Dear women, mothers and ladies of peace,

Greetings in this Fall season and season of Harvest!

Upon request, WFWP USA will be restarting up our National Prayer and Study calls "Help Turn the Tide," which we had conducted over the summer, having impacted and transformed those who participated and others beyond!

Get ready to join us this coming **Saturday, October 10, 2020 at 1pm EST**, and gather every other week for the next 8 weeks, on every 1st and 3rd Saturday of the month, ending on January 16, 2021!

As in our previous prayer calls we will be using texts and speeches from Dr. Hak Ja Han Moon, our Founder, as a source of inspiration and discussion including her recently published Memoirs entitled: **"Mother of Peace - And God shall wipe away their tears."**

Beginning with an opening prayer and brief spiritual reading, we will hear reflections and insights from participants and close with prayer and comments from WFWP USA President Angelika Selle.

We know without a doubt that when women and mothers come together in prayer, things change within us and around us! As a non-political/partisan global organization, we affirm our Creator and spirituality as a prerequisite for positive change for hope and healing, and for TURNING THE TIDE of humanity for the better.

Inviting women and mothers of all races, faith traditions and conscience to come together in this **"Women Prayer Circle of Peace and Healing for America."**

## Looking forward!

Reading for Today from Dr. Hak Ja Han Moon's Anthology Book 2, Chapter titled "True Love Movement and the Role of Women" on page 25-26:

***"True love originates in the absolute love of God. In love there is the right of inheritance and the bond of oneness, through which the concept of eternal life is established. A family and society that practice true love will develop and will never perish. Today, I think that we must consider the following three facets of love for opening a new era of virtue and value, which will establish world peace through the practice of true love.***

***First, we must become mothers whom our children can trust as they trust God. Mother's love is sacrificial. Therefore with this sacrificial mother's love we must be able to revive the lives of people who are dying from corruption and who are afflicted with sin.***

***Second, we must become wives whom our husbands can trust as they trust God. The key to this is absolute fidelity towards our husbands. A wife's fidelity is a distinctive virtue. My husband, the Reverend Sun Myung Moon, has discovered that the disobedience of God's commandment by the first human ancestors, eating of the fruit of the tree of the knowledge of good and evil, was a sexual sin that destroyed the order of love and lineage. I cannot but proclaim that this Unification Principle, which will save mankind from the swamp of immorality and corruption, is the gospel of gospels.***

***Third, we should become women, fellow citizens, whom the nation can trust as it trusts God. The thing that women must treasure and preserve is their chastity. What a daughter can do to make her parents happy is keep her chastity. Where can we find the peace of the family, society, and nation? Where does the peace of Asia and the world start from? Centering on what will it be established? It is not realized by the actions of politicians or economists. Nor is it realized by international meetings and interchanges. We have to realize the fact that the bud of peace sprouts from the family where love dwells."***
