**Latin America and the Caribbean** -- On August 16 and 17, 2021, the Universal Peace Federation (UPF-Latin America and the Caribbean) held the International Leadership Conference with the theme: "The Influence of the Peaceful Reunification of Koreas in World Peace and Security, Diplomacy and Economic Development."

Through conferences for universal peace held around the world, UPF has worked in all spheres of society -- political, religious, academic, media, business and artistic -- to spread the culture of peace, seeking to discuss and propose best practices that help us move forward as a single human family through interdependence, mutual prosperity, and shared universal values. With the objective of disseminating peace proposals related to UPF ideas, the event took place online through the Zoom platform and broadcast on YouTube, with 1,078 participants from all over Latin America and the Caribbean (468 the first day and 610 the second day).

The sub-theme for the first day was "**Economic Development and Peace.**"

During the first day, the moderator of the event was **Dr. Neudir Simão Ferabolli**, general secretary of UPF in South America. He stated, "This topic is very timely because this month, we remember August 22, 1910, when Japan effectively annexed Korea with the Japan-Korea Treaty signed by Ye Wanyong, Prime Minister of Korea, and Terauchi Masatake, who became the first Japanese governor general of Korea. Korea celebrates Independence Day on August 15, known as "Gwang bok jeol," which literally translates to "bring back the light" in Korean. August 15 is Korea's Liberation Day from Japanese colonial rule.

The opening prayer was given by **Bishop Edson Luis**, founding Bishop of the Church of the Family - Francisco de Asís Missionary Institute and Ministry of Married Priests - in Brazil, who invoked the Holy Spirit to lead all panelists.
