

# Report of the 4 day DP workshop

## *Mullet – Tirana, 8th – 11th November 2012*

---

Dear brothers and sisters,

On the dates of 8-11 November 2012, we could organize a 4 day DP workshop “One Family with God”. The DP lectures were structured in 12 lectures.

The workshop had about 55 participants, from which 16 where getting DP lectures for first time, while there were people that were attending for the second or third time in order to understand better Divine Principle.

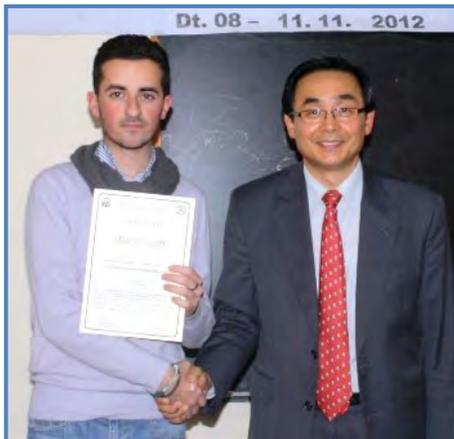

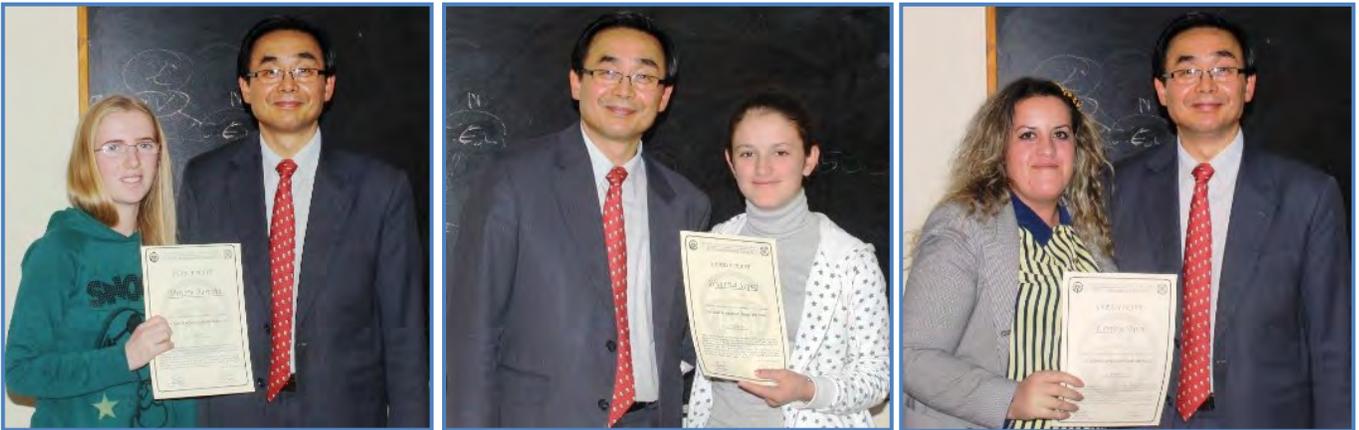

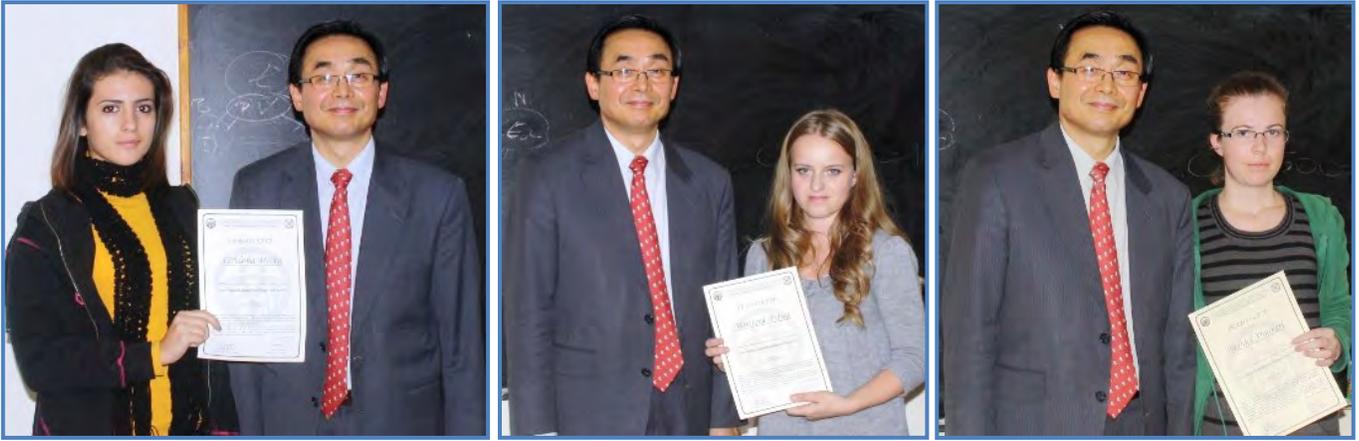

It was special for this workshop the presence of Pres. Yong Cheon Song, who spoke to participants, and at the same time he gave Sunday Service Sermon. The sermon had great impact in members and workshop participants, who could get more energy to invest continuously.

The well going off the workshop was the result of the fruitful cooperation of the workshop coordinator, kitchen staff, prayer staff, lecturers, group leaders, who fulfilled well each responsibility centered on God and True Parents.

We wish that in the next workshop we can bring more victory for God and True Parents through bringing more sons and daughters beside them!

We can share some of the reflections from the workshop in order to give you a clearer view of the impact that the workshop had at the participants who attended for the first time.

***Mirjeta Beusha, Kosova***

*What I did before coming here was praying to God in general way like “Thank you God, or Please God”. While, since the first day I started to attend the lectures in centre and than in workshop, I understood that I need to strongly connect with my inner self and then communicate with God’s spirit directly or through God’s representatives. What I liked mostly from this workshop, among many things that I liked, it was the inspiration of brothers and sisters in showing the origin or destiny of goodness through the spirit. Thank you God and dear True Parents that I could be present at this workshop and that You gave me a clear view for my life from now on!*

