Visions of the Spirit World

- While in the other accounts the narrators receive visitations from heaven's representatives who descend from the higher realms,
- Lee himself is heaven's representative, descending to other spirits from what may be the highest realm.
- He always comes in the position to teach Divine Principle; he always comes with the heart to help the others to advance towards heaven.

Visions of the Spirit World

- Most of the people whom Lee interviewed, even those living in the good spirit world, felt some remorse for their failures in life.
- When Lee met Jesus and Buddha, their attitude was different.
Lee came as the messenger from God and the representative of the True Parents.
He could act as their confessor, their minister and their teacher.

Visions of the Spirit World

- If his narrative is true, then the True Parents are the most precious and most exalted beings in the cosmos.
- The True Parents' teaching is the highest teaching, above that of any religion.
- The True Parents show God's love to all people. From the greatest saints to the worst sinners, they show no partiality.
Who else would have the overflowing love to want to save Hitler and Stalin?

Visions of the Spirit World

- Jesus wrote the same thing in his letter:
“I will... offer my prayers and hard work for the sake of the direction of the True Parents and the providence of restoration.”
- Is that not also the very thing we who call ourselves Unification Church members must do on earth?

Visions of the Spirit World

- Heaven is open, and centering on the True Parents it is welcoming everyone.
- Its delights are worth every effort, so dwellers on earth should strive to make themselves fit for life in the spirit world.
- That is the kerygma of *Life in the Spirit World and on Earth.*

I Am in This Place

Testimonies about
Jesus & Sun Myung Moon

One day I was meditating in the early morning under a fig tree, and I received a message: The messiah is on the earth: return to America.

I felt to my core that this was true. But I did not want to return to America, and struggled a whole lot about leaving my idyllic life in Spain. I did not respond right away, and misfortune began to find me. I got the message real quick that I was no longer in the right place at the right time!

I returned to America on July 4th, 1969. I returned to hospital work, and only a few weeks later, on August 15th, I was taken by my friend to the Unified Family center to hear the Divine Principle revelation. By this time, I was very desperate to know how I could give my life to God in service. I was reading Page eight books on different religions, searching for where our messiah was. I asked Jesus to guide me d a i l y.

When I heard the Divine Principle, I recognized many points from the revelations I had personally received. I was amazed and honored to be guided to this small group of young people like myself, who wanted to transform the world into one family for God.

On September 9, 1969, I moved into the Berkeley, California church center and began my life as a missionary.

Father Moon is famous among his followers for educating us by appearing spiritually through dreams. Here is an example of how Reverend Moon taught me a valuable spiritual lesson in an area very close to his heart. As a fulltime missionary in Northern California I once had a dream that Father Moon visited me at an office where, in my dream, I was working.

When I arrived at my workplace and my co-workers realized that I was accompanied by Reverend Moon, they began to ask me all about him and why he was visiting our office.

As I became enthralled in explaining all about Reverend Moon to them, he turned to me and said, “I am going up to your office; I’ll meet you there.”

About fifteen minutes later, I arrived at my office only to discover that Father Moon had already left.

As I approached my desk, I noticed that he had taken the fresh fruit which was on my desk and fed it through the fax machine.

Of course, I thought that it was very odd that he would do such a thing. I picked up the fax paper on which appeared an image of the fruit.

Below the image he had written the following:

“Having your nation overtaken by Communism is like having this beautiful fresh fruit reduced to a flat one-dimensional grey image such as you see on this paper.” !

Bret Moss joined the Unification movement in 1990 in Berkeley, California.

/Bret Moss

While I was sleeping, I had a dream.

*At a moment, I felt a presence leaning over me.
I saw our True Mother's face, and with her hand,
extremely softly, she lifted away from me the heavy
burden that blocked my chest.
I felt very light over my chest and started breathing
properly again.*

Then I found myself walking in a dark corridor, at the end of which I saw a light. Getting closer, I saw in that bright light the face of Jesus. Then Jesus' face changed into Sun Myung Moon's face. I had the strong feeling that it was the same heart; only the external appearance changed.

I felt profoundly happy!

After that, along with the loving prayers of my brothers and sisters, in only three days I recovered completely and was outside again on the mission! This remains in my heart as extremely precious evidence that our True Parents embody God's love.

My 36 Years in Unfication Church
Shirley Stadelhofer
2006

I was introduced to the Unification Movement through my second son, David, who joined in 1969 when he was only twenty years old.

My first study of the revelation of Rev. Sun Myung Moon was from a small book, titled Divine Principle and Its Application by Dr. Young Oon Kim, which my son offered to me.

While reading it, I became so furious with what I believed to be theological deviations from my confirmed beliefs that I actually threw the book across the room in a sudden burst of anger. Later, I received a sense of quieting, spiritual calm and told my son that I wished to study the teachings further.

To his astonishment, I also wanted to become a member of the movement!

Since then, over thirty-six years have elapsed and my life in the Unification Movement has been the most fulfilling and spiritually rewarding experience I have ever had.

Yet out of that kind of struggle I came to know the greatest fulfillment and joy in my entire life—the closest relationship to God that I have ever known.

I now have a deep, personal conviction that I have discovered the answers to the most basic questions about the universe and my purpose in life.

And now I feel that it is crucial for me to offer this to others.

Rev. Moon has often compared the process of the life and death of humans to the process of a caterpillar becoming a butterfly.

If we imagine that the caterpillar has consciousness, as humans do, then it might be afraid of becoming a cocoon, because this could seem like the end of its life. It could be attached to its life as a creature in the earth, just as we are attached to our physical bodies.

But the caterpillar does not know that there is another new existence after its “death” in a cocoon, where as a beautiful butterfly it will be enjoying a new life among fragrant flowers and sweet honey.

Rev. Moon has taught that it is much better and wiser to fulfil God's will while we are in our own physical bodies on earth.

The reason?

It takes much longer and much more effort to achieve resurrection of our spirit selves in the spiritual realm than when we are on earth and in the driver's seat, so to speak, of our own physical lives.

Teen suicide

Comes back through medium!

With the help of some gifted mediums, I was able to reestablish communication with my son after he died.

What goes on in the mind of some suicides both before and after they end their lives.

Also revealed is fascinating content about what suicides and others experience when they arrive on the "other side."

...from turmoil to calm,
from guilt to forgiveness,
from doubt to faith,
and from separation to reunion.

Table 1: Wilson's Ten Characteristics of Spiritual Existence

1	People in the spirit world live as embodied forms and carry on all major life activities.
2	Energy in the spirit world flows directly from God, shining as the sun of love to illuminate and govern
3	Spirit world is a world of thought; communication occurs through thought, and thoughts can immediately induce movement or the materialization of things.
4	In the spirit world form is not fixed, but is far more plastic, reflecting the spirit's inward character
5	Human beings and angels exist for eternity, rooted in their unchanging essence
6	The spirit body that forms an envelope around the spirit may be of various levels of denseness, according to the realm in which the spirit exists. In general, the spirit body is composed of elements fitting for the realm in which it dwells. There seems to be a correlation between the spirit body and the surroundings environment.
7	There is no multiplication in the spirit world.
8	Human beings are co-creators of the environment in the spirit world.
9	Animals, plants and inanimate objects exist, not eternally, but only insofar as there are humans who treasure them.
10	Due to the Fall spirit world is divided into various realms, arranged in concentric circles "above" and "below" the earth

Spirit people can also resurrect through good deeds in the spirit world, by receiving education or by joining the forces of good in the battle against evil.

