Education Conference

— Seebenstein, Austria —

Dear all,

We are delighted to invite you to the first European Education Conference under the banner of Cranes Club Europe!

After its initiation ceremony on 10th May 2015 in Vienna, Cranes Club Europe has been working to create a space for professionals with a Unificationist background to network and share their expertise to better serve their communities and the greater society.

Keeping this in mind, this conference aims to bring together like-minded individuals to discuss different issues in the field of education and exchange innovative ideas in order to support the advancement of the educational system as well as to inspire projects in this field.

On the one hand, the schedule will cover general matters in the field of education, as for instance, varying teaching methods and philosophies of education. On the other hand, the conference will also include more specialised sessions on distinct branches in the field, such as homeschooling, character education, Sunday school curriculums, purity education, kindergarten pedagogy and more.

Contribution / Project proposal

There are still a few slots open for contributions to the conference. The sessions are 45 minutes long either as a presentation in front of everyone or as a smaller working group. Moreover, if you want to propose a project in the field of education that you wish to realise in the near future, please let us know about it. Please send in your proposals before the 1st of October to natalia.lad@gmail.com.

Book table

There will be a book table set up during the conference. We invite you to bring books that you feel might interest others as well as to share your own materials. If you do so, please label it with a name tag.

Please do not hesitate to contact Natalia Ladstätter if you have further questions:
