We have an exciting project under way that needs your support: the Hyo Jeong East Garden Museum of True Parents' Life and Work. The museum project was launched in 2013, which marked the 40th anniversary of the dedication of East Garden.

Learn more about East Garden, the museum project, and how you can support it:

ABOUT EAST GARDEN

Since True Parents started their ministry in America in the 1970s, hundreds of special events have taken place at East Garden. True Parents invited many leaders and Unificationists here for Holy Days, events, meetings, matching and Blessing ceremonies, leader's conferences, and Hoon Dok Hae meetings.

Today, Holy Days and special events are celebrated there, and visitors can tour the conference center and main house and learn about True Parents' historic ministry. It is True Mother's hope that through this museum, visitors can inherit the Hyo Jeong culture (culture of heart) and strive to continue the work of True Parents around the world.

TRUE MOTHER'S PRAYER

We offer this as a place where people can learn about True Parents' history and the results of their achievements and a place where they can repent and resolve to follow True Parents' way in order to make Heavenly Parent's dream come true. In doing so, this nation can fulfill its responsibilities as the providential Elder Son Nation. Father, Heavenly Parent, please receive this happily.

Please move the hearts of all members and visitors who come here, so that this people and the world can absolutely receive Heaven's Will during True Parents' lifetime. I pray that this can be the starting point for the Unification movement in America and the people of this nation to move

toward that day—the day when the Kingdom of Heaven is realized and all people become citizens of Cheon Il Guk.
