# CORNERSTONE *for* PEACE

Dear,

What is your view on marriage and family? More and more people today may be thinking, "Why marry at all?"

WFWP Founder Dr. Hak Ja Han Moon believes, "**We need marriage because it is the way to develop true love.**" Through building our capacity to love in a healthy marriage, we can create a family which is a school of love and peace, educating future generations. Sounds great, right?

Though we all long for a happy, healthy, and harmonious marriage & family, it can be quite challenging to accomplish that ideal. The unfortunate reality is that we do not see enough models of ideal families in our culture or a society that celebrates and supports family as the school of love, virtue, and peace.

**The great news is there is hope!** Millions of people from around the world have discovered a simple, yet powerful formula which has revived, strengthened, and uplifted their marriage and family. **We will be presenting and discussing these principles on February 19, 10:00 am to 1:00 pm eastern at the [Cornerstone for Peace](#) seminar.** Whether you are currently married or single, **this seminar will be transformational and can set you on a path to experiencing true love substantially in your life.** See below for more information and how to RSVP for this free seminar.

See you there! **Here's to a new year of strong, resilient, and wholesome marriages and families!**
