What's one hope we all share this season? A more peaceful world! A world where universal values, mutual prosperity and interdependence will be realized. How do we accomplish this? WFWP, and friends like you, know the world needs a new paradigm of leadership, where masculine and feminine can harmonize and enhance each other's strengths, and provide a place for the rise of future leaders.

Will you work with us to forward this mission of peace? Since 2018, the **Global Women's Peace Network** expanded it's network and has bigger voice already. You can help make a bigger impact uniting peace leaders and organizations! Together with a common vision and shared resources, we will bring Greater Hope across the nation, and around the world! Your support is vital and greatly needed.

Help women share their nurturing and resilient hearts with the world!

"When our mindset changes from wishing to receive love, to wishing to give love, the world of peace will be at hand."

- Dr. Hak Ja Han Moon

Do you agree that our families, communities and humanity at large need a new mindset and heartset to solve our many social issues? Women have something to unique offer in that area, as women bring a different angle and naturally think and operate from their hearts. To bring out that inner strength, and give women the confidence to do so WFWP USA provides tools to empower women leaders with skills and a supportive community

tools to **empower women leaders** with skills and a supportive community, allowing them to foster genuine peace.

You can help support this mission for Greater Hope in 2022! The world has been out of balance for far too long. It is missing the **voice and action of mothers and women in leadership**. Together we can care for our communities and provide hope. WFWP USA service projects, charitable grants, peace leadership, and educational programs are the cornerstones for our vision of a unified world, based on the Culture of Heart.

Thanks to generous donors like you, in 2021, WFWP USA:

- educated 440 people in **Leadership of the Heart**, a new paradigm of leadership
- educated over 1,500 on the power of **marriage and family** to create peace
- educated over 5,200 on local, national, and **international peacebuilding**, including collaborations to promote North-South Korean unity and
- supported the education of young students in need in Jordan, Cambodia, and 8 African countries.

Students provided with opportunities become the educated bearers of the Culture of Heart for their communities! Peace builders brought together with a unified purpose provide hope and direction for long-time enemy nations to become partners. Couples who receive marriage education gain resources to build long-lasting relationships, creating happiness and peace for themselves, their children, and society. Women leaders empowered to embrace a new leadership style bring positive change to all their spheres of influence: the family, the community, education, business, the arts, everywhere!

As one fan expressed it, ***“Thank you for sharing about the character God gave to we women, to care for, invest in, and embrace others wherever we are. Congratulations to the founders of WFWP for making a difference for good in our families and world!”***
