

## FFWPU Argentina: Rev. Doo Seung Yeon Conveys True Mother's Heart

Esperanza Gomez

March 19, 2026

From March 16 to 19, 2026, Argentina hosted a high-level delegation led by Rev. Doo Seung Yeon, Director General of the World Mission Headquarters. He was accompanied by Rev. Kim Dong Woo (Continental Director of Heavenly Latin America), Rev. Masatate Kajikuri (Director of the Mission Department), Mr. Katsuyoshi Motoyama (Deputy Director of Planning), and Rev. Koichi Sasaki (Vice Continental Director of Heavenly Latin America).

The delegation arrived on March 16 at Aeroparque in Buenos Aires, where they were warmly greeted by the national leadership team and vibrant young representatives of the local community.

### Honoring the Historical Foundation

The following day, the delegation visited significant providential properties, including La Candelaria in Lobos and Vicente Casares in Cañuelas. These visits allowed the leaders to witness firsthand the historical development and the enduring foundation established by True Parents in Argentina, as well as the ongoing efforts of the local membership to maintain these sacred sites.

### Guidance for Leadership and Families

On the third day, a leadership meeting was convened with the national executive committee and heads of various providential areas. Rev. Doo did more than offer administrative guidance; he conveyed the deep, maternal heart of True Mother to the Argentine leaders. His message was one of sincere gratitude for the years of sacrifice and dedication shown by the members. He urged everyone to advance the providence by practicing true love, unity, and mutual care within their families and the broader community.

Later that evening, a general assembly was held for the Argentine community, attended by approximately 120 people. Many participants expressed a profound spiritual connection during the gathering, feeling that Rev. Doo spoke not as an individual, but as a direct representative of True Mother's love. His words brought:

**Comfort and Healing:** Providing a sense of peace to long-time members.

**Renewed Hope:** Inspiring families to embody true love in their daily lives.

**Identity and Pride:** Strengthening their conviction as children of Heavenly Parent and True Parents.

## Conclusion

This visit was much more than an official mission; it was a providential turning point. Through her representative, True Mother's heart reached the people of Argentina, bringing encouragement and a fresh sense of purpose. The Argentine community concludes this visit strengthened in unity and inspired to build Cheon Il Guk with greater sincerity and conviction.