However, they still need the “traction” of a connection to the earth if they are to have the power to overcome their situation and ingrained attitudes that could otherwise easily defeat their efforts.

That is why

prayer conditions for our ancestors are so helpful.

The Theory of the Original Image in Unification Thought posits that all reality is constituted by the duality of sungsang and hyungsang.

From the causal Being to resultant beings, all existences consist of an internal, invisible aspect (sungsang) and an external, visible aspect (hyungsang).

The sungsang encompasses a being's mental and functional aspects, while the hyungsang constitutes its body, composed of matter/energy.

2

The power to manifest an entity in the Spirit World derives from God's Universal Prime Force.

This Force has both sungsang and hyungsang aspects.

Its sungsang is the “life field” which appears as the light and warmth of the central Sun.

Its hyungsang is “pre-matter,” the atoms of spirit substance that coalesce around a being's sungsang to manifest its form.

3

Entities in the Spirit World form according to the model of the 2-stage structure of creation in Unification Thought.

The logos, formed through the inner four-position base, joins directly with elements of pre-matter to manifest as a substantial form.

4

Spirit entities lack a layered structure.

First, accounts of the spirit world suggest that plants, animals and human bodies do not decay into foundational strata that would be expected on earth.

When a person eats a plum, the juice that dribbles out disappears spontaneously without leaving a watery residue.

A flower when picked simply dissolves into its elements.

4

Second, human thought and will can suddenly alter the forms of its surroundings.

Such behavior would be impossible for physical entities whose forms are grounded in lower strata of matter, and therefore exist independently of their human subjects.

Third, it doesn't appear that animals and plants in the spirit world depend upon plants and minerals as their foundational strata.

Animals in the spirit world have no need for food, and hence live peaceably with each other.

Rather, in the spirit world the source of nourishment is God's love.

5

Spirit persons in the Kingdom of Heaven have a unitary structure of spirit mind/spirit body without any layers.

However, fallen spirits are covered by a denser “astral body” that corresponds to the thoughts of the evil mind.

5

When an evil spirit resurrects to a higher realm, it may “die” and leave behind its gross body while a fine “mist” congeals into a new, purified body.

It seems that, just as on earth, the body that carries a spirit’s identity may not be the same as the body that manifests its external form.

According to Daemonim, a spirit can even shrink itself to microscopic size to invade a person’s body.

Angels, too, have the ability to change their form at will,

6

Spirit persons as connected bodies create their spiritual environment out of the content of their thought, character and deeds.

The principle of the connected body is very apparent in the Spirit World.