***Besnik Rrançi, Elbasan***

*I would like to thank you lecturers for the way they gave answers to many of my questions. I had a good time and I want to thank God for being here, we could get some solution how to continue toward an ideal life and that we should believe in one True God. I don’t know how to express more, because I was speechless when I came to know that Messiah came and we didn’t know or didn’t believe in him. For this I was very happy, same time, thank you all of you!*

***Rozana Gaçi, Tirana***

*Lectures that you don’t hear in the daily life. Lectures which make you think and reflect long. Lectures which you hear eagerly till the end and when you go there we should know that we have a very important secret, which shows how to live a life full of God’s life. Now we got this truth. We should follow and use it as the most precious treasure. Thank you God and True Parents!*

***Ermira Boçi, Durrës***

*... This workshop is woke me up. I'm happy that I learned a part of principles, but most important ones. I felt privileged from the meeting with Pres. Song. Older members took care a lot for me and this made me understand that I'm important, but not only this, but all people should be like this. Thank you a lot for lectures.*

***Hygerta Sopaj, Tirana***

*I didn't expect this workshop to be like this .... To give me such great news.... When I was announces for the workshop I started to think how it would be. Oh God!!! It is much different from what I expected. I can say fully that this workshop changed my life, make me think different. If before I was not thinking a lot for my life, not is everything different.....*

***Sonja Bako, Tirana***

*Coming in this workshop was the best thing ever happened in my life. It helped me to understand many things and it made me feel better. I accept that the purpose at first was different from what I think now. It was my first workshop and I was surprised from many things. From the first moment, I was welcomed from everyone with love. I felt very good. I felt respected, as in my family. A family that I know why I'm part of it. At any moment I could learn something and I'm convinced that I will continue and will go till the end this that I started. Of course that I can't express all what I felt during these 4 days, but I would say just a fraze: THIS WORKSHOP CHANGED MY LIFE!!!!*
