Dear friends,

Thank you to all those who joined and participated in our National Prayer call on Saturday, June 6, as an initiative toward bringing healing and positive change to our hurting nation.

We invite you to listen to the recording in case you missed it and share it with those who you feel would benefit from it. Again we opened the call with a prayer and read a quote by our Founder Dr. Hak Ja Han Moon, followed by brief reflections from participants and ending with a moment of silence and prayer.

May we continue to pray for peace, and we look forward to connecting with you again this Saturday.

With warm regards,  
Angelika Selle