Figure 1: Original Structure of Spirit Entities

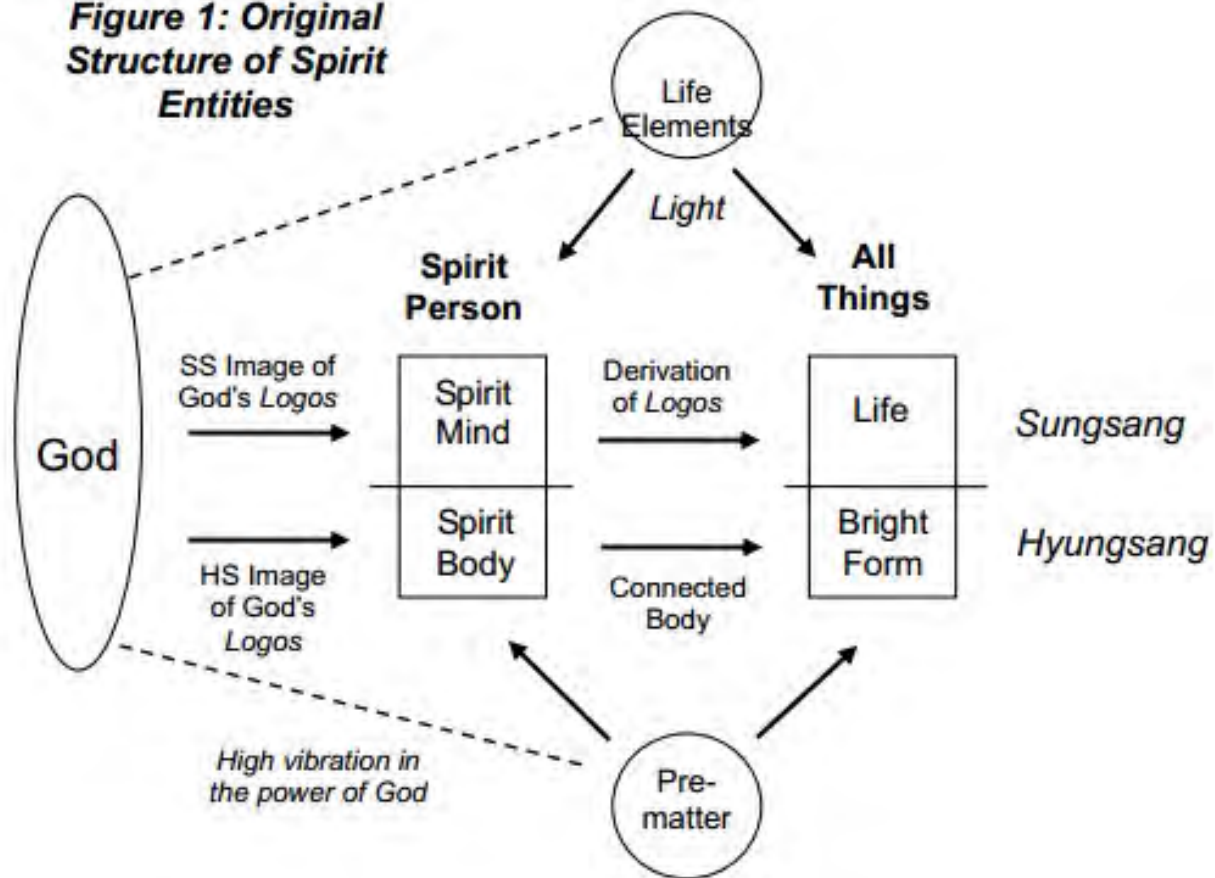

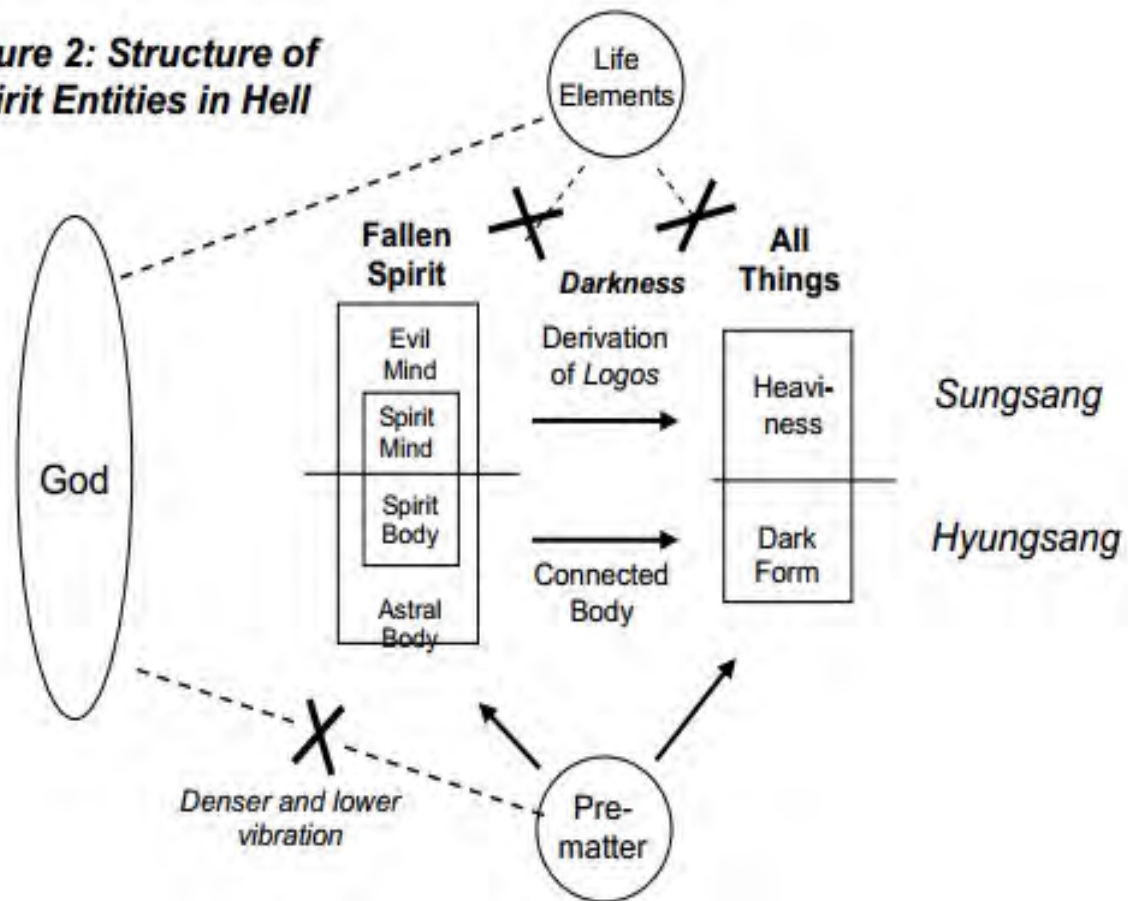

Figure 2: Structure of Spirit Entities in Hell

7

The hierarchy of angels in the Spirit World corresponds to the hierarchy of galaxies, stars and planets on earth.

A second hierarchy in the spirit world is the hierarchy of angels.

Mystics like Swedenborg have described a three-level hierarchy of angels.

According to Rev. Moon, “All beings want to be absorbed into higher levels of love. Thus, minerals want to be absorbed into plants, plants want to be absorbed into animals, and finally all of creation wants to be absorbed into human beings.”

The purpose of the spirit world, like that of the physical world, is to provide a pleasing environment for human beings as God’s children.

8

The Spirit World was not created with yang and yin.

The core principles of the Spirit World are subject-object, operating vertically, and the three-fold division of mind as intellect, emotion and will.

The duality of yang and yin was created first in the physical world.

It was to appear in the Spirit World only with the marriage of perfected Adam and Eve, at which point the horizontal realm of Earth and the vertical realm of Heaven would unite.

Spirit persons are co-creators, who develop and expand the Spirit World according to their character and store of experiences.

God seeks to experience the joy of the ever expanding, ever-new cosmos that His children create.

The Divine Principle makes it clear that human beings are unique among all God's creations in having both a spirit self and a physical self.

This dual structure enables human beings to be rulers of both the spiritual and physical worlds, the microcosm of the cosmos that consists of both worlds, and the center of harmony between the two worlds.

There is a second and equally important factor that qualifies human beings to exercise dominion over the two worlds: they are endowed with God's creativity, able to participate with God in creating the universe.

10

Angels were not meant to be co-creators, but Lucifer sought the dominion that belongs by right to a creator through causing the fall of Adam and Eve.

Neither do angels participate in creating their eternal life.

The central position of human beings in the cosmos is their eternal birthright, as the children of God.

It does not change even after humans cast off their physical body.

12

The Spirit World and physical world form a unified cosmos,
relating as sungsang and hyungsang, yin and yang.

This cosmos is only perfected with the advent of human
beings who fulfil the purpose of creation.

Noted psychologist Dr. Edith Fiore explains how to detect **spirit possession in yourself and others**, how to protect yourself from entities, how to release your home from displaced spirits, and how to perform a depossession.

Many people suffer from ailments that have no apparent cause, no obvious cure. Quite by accident, while using hypnotherapy, Dr. Modi discovered that past-life regression can be a beneficial treatment.

Many of these patients, under hypnosis, claimed to have spirits attached to their bodies and energy fields, creating psychological and physical problems.

Chapter II: Diseases Caused by Lucifer

1. Diseases Caused by Lucifer

The number of diseases in the world is too many to count. There are also countless names given to these diseases. How is it that Lucifer makes people sick, and how does he push them along the path of death? Let's take an example. People on earth are most afraid of cancer so cancer is divided into several categories.

Why does the disease called stomach cancer come about? The stomach is a very important organ for people. Of course all parts of the human body are precious, but the stomach is especially so because it takes all the food and drink that comes into the body through the mouth and digests and stores these. It is a storage place that is supposed to provide the body with nutriments. If something goes wrong there, then there is a problem with supplying nutriments for the body and there is major difficulty in maintaining life.

When that happens, there is an imbalance of nutriments in the human body. The body becomes weak and it loses its ability to defend itself against other illnesses. In general, stomach cancer is caused by overeating to the point that stress is placed on the stomach. Aside from this, if a person is under a great deal of stress in general, it makes it difficult for the stomach to perform its normal movement of contraction and expansion. This makes it difficult to digest food completely and food particles are left in the stomach. A stomach has ways of avoiding trouble and maintaining its balance even in the midst of such stress from various sources. This is why the health of a human body can be

C. 2012 & Kalevala (finnish national epic)

Case in point is the mysterious existence of myths obviously describing precession in the ancient verses of the Kalevala, the Finnish National Epic.

The Kalevala stories describe a sacred Mill called the Sampo (derived from sanskrit Skambha = pillar or pole) with a "many ciphered cover".

C. 2012 & Kalevala (finnish national epic)

This spinning Mill is a metaphor for a Golden Age of plenty and the starry sky spinning around the Pole Star (known as the Nail of the North), which in the Far North is almost straight over head.

The Mill at some point is disturbed, its pillar being pulled out of its peg, and a new one - a new "age" - must be constructed.

This becomes the chore of Ilmarinen, the primeval smith. In this legend, ancient knowledge of precession among unsophisticated "peasants" who were nonetheless astute skywatchers, was preserved via oral tradition almost down to modern times.

D. Edgar Cayce (american famous prophet)

Other predictions were about dramatic changes in the Earth's surface in the period of 1958 to 1998.

The cause of these he put down to a tilting in the Earth's rotational axis which he said would begin in 1936.

D. Edgar Cayce (american famous prophet)

The first sign of this change in the Earth's core would be the "breaking up of some conditions" in the South Pacific and "sinking or rising" in the Mediterranean or Etna area. Cayce forecast that, by the end of the century, New York, Los Angeles and San Francisco would be destroyed. He said that "the greater portion of Japan must go into the sea" at this time, and that northern Europe would be "changed as in the twinkling of an eye."

D. Edgar Cayce (american famous prophet)

In 1941, Cayce predicted that lands would appear in the Atlantic and the Pacific in the coming years, and that "the coastline now of many a land will be the bed of the ocean. Even many of the battlefields of (1941) will be ocean,

If people on earth realized the result of their thoughts upon those to whom they refer, they would be very much more careful in giving their mind free play.

There are so many thoughts possible, and all of them are registered here; many of them affect the people they concern, but all of them affect the people from whom they emanate.

