministry.

In my eyes, having majored in Theology and experienced public mission first, it is vivid to me how rugged and tearful the path my wife has chosen to walk is. Looking at the back of my devoted wife, I suddenly had the realization that this must be the Heart of True Father in the SW Looking at True Mother Who Remains Alone on earth, taking the wind and waves of the whole Providence upon Her with all Her Holy Body.

I can't bear to fathom it all, but I felt True Father's reassuring Love and Gaze. Being a pastor always encounter limitations and institutional difficulties of having to stop their pastoral ministry as they go through pregnancy and childbirth. However, the husband, as a co-worker in faith, if the situation of my wife's childbirth and childcare comes, I will firmly guard that spot so that she can do pastoral ministry until the end without letting go of the mission Heaven gave her.

Thus, we want to become a living example of a husband and wife pastoral ministry where a husband and wife fill each other's shortcomings and advance together. Now, I will lay down my past self who was a public official and become a reassuring pastor's husband who serves my pastor wife from the lowest and deepest place, becoming the most powerful co-worker who protects by my wife's side and makes her victorious. big applause

Our family lives harboring the proud seal of CheonBo #82086. As CheonBo family I must guide the people around me so that they can challenge themselves for CheonBo, and guide them to participate in this 40-day Workshop so that they can be reborn with the heart of hyojeong, and furthermore even the Yeongseong Workshop where they will be reborn with the absolute positivity.

I firmly affirm to Heavenly Parent and True Parents that I will fulfill the duty of filial piety by dedicating my entire life for the victory of Hyo Jeong, Chunju Church and CheonBo. As I will become a victorious child centering on that mission, I will conclude my Hyo Jeong testimony earnestly hoping for the recovery of True Mother's Health and the Innocent Release of True Mother. TY, I love you. Kamsahamnida... Saranghamnida

Grace of the GWs

(bows, gratitude and respect... to stand here with such warm hearts)

Members might think it is so soon already the GWs Season... seems just a few days since the Summer GWs...

True Parents's Words:

'In the fields where a person with true love and a couple with true love live in love, the beautiful flowers want to bloom and beautiful birds and beasts want to come close and live. You must know that there is such a Movement of Original Nature.

Because all of Creation naturally follows and yearns for such a person, if you tell them not to live well, they are still bound to live well.'

All things want to be in a place of true love. And in this GWs, we will have time to receive Heavenly Fortune related to all things. That is why the Tree of All Things Holy Candle Prayer is inheriting the (devotional fruits). There are 3 Great Blessings instilled. It's not only fortune regarding all things, but also the Blessing of receiving children for those who do not have children, also the grace of Witnessing, guiding people to Heaven and True Parents. This could be Engrafted in this GWs. (WOW...)

Reflections: Director Kim Ju han from the Secretariat... During the GWs, the AGSs are fully mobilized, and I could truly realize what True Mother Said, especially in H Korea... that all churches must participate and offer devotion for restoring this nation. Writing a Hyo Jeong Offering Paper and Attending the Tree of Love all things prayer meeting during the Autumn GWs, a couple last year, praying to be blessed with a child, became pregnant in that very month. And this couple was able to attend another GWs with a baby and gratitude to Heavenly Parent and True Parents of HEH.

Reflection: another couple with infertility for 4 years, but conception occurred after an Autumn GWs. Whenever I established a jeongseong condition for the liberation of central spirits, I would catch diseases and constantly feel a state of helplessness, but starting from the day of Devotion, my physical condition

and my family's atmosphere changed completely. My husband became gentler and he who used to dislike the GWs, wrote a HJ Offering Paper together. And we received the great grace of pregnancy, after conclusion of the GWs.

In fact, when we pre-register it is better than registering on the spot, and then Heaven has their responsibility based on human responsibility so that grace could be Fulfilled.

Reflection of a son who spends days lounging around, and he is my biggest worry. I thought I must go to CP and perform separation of central resentment spirit. I couldn't come to GWs with the excuse that I was so busy, but resolving to come even now to this Autumn GWs and registering at CP, I suddenly got a call that my son got a job at a bakery.

