President's Corner: Striving to manifest a new paradigm of Marriage and Family

Dear friends,

The month of May has been most eventful, also for WFWP USA, as we commemorated the 61st Wedding Anniversary of our Founders and witnessed the 6th Rally of Hope International, which gave encouragement to millions around the globe. How did the Rally of Hope give encouragement? Dr. Hak Ja Han Moon, as a great woman peace leader of our time, has been bringing together heads of state and international leaders from all sectors of society to put their hearts and actions together for the sake of developing peace.

We are very happy to welcome the Mother of Peace this week here in the United States, where she will be giving a special message at the virtual Peace and Blessing Festival, which will highlight and celebrate a new paradigm of marriage and family. There is still time to register for this event at wfwp.peacestartswithme.com...

The Role of Women in Peace and Security

I often think about what my role is as a woman in promoting peace. How can I advocate alongside international organizations to ensure security in war torn countries? Womanhood is all interconnected when talking about peace. **WFWP Founder Dr. Hak Ja Han Moon was one of the first advocates to promote this idea in the international community: that women would be a catalyst for positive change in local and global communities.**

The goal of the international community since the early 2000s has been to invest in the empowerment of women, because investing in women creates sustainable development. The main reason is that by nature, women prefer peace and resolution rather than war and insecurity. Women focus on critical elements of sustainable peace because with economic development, education, and justice, they can give that back to their communities...

[Protecting Minds and Hearts: WFWP Programs for Young Mothers Launched](#)

As a mother of two young boys, ages 5 and 18 months, I often think about how I can create an environment for them to grow, flourish, and feel their bones that they are valued and loved. At WFWP, we believe that mothers play such a critical role in our children's development, especially in those early years. **Our founder, Dr. Hak Ja Han Moon, has said, "The role of the mother in cultivating character and raising her children to have healthy, wholesome natures is the highest function of motherhood. In fulfilling this role, mothers truly represent the heart of God."** Our role as mothers is so important while at the same time motherhood can be quite challenging. Understanding that mothers also need empowerment, support, and nurturing in order to be our best selves, WFWP USA recently launched a program especially for young mothers.
