# True Parents' Blessing Prayer for the Cheonbo Holy Wine Ceremony: True Parents' Blessing Prayer for the February 7 2020 Hyojeong Cosmic Blessing Ceremony

Heavenly Parent, to whom we are most grateful!

On this occasion today, at the beginning of the 8th year of Cheon Il Guk, the virtuous men and women receiving the Blessing, the couples registering as Cheonbo, and the blessed families from around the world attending this event, have come together representing both the spiritual and physical worlds.

Following the proclamation of the firm establishment of Cheon Il Guk, today notably marks the day True Parents' four-position foundation has been established in substance through the three-generation realm, both in the spiritual world and the physical world. It is a day that shows the world the bright future of Cheon Il Guk. How long have You, our Heavenly Parent, waited for this day! In the face of Your endless hard work and love, True Parents feel they have nowhere to stand.

Loving Heavenly Parent, now the number of Cheon Il Guk citizens over whom you can have direct dominion is greatly expanding. Heavenly Parent, please express all the love you could not express before through those who have received the Blessing today. Now, Your citizens of Cheon Il Guk, of whom You are proud, and who are registering as Cheonbo after fulfilling their responsibilities as blessed families, are being born. I pray that you will accept them with joy.

We, the True Parents, are grateful and offer thanks and all glory to You in Heaven for the protection and great love You have given to make this day possible. I pray and proclaim all these things in the name of True Parents. Aju!

Dearest and most noble Heavenly Parent!

You had a dream. You created everything in your image, and finally, you created our first ancestors, a man and a woman. You looked forward to the day when they would be able to complete their responsibility.

However, that did not happen. As a result, you had no choice but to look for your lost children over a long 6,000 years. We, the True Parents, are aware of the circumstances and the heart with which You could only carry out this arduous providence of salvation and restoration through indemnity.

For the first time in six thousand years, You sent to this land Your only begotten Daughter, who can complete the providence; and the Messiah at the Second Coming, who had promised to return and who can bring Christianity to fruition, finally came. However, the Christian sphere that You prepared for True Parents has not yet become one with Your providence.

As the True Parents and knowing well how eagerly Heaven has awaited this day, we began—through our Holy Wedding in 1960—the work of the Blessing that gives rebirth and resurrection. Today, there are many blessed families established around the world.

Now, on the foundation of having fulfilled the standard of national restoration that I, Your only begotten Daughter and the True Mother, promised to accomplish in front of You within the seven-year providential course that followed True Father's ascension, the Cheonbo providence, which will enable blessed families around the world to stand in the position of having fulfilled their responsibilities as blessed families, has begun.

Heavenly Parent!

You have endured and waited so long! As there are now blessed couples that have been inducted as Cheonbo, it means there are blessed families that have completed the Cheonbo requirements whom You can embrace and govern directly. As True Parents, we offer you our deepest gratitude and all glory for Your divine protection that will allow the birth of many more blessed families that can stand strong and show an example in front of their nation and world as Cheon Il Guk citizens.

Heavenly Parent! Through this Holy Wine Ceremony, conducted in unity with True Parents, Your children who have fulfilled their responsibilities as blessed families will be able to join the ranks of filial children and loyal patriots, children You can be proud of and embrace both on earth and in the eternal spiritual realm beyond. Thank you for permitting and giving Your children this opportunity.

Heavenly Parent! Thank you for opening the way that will allow Your children to move beyond their family and tribe, and to advance to the world. They are the Cheon Il Guk Cheonbo citizens.

Heavenly Parent! Please remember Your children, of whom You are proud. May you guide and protect all the blessed families inducted as Cheonbo so that they may all advance toward, and soon bring about, the day when You can realize, throughout the world, Your dream and hope, which you have yearned to realize for so long. This will be the day on which You can say, "Everything has been accomplished. It is all fulfilled.

Thank you. I pray and proclaim all these things in True Parents' name. Aju.

**THANK YOU**