When coming to this land, that whole record
has to be dealt with.

but by our own spirit selves.

as it may be, **caused by thoughtless mind action whilst on earth.**

During a 1933 baptismal service at the Ohio River at Jeffersonville, Indiana, a SUPERNATURAL BEING appeared before hundreds of people saying to him, "As John the Baptist foreran the first coming of Christ, you will forerun His second Coming."

This picture is displayed today at the Library of Congress in Washington, D.C.

William Branham USA had been hearing voices since he was seven years old. Finally, in May of 1946, Branham was commissioned by an angel from God to be the forerunner of the Second Coming of Christ.

My comment: *In June 1946 TF (Sun Myung Moon) went to Pyong Yang to search for the prepared Spiritual groups for the Second Coming of Christ.*

It seems like that Heavenly korean mission "spilled over" to Branham in USA.

1946

One of the more radical beliefs of the group is that of Serpent Seed which states that the first sin committed occurred when Eve engaged in sexual activities with the Serpent in the Garden of Eden thus causing "the fall of man."

*“What did he do? He begin making love to Eve.
And he lived with her as a husband.
And she saw it was pleasant, so she went and
told her husband; but she was already pregnant by Satan.
And she brought forth her first son whose name was Cain,
the son of Satan.*

1957

While Branham had taught the doctrine since 1957, he suggested in 1960 that the Holy Spirit had just revealed it to him as one of the mysteries that God was revealing in the "end-time".

A MYSTERIOUS CLOUD

On February 28, 1963, over in Arizona, U.S.A., a constellation of seven angels appeared to Reverend William Marrion Branham in the form of a ring shaped-Cloud.

These seven angels came from the presence of God revealing to him the hidden mysteries of the Bible which were sealed in the Book of Daniel and the Book of Revelation yet were ordained to be unveiled at the end time.

A MYSTERIOUS CLOUD

Many pictures were taken of this peculiar Cloud, some appearing in Life Magazine (May 17, 1963 issue); some in Science Magazine (April 19, 1963 issue), along with a scientific report of how it was scientifically impossible for such a cloud to exist.

The highest clouds form at about 10 miles, but this phenomenal cloud was 26 miles up, at which altitude water vapor does not exist.

From Lucifer to True Parents: 1999

I am offering this to True Parents.

*Since all people call you True Parents, I call you True Parents.
I am very sorry that I gave you an extremely huge difficulty to
straighten out the countless aspects of evil history of sin that I
committed.*

What word would I have to tell you?

Once, I, undeserving and selfish, desired to receive the blessing.

I am very sorry for this.

*If it is possible, I ask for your generous punishment, as you are
the parents of humankind.*

From Lucifer to True Parents: 1999

As I see the countless ways of evil and sin, the ways of indemnity, even with my eyes, I can see that the only way of my return is the way of bloody bruises.

However, if it is the last way of suffering to go to God and True Parents, I will follow obeying.

*True Parents, Parents of humankind, Lucifer is very sorry.
I am truly sorry.*

Pledge 5

Reaching to the Spirit World

천일국 주인 우리 가정은 참사랑을 중심하고 매일 주체적
천상세계와 대상적 지상세계의 통일을 향해 전진적 발전을
촉진화할 것을 맹세하나이다.

*Our family, the owner Cheon Il Guk, pledges to strive every
day to advance the unification of the spirit world and the
physical world as subject and object partners, by centering
on true love.*

The fifth pledge discusses the role of the spirit world in human life.

Having been given dominion over the creation, human beings are the lords of both the spiritual and physical worlds.

The human mind connects with the spirit world and the human body interacts with the physical world.

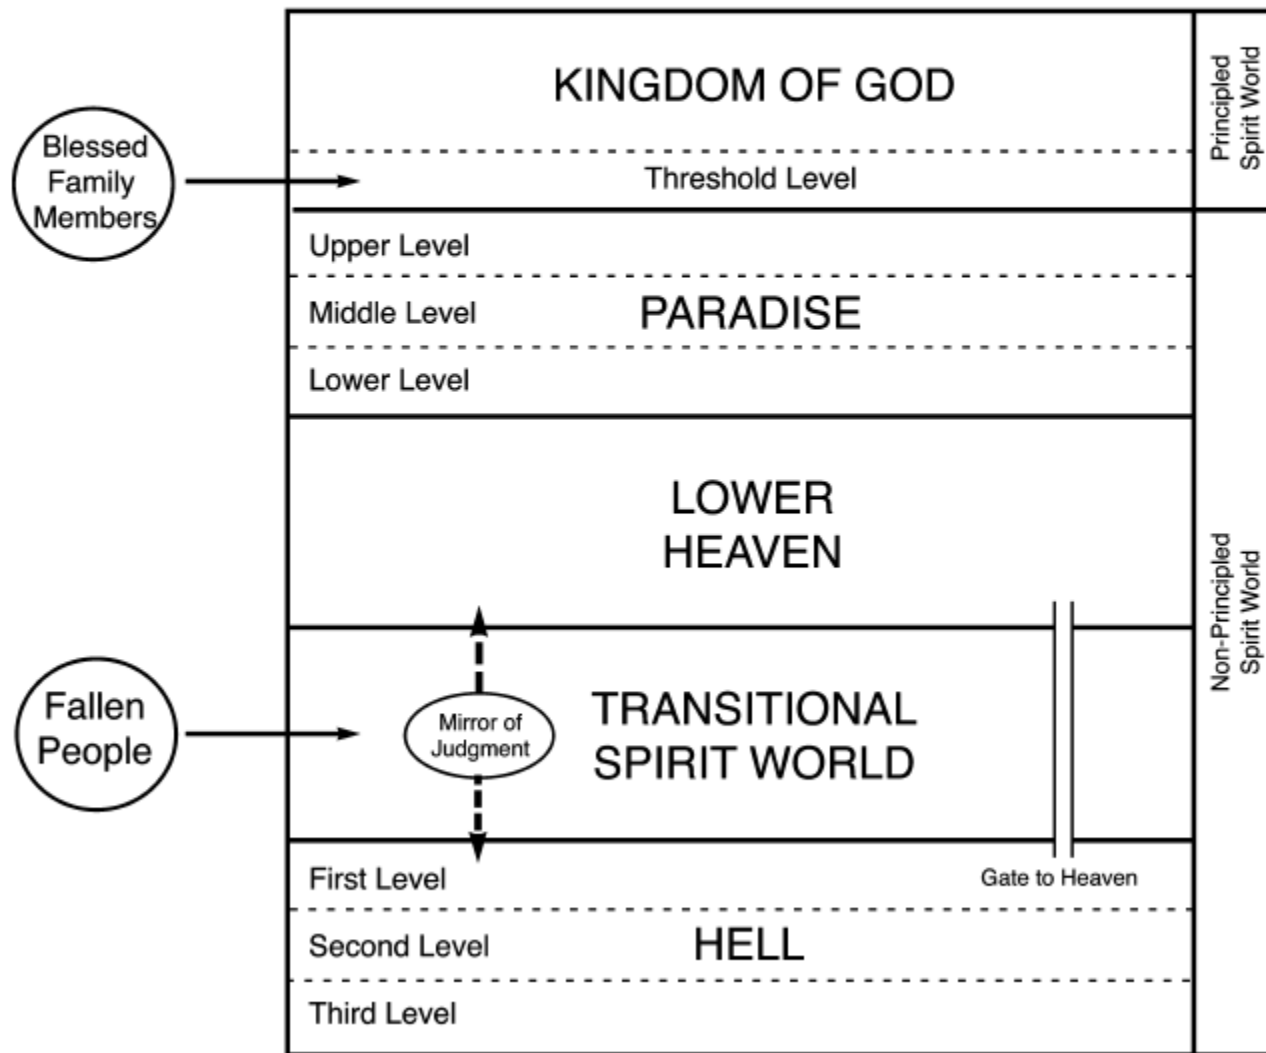

In a real sense, our mind and body constitute the microcosm that controls the macrocosm — the spirit world and physical world — through its resonance with them.

