**Tree of Life** – Benny Andersson Sweden

Where is the origin of human love and life?  
Doesn't it lie within God?  
He is the Subject Being with harmonized dual  
characteristics and at the same time is the source of love.

It should be added in the Divine Principle that  
**God is the source of true love.**

It should be clear that nobody but myself can amend  
the Divine Principle. /SMM (224-228, 1991.11.24)

Ramanujan  
1887-1920  
Indian genius  
mathematician

He would receive visions of scrolls of complex mathematical content unfolding before his eyes.

He often said, "An equation for me has no meaning unless it represents a thought of God."

Hardy (English math. professor) cites Ramanujan as remarking that all religions seemed equally true to him.

He Ramanujan, a largely self-taught mathematician, seemed to solve problems instinctively and said his formulas came to him in the form of visions from a Hindu goddess.

Comment: **Revelations from Spirit World**

God is the absolute scientist.

It is the responsibility of human beings to follow the universe and laws that God created.

God alone cannot create absolute value.

Absolute value originates on the premise of there being a partner.

Among the paths of love there is a path where you must go beyond life;

you must remember there is a stage of life beyond death. /SMM February 5, 2008

# 4 Physical Laws

## Thermodynamics

1. THE ZEROETH LAW: The concept of temperature
2. THE FIRST LAW: The conservation of energy
3. THE SECOND LAW: The increase in entropy
4. FREE ENERGY: The availability of work

From Peter Atkins. Four Laws That Drive the Universe

## Spiritual Laws

Why are not spiritual experiments repeatable in similar way physical experiments are?

Because of Fall of Man = spiritual disorder was created, conflict between forces of good and evil

Man is in indirect dominion of Gods Laws – Satans & Gods territory

“Plants, animals, and even human beings all possessed dimensional properties that adhered with eerie exactitude to the ratio of PHI to 1.” (94) Examples he cites include,

# The Four Position Foundation Which Realizes the Three Object Purpose through Origin-Division-Union Action

Origin - Division - Union-Action

The process in which out of God, the Origin, two entities are separately manifested and reunited in oneness is called origin - division - union action (p. 24).

### 3 Disciples praying with Jesus:

As the spiritual children of Jesus, the second Adam, the three disciples represented Cain, Abel and Seth. By showing complete obedience to the restored Adam figure, they would have made a condition for the restoration of both generations of Adam's family, a minimum foundation of substance (*4 –positions*) to enable Jesus to pursue his global mission.

# Swedenborg's Spiral

*by David Dunér*

*microcosmic spiral motion*

It was from a view of geometrys outer forms that **Plato**, and also **Christopher Polhem** and **Swedenborg**, could understand and describe the least parts of reality.

For Polhem, Swedenborgs scientific mentor, the sphere was the perfect figure, and consequently matter consisted of perfect round particles in a vacuum.

Since nothing incomplete can come from an infinitely good and perfect God, it follows of necessity, according to Swedenborg, that the indwelling motion of the point is the most perfect of all motions, a motion that must be described by the most perfect and complete form.

If the perfect form is the circle, this inescapably involves that the most perfect figure of motion in the point is the perpetually-circular motion, that is to say, an eternal and unbroken spiral motion from the center to the periphery and again from the periphery to the center.

*The macrocosmic vortical motion*

When one considers the heavens, Swedenborg writes in *Principia*, the enormous number and magnitude of the stars fill one with wonderheaven is so enriched by such beautiful ornamentation.

Even in the ornamentation of the macrocosm, one finds the spiral to be the most beautiful of figures.

/SMM Blessing and Ideal Family Part 2

What is the central issue in restoration?

In the providence centering on Noah,  
his three sons were important.

In 1960, when Parents' Day was going to be  
established,

it was necessary to establish three families like those of Noah's three sons.

By doing so, it became possible to save the spirits of the people who had  
died during the period from Adam to Noah and to establish the family of  
Jacob on the foundation of this victory.

These three families represent the families of Adam, Noah and Abraham.

They represent the restored Cain-type families.

