As a WFWP supporter, you know that **strong families are the foundation** of a healthy society and peaceful communities.

- U.S. states with the highest levels of marriage have a **\$1,451 higher** per capita GDP, **10.5 percent greater** upward income mobility for children, a **13.2 percent decline in the child poverty rate**, and a **\$3,654 higher median family income** (than states with the lowest marriage levels).
- High crime rates lower the quality of life and real living standards. The **violent crime rate** (per 100,000 people) sits at **343** on average for states with the **highest levels of marriage**; those with the **lowest levels**

average a rate of 563. (Source:

You know how important it is for communities that children grow up in **loving and stable homes**.

But did you know you can make a difference for families by supporting WFWP with a sustaining membership? Your membership dues fund the expansion of our **Cornerstone for Happiness education**, which is bringing hope and practical guidance to new and established families across the country!