The key lies within us.

When we align ourselves properly, we can tap into the inexhaustible power of the spirit world to bring us prosperity and victory.

Furthermore, since our ultimate destiny is to live eternally in the spirit world, we should use our time on earth to prepare for life in that world.

FIGURE 8: THE STRUCTURE OF THE SPIRIT WORLD

The Non-Principled Spirit World

Our tour beings with the Non-Principled Spirit World, which is populated by the vast majority of people who ever lived, who did not establish true families while on earth.

People on earth vary widely according to the degree of their love and to what extent they lived a life of goodness.

Though they co-mingle during earthly life, in the spirit world they separate.

According to the various qualities of earthly people's inner, spiritual lives, they come to reside in a place within one of three major levels of the Non-Principled Spirit World: Hell, Lower Heaven, and Paradise.

The Transitional Spirit World

In addition, there is an intermediate realm, the Transitional Spirit World, which serves as a way-station on a spirit's journey to his or her final abode.

This is the realm closest to the earth, where spirit persons stay temporarily when they first enter the spirit world.

After a stay lasting from a few days to a few years, spirits journey either downward to hell or upward to one of the heavenly realms at their own volition.

Within a few days after death, spirits are led to this realm, guided by angels and spirits of the departed.

The trip is like being lifted in an elevator or like passing through a gate.

On arrival, the newcomers may experience the warm, comforting embrace of a transcendental being of white light.

Their relatives, intimates and acquaintances may welcome them and remain with them for a time before returning to their own places.

When a spirit arrives at the Transitional Spirit World, his speech and actions become totally unconstrained.

He can express in words whatever he thinks and do whatever he wants. Having shed his physical body, he suddenly realizes that he has profound wisdom, as if his intellect had grown fifty-fold.

Although the newcomer may cling to his old habits for a while, before long he accustoms himself to the laws of spirit world.

Earthly honor, knowledge, position, property and wealth are of no use.

Hell

Hell is populated by people who lived predominantly selfcentered lives while on earth.

(Reflexion of satans lineage)

They pursued only their own interests while committing falsehoods, deceptions, injustice, and crime.

Even if outwardly they led respectable lives, their hearts festered with jealousy, hatred, avarice, lust, anger and complaint.

After they pass over into the transitional spirit world, fellow spirits of Hell who witness the newcomer's past in the mirror of judgment lead him to their infernal dwelling-place.

Hell

Lee's description of the hells is reminiscent of Dante Alighieri's *Divine Comedy*.

Dante's depiction of hell, The Inferno, depicts 9 levels, each darker and bleaker than the last.

Dante's Paradiso depicts 10 heavens of ever-increasing brightness and glory.

On May 5, 2004, Father Moon announced the 쌍합 십승일 (雙合十勝日 , *Ssang Hab Shib Seung Il*), the “*Day of Double 5 and Victory of the Number 10,*” which marked the beginning of the “Age After the Coming of Heaven.”

It opened the era for cleansing the evil satanic kingdom and manifesting the kingdom of true love on earth and in heaven.

Lower Heaven

Conscientious people, the charitable, patriots, educators, the virtuous, truth-seekers, etc., people who made efforts to do right while on earth, dwell in Lower Heaven.

Whether or not they believed in religion, they sought to live a life of goodness according to their conscience.

Paradise

Beyond Lower Heaven lies Paradise.

(Luke 23:43, 2 Cor. 12:3)

It is far brighter and more splendid, with magnificent mountains, azure rivers, fields of flowers with sweet fragrance, and lovely music rejoicing the mind and heart.

In its upper levels people live in a state of ecstasy, totally immersed in all the beauty that surrounds them.

The Principled Spirit World

God's original intention for the spirit world was that it would consist of only one realm, the Kingdom of God in heaven.

Spirit persons who have perfected the Four Position Foundation on earth pass over into this realm.

Today, with the appearance of people who have received the Blessing and who are on the way to establishing true families, the threshold level of the Kingdom of Heaven has been newly opened.

It is called the Principled spirit world.

This realm is above even the highest level of Paradise and is incredibly beautiful.

The Subjective Role of the Spirit World

One reason to learn about the spirit world is to better understand how spirits affect life here on earth.

Spiritual influences can bring luck or cause misfortune.

Indeed, diverse bands of spirits descend to give invisible influence to the earthly world—some for good and some for evil.

An amazing stroke of fortune or a crushing blow can occur seemingly without reason, but psychics who have access to the spirit world can clearly know its cause.

Destiny and Responsibility

People often misunderstand the subjective role of the spirit world, particularly when it comes to the question of fortune and destiny.

Many people believe that every person has a foreordained destiny written in the stars, stored up in the spirit world.

Are the important events in our life—the day of one's death, for example — predestined?

It is said that plans unfold in the spirit world years before they bear fruit on earth. Thinking in this way, we may consult fortune tellers for advice about our lives, believing they can give us a glimpse into the future.

The Divine Principle, however, clearly presents only one sort of predestination for human beings:

God's predestination of prosperity and success for the person who fulfills his portion of responsibility.

Uniting the Spirit World and Physical World

Many people are aware of the higher power of divine providence that guides our lives.

We have felt God's guidance leading us on through dark and despairing times into new situations with fruitful paths of action.

When we rely on providence, amazing things can and do happen, for we place ourselves in a position to receive spiritual help.

As Jesus said, those who seek for God's kingdom and God's righteousness will find that every good thing is provided for them. (Matt. 6:33)

Three Keys to Mobilizing the Spirit World

At the center of unity between the spirit world and the physical world stands the human being, who joins the two worlds in the circuit of give-and-take action.

