Dear Pastor,

Our Senior Pastor has challenged us all to become “I-deal” families that deal with the challenges inherent in marriage, parenting and family life. To support this goal, this quarter, Lovin’ Life is evolving the Blessed Family Department into something new: BlessedLIFE, a contemporary, local ministry for couples.

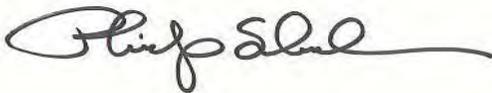

The vision of BlessedLIFE is for married couples to experience love as God intended and the mission is to build successful marriages by educating individuals about God’s intention for married love, preparing them for the marriage Blessing, and providing couples with skills and support as their marriage grows.

This packet provides you with the tools to organize the volunteers who have been taking care of the Blessing and marriage work into a focused BlessedLIFE team. The team approach is essential to the success of any ministry. By starting with those working with the couples and families in your community, including your current BFD Rep, and expanding from there, you can develop a BlessedLIFE team. The first step is to identify who will serve as Team Leader. A role description is provided in this packet. Based on that, you and your community can assess who is best suited for this role.

The BlessedLIFE ministry includes three areas: preparation, enhancement, and healing. As with all team ministries, people contribute based on their gifts. Some counsel or teach, some network and communicate, some organize couples’ events, small groups or things like dinner nights in their home to build a BlessedLIFE culture. Check out the BlessedLIFE At-a-Glance, the FAQ sheet, and the resources on [www.familyfed.org/blessedLIFE](http://www.familyfed.org/blessedLIFE).

Start by building your team and then checking for program ideas and resources on [www.familyfed.org/blessedlife](http://www.familyfed.org/blessedlife). By first having your structure in place and a team on board you can go beyond simply holding events to building a ministry. This pack gives you the framework you need to move forward. Look for BlessedLIFE plug-ins in future LAUNCHpads so that you can build your ministry step-by-step.

We look forward to hearing back from you as BlessedLIFE develops in your community.

### FAQs

#### **How is BlessedLIFE different from the Blessed Family Department?**

The work of the BFD has been carried out by a few dedicated volunteers who have been preparing candidates for the matching and Blessing and doing their best to address the many challenges facing our families. These wonderful, sacrificial volunteers worked hard with few resources and many needs have gone unmet. BlessedLIFE happens through a ministry team of brothers and sisters in each local church. This means going from one BFD Rep to a team approach. A strong ministry team will move your community from “crisis management” to building healthy support systems and providing stronger education. It means developing small group study, interactive programs and participatory education that engages young and old alike. This will allow our families and communities to grow, as more will be empowered to contribute and more will be served.

#### **What is the role of the current BFD Rep going forward?**

Your current BFD rep could become part of your BlessedLIFE team depending on their interest and availability, and they may even serve as the team leader. However, their skills might fit better in a specific part of the team instead of as the overall administrator. The Pastor can work with the BFD rep to discuss his or her new role and job title going forward. Building this new ministry team in your community gives everyone the opportunity to reconsider their role and passion as well as opening the door for new leadership talent.

#### **What is the role of the BlessedLIFE - USA Support Team (formerly National BFD)?**

Our BlessedLIFE - USA team at Lovin' Life serves as a resource and support for the sake of your success. We provide a speaker's bureau, curriculum development, coaching, consultation, and counseling. We have lots of educational resources and contact information for critical situations at our website at [www.familyfed.org/blessedlife](http://www.familyfed.org/blessedlife).

## The Role:

# BlessedLIFE Team Leader

### What They Do:

The BlessedLIFE team leader works directly with the Pastor to develop activities and programs for Blessed LIFE. He or she manages a team that works in three areas: Blessed marriage preparation, marriage enhancement, and marriage healing.

### Why This Role is Important:

Healthy marriages are the backbone of a thriving church community and are also at the heart of our faith. We've always had marriage ministry, but now we are shifting the paradigm from having the responsibility falling on just one person to a shared responsibility and team approach. This empowers others to discover their gifts and takes the burden from just one person or a handful. It also increases the capacity of the ministry to take care of people. The Team Leader is part of the Pastor's core team and is instrumental in building this team.

