

Universal Peace Federation Co-Founder A Visionary Leader for Peace and Human Dignity

Dr. Hak Ja Han, known as the Mother of Peace, has devoted her life to realising a world of unity, compassion, and family values rooted in universal principles.

From Korea to the World – A Journey of Faith and Service

Born in Anju, now in North Korea, Dr. Hak Ja Han's life story is one of resilience, devotion, and visionary leadership in the service of God and humanity.

Mother of PEACE

DR. HAK JA HAN MOON

INTRODUCTION

THE MOTHER OF PEACE

ABOUT THE MOTHER OF PEACE

From a very young age, Mother Moon developed a deep relationship with God in a close father-daughter bond. When she married the late Rev. Sun Myung Moon in 1960, their mutual desire to see a true world of peace led her to join him on a pioneering course as the Mother of Peace.

As the Parents of Peace, Father and Mother Moon presented models for bridging conflict, division, and resentment in the fields of education, politics, arts, sciences, media and human rights, all united under the banner of the Unification movement.

**"Become sparks that
light up this dark world."**

Mother Moon, July 2017

Dr. Hak Ja Han Moon was born on February 10, 1943 in Anju, South Pyongan Province, in what is now North Korea. At the age of six, she fled to South Korea with her mother and grandmother, risking their lives to cross the border in the dead of night.

Over her 50 years of public ministry, Mother Moon has dedicated her life to the realization of peace. Acting in the role of humanity's parents, she and her husband created non-profit organizations, businesses, conferences and awards spanning every facet of society and culture to support resolving historical wounds and finding solutions to the world's many problems. At the root of all their initiatives is a path to strengthen families and prevent the breakdown of society through the Marriage Blessing movement.

As the only female religious leader operating on such a global level, her powerful message has inspired millions to transcend national, racial and ideological boundaries.

2

The Marriage Blessing – Building Peace Through Family

Together with her late husband, Rev. Sun Myung Moon, Dr. Moon established the Marriage Blessing movement to transcend barriers of race, religion, and nation as "one family under God."

The cornerstone of her legacy is the Marriage Blessing, which transcends race, culture, nationality, denomination and ideology

Since the first Marriage Blessing officiated by Father and Mother Moon in 1960, this tradition has expanded to become an interreligious affirmation of the universal importance of marriage and family. The Marriage Blessing transcends boundaries and religious affiliations, and creates a

Mother Moon teaches that women, as true daughters of God, must play a central role in creating a just and peaceful society. She established the Women's Federation for World Peace in 1992, championing the vital role of women in peace building at the United Nations, the United States Capitol

shared experience as one family under God.

the Great Hall of the People in China and the Korean National Assembly.

3

Dr. Hak Ja Han Moon, the Mother of Peace, delivers an inspiring message on faith, family, and global harmony.

THE MOTHER OF PEACE

"You who are alive today must not think your life is yours alone. We must connect to the past and open a world that gives our youth hope."

MOTHER MOON, DECEMBER 2018

Since her husband's passing in 2012, Mother Moon has led the worldwide ministry of the Unification movement. She is prioritizing the education of young people, challenges facing the environment, and human disasters, such as the growing refugee crisis.

Mother Moon's most recent humanitarian efforts include the founding of the prestigious Sun Hak Peace Prize, which honors exceptional men and women working to solve global issues, and the Peace Starts With Me world rallies which have brought thousands of people together, challenging them to become peacemakers, starting with themselves.

Mother Moon has invested in loving all of God's children as her own. She has lived her life for the sake of lasting world peace, securing a bright future for generations to come.

THE MOTHER OF PEACE

"Women should play a major role in world history, by serving as one of the wheels of the tractor pulling forward the construction of a peaceful world, together with men."

WHAT OTHERS ARE SAYING

The world's political and religious leaders are being moved to action. Hear what they have to say about the Mother of Peace.

Bishop Noel Jones
SENIOR PASTOR, CITY OF REFUGE
MINISTRIES IN LOS ANGELES, CA

"We each have our own interpretation of our calling. I have to decide what I'm going to call myself in light of God. Mother's interpretation of her calling is not within what we call the norm. It is that she is the only forgotten daughter. But you don't judge a tree by its branches or its leaves. You judge a tree by its fruit. And there's nobody here that can deny the significance of the fruit that we have seen exhibited by her response to her calling."

H.E. Dalila Itzik
FORMER MEMBER OF THE KNESSET
AND FORMER PRESIDENT OF ISRAEL

"Dr. Hak Ja Han Moon is not a politician; she is a private citizen. She could choose a very comfortable life, and yet, she chooses to act. The nature of human beings is that sometimes we talk more and act less, but this very special woman doesn't just talk, she acts on a daily basis, dedicates her life and her family life to open doors, open hearts, invest money in order to make the world a better place to live in. I am so touched by her and by the story of this fascinating family."