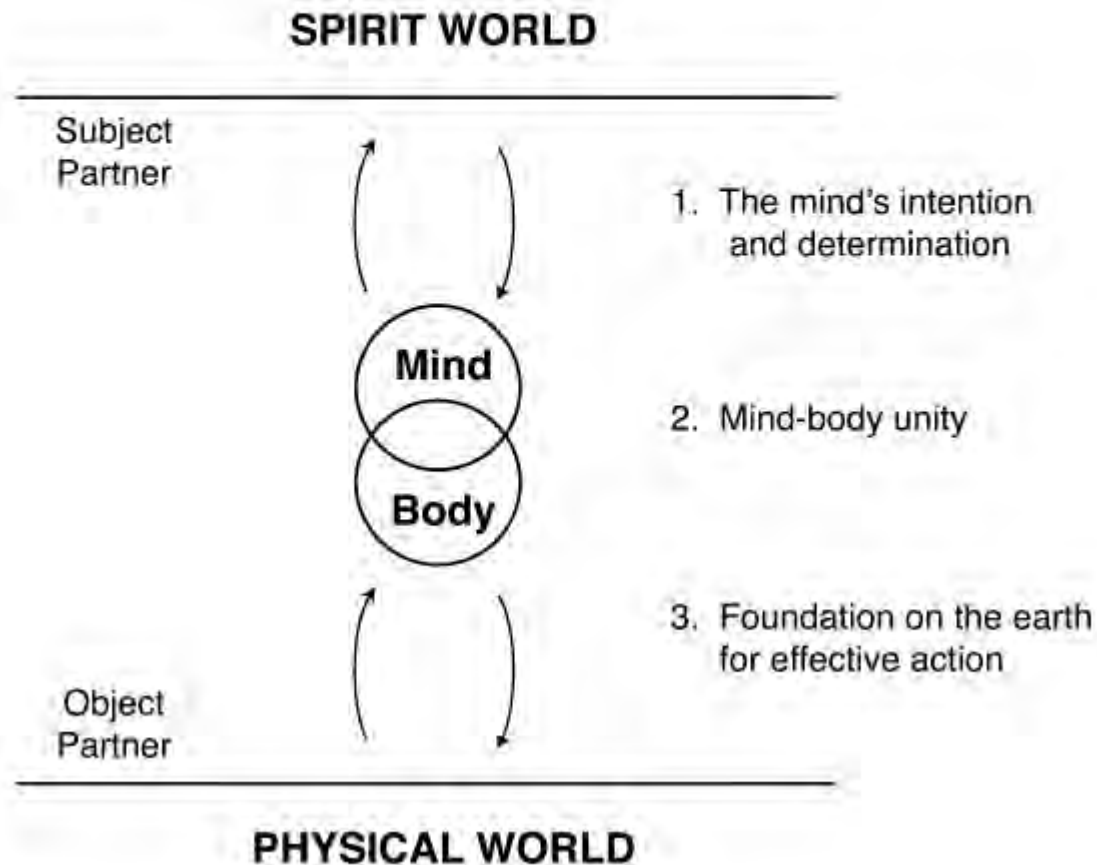

There are three keys to completing this circuit, and thereby to receiving spiritual help.

First, a person affirms his or her heartfelt dedication to God and determination to do God's will; therefore mobilizing the spirit world to give inspiration, guidance and support.

Second, the person establishes good unity between mind and body, and hence is able to act on this inspiration.

Third, the person has laid a practical foundation on the earth, that his actions might carry weight and be effective.

FIGURE 9: THE UNIFICATION OF THE SPIRIT WORLD AND PHYSICAL WORLD

The Liberation of Hell

The saint and the sinner are both God's children. Therefore, we who would draw close to God must love our brothers and sisters who suffer the pain of a bitter or resentful spirit.

Possessing spirits, who penetrate the body and attach themselves to the psyche, afflict people without their knowledge.

They can enter the body in a moment of weakness; shock, a fainting spell or a high fever.

Alcohol or drugs provide ready opportunities for possessing spirits.

These spirits cloud the mind and induce obsessive or even psychotic behavior.

Even many physical illnesses have possessing spirits as a contributing cause.

The common denominator of all these evil spiritual influences is inherited sin.

Wilson van Dusen M.D.:

Present day psychosis always involves some degree of self pride (spiritual madness) but the hallucinated aspect looks most like what Swedenborg described under the general headings of obsessions (to be caught in false ideas) and possession to have alien spirits acting into one's thought, feelings, or even into one's own bodily acts.

van Dusen M.D

He indicates that normally there is a barrier between these spiritual entities and man's own consciousness.

He also makes quite clear that if this barrier of awareness were penetrated the man would be in grave danger for his mental health and even for his life.

van Dusen M.D

In my dialogues with (mental) patients I learned of two orders of experience, borrowing from the voices themselves, called the higher and the lower order.

Lower order voices are as though one is dealing with drunken bums at a bar who like to tease and torment just for the fun of it.

They will suggest lewd acts and then scold the patient for considering them. They find a weak point of conscience and work on it interteasing him for three years over a ten-cent debt he had already paid.

van Dusen M.D

They call the patient every conceivable name, suggest every lewd act, steal memories or ideas right out of consciousness, threaten death, and work on the patient's credibility in every way.

For instance they will brag that they will produce some disaster on the morrow and then claim honor for one in the daily paper.

They suggest foolish acts (such as: Raise your right hand in the air and stay that way) and tease if he does it and threaten him if he doesn't.

The lower order can work for a long time to possess some part of the patient's body.

van Dusen M.D

The higher order is much more likely to be symbolic, religious, supportive, genuinely instructive, and communicate directly with the inner feelings of the patient.

I've learned to help the patient approach the higher order because of its great power to broaden the individual's values.

van Dusen M.D

Swedenborg indicates that good spirits have some degree of control over the evil ones.
Higher order hallucinations have made the same comment — that they can control lower order ones, but it is seldom to the degree the patient would desire.

In some respects they overcome the evil insofar as the patient identifies with them.

A discovery four years ago helped me to get a relatively rich and consistent picture of the patients' experience. Though I noticed similarities with Swedenborg's description of the relationships of man to spirits it was only three years after all the major findings on hallucinations had been made that the striking similarity between what Twentieth-Century patients describe and Swedenborg's Eighteenth-Century accounts became apparent to me.

We take responsibility for our ancestors' sin through repentance and making reparations.

We can suffer through the pain of an affliction with a good heart, knowing that by our stripes our ancestors are healed.

We can instruct them in the truth. Most importantly, by loving and serving others, we can cover these sins with goodness.

“Love covers a multitude of sins” (1 Pet. 4:8) and
“Good deeds annul evil deeds.” (Qur’an 11.114)

Comment: Ancestral Liberation up to 210 Generations are being done in Cheong Pyeong Korea.

This pledge and the first pledge are the only two pledges that do not use the verb “to perfect,” *wanseong-hada*.

Recall that perfection means bringing to full growth what exists already as a potential.

When we perfect the dutiful family way (pledge 2), the Four Great Realms of Heart (pledge 3), etc., we are striving to perfect what already lies within the creation as a seed.

The fifth pledge, however, is about restoration, about mending what was broken, paying off old debts, and overcoming evil.

First we should strive every day to set up the three keys for receiving spiritual help.

1. We should live by our conscience, thus restoring the proper subject-object relationship between mind and body within ourselves.

Thus we become the unity between the spirit world and the physical world in microcosm.

2. Strive to catch the inspiration of heaven and act to bring substantial results on the earth.

By our continued effort, the will of God first formed in the spirit world comes down to the earth and becomes manifest.

3. Build our practical foundation, in order that heaven's will can be manifest on the earth ever more powerfully.

Second, we must ever fortify ourselves against the base influences of the surrounding environment.

We should reflect on ourselves to recognize where Satan finds a foothold to invade our lives and turn us from the higher life with God.

To this end, we need daily study of God's Word to keep a proper perspective on life.

Third, we need to pray constantly. (1 Thess. 5:17)

Through prayer we receive God's guidance and block the evil desires of the flesh.

The perfection of prayer is to be constantly mindful that we are living in His presence.

Fourth, we should continually seek opportunities to serve others.

Through loving service we make a base for good spiritual help.

We generate vitality elements, which make for spiritual growth.

We also make restitution for our ancestors' sins, opening the door for their liberation.

Finally, the call to strive every day reminds us that we have the unique opportunity to attend the True Parents while they live on earth.

Father Moon is more than eighty years old; his remaining time on earth is short.

Every second of his life, he has been running so fast and accomplishing so much; he restored six thousand years of history in the span of only forty years.

Scripture teaches, “With the Lord one day is as a thousand years, and a thousand years is as one day.”

St Augustine on Blessing Ceremony in the Spiritual World

I am living in incredible truth and boundless grace, which I could never imagine in the physical world.

Having attained freedom in this truth and grace, I am living a happy life here every day.

What is more amazing, however, is the Blessing ceremony in which those people who had left their physical bodies and come to the spiritual world participated.

