*For this cause was the gospel preached also to them that are dead, that they might be judged according to men in the flesh, but live according to God in the spirit. 1 Peter 4:6*

*Now, as we enter the new millennium, you should make the spirits of your ancestors young through ancestors' liberation ceremony and use them to witness to members of your tribes, searching for them in the spiritual and physical worlds. Rev. Sun Myung Moon, True God's Day, January 1, 1999, Punta Del Este, Uruguay*

Greetings!

Unificationists from all over the world participated in an historic "Ancestor Liberation and Blessing Ceremony" on Sunday at the Unification Sanctuary in Newfoundland, PA. The event was officiated by Rev. and Mrs. Hyung Jin Moon, who were anointed as the successor and heir couple by Rev. and Mrs. Sun Myung Moon in 2009, three years before Rev. Moon ascended to the spirit world in 2012.

Hyung Jin Nim explained that the spirits of all the unborn throughout history, from all corners of the earth, whether from miscarriage or abortion, were included in this liberation ceremony.

We are living in an age of confusion that is expressed in many areas, the political and the spiritual. In the midst of a worldwide spiritual battle, Satan is attacking people of faith. We are living not in an age of peace, but one of judgment, in a dreadful last days where the possibility of a world war is very real.

Instead of lifting up Father, his successor, and the victorious Cain and Abel pair, Mother lifts up herself. Unificationist leaders in whom Father invested so much love unite with Mother's rebellion and mock the heir that Father appointed. They have forgotten about Father and his will, afraid to stand up for his truth. They have created a false culture that weakens and spoils the younger generation, leading to a world of entitlement and dependence, centralized power and ultimately, enslavement.

The Cheon Il Guk constitution is based on the principles of freedom and responsibility. In the coming election, the American people have a choice as to whether judgment will come to the entire population or be limited to the government itself.

In God's ideal of the family, the father is in the position of king, the wife in the position of queen. The husband must honor God as the priest of his family and give love to his wife even when she is unlovable. The wife must treat her husband with respect even when he is not respectable.

Training in martial arts and learning survival skills in the wild such as hunting and fishing create strong, but humble men and women able to defend their families and in the future to lead God's nation.

If a civilization does not defend the lives of its weakest, it will become cursed and under the judgment of God. But God is raising up a "Cyrus," named Donald Trump to transform a power structure that is under the judgement of God.

He showed a video of True Father explaining that "a child born in the womb can die. When it does, it will go to the spiritual world, hidden from the parents' (father and mother) sight and pull them back into the fog wherever they try to go. You have gotten the equation wrong. Aborting and terminating does not help your spiritual journey...The spirits of those children who have died do not disappear. They have been born originating from eternal life. Those children have tried to build a pillar of love in the embrace of their father and mother for receiving life. They will condemn the mother for being killed."

He read Father's words from the Cheon Syeong Gyeong: "The spirit world is in your hands -- not only your relatives, but even your country is in your hands; even the task of setting the right traditions for your descendants is in your hands. You should always keep this in mind. Whether you, as a single person, accomplish it or not, will determine whether your ancestors and relatives will be liberated, and whether your descendants can be the chosen people of liberation." (CSG 913).