Prof. Shreevaram Prasad Upadhyaya
TRIBHUVAN UNIVERSITY, NEPAL

"The presence of Dr. Hak Ja Han Moon was very inspiring for all the dignitaries coming from different parts of the world. We loved seeing Mrs. Moon and hearing her speak. It was where we most felt God cared for us. Her tears made us cry and made us feel we could help."

Bishop Albert Chikuni
FOUNDER, FAMILY LIFE MINISTRIES
INTERNATIONAL, ZIMBABWE

"With the insights presented at the World Summit, it is possible to give solutions to the hurting world. My eyes were opened. Please count me as one who will implement all possible solutions according to the vision of Dr. Hak Ja Han Moon. On behalf of all religious leaders and peace loving citizens, we thank you for your heart for the world. I pledge on behalf of all the organizations I lead that we will fully commit to this noble vision."

Nin Sephon
MEMBER OF THE NATIONAL
ASSEMBLY OF CAMBODIA

"I would like to thank Father and Mother Moon, who are the central figures to find a true peace for humanity, particularly to reunify the Korean peninsula to achieve the vision of one family under God. She truly expressed her deep heart of love and care as the parent of humankind. I could not hold back my tears. It was the manifestation of true love."

Paula White
SENIOR PASTOR OF CITY OF DESTINY
CHURCH

"I want to take a moment and honor as well as encourage Mother Moon for her great work as a spiritual leader who loves the Lord and seeks to carry out and to comfort the heart of God in all the areas of conflict in the world."

LIFE AND ACHIEVEMENTS

TOGETHER WITH REV. SUN MYUNG MOON

BUILDING PEACE UPON INTERRELIGIOUS HARMONY

"Religion is like a wide river flowing toward an ideal, peaceful world. The river flows for long distances before it comes to the wide expanse of peace. On its way, many streams flow into it. The streams cease to be stream from the point they meet the river. From that point, they too become part of the river. In this way, they become one."

“

Dr. Hak Ja Han Moon leads through her example, based on the feminine aspect of human nature. This leadership paradigm exemplifies a strong commitment to the realization of an individual's fullest potential.

She is working with leaders in a range of sectors, including heads of state, parliamentarians, academics, scientists, religious leaders and Nobel laureates to lay the foundation for an equitable world. By cultivating the arts, Dr. Moon desires to provide humanity with a tangible experience of a peaceful culture. She supports future leaders to become responsible global citizens by providing educational opportunities for youth.

”

INITIATING A MOVEMENT FOR MORAL REAWAKENING

"America was founded on the Puritan spirit and grew to be the strongest country in the world in just two hundred years because it received God's boundless love and blessing. But that America cast God aside. I went to the United States to awaken America's spirit, to save America from destruction, and to urge the American people to repent and return to God."

THE MOTHER OF PEACE

DREAM TO CONNECT THE WORLD

For thousands of years, history has seen the continuous increase of divisions. Each time a different religion was adopted or a new regime came into power, more boundaries were drawn and wars were fought.

Now, however, we live in an age of globalism. For the sake of the future, we must become one."

PROMOTING GLOBAL GOOD GOVERNANCE WITH GLOBAL LEADERS

"Universal Peace Federation will renew the United Nations and lead the way for millions of Ambassadors for Peace throughout the world with true love and the ideal of a true family. They will fulfill heaven's will to re-create the world as one family under God."

BRINGING AN END TO THE COLD WAR

"Human beings are created by God, and all beings are unified bodies having both material and spiritual aspects. Therefore, I am opposed to the historical materialism of communism. I have carried out a movement for victory over communism throughout the world. I have advised successive U.S. Presidents to protect the free world, standing up to the communist strategy of turning the world red."

Empowering Women as Mothers of Humanity

As the founder of the Women's Federation for World Peace and many other initiatives, Dr. Moon champions the central role of

women in building a peaceful society.

FOUNDING THE SUNHAK PEACE PRIZE

We must harbor the awareness that all people are our brothers and sisters.
We must think of all the world's problems as our own and have the pioneering spirit needed to resolve them.

A global citizen who embraces the world with love and lives for the sake of others will feel pain in his heart over the hunger in the world and will try to help others, even if it means sharing the food that is already on his spoon.

PEACE IN MATERNAL LOVE

"Why did God give us brothers and sisters? Siblings represent all human beings around the world. Our love for our own siblings expands into our fellow countrymen and humanity. Love among siblings means that one sibling is willing to go hungry so that his brother or sister can eat."

Global Peace Legacy and Institutions of Hope

Dr. Moon has founded and supported numerous peace organisations — including the Universal Peace Federation, Sunhak Peace Prize, and the Rally of Hope series — creating a network of leaders for peace worldwide.

LIFELONG JOURNEY TO RECONCILE THE TWO KOREAS

"If South Koreans love North Korea more than they love the South, and North Koreans love South Korea more than they love the North, we could unify the peninsula today."