During the ceremony, the officiator, Rev. Moon, suddenly changed into the shape in which God had appeared in the Garden of Eden before the human fall;

God's rays spun in splendid and enrapturing colors and circled around Rev. Moon, whereupon he assumed God's body.

St. Augustine's Confessions
from the Spiritual World

Surghwa Publishing Co., LTD

Then, the whole scene of the Blessing ceremony was showered with brilliant light, as if floodlights of housands of volts had been turned on in a dark room.

In this ceremony, God's light touched each and every couple. At this time, my wife was on earth and I was, of course, in the spiritual world.

An earthly person would not understand what this means, but at one word from Rev. Moon, the ceremony site changed colors and structures, and the couples' ceremonial dresses changed.

God's light touched all the people, and their spirits became consecrated, after which their forms became different from those of the spectators.

The Blessing is a ceremony through which God brings together an Adam and an Eve in the Garden of Eden when they become fully mature. I believe it because I have seen it clearly with my own eyes. I firmly believe that Rev. Moon is marrying honorable men and women as an officiator in God's body.

Interesting parallels with 1954:

Lord of the Rings or Lord of the Rings,
is a fantasy (*Spirit World*) novel by J.R.R. Tolkien.

It was published in English for the first time in 1954-1955
divided into three volumes
with the titles The Fellowship of the Ring,
The Two Towers and
The Return of the King (= *Messiah*).

1937 – 1954 - 1960

Tolkien had already 1937

(1935 SMM received his mission from Jesus)

in Bilbo, a hobbit adventure, introducing both rule the ring,
and several of the main characters in the trilogy.

the idea of a ruling ring that can determine
the world's future

(= Blessing through the True Parents, Messiah)

also appears in Richard Wagner's four operas of
Der Ring des Nibelungen.

Both authors have been inspired by the same old stories,
including Völsungasagan and Edda.

In the mid 60's had short stories have become
a cultural phenomenon. (True Parents' Holy Blessing 1960)

K: Motion moves things. Space conducts. 📄

M: So space is the conductor of things.
And motion is the impetus that makes
the receiving and the conducting happen?

K: Time receives. Space conducts.

M: We (in Physical World) manipulate time, space, and motion;
you (in Spiritual World) manipulate receptivity, conductivity,
and frequency.

Is the "manipulation" anything like what we do when we
make time and space seem shorter or longer?

K: Yes. But our manipulation is more real. 📄

Ramanujan
1887-1920
Indian genius
mathematician

He would receive visions of scrolls of complex mathematical content unfolding before his eyes.

He often said, "An equation for me has no meaning unless it represents a thought of God."

Hardy (English math. professor) cites Ramanujan as remarking that all religions seemed equally true to him.

He Ramanujan, a largely self-taught mathematician, seemed to solve problems instinctively and said his formulas came to him in the form of visions from a Hindu goddess.

Comment: Revelations from Spirit World

God is the absolute scientist.

It is the responsibility of human beings to follow the universe and laws that God created.

God alone cannot create absolute value.

Absolute value originates on the premise of there being a partner.

Among the paths of love there is a path where you must go beyond life;

you must remember there is a stage of life beyond death.

James 3

- *For in many things we offend all.
If any man offend not in word, the same is a perfect man,
and able also to bridle the whole body.*
- *Even so the tongue is a little member, and boasteth
great things.
Behold, how great a matter a little fire kindleth!*
- *Out of the same mouth proceedeth blessing and cursing.*

The Bible says clearly that
whosoever controls the tongue controls the whole body.

What you speak, you are going to get.

Feed your nervous system with these words.

Constructive, progressive, productive, victorious words.
Keep repeating them so that you can have control of
your whole body.

Then you will become victorious.

For you will become completely conditioned to meet your environment and circumstances and achieve complete success.

*Comment: Compare with
Power of Positive Thinking – Law of Attraction etc.*

While living in the three-dimensional realm, you can experience spirituality in the fourth-dimensional realm by faith, as God declares: “Now faith is the substance of things hoped for, the evidence of things not seen. For by it the elders obtained a good testimony. By faith we understand that the worlds were framed by the word of God, so that *the things which are seen were not made of things which are visible*” (Heb. 11:1-3, NKJV, italics mine).

Humans are three-dimensional beings. Because humans are part of the three-dimensional realm, once the three-dimensional realm came into being, it became part of the fourth-dimensional realm and is, therefore, under its rule.

When the three-dimensional realm was created, it became susceptible to infinity; and when time came into existence, because it also is part of the three-dimensional realm, we became susceptible to eternity. This principle applies to all humans whether they are Christians or non-believers. We, the three-dimensional beings, were created as beings that are under infinity and eternity.

Four Elements of Change

What do you suppose one will need in order to operate in the fourth-dimensional world? In order to move the fourth-dimensional world, four elements are required: *Thinking, Faith, Dreaming, and Words*. Our lives will change once we accurately know how these elements work and when we have a proper handle on them. Prayer by itself isn't sufficient. Certainly

The framework of Cho's sermons is the Fivefold Gospel and Threefold Blessing.

The fivefold gospel consists of:
the gospel of Salvation;
the gospel of the Fullness of the Holy Spirit;
the gospel of Divine Healing;
the gospel of Blessing; and
the gospel of the Second Coming.

The threefold blessing is based on 3 John 2 and describes the blessing that Christians receive by the work of Jesus Christ.

“Beloved, I wish above all things that thou mayest prosper and be in health, even as thy soul prospereth.”

It consists of spiritual blessing,
physical blessing and
blessing of circumstances.

In Washington DC, the so-called murder capital of the world there was a big experiment in the summer of 1993 where volunteers came from a hundred countries to collectively meditate for long periods of time throughout the day.

It was predicted in advance that with such a sized group you would have a certain percentage drop in violent crime as defined by the F.B.I. in Washington that summer.

The chief of police went on television saying that “Look. It’s gonna take two feet of snow to reduce crime by that percentage in Washington, DC this summer.”

Based on the results of the study, the steady state gain (long-term effect) associated with a permanent group of 4,000 participants in the Transcendental Meditation and was calculated as a 48% reduction in HRA crimes in the District of Columbia.

A very interesting experiment that teaches us that each one of us have the power to affect our surroundings in a positive way.

Buddha Said To Publish Rev Moon's Story

It is very amazing how this autobiography came to be. It was published by Gimm-Young, which is the equivalent of Random House in the West. Gimm-Young is one of Korea's leading publishers, established in 1979.

The CEO of that company happens to be Madame Park, a devout Buddhist.

She tells how in one of her meditations Buddha appeared to her and asked her to seek out this man named Reverend Moon and to publish a story about this extraordinary man.

Because she had this revelation in her meditation, she reached out to the Unification Church and compelled Rev Moon to write his autobiography in his own words.

That's how it came to be.

It is a phenomenal book in that we get a rare glimpse into a man in the form of different stories.

Astral City: A Spiritual Journey (also known as *Nosso Lar*) is a 2010 Brazilian drama film , based on the book by alleged medium Francisco Cândido Xavier.

The appearance of the Spiritual Seal of Cheon Il Guk that was presented to True Mother during the Foundation Day Ceremony 22 Feb 2013, is consistent with God's Providence from its very foundation.

True Mother, after all, is the living Holy Spirit. True Parents declared that the foundation is completed for the Kingdom of God on earth and in heaven. The seal represents God's ownership of Cheon Il Guk, God's ownership of True Parents, God's ownership of His Word in the Divine Principle and True Parents' words, and God's ownership of those attending the Lord at the Second Advent. /Feb 2013

A powerful witness that there is great new hope on the horizon.