There are so many testimonies and I believe that with this GWs there will be even greater ones. And on September 12th, centering on PL, we did the GWs Holy Candle Tree of All Things Multiplication Ceremony. And in his benediction speech, PL said:

'You have Said that the Holy Cangle symbolizes true love because a candle sacrifices itself to ignite a flame, just as True Parents Sacrifice Themselves to Illuminate the Light of True Love. Please let us receive the Holy Candle and let us receive the true love of sacrifice that Heavenly Parent Walked to Create All Things with.

Knowing that all things are the fruits of True Love, help us Realize the Fact that, to be qualified to manage all things, we cannot do without true love. Rather than managing many things, may we become the subjects of true love that all things welcome, follow and praise. Grant us a new resolve and determination as the true masters of Cheon Il Guk.'

VIDEO of the multiplication of the Holy Candle of Tree of All things.

PL: As we reflect on how remarkable this GWs will be, may all the families who give and receive this Holy Candle set out with renewed resolve and determination, and as owners of Cheon Il Guk, center their lives on true love by Fulfilling the Family Pledge bestowed upon us. May we Establish the Kingdom of Heaven (King Mother and King Father Realm) on earth, and Establish that Heaven Realm among our clans, people and nation. May the Sovereignty of Heaven be Established on this earth.

So, starting from a month ago, from the 7 Branches, and also we have Offered Devotion so that we could distribute this Holy Candle to the Korean Church and 7 Branches as well. And the Second Devotion was the 2026 Hyo Jeong Workshop. It was done from October 9 to 10. And 252 of our hyojeongs from around the nation participated, and it was done in such grace-filled atmosphere.

Amongst a lot of our hyojeong, we have awarded 3 of them who devoted themselves with the mindset of volunteering for ten years. We were thinking deeply to whom we should give the award, analyzing data of great results, and another factor was the ten years and actually there were 91 people. I was so surprised. And for the others, we awarded Certificates of Appreciation and gifts to each of them.

A hyojeong sister from Chinju church, Noriko san, 'I realize that being a hyojeong is a precious role of conveying Heavenly Parent and True Parents wishes everywhere so that they can fulfill Heaven's Wishes together... Sometimes when members asked, 'Why are you treating me so well to this extent, I always told them, 'We have to go together.'

With a heart that all members would receive H Blessings together, I realized that becoming one in forgiveness and love, then when receiving hatred sometimes, it's truly the Path of HMH, True Mother. In fact, all of our hyojeong, whenever we do registration of GWs, it's when they have a vacation from their regular work and they volunteer. And even if they receive calls at night, they attend those inquiries. And because of their devotion, I think a lot of members were able to participate.

Hwenochun from Kongdong Church... Thinking of how I have always received the Love of Heavenly Parent and True Parents and how They set up a person as lacking as me to work for the Providence, I always only feel a heart of apology and gratitude. Now, to overcome this current, difficult situation, the devotions at Cheon Shim Won and unified resonance prayer will be well-established within the church. And I will strive so that everyone can realize the Church Desired by Heavenly Parent and True Parents.

another: I don't even remember how it has been ten years... I feel truly sorry and deeply humbled to receive this recognition. When True Mother once told us, 'Let's go together. Let's live together,' we found a profound connection and I felt incredible grateful. I was so moved by True Mother's Love. It is True Mother's most earnest Wish and the heartfelt wish of all of us for the unification of N and S Korea. I sincerely hope it will be Achieved by True Mother's own Hands and to Personally Govern. I earnestly hope that through True Mother's Golden Age and continue in good health to govern that nation. That is my earnest prayer.

From the very beginning of Hyo Jeong until now, I have served in the role of hyojeong at Jinan Church. At first, things were incredibly difficult and I couldn't see what lay ahead. There were times when everything seemed completely dark. But by holding on to Heavenly Parent and True Parents alone, I feel that I have continued moving forward and when the Providence of Cheon Shim Won began, by True Mother Bestowing this upon us, as we resolved many difficulties and liberated central spirits, I was deeply moved to see so many members being revived.

