

## Report about activities in Vienna from May 8-20, 2018

### Japanese Cultural Evening

On the 8<sup>th</sup> of May the international youth groups which stayed in Vienna after True Mother's visit (MEYE and Sun Moon University) held a Japanese Cultural event for guests.

They prepared a PPT presentation about Japan. After that they involved everybody actively in the program by making them play Japanese games, and the guests had to help finish a Japanese dish which they could eat afterwards.

Musical presentations by the teams followed, and with dancing in a group the evening program closed.

Many guests participated- around 25, as well as local CARP members and members of the 1<sup>st</sup> generation.