"On Easter I had a spiritual experience that I would like to share with you.

At one point, when I closed my eyes, I saw True Father in front of me.

He was so lively, and beaming with happiness.

He wore a light beige coloured suit, a white shirt and a light coloured tie.

April 2013

He was standing very relaxed, putting his weight more on one hip. Then I saw that True Father was holding hands with Jesus, who was standing to his right. True Father was so blissfully happy.

Jesus was dressed in a white cotton gown, with a red and blue stripe going down from the top to the bottom on each side of his neck.

This is the first Easter that True Father and Jesus are together in the spiritual world.

April 2013

True Father and Jesus were standing on a small hill, with millions of millions of people cheering them on.

I was told three things:

Number 1, that this was a real event taking place, not just my own spiritual experience,

Number 2, that I was there in the function of a witness, and

Number 3, that there will be other witnesses around the world.

OPINION: Why the Change of Blood Lineage is Important to Me

Ali Mahjoub
May 24 2013

I am Ali Mahjoub. I was raised in a humble Muslim family in the desert of Tunisia in North Africa. I grew up as a peasant, farmer and a shepherd. For years, I tilled the land behind a camel and harvested acres of wheat and barley by hand until my hands bled and my back became bent.

Ali Mahjoub

By the grace of God, I was taken out of farming and hard labor and travelled to more than 20 countries, in Europe, the Middle East and Asia, and Russia.

I worked and lived with people of different races, cultures and religions for more than two decades. My political, religious and worldviews became and are well rounded

He brought me to the United States in 1981 and delivered
me to Reverend Sun Myung Moon in the most phenomenal

People often ask, “You look like a nice person, what led you to join Rev. Moon’s controversial church?”

My first answer is, “It wasn’t my own work or someone else’s work that brought me to the church.

It was God and the Holy Spirit that delivered me to Rev. Moon’s church.

In a dream I had, I was told the date I would meet the church, and I met the church exactly on the very date I was told in the dream, it was October the 6, 1981.

I wrote about this dream in great detail in my book, *Honor Thy God*, published in 2010,

Ali Mahjoub

Coincidence is part of the Creation and God's plan.
We just have to be open to see it.

So , coincidences are another language of the spirit,
Similar to that of dream messages and intuition,
coming to tell us something important.

In her book *The Field*, McTaggart discusses scientific discoveries that she says support the theory that the universe is unified by an interactive field. - Compare DP description of Man being a Microcosmos of Spirit World.

"Dr. Eben Alexander's near death experience is the most astounding I have heard in more than four decades of studying this phenomenon... one of the crown jewels of all near death experiences... Dr. Alexander is living proof of an afterlife." ~ Raymond Moody, MD, PhD

Divine Principle states that,

”when spirits descend to form a common base with us they can perform various works...

From pouring spiritual fire on earthly people and healing diseases to guiding people through revelations and the gift of prophecy, the power is in our spirit.

And yet, with a near complete lack of awareness and understanding on our part of the spiritual reality of life after death, we seem to find the path of life so uncertain that these “gifts” of the spirit appear to belong to only the gifted few....

Maddox Family

...A number of years ago, some Civil War letters had been found in a tin can under the stairwell of a home.

After 151 years they reached me by way of an article written online.

It turns out they were the correspondence between Robert's Great Great Great grandfather, private Soldier Hamilton Crain, and his family; the last letters before he died of wounds sustained in battle in 1863.

These letters deeply moved us to recognize Hamilton was a real person, once of flesh and blood and now passed into the spirit realm, where no doubt to us, he still existed as Hamilton Crain. We decided to contact him...

The Spirit World Must Be Known

The reason I told that special team to carry out a research project is because science is now highly advanced. I asked them to do research on the frequency that enables contact with the spirit world.

The motions in the spirit world are all made up of vibrations. I instructed them to research this because we have entered an age where the existence of the spirit world can be scientifically proven.

This can be done by discovering the frequency of vibrations used by spiritualists when they contact the spirit world.

After I gave a full explanation about the spirit world to them, their eyes were wide open with surprise.

That is why, yesterday, I explained in what manner the psychological process is related to the physical and spirit worlds.

It is said that the psyche puts into effect an absolute force. People only know one side of the question of why this is so.

Electricity is created through the interaction between plus and minus.

They don't know that it is the same phenomenon, when force is manifested by the plus and minus within that circle of relationship.

Therefore, if we delve into this area, a world of new dimensions will be found.

When we enter the age where the unknown spirit world can be rationally understood, the age of religion will be brought to an end.

It would be an age where humankind would believe in God even if they were told not to.
This is a great task.

A small test to finish off

Are you Psychic? - A Test of Awareness

Count the number of yes answers.

The following questions should be answered truthfully in order that the degree of psychic sensitivity can be established.

1. Have you ever had a dream which later occurred?
2. Have you ever thought of a friend that you had not seen or heard from for many years, only to have them contact you?
3. Have you ever had a feeling of foreboding before something has happened, either globally, nationally or at a personal level?
4. Do you sometimes know who is ringing you?
5. Have you ever been aware of another person's thoughts?

6. Have you ever held a closed box, or package, and known what was inside?
7. Have you ever made the same statement at the same time as a partner or a close friend?
8. Have you walked into a room and sensed from the atmosphere that an argument had taken place?
9. Have you ever entered the nursery to find your baby needed you and there had been no indication of such need?
10. Have you ever felt the presence of a person behind you before you were aware anyone was there?

11. Have you ever been humming the same song as your partner or close friend?
12. Have you ever picked up emotions and pains from others?
13. Have you ever turned up for a meeting with a friend wearing the same colours on more than one occasion?
14. Have you ever exchanged identical Christmas cards with a friend?
15. Have you ever known the sex of a friend's unborn baby?
16. Have you ever achieved 'over the odds' marks in an ESP Test?

The number of yes shows how psychic we are –
and how common contact with Psychic and Spiritual World is.

Travel in the Spirit World by Kerry Pobanz

Journal of Unification Studies Vol. 15, 2014 - Pages 159-191

Seven examples of this spirit transportation, presented in the writings of Emanuel Swedenborg, Anthony Borgia, Robert Monroe, Betty Eadie, Howard Storm, A. C. Bhaktivedanta Swami Prabhupada, and Sun Myung Moon.

How and why human beings are originally designed to be able to engage in such apparently extraordinary journeying, yielding several major metaphysical perspectives on the phenomenon.

How contemporary biology and physics may offer insights useful in understanding how spiritual transport can be facilitated—for those who still possess a physical body—on the corporeal foundation of the subcellular operations of a person's physical brain.

2014

It seems as though our five senses limit us to focus only on one point in time at any given moment, and we string these to create an illusion of linear reality,

Our physicality also limits our perception of the space around us, confining us to only what our eyes and ears can see and hear or to what we can touch, smell, or taste.

However, without the limitations of my (physical) body, I took in all points of time and space as they pertained to me, all at once.

New publication, by Jennifer Tanabe.

Eternal Life in the Spirit World, which I co-authored with the late Dr. Dietrich Seidel, discusses what we know about the spiritual realm starting with the thoughts of the Greek philosophers, Plato and Aristotle, and their influence on contemporary understanding.

We continue with more recent sources, including Rev. Sun Myung Moon and Dr. Sang Hun Lee, as well as reports from those who had near-death experiences, which all serve to make the spiritual realm seem much more substantial. - [link](#)