As Heavenly Parent has Led this Providence of Restoration, I came to feel how much sorrow Heavenly Parent has carried along the way and True Parents Understanding and Feeling that and Wanting to Liberate Heavenly Parent, have Endured so much of such thorny path, and realizing this through my role as hyojeong.

Then, these hyojeongs realized that difficulties were grace, and this is how precious our hyojeong are becoming... They not only volunteered for the registrations but in order that the tradition of Cheon Shim Won Devotions could deeply root in their church, they are offering such devotion. And from among them, I would like to share the testimony of Nawangju Church:

'I Attended the 1st Resonance Prayer 3-Day Workshop. And even now, we gather once a week to offer the Unified Resonance Prayer. Also, every Sunday, after worship, centering on the Japanese missionaries, we call out the names of nearly 100 2nd generations and pray, personally, fervently. What a Blessing of my eldest son, starting from 300 times, then 1,000 times and now 1,200 times every day during the Vigil Devotion.

BREAK and BUSKING

Hoon Dok Hae

The record of victory and endurance will become your pride. Through my own experiences, I have learned a lot about God, and how God Accomplishes that Will. In my life, I have truly passed through both Heaven and I came to know that both of them were necessary in order to form a completely matured character that God expects. If I had only enjoyed the joyful things of Heaven, I would not have been able to so deeply taste and appreciate the Life of Heaven.

To pass through the very bottom of hell and taste its bitterness, I asked countless times, 'I do not have the strength to continue such difficult path any further than this. It is absolutely impossible to keep going on this path. God, why do you tell me to go on such a path? What I needed was truly untiring, indominable, and patient endurance, and it can be said that those are in Myself today. It means that, on your way to Heaven, you must not expect only the Heavenly aspects. You must naturally expect hellish aspects as well.

You must naturally expect that you must pass through the bottom-most prison of hell. This becomes the most precious part, when you can feel God's Grace. To pass through then stand even more firmly, you'll be able to mature to a person equipped with a well-rounded and comprehensive character and spirituality. And you'll be able to experience Heaven even more.

Such experiences will some day become your pride. The record of victory and endurance is exactly what will some day become your pride. (One thing that) makes Mother Special compared to other people is that She has a keen spiritual intuition from Birth. Her insight and observation when dealing with people or things are extremely accurate. And her intuition is also extremely keen and clear so that what is Reflected in Mother's Heart is always the Truth.

Next, She has absolute loyalty toward Father, and She has deeply resolved that She will do anything with Her own Conviction no matter what anyone says. She has such faith and conviction for an unbelievable level of Endurance to be victorious to Achieve the Purpose. Aju...

HJ PRAISE - CHEONSHIM CHOIR - 'I Will Plant Love in this World'

We will inherit from True Mother True Parents, and HyoJN and HeungJN and plant love in this world.

PRESIDENT LEE GI-SEONG'S MESSAGE

Hello everyone to this 1,676th Cheon Shim Won Devotion... TY for your participation... This marks the 388th Day of True Mother's detention and suffering. True Mother has Said that She has overcome trials and in the Words, it is Written, 'I have passed through the bottom of hell countless time and I have asked, 'I do not have the strength to continue such a difficult path any further than this.

'It is absolutely impossible to keep going on this path. God, why do You Tell Me to go on such a Path?' What I needed was truly untiring, indominable Faith, Resolution and Endurance. And it can be said that those difficulties Created Myself today. It means that on you way to Heaven, you must not expect only the Heavenly aspects. You must naturally expect the hell aspects as well, expecting that you will pass through the bottom-most prison of hell. That indeed can be said to be the most precious part where you experience God's Grace and the part that will be recorded and will be your pride...

We heard the testimony of Victoria Bunga. All the important things are here. She was very spiritually opened since 7 years old. And the things that she dreamt, she said she could still remember. I'm not sure how many of you would still remember dreams of when you were 7 years old. But there was a great meaning behind it. When she was able to overcome all difficulties and trials. I believe these were the revelations that she received.

