

## The special emissary of True Mother Rev. Sa Kwang-Kee visits Portugal

Lisbon, Portugal, 23. – 25. June 2014

The special envoy of True Mother, Rev. Sa Kwang-Kee arrived in Portugal Monday, later than expected. From Milano, Italy to Lisbon it took 12 hours because of various factors. Being a long and tiresome trip the welcome and the warm heart of Portuguese community were even more appreciated.

In the first evening we had dinner together and took time to remember common memories from the time of Continental Leader mission and not only. Younger and older responsible participated in this informal meeting and shared their heart and listened to many experiences that marked Rev. Sa's life. It was a good and warm beginning that gave a lot of hope. The second day we had the chance to show our property, especially the land own by the movement, were an ongoing investment it is made. The land is rented and spices and aromatic plants are organically cultivated.

In the evening the official speech was delivered with a large audience and we could get very useful information

but also good inspiration for our life of faith. It was clear from the explanations but also from the attitude that Rev. Sa was here to support, to comfort and to help finding new ways to develop Europe. We could understand the vast experience that Rev. Sa had in Europe and his deep dedication to True Mother.

In the third day before departure we had the chance to share a wonderful Korean meal with a multitude of flavors and textures. Although food is not the most important we actually can find many ways to express our heart through serving food. And this meal was a proof.

There was no great departure ceremony, we know that we will have the chance to meet again and work together again and that the world is every time smaller.

We want to express our gratitude.  
In the name of All Portuguese Family.
