Friday Open HoonDokHae Discussion The Power of Conscience

Bucharest, Romania, 2. October 2015

The first idea “brought to the table” was that we don’t need to educate our conscience, because it is already there. The downside is that it’s affected by the social environment. The conscience is just like a plant. It is what comes from the outside that sometimes makes it dry out and die. And there’s a similar situation with fallen people that cannot listen to their conscience so easily.

About the second question it was said that not religion but faith has the capacity of reviving people’s conscience and we underlined the idea that all religions share the same conscience, the same fundamentals, the same values just that they gain a certain, specific appearance due to the place or the traditions in which people have developed that belief. And so, from this circumstance problem appear concerning our view and affiliation to a religion.

We are sending our biggest love from Romania – CARP Center in Bucharest, where last Friday, on the 2nd of October 2015 we organized such an interesting and deep discussion about our conscience while hoping that each of the participants could wake up a little bit.

ones around us, is completely up to each of us. This inner voice has been named Conscience and we wanted to discover how we can enable it to be active in our decisions and actions.

We offered to the participants the freedom of sharing their own mind and inspiration but we also tried to guide this small debate through two special questions:

1. How to educate our conscience in order to bring it to a higher level?
2. Is the religion we follow today capable of awakening humanity’s sleeping conscience? Do we have a philosophy that possesses such content?

“What is the direction of the conscience, and what is its ultimate purpose? It has to be love— true, unchanging love. Our conscience always gives us helpful words of advice, trying to connect us to true love.” And to conclude I would like to say that the philosophy we need in order to make a change is already inside of ourselves and it’s the love that we can give. The conscience is a gleam of the divine within, prompting us to do good deeds and opposing our inclination to do wrong. The conscience always acts to push us to a higher level, saying, “Become better!”

More than two hundred years ago, one of the greatest philosophers of all time, Immanuel Kant, was saying: „Two things fill my soul with always renewed and growing admiration and respect, the more I think about them: the starry sky above me and the moral law within me.” In today’s society, even if there is an official law as much as a moral, unwritten one, the decision to respond to evil with goodness and to respect the

Another perspective said that the conscience is God-given, enabling us to improve and ultimately realize our full purpose as God intended. It must constantly struggle, however, against the self-centered desires of the body. It is possible to speak of a corrupted conscience, because upbringing and education can affect its judgment. To indoctrinate the conscience with false judgments of right and wrong is indeed of the worst defilements of the human spirit.

The second person that shared their team's main ideas stated that we have an emotional conscience and a logical – rational conscience that dictate what we should do at certain times in our lives. Secondly, concerning religion it was said that there is too much manipulation and doctrine, which make religion lose its essence. This is not an issue concerning only the Christian church but it's everywhere, making us lose the meaning of spirituality.

We believe that this meeting was very significant and that it can be a good topic even for future HoonDokHae sessions. We hope that this kind of event can break boundaries and self-made limitations and that it can open a door towards the true heart of man.

With prayerful hearts and gratitude,
Romania CARP brothers and sisters.

The Best Love Song! –Time to think about future family

Bucharest, Romania, 29. September 2015

Greetings from Romania!
We are so happy to offer this report in front of Heavenly Parent and True Parents. We organized Purity Education Event. The purpose of this program was share the message about 'Absolute Sex' for all kind of people. Specially 'How important prepare for future family', 'Importance of Sexual Purity' and 'What is the difference between True Love and False Love'.

This program started with introducing each other in joyful atmosphere. In this time we shared 'What is Love?' for each of us and we could understand how people think about Love. Some of them shared 'Love is emotional fact that we can't explain with word,' and some of them shared 'Love is action, sacrifice.' So we started presentation in order to discover what is the true meaning of love.

First the lecturer asked what kind of love we want. And we could understand we all want absolute love not changeable love, eternal love not instant love. So we all agreed that our original heart wish to have True Love for the future relationship, marriage and family. But in our society there is many kind of influence from movies, stories and songs. So after presentation we chose two songs to change the lyrics and make it most beautiful Love song.

We chose 'Bad Romance from Radey GaGa' and 'Call me maybe from Carly Rae Jepsen' because these songs has lyrics that talks about opposite kind of love from love what we want. So we made 3 team to make them as new song. All the team made it very beautiful song. And in the end we had concert with this song. All the participants were so happy to work with songs and sing with new lyrics. We believe that we could make the best love song!

The conclusion was the most important preparation is 'Sexual Purity' and focus to develop ourselves. We wish this program bring new wind of True Love for Romania young people and help them to create ideal family in the future.

Thank you so much Heavenly Parent and True Parents.