She saw True Father on the Throne surrounded by Light and clouds. In fact, the Thrones of True Parents are such Thrones of Glory. True Father and True Mother... It's not that they should have Walked this Path of Difficulty, but Originally, They should have been able to be Known as the Ones of this Majestic Throne, surrounded by Light and high clouds. She said True Father allowed me to sit on His Lap and I Received insurmountable Love and Blessing.

After such glorious dream, at 8 years old she received such difficulties. This is when the satanic spirits entered her so that there was so much pain that she couldn't even scream. It pierced her heart, and through such spiritual and physical difficulties, there was a pain in her heart like a dagger was being thrust over and over.

Thinking of this as a spiritual thing, they have a one-heart prayer team. They might have been able to resolve it soon, but because there was no one who was actually educated about spiritual things, having all the spiritual burden and being able to see the works of the resentment spirits. They were able to see what happens when those spirits work. It's through anxiety and fear. Our bodies will become ill and will have resentment-centered ideas and inhumane acts would occur.

These were shared in the reflection. Negative thoughts constantly became an echo, and she also saw visions of her hurting and killing herself. And she was angry to whoever was close to her. These were emotions deep within herself. She isolated herself from her family and went into a deep, depressed state. The reason she did not die (kill herself) was fear because (from the teachings of the Church) she realized how much suffering the spirits in hell have particularly because they killed themselves.

She was able to share this with her parents and her family made the atmosphere in order to support her. And when she was 17, she came here to this Chung Pyung Workshop, and far from a model trainee, she did participate in the Vigil Devotion. She was able to receive ansu, and as she was also did CY, the pain in her heart completely disappeared.

If she had been able to fully participate in the other programs, what other things would she have been graced to heal from? like the pain of depression and spiritual pain from the resentment spirits. I truly believe all of the depression and the evil background could have been resolved. However, it was not.

Last year, when she participated in the Pure Water Assembly, she told us that she was in the lowest state mentally, in deep depression and feeling empty inside. Then when she was walking around and not going to the Vigil Devotion, she heard the spirits. There are sometimes spiritually difficult trainees wandering around the TC. There have been trainees who jump into the lake, hearing the voices of the spirits say they need to become a sacrifice. There are instances like this.

If you see someone who is crying and walking around, you need to calm them down and try calling the security team. However, among the dark spirit influences, it's fortunate that she went to the Tree of Love. The more difficult you feel, you need to draw closer, draw nearer to True Parents.

At the Tree of Love, she was able to see a Light enter her heart and she heard that in order to get answers, she needed to go to Cheon Shim Won. When she was going up the stairs to Cheon Shim Won, she kneeled down and asked True Parents, 'Why is my life so painful?' She was able to hear the voice of Heaven. 'Heavenly Parent Understands her pain. And looking at the children going through difficulties, how it is incomparably more painful for Heavenly Parent.' It felt like an entire bodily bone-crushing experience of insurmountable Sorrow... an experience of Heavenly Parent's Sorrow entering her even a

little. Heavenly Parent Shared that this was only a fraction of the Pain that Heavenly Parent Felt.

When she heard this Voice, she wailed, crying out loud... These are her words and Heavenly Parent's Words: 'The Sorrow of Heavenly Parent... She had met the Sorrow of Heavenly Parent, and Heavenly Parent is more pitiful than anyone on this earth. When we... In order to resolve the Sorrow, the Tears and Resentment of Heavenly Parent, she really resolved, even if she is exhaustedly tired or in pain, she said she will get back to her senses when hearing the Word of the Will.

For our trainee to experience such things is a great Grace and Blessing. Aju? (Aju!) Even there's a thousand and ten thousand people, it's difficult to experience such state. However, being able to be in that state of such great, profound experience, for the first time in her life, she felt that this wall surrounding her heart has fallen down and she really felt that Heavenly Parent is her True Parent ---a state of entirely felling that. Through our Cheonshim training, if we are able to be in that state, it is in fact a profound Grace of Heaven.

