

Czech HARP Winter workshop report

26/12/2012 - 29/12/2012, Ostravice, Czech republic

Yong Cheon Song

From December 26th to 29th 2012 we visited a blessed family in Beskydy mountains and held a short Divine Principle workshop for 2nd generation aged 11-13. Together we were 12 people, 4 staff and 8 participants.

The main purpose of the workshop was to teach young second generation the Principle of Restoration, as it followed our previous activities during the year, teaching both first and second chapter. The lectures were mainly given by Petr Leba, and few by Andrej Uhnak. Lectures were typically divided to two 1 - 1.5 hour blocks and they filled out entire morning until lunch.

In the two afternoons devoted to other activities, we managed to go swimming and bowling and organized a whole afternoon hike to the highest mountain in the area. After dinner we gathered for a prayer evening and testimonies by the participants about their parents and we also watched a movie.

We found this format of a short and intense DP workshop to be very useful and functional and will plan similar activities for Spring and Autumn/Winter 2013.
