

Testimony of Mr. Glenn Strait

Dear Prof. Yoon,

Thanks to the investment I made in preparing to enter the competition, I significantly improved my speed of reading Korean out loud and also my speed of following the written text when someone else is speaking the Korean.

Without that experience, I probably would not have been able to follow along with the reading of Cheon Seong Gyeong as it is presented in the new set of CDs. So I really need to thank you very much for stimulating me to improve my reading speed for Korean.

God bless.
