WOMEN'S FEDERATION FOR WORLD PEACE USA

Dear Friends and Supporters,

As we celebrate this holiday season, the Women's Federation for World Peace extends heartfelt greetings to you and your loved ones. May the spirit of love and unity fill your homes, bringing warmth and happiness to each and every heart.

In this time of reflection and change, let us heed the profound words of Dr. Hak Ja Han Moon, founder of the Women's Federation for World Peace: "We need to see humanity as one great family by breaking down the walls in our hearts and eliminating even the boundaries between nations."

May our hearts be open and our spirits be united as we strive to break down the walls that separate us. Let the warmth of love dissolve any boundaries, fostering a sense of shared humanity that transcends nations and cultures.

As we gather with loved ones and reflect on the year gone by, may this be a time of renewal—a season where compassion knows no borders and understanding bridges the gaps that divide. Together, let us build a world where the ties that bind us as one great family are stronger than any walls that seek to divide.

Wishing you a joyous holiday season filled with unity, love, and the promise of a brighter, more interconnected future.

Sincerely,

President, WFWP USA
