Have you ever considered . . .

We have an eternal spirit self that dwells within and resembles our physical self (which is designed to only last 100 years or so).

The spirit self, which lasts forever, is the “real” you, not your temporary body.

10 Questions LIFE MAP will explore

- 1 What new evidence can be offered that God truly exists?
- 2 What's life's official purpose anyway?
- 3 Why is human life often so darn miserable? What can be done?
- 4 How does love, sex and romance relate to all this?
- 5 What was Jesus' life really like?
- 6 What's the evidence your eternal spirit is like a VCR recording your whole life?
- 7 Is real love – both with God and a lifelong partner – something we're destined for or can attain?
- 8 What can we learn from the paradox, “If you're willing to lose your life, you will gain your life”?
- 9 What about hopes for a new age, new millenium, even Christ's return?
- 10 If a new, true revelation did come from God, how would we know it?
Does God even DO that?