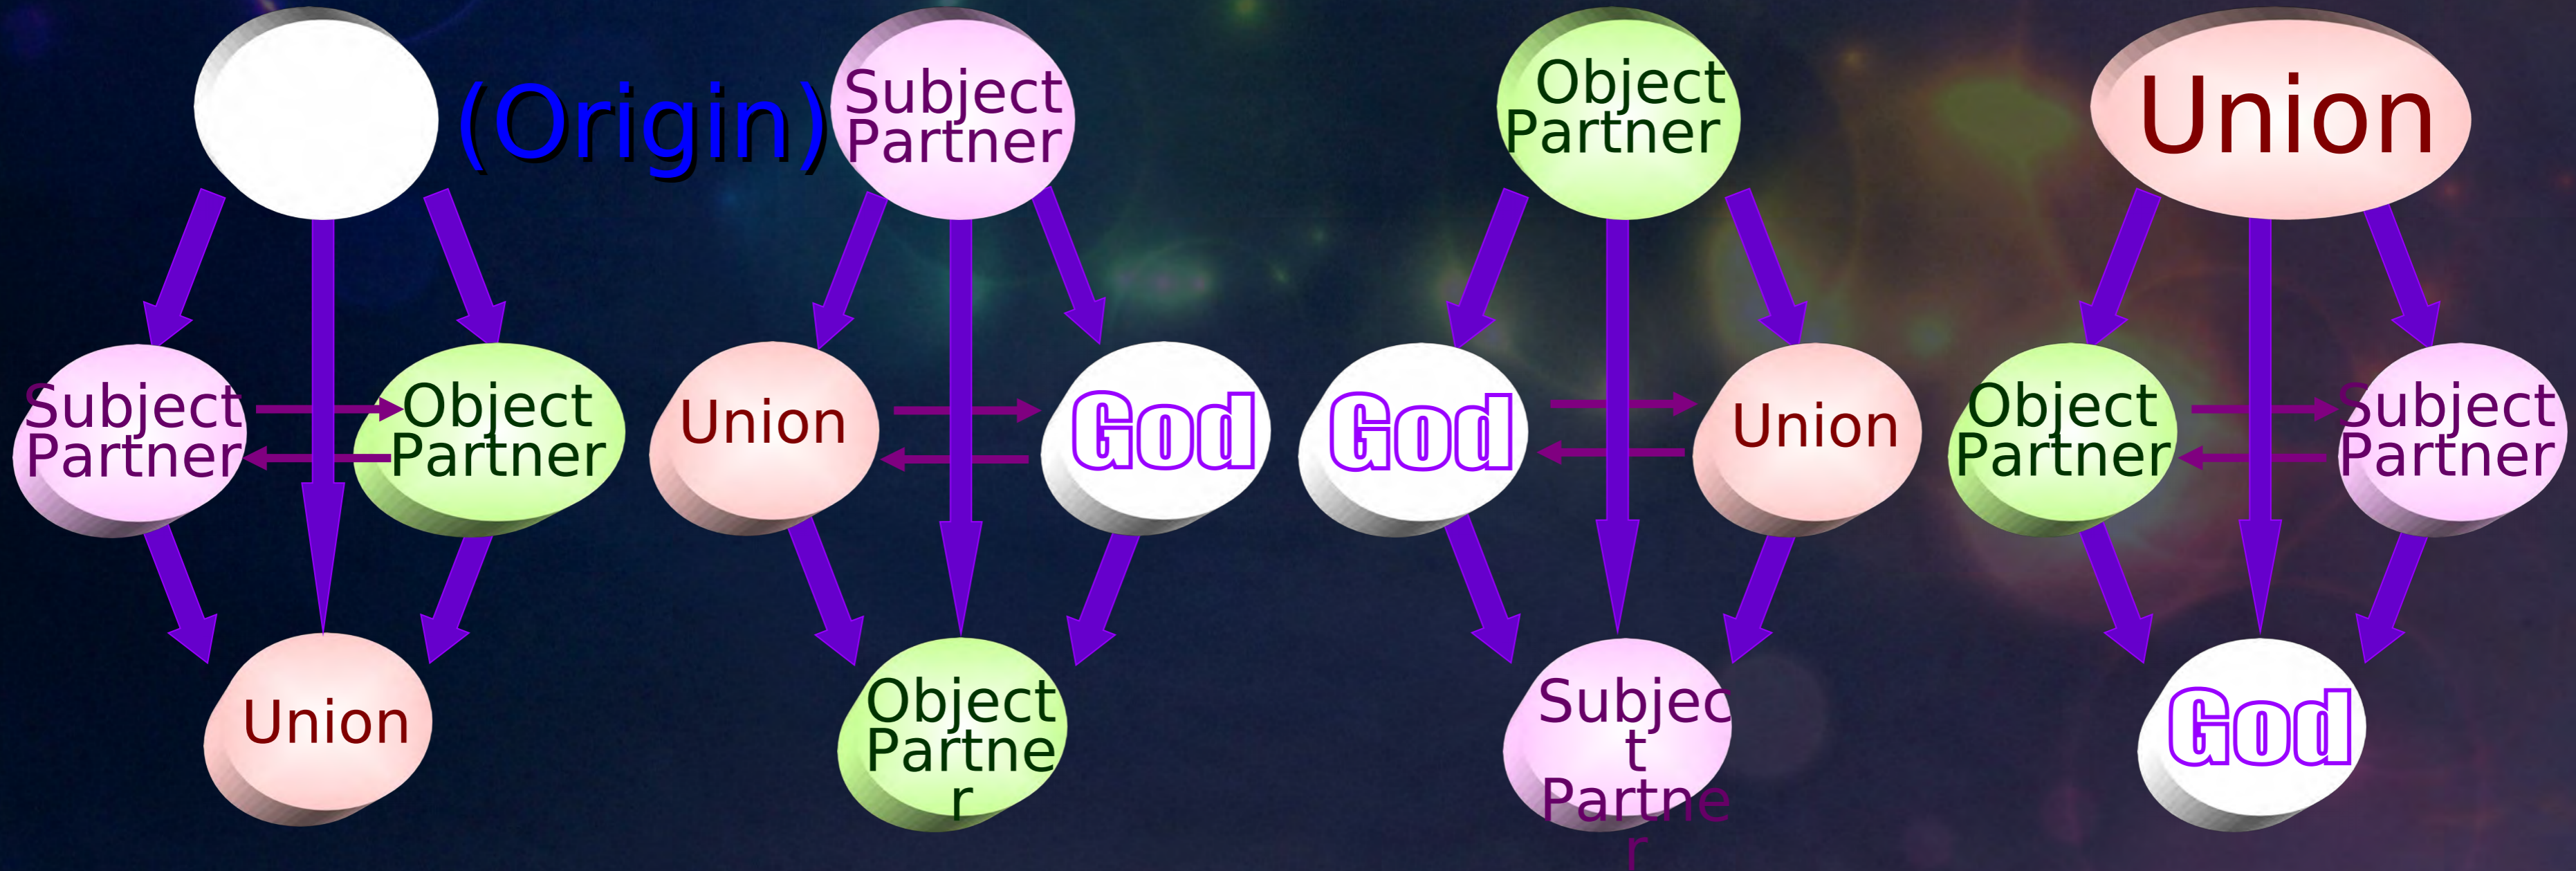

They also represent the Cain-type children in the age of the Second Coming  
and **replace the disciples who had opposed Jesus in Jesus' time.**

Therefore, they must be in the position of restored archangels by attending the Second Coming  
of the Lord. These three families were in the form of having restored the archangel.

**Kleiber's law**, named after Max Kleiber's biological work in the early 1930s, is the observation that, for the vast majority of animals, an animal's metabolic rate scales to the  $3/4$  power of the animal's mass.

In plants, the exponent is close to 1.

## Harmonious Laws of Spirit World

We should realize that the World of Spirit is also a Creation of GOD –  
and God created the Spirit World in his PRINCIPLES  
so this Spirit World is not a mysterious world –  
this is a world of PRINCIPLE.

Therefore, if we discover the PRINCIPLE
