Cheon Jeong Gung
2nd Fl. Banquet Room

How can we ourselves offer attendance?

- Offer Devotion
- Learn the meaning of the occasion
- Participate, in person or online
- Making a pure offering

True Parents' Holy Wedding Anniversary

The impact of the Holy Wedding was not limited to a single individual; it affected the direction of world history. It proclaimed the beginning of the first family, a family that God could love more than He had ever loved anyone or any family, and for the sake of which He had invested all of His heart in the global providence throughout history. **What a historic event our Holy Wedding in 1960 was!**

True Parents' Day

Parents' Day was never meant to be a day just for the Unification Church. Nor can we be satisfied with a Parents' Day that is just for Korea; nor can it manifest its full meaning if it is only for the earthly world. As the day the entire cosmos is finally able to come into harmony, **Parents' Day must be a day when the whole universe rejoices with God.**

Heavenly Parents' Day

How much should we have prepared for this one-and-only holy God's Day ceremony, for which humankind has longed for six thousand years? You who are attending here must admit to yourselves that your sincerity and heart are lacking. This is not an event that you should merely attend. Rather, you must come having cultivated your heart in secret, **striving to offer the highest level of sincere devotion.**

Making our offerings

Making an offering to God should be the first priority in life, before thinking of your own life. Thinking that you are offering a percentage of your income can easily lead to a habit of putting your life first, before God. If God is placed as a second priority, He will later end up being in the last place. Do you think it will become like that or not?

And so our homework will be ...
