Re. : Request for Appointment of New Members and Continuous Cooperation with History Committee for the Completion of World Chronology of Providential History

We would like to express our deepest gratitude to all subregional directors for working tirelessly day and night on the frontline for the restoration of the world and firm establishment of Cheon Il Guk.

We, the Sunhak Institute of History, are continuously working on the completion of the historical record of True Parents' life course and world providential history, which will be registered in Cheon Won Gung on its dedication in 2023. In 2019, we have established the World History Committee, and with the support of the subregional HQs, we are working together with the world history committee members to record the chronology of each nation. Thanks to the efforts of all committee members, many providential events have been recorded. However, there are still some subregions where progress has been slow due to the challenges the members face. Therefore, we would like to kindly ask all subregional directors to support the committee members and, if necessary, appoint new members.

Furthermore, we would like to emphasize that only records input by the end of this year, 2022, will be included in the history recorded in Cheon Won Gung that will be dedicated in 2023. For this reason, we would like to kindly request cooperation from subregional directors so that all providential history can be recorded without exception and dedicated to True Parents. Please refer to the details below.

1. Details for cooperation
