

Description

The "3 Day University at Barrytown" is modeled after University 1-day workshops at Harvard and Columbia to give participants a taste of the kinds of courses they might experience at those institutions.

On January 9, 10, and 11, 2013 at UTS in Barrytown, the program will feature 18 seminars focusing on the interaction of Science and Religion, Faith and Reality, and Culture and Spirituality. Several sessions explore Applied Unificationism including the Freedom Society. Participants will be able to attend six of the seminars of their choice.

This program, which is for high school students, college students, young adults and older adults of all ages, is meant to display our faith in the vitality, talent and intellectual "firepower" of Unificationists (and like-minded allies and colleagues) in America, and our capacity to contribute to the larger culture and world.

Registration

Registration cost for one day \$35, for two days \$70, for three days \$105, includes continental breakfast, refreshments and lunch.

Cost for dinner is an additional \$15.

See various options for lodging on the registration webpage.