And all of the difficult things that we are receiving, it is the Providence of Heaven for us to experience those things. So, please move forward with such conviction. But two months before coming to this Workshop, she shared another precious testimony where her father, listening to the testimony of a 2nd gen, was so moved that he wanted to pray for the 2nd gen, the youth of the Unification Family. And he prayed such a fervent prayer. If all the fathers who have participated online, I truly believe that you need to engrave this in your heart so that the sons and daughters could listen and hear... offering such prayers for the 2nd gen youth of the Unification Family.

When she woke up the next day, she felt that something had changed. Her father's prayer for all youth of UMF caused miraculous Works to happen with his own daughter. When we pray for a greater Purpose, we can see GWs happen in our own lives and family. If we pray for the nation and the world, conversely it will become a Blessing to you as an individual and to your family.

All of the dark burden with her has disappeared, so that she could be at peace and her soul awakened. Through the passionate, fervent prayer of her father, she experienced that her depression was healed. She was able to then live a happy life with her family. And for her to join the matching and the Blessing, to be able to resolve everything, she said she is participating in 120 days of Workshop. (Aju!)

Through prayer, she experienced great things. Through 120 bows, she heard the Voice of True Father that made the atmosphere that supported her. And when she was 17 years old, she came here and at least participated in the Cheon Shim Won Vigil and was able to receive ansu. And with some conditions of vigilance and with courage eventually she was able to govern over her own body and over dark spirit world. We really hope that his can be the time when you can get educated regarding these things.

She went through the 120 days and enrolled in a Korean language school so that she could learn the language of True Parents even deeper. I truly believe GWs will continue to happen with her and that Heaven will bestow abilities for further listening to the Message of Heaven and convey it, having a great role in this era... applause of congratulations.

Another testimony was of the brother Pachuna. With the verdict of the trial of True Mother on August 31st, he felt that the heart toward True Mother that he could leave his situation to participate in the Workshop for True Mother. That alone is precious. The fact that he was able to give and receive with True Parents's Shimjeong, because he could not come here because he was working, he added all the vacation he could use and registered for the 21-day Workshop, and received such grace.

All of the programs were different from the past. They were upgraded, and receiving such grace, he decided that it shouldn't be just 21 days but it should be 40 days. And when he was able to make the extension for the 40-day Workshop, he was then able to be victorious.

On the day of his victory he shared his reflection (and also here tonight), but at the end of the 40-day, he still did not go back because he wanted to extend his stay here, and he is offering devotion until the Friday Vigil. Having this graceful new start, his wife who is a youth pastor, when they work hard, I'm so happy for the great Blessing that will be bestowed upon his family... applause

We shared about the GWs that is now just around the corner. The registration is 98,976, and tomorrow, and I believe that tomorrow they will have more than 100,000 registrations. I truly hope that all of the members and BFs can offer this devotion and be so graced by the GWs. Even just registering and not being able to participate in person, or even as a proxy registration, you will be able to receive the same grace. I'm truly hoping to see an unprecedented result by all of the members participating as they can.

For the hyojeongs to be able to fulfil this, they did a Workshop and you can really see the hard work of a hyojeong. They are those who are volunteering, and there are 91 of them who volunteered for ten years. We would like to see them all receive the metal plaque of appreciation, however, only 3 received it, and

the others the certificates.

You can't really see what their great works are, but through this meeting, when they have made comradery friendships, I believe the path they are walking will be less difficult. Also, with the hyojeongs, the grace is different. When we hear their reflections, I believe that all of the tears that they shed, Heaven will remember those tears. And in this TC, we truly recognize them, and we will do our best with them. Also, the CheonBo registration in H Japan, because of their help, we were able to see the registrations in Japan. The dissolution order for external structures did not break their internal faith to stand strong.

Let it be us who can offer great strength to True Mother. We have such victorious results for the past GWs, and I truly hope you can continue the devotion where we can see (joyous results for Mother). True Father in the SW is working hard and so encouraging us. There are instances of some who have dreams about True Mother and True Father and who are thinking about such things. This is an Era to really realize how Heavenly Parent is working (such Foundation has been made for our grace) For this to be a truly victorious time, I truly hope you will offer your sincere devotion. And with that I will conclude.