### Who's a Good Fit:

Someone who can identify talent and encourage it, has good communication, pastoring and team building skills, understands the value and heart of the marriage Blessing, and is able to work well with their pastor.

### How They Can Be Most Effective:

Team leaders are most effective when they work closely with the pastor and their team, maintain a public presence in the community, understand the path to the Blessing, and are able to communicate it to others. Also, they are most effective when they can delegate responsibility and match strengths with roles and hold team members accountable with respect and privacy.

### Resources for Blessed Marriage Preparation:

- 3 Levels of Blessing Education - Check out [www.familyfed.org/blessedlife](http://www.familyfed.org/blessedlife) for an overview of the age-appropriate, comprehensive education curriculum. # Countdown to LAUNCH!

3...2...1....

## WEEK 3...

District and Lovin' Life Pastors should begin preparations by first sitting down with your district and existing local Blessed Family Ministry representatives. They are the ones who have carried out the BFM work until now, and will have valuable ideas and experience. At the same time, they also need to understand the paradigm shift and will be able to help you develop your BlessedLIFE team. You should carefully consider with your BFM reps what role they want to play in BlessedLIFE.

It is also important to look over the local BlessedLIFE Team chart included in this Launchpad. Take time with your BFM reps to identify the most important needs in your community and the aspects of BlessedLIFE that are most important to you. Consider your capacity and resources: What should your BlessedLIFE team look like? Who are some key people that might like to contribute? Who is doing some of these things already? Use the Have/Need exercise on the next page to prioritize what you want to focus on first. Doing this brainstorming exercise helps you to see what you have available locally, what you need to urgently develop, and what help you can use from the national resources available to you.

## WEEK 2...

Expand your core team by gathering some of the people you have identified as key volunteers who are already invested in supporting couples and Blessed families. Share the vision of BlessedLIFE with them and the important conclusions you reached in week 3: priorities, haves, needs. Get their input on what is important to them and where they might like to contribute. Look over the volunteer checklist provided in the LAUNCHpad, and feel free to brainstorm additional roles and ways to contribute what will work for your community and fit the people you have.

Have the people on your core team take the "Couples' Checkup" with their spouses, using the link included in the LAUNCHpad. Once completed, they can receive and print out a report and evaluation highlighting their couple's strengths, and suggesting areas they can work on. The checkup will be available for all your couples during this quarter. It will be helpful for your core team to be familiar with its value and to encourage others to take advantage of the insights it can provide. Each couple can discuss the results and your core team can discuss the benefits and how to promote the checkup in your community.

Some other things to consider with your core team: how to utilize National Marriage Week, which runs from February 7 – 14th (Valentine's Day). Find great ideas for churches at [www.nationalmarriageweekusa.org](http://www.nationalmarriageweekusa.org). Blessed Life - USA will also be sending out "Love Is," 10-minutes of daily inspiration, or couples' activities for 40 days, beginning the week before Valentine's Day and running until the end of the Winter quarter.

## WEEK 1...

Prepare for the Winter LAUNCH Party! Use your tools to set up a BlessedLIFE table at the LAUNCH party and share with your community. Have BlessedLIFE volunteer cards and "About BlessedLIFE" cards printed. Having a photocopy of the resources list from this pack may also be a helpful way to share with others about BlessedLIFE at the party, as well as the small group ideas promotional flier to get things started in your community.

# Getting Back on Track Retreats

“The Getting Back on Track Workshop was the beginning of my renewed life of faith. The most important aspect was the overall sense that I could put my past behind me and move forward. The support and community expressed by the staff and attendees eased my worries about being judged or feeling out of place...

“...At the workshop I finally decided to commit to my faith and for the first time I verbalized my intention to. I really appreciated the continued support from the staff... I've finally taken ownership over my life and my actions. I can confidently share my beliefs with my friends, and I finally feel like I'm no longer living a double life. I recommend this workshop to anyone who feels hopeless or is tired of living with regrets.”

# Getting Back on Track Retreats

“The Back on Track workshop really helped me to connect back to the church. I had known for a while that I wanted to leave my old life behind and renew my faith, but I didn't know exactly how to do it. I have never been super involved in church activities, but going to that workshop helped me to connect with other people who have been through similar experiences and gave me a sense of belonging. It provided support and direction, the two things I needed most at the time. I am so grateful for everyone who made it possible!”
