

UPF USA: Letters to President of Korea from VIPs in USA and Canada supporting Holy Mother Han

Larry Moffitt
November 16, 2025

Dear all:

At the request of UPF USA President Dr. Jenkins and UPF International President Dr. Taj Hamad, we are looking for as many letters to President Lee Jae-myung of Korea as we can get. These are letters supporting humane treatment of Dr. Hak Ja Han, our True Mother.

We're looking for a groundswell, so you may request letters from your governor, congressman, state legislator, mayor, city council member, public or private school teachers and administrators, your ministers of any religion, friends in businesses or non-profit organizations, neighborhood leaders, outstanding parents or any other of your contacts you decide on.

Attached is the letter written to the President of Korea from the Chairman of the Pakistan Senate, requested by Taj Hamad. Also attached is a similar, but slightly different, letter which your VIP contacts may use instead if they wish. OR... they may combine some elements of both letters, or (best of all) they may write their own original letter from scratch.

1. The letter should be written on the signer's own letterhead.
2. Ask for the letter to be sent to you in a Word format or as a PDF.
3. When you receive the letter, forward it immediately to Dr. Taj Hamad (tajh@aol.com). He will make sure the letter gets to the right place in Korea.

See attached letters below. The important thing is to BEGIN NOW

Very respectfully,

Larry Moffitt

<Date>

His Excellency Lee Jae-myung
President of the Republic of Korea

Your Excellency:

Congratulations on your election as President of the Republic of Korea

I am writing to request your intervention regarding the detention of Dr. Hak Ja Han, who is well-known in both our countries for her efforts to reduce conflict across many spheres. Most notably, she has long been a proponent of seeking ways for the Republic of Korea and the U.S. to make peace with North Korea.

At age 82, nearly blind and in failing health, with diabetes, congestive heart failure and thyroid disease. She is being kept in a detention facility in Korea without having been convicted of any crime. Her passport has been taken, and she is unable to walk unaided. It is unrealistic to call her a flight risk. The conditions of the detention center place her health and her life in jeopardy.

Dr. Moon is actively engaged with leaders and heads of state on every continent, including leaders in business, media and every religious faith. It would serve the nation of Korea well if Dr. Han, who established the prestigious Sunhak Peace Prize and has been called "The Mother of Peace," could await her trial in her home, where she can receive the medical care she needs.

I request your intervention in this matter and offer my gratitude for your consideration.

Respectfully,

<Name>

CHAIRMAN SENATE

**SENATE OF PAKISTAN
Parliament House
Islamabad**

Islamabad, the 13th November, 2025

**His Excellency Lee Jae Myung
President of the Republic of Korea**

Your Excellency,

I join fellow dignitaries and global institutional representatives in appealing for the immediate release on bail of Dr. Hak Ja Han Moon, who is known throughout the world as a visionary and humanitarian.

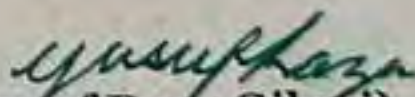

This appeal is not an attempt to interfere with the judicial process of the Republic of Korea. Rather, it arises from a profound humanitarian concern for Dr. Moon, an 82-year-old woman who has recently undergone heart surgery and suffers from glaucoma, and who has now been held in solitary confinement for over forty days.

I'm confident in the values of justice, compassion, and human dignity that the Republic of Korea has long upheld and shared with the global democratic community.

Dr. Hak Ja Han Moon is internationally revered as Mother of Peace and a moral leader. Throughout her lifetime, she has dedicated herself to advancing peace, reconciliation, and sustainable development. As Co-Founder of numerous international organizations in consultative status with the United Nations Economic and Social Council (ECOSOC), she has tirelessly worked to bridge divides among peoples and nations, fostering the universal values of love, cooperation, and mutual prosperity.

In the spirit of wisdom and mercy, I respectfully urge the authorities of the Republic of Korea to grant Dr. Hak Ja Han Moon release on bail. Such an action would not only demonstrate compassion toward a respected elder and humanitarian, but also stand as a testament to Korea's enduring commitment to peace, justice, and righteousness—values that have inspired admiration and respect from around the world.

With the highest esteem and earnest hope,

(Syed Yousaf Raza Gilani)
