

Romania CARP Holds One-Day Divine Principle Seminar

Bong Moon Jeong - March 2, 2019

Romania CARP organized a one-day Divine Principle workshop at the Peace Center in Bucharest on March 2. Five young Romanians attended the workshop, in addition to STF brothers and sisters. All the participants had listened to the Introduction to Divine Principle before attending this workshop, and they came with curiosity to find out more.

The Divine Principle lectures were Principle of Creation Sections 1, 2, and 3, The Human Fall—Root of Sin and Introduction to the Principle of Restoration. After each lecture we discussed the contents by pairs. All the participants could say what they understood from the lectures and express their opinions freely.

The lecturer encouraged the participants to ask questions in order for them to understand better. We believe this is very important, because we all experience God's Love and Principle in our daily life, but if we don't know what Principle is, we cannot recognize it.

After the lectures we had lunch, which was prepared by one of our CARP members. Throughout lunchtime we could speak more freely about our lives, so that we could create deeper relationships. After lunch we played team games. We had an exciting and joyful time centered on Heavenly Parent and True Parents.

We all came from different countries, different cultures and different parents. But when we realize our Parents are one, Heavenly Parent and True Parents, we can be brothers and sisters very quickly. This relationship is very important for Romanian young people.

We will continue to study Divine Principle with our new brothers and sisters in order to support them to better understand God's Principle and Love. Through this we wish we will grow also in order to understand Heavenly Parent's heart much more deeply.
